## PROSPECTUS SUMMARY

This summary does not contain all of the information that you should consider before investing in our common stock. You should read the entire prospectus carefully, especially "Risk Factors" beginning on page 9.

## AXCELIS

We are a leading producer of ion implantation equipment used in the fabrication of semiconductors and, together with our Japanese joint venture, were ranked number one in sales in the world in this category for 1999 by Dataquest Inc. The ion implantation process provides a means for introducing charged ions into the surface of a silicon wafer in order to form the active components of a semiconductor. We also produce dry strip, photostabilization and rapid thermal processing equipment, which is used in semiconductor manufacturing primarily before and after the ion implantation process. In addition, we provide extensive aftermarket service and support, including spare parts, equipment upgrades, maintenance services and customer training. We are a 50-50 joint venture partner in Japan with Sumitomo Heavy Industries, Ltd. This joint venture, which is known as Sumitomo Eaton Nova Corporation, or SEN, licenses our technology and is the leading producer of ion implantation equipment in Japan.

Our customers are located in North America, Europe and Asia Pacific. We and SEN serve all of the 20 largest semiconductor manufacturers in the world. We believe that more than 3,200 of our products, including products shipped by SEN, are in use worldwide. We manufacture our equipment at three locations in the United States, and we support customers in 19 countries through 49 support locations in nine countries. SEN manufactures equipment at its Toyo, Japan facility.

We have been at the forefront of technological innovation in the ion implant sector. We believe that we developed the first high current ion implantation system in the late 1970s and the first high energy ion implantation system in the 1980s. In 1999, we installed what we believe is the first 300 millimeter high energy ion implantation system, which we believe will be the next generation of ion implant products. In addition, we pioneered the development of photostabilization in 1983, and we believe that we have developed the only 300 millimeter production photostabilizer in the industry.

The semiconductor industry is continuing to experience growth in demand for semiconductors, or chips, for use in personal computers, telecommunication equipment, digital consumer electronics, wireless communication products and other applications. According to World Semiconductor Trade Statistics, an industry trade association, worldwide sales of semiconductors were \$149 billion in 1999. While the semiconductor industry has been highly cyclical, the semiconductor market, as measured by total sales, grew at an average annual compound rate of 12% in the period from 1989 through 1999. World Semiconductor Trade Statistics projects continued growth at higher rates for the next two years. Sales of high energy ion implanters, our largest product line, have grown substantially faster than semiconductor sales over this period.

The increasing demand for semiconductors has required manufacturers to increase chip production. Manufacturers have primarily increased production through efficiency improvements, the addition of manufacturing equipment in existing fabrication facilities and the construction of new fabrication facilities. Efficiency improvements have been derived largely from increased equipment utilization and higher manufacturing yields. In recent years, however, the ability to make significant efficiency gains has diminished. For that reason, as market conditions have improved since early 1999, semiconductor manufacturers have been meeting the increased demand for chips mostly by building new fabrication facilities and by making additional equipment purchases to expand existing fabrication facilities.

Our objective is to enhance our position as a leading producer of ion implantation equipment and to offer on an integrated basis a broad array of products and services used primarily in the

front-end of the chip fabrication process. Key elements of our strategy to achieve our objective include:

- increase ion implantation market penetration;
- maintain strong commitment to research and development;
- capitalize on broad product lines to provide an integrated range of front-end equipment;
- provide lowest cost of ownership;
- provide superior customer service; and
- reduce cycle times in our businesses.

#### OUR RELATIONSHIP WITH EATON CORPORATION

We are currently a wholly owned subsidiary of Eaton Corporation. On April 26, 2000, Eaton announced its plan to reorganize its semiconductor equipment operations into an independent, publicly held company. Prior to the completion of this offering, Eaton will substantially complete the transfer to us of all of the assets of its semiconductor equipment operations that are not currently owned by us, and we will assume the related liabilities. In connection with the reorganization, we changed our name from Eaton Semiconductor Equipment Inc. to Axcelis Technologies, Inc. After completion of this offering, Eaton will own approximately 83.8% of our outstanding common stock, or 81.8% if the underwriters fully exercise their option to purchase additional shares.

Eaton currently plans to consummate the divestiture of our common stock to its shareholders approximately six months following the completion of this offering by distributing all of its shares of our common stock in a tax-free transaction to Eaton shareholders. Eaton may accomplish this divestiture through a split-off, a spin-off or some combination of both transactions. Eaton will, in its sole discretion, determine the timing, structure and terms of the divestiture of the remaining shares of our common stock that it owns. The planned divestiture by Eaton is subject to receiving a private letter ruling from the Internal Revenue Service that the divestiture will be tax-free to Eaton and its shareholders and that Eaton's contribution of assets to us in connection with our separation from Eaton will qualify as a tax-free reorganization for U.S. federal income tax purposes. Eaton recently filed the private letter ruling request. Eaton is not, however, obligated to complete the divestiture, and we cannot assure you whether or when it will occur.

