

## FINANCIAL TEAR SHEET

### Corporate Profile

For thirty five years, Axcelis Technologies has delivered vital equipment, services and process expertise to the semiconductor manufacturing industry, helping customers reach higher levels of productivity with each new technology generation.

Today, chipmakers from around the globe rely on our tools and technology insights to produce the transistors that power all electronics - from desktops and servers to cell phones, cameras, personal music players and more. Our equipment portfolio comprises a powerful suite of manufacturing technologies for ion implantation - one of the most critical and enabling steps in the IC manufacturing process. In addition, we provide extensive aftermarket service and support, including spare parts, equipment upgrades, maintenance services and customer training. Our customers include all of the 20 largest semiconductor manufacturers in the world. More than 3,000 of our products are in use worldwide.

At our Advanced Technology Center in Beverly, Mass., we collaborate with customers and other industry experts to develop next-generation applications and process capabilities. We manufacture our equipment at one central location in the United States, and support our customers with a worldwide network of 32 field offices in 32 countries.

In all that we do, our strategy is singular: align every Axcelis innovation and success with our customers' goals. We strive to understand the entirety of their challenges and stand ready to deliver the technology, service and support they need to succeed.