On May 3, 2000, our Board of Directors declared a dividend of \$300 million payable to Eaton. We have the option of paying this dividend in either cash or notes or in a combination thereof. Any notes issued would bear interest and would have a maturity not to exceed two years. We presently expect to pay all of this dividend in cash out of the net proceeds of this offering.

We will enter into agreements with Eaton providing for the substantial completion of the reorganization of Eaton's semiconductor equipment operations and the separation of our business operations from Eaton prior to the completion of this offering. These agreements will provide for, among other things:

- the transfer from Eaton to us of assets and the assumption by us of liabilities relating to our business, and
- various interim relationships with Eaton.

The agreements regarding the separation of our business operations from Eaton are described more fully in the section entitled "Arrangements With Eaton" included elsewhere in this prospectus. The terms of these agreements, which are made in the context of a parent-subsidary relationship, may be more or less favorable to us than if they had been negotiated with unaffiliated third parties. See "Risk Factors -- Risks Related to our Separation from Eaton". Our assets and liabilities are described more fully in our combined financial statements and notes to those statements that are included elsewhere in this prospectus.

Unless we specifically state otherwise, the information in this prospectus gives effect to a stock split increasing the number of shares of our common stock owned by Eaton from 100 to 80,000,000 effected in the form of a stock dividend that will be payable prior to the completion of this offering and does not take into account the issuance of up to 2,325,000 shares of common stock that the underwriters have the option to purchase. If the underwriters exercise in full their option to purchase additional shares, 97,825,000 shares of common stock will be outstanding immediately after this offering.

The information above does not take into account 21,000,000 shares of our common stock reserved for issuance under our stock plans, of which options to purchase approximately 5,400,000 shares are expected to be granted at the date of this offering at an exercise price equal to the initial public offering price. In addition, we may assume substantially all of the Eaton stock options held by our employees on the date Eaton completes its divestiture of our company. If the divestiture had been completed on June 12, 2000, these options to purchase Eaton common shares would have converted into options to purchase 2,088,149 shares of our common stock on that date, based on an assumed initial public offering price of \$21.00 per share and the closing price of \$74 5/16 per Eaton common share on June 12, 2000.

Our principal executive offices are located at 55 Cherry Hill Drive, Beverly, Massachusetts 01915, and our telephone number is (978) 232-4000. We were incorporated under the laws of the State of Delaware in 1995. Our website is located at <http://www.axcelis.com>. The information on our website is not a part of this prospectus.

In this prospectus, unless the context otherwise requires, "Eaton" refers to Eaton Corporation and its subsidiaries other than us, "Fusion" refers to Fusion Systems Corporation, a wholly owned subsidiary of our company, which was acquired in 1997, "Sumitomo" refers to Sumitomo Heavy Industries Ltd. and its subsidiaries and "SEN" refers to Sumitomo Eaton Nova Corporation, our joint venture with Sumitomo.

Subject to certain limitations, Eaton has authorized us to use "Eaton" as a trademark. -----  
 NOTES:

- (1) On August 4, 1997, we acquired Fusion, a developer and manufacturer of dry strip and photostabilization systems for use in the semiconductor manufacturing process. The acquisition was accounted for under the purchase method of accounting and, accordingly, our combined financial statements include Fusion's results of operations beginning August 4, 1997. Net income in 1997 was reduced by an \$85.0 million write-off of purchased in-process research and development related to the acquisition of Fusion, with no income tax benefit.
- (2) Net loss in 1998 reflects a restructuring charge of \$42.4 million (\$27.5 million aftertax) of which \$17.4 million related to inventory writedowns and reduced gross profit and \$25.0 million related to workforce reductions and other restructuring actions and was recorded in operating expenses.
- (3) Pro forma basic and diluted net income per share amounts are calculated based on 80,000,000 shares of our common stock outstanding that are owned by Eaton prior to this offering, plus an additional 15,402,388 shares of common stock issued in the offering, the proceeds of which will be used to pay the previously declared \$300 million dividend to Eaton. The number of additional shares is calculated by dividing \$300 million by the assumed initial public offering price of \$21.00 per share, reduced by the estimated per share offering expenses.
- (4) Pro forma as adjusted amounts give effect to the following actions as though these actions had been taken as of March 31, 2000:
- our sale of 15,500,000 shares of common stock in this offering at an assumed initial public offering price of \$21.00 per share, resulting in net proceeds of \$302.0 million after deducting an assumed underwriting discount and estimated offering expenses payable by us;
  - our payment of a previously declared dividend to Eaton of \$300 million;
  - our receipt of net proceeds of \$11.0 million from the sale of our Austin, Texas facility on May 18, 2000; this facility was closed in the first quarter of 1999;
  - our payment of \$1.0 million to settle the March 31, 2000 payable to Eaton as a result of Eaton's management of substantially all of our cash receipts and disbursements in the United States since December 31, 1999;
  - our receipt of \$3.7 million to settle the balance of the March 31, 2000 "Receivables from Eaton Corporation", net of the portion of these receivables to be retained by Eaton;
  - the net transfer of approximately \$7.9 million of cash from Eaton to us in connection with Eaton's transfer of assets to us; and
  - Eaton's retention of \$1.5 million of our \$2.8 million of cash and short-term investments at March 31, 2000.
- See "Management's Discussion and Analysis -- Liquidity and Capital Resources".
- (5) During the second quarter of 2000, we estimate that Eaton's management of substantially all of our cash receipts and disbursements in the United States will result in additional cash due us of \$30.1 million.

## RISK FACTORS

Investing in our common stock involves a high degree of risk and uncertainty. You should carefully consider the risks and uncertainties described below before purchasing our common stock. If any of the following risks actually occur, our business, financial condition or results of operations could be harmed. In that case, the trading price of our common stock could decline, and you could lose all or part of your investment.

## RISKS RELATING TO OUR BUSINESS

DOWNTURNS IN THE SEMICONDUCTOR INDUSTRY HAVE HAD IN THE PAST, AND MAY HAVE IN THE FUTURE, A SEVERE ADVERSE EFFECT ON OUR SALES AND PROFITABILITY.

Our business depends in significant part upon capital expenditures by semiconductor manufacturers, especially manufacturers that are opening new or expanding existing fabrication facilities. The level of capital expenditures by these manufacturers depends upon the current and anticipated market demand for semiconductors and the products utilizing them, the available manufacturing capacity in manufacturers' fabrication facilities, and the ability of manufacturers to increase productivity in existing facilities without incurring additional capital expenditures.

The semiconductor industry is highly cyclical and has experienced periodic downturns that have had a severe adverse impact on the semiconductor industry and on suppliers to the semiconductor industry, including us. The semiconductor industry has in the past experienced, and will likely experience in the future, periods of oversupply that result in significantly reduced demand for capital equipment, including our systems. When these periods occur, we will be adversely affected. For instance, semiconductor equipment manufacturers were affected by a severe downturn in the semiconductor industry in 1998, during which our net sales declined by \$194.3 million, or 42.2%, from the prior year.

We anticipate that a significant portion of our new orders will depend upon demand from semiconductor manufacturers who build or expand fabrication facilities. If existing fabrication facilities are not expanded or new facilities are not built as rapidly as anticipated, demand for our systems may decline, and we may be unable to generate significant new orders for our systems, which would adversely affect our sales levels. In addition, the continued requirements for investments in engineering, research and development and marketing necessary to develop new products and to maintain extensive customer service and support capabilities limit our ability to reduce expenses during downturns in proportion to declining sales. Any future downturns or slowdowns in the semiconductor industry may cause the price of our common stock to decline.

IF WE FAIL TO DEVELOP AND INTRODUCE NEW OR ENHANCED PRODUCTS AND SERVICES FOR SEMICONDUCTOR MANUFACTURERS, WE WILL NOT BE ABLE TO COMPETE EFFECTIVELY.

Rapid technological changes in semiconductor manufacturing processes require the semiconductor equipment industry to respond quickly to changing customer requirements. We believe that our future success will depend in part upon our ability to develop, manufacture and successfully introduce new systems and product lines with improved capabilities and to continue to enhance existing products, including products that process 300 millimeter wafers. Our ability to successfully develop, introduce and sell new and enhanced systems depends upon a variety of factors, including new product selection, timely and efficient completion of product design and development, timely and efficient implementation of manufacturing and assembly processes, product performance in the field and effective sales and marketing. We cannot assure you that we will be successful in selecting, developing, manufacturing and marketing new products or in enhancing our existing products.

Due to the risks inherent in transitioning to new products, we will need to accurately forecast demand for new products while managing the transition from older products. Our inability to develop or meet the technical specifications of any of our new systems or enhancements to our existing systems or to manufacture and ship these systems or enhancements in volume in a timely manner could materially and adversely affect us.

If new products have reliability or quality problems, we may experience reduced orders, higher manufacturing costs, delays in acceptance and payment, and additional service and warranty expense. In the past, we have experienced some delays as well as reliability and quality problems in connection with new product introductions, resulting in some of these consequences.

We cannot assure you that we will successfully develop and manufacture new products or that our new products will be accepted in the marketplace. A failure to successfully introduce new products will have a material adverse effect on us.

We expect to continue to make significant investments in research and development. Future technologies, processes or product developments may render our current product offerings obsolete or we may not be able to develop and introduce new products or enhancements to existing products that satisfy customer needs in a timely manner or achieve market acceptance. The failure to do so could adversely affect us. If we are not successful in marketing and selling advanced processes or equipment to customers with whom we have formed long-term relationships, sales of our products to those customers could be adversely affected.

IF WE FAIL TO COMPETE SUCCESSFULLY IN THE HIGHLY COMPETITIVE SEMICONDUCTOR EQUIPMENT INDUSTRY, OUR SALES AND PROFITABILITY WILL DECLINE.

The market for semiconductor manufacturing equipment is highly competitive. We believe that, to remain competitive, we will require significant financial resources in order to offer a broad range of products, to maintain customer service and support centers worldwide and to invest in product and process research and development.

In the ion implantation market, we compete with a relatively small number of competitors. An acquisition of, or by, one of our competitors in the ion implant sector may result in a substantially strengthened competitor with greater financial, engineering, manufacturing, marketing and customer service and support resources than we have. Competitors with substantially greater financial resources than we may be better positioned to successfully compete in the industry. In addition, there are smaller, emerging semiconductor equipment companies that provide innovative systems with technology that may have performance advantages over our systems.

Competitors are expected to continue to improve the design and performance of their existing products and processes and to introduce new products and processes with improved price and performance characteristics. If competitors enter into strategic relationships with leading semiconductor manufacturers covering products similar to those sold or being developed by us, our ability to sell products to those manufacturers may be adversely affected. We cannot assure you that we will be able to compete successfully with our existing competitors or with new competitors.

WE HAVE BEEN DEPENDENT ON SALES TO A LIMITED NUMBER OF LARGE CUSTOMERS; THE LOSS OF ANY OF THESE CUSTOMERS OR ANY REDUCTION IN ORDERS FROM SUCH CUSTOMERS COULD MATERIALLY AFFECT OUR SALES.

Historically, we have sold a significant proportion of our products and services to a limited number of fabricators of semiconductor products. For example, in 1999, three of our customers, STMicroelectronics N.V., Motorola, Inc. and Texas Instruments Incorporated, accounted for 37.0% of our net sales, and our ten largest customers accounted for 59.1%. None of our customers has entered into a long-term agreement requiring it to purchase our products.  
Product

sales to certain of our customers may decrease in the near future as those customers complete current purchasing requirements for new or expanded fabrication facilities. Although the composition of the group comprising our largest customers has varied from year to year, the loss of a significant customer or any reduction or delays in orders from any significant customer, including reductions or delays due to customer departures from recent buying patterns, or market, economic or competitive conditions in the semiconductor industry, could adversely affect us. The ongoing consolidation of semiconductor manufacturers may increase the adverse effect of losing a significant customer.

OUR QUARTERLY FINANCIAL RESULTS MAY FLUCTUATE SIGNIFICANTLY AND MAY FALL SHORT OF ANTICIPATED LEVELS, WHICH COULD CAUSE OUR STOCK PRICE TO DECLINE.

We derive most of our revenues from the sale of a relatively small number of expensive products to a small number of customers. The list prices on these products range from \$150,000 to over \$4.0 million. At our current sales level, each sale, or failure to make a sale, could have a material effect on us in a particular quarter. Our lengthy sales cycle, coupled with customers' competing capital budget considerations, make the timing of customer orders uneven and difficult to predict. In addition, our backlog at the beginning of a quarter typically does not include all orders required to achieve our sales objectives for that quarter and is not a reliable indicator of our future sales. As a result, our net sales and operating results for a quarter depend on our shipping orders as scheduled during that quarter as well as obtaining new orders for products to be shipped in that same quarter. Any delay in scheduled shipments or in shipments from new orders could materially and adversely affect us, which could cause our stock price to decline significantly.

Other factors that could affect quarterly revenue and operating results include:

- market acceptance of our products and the products of our customers;
- cyclicity in the businesses of significant customers;
- timing of the announcement and introduction of new products by us and by our competitors;
- sudden changes in component prices or availability;
- changes in product mix;
- changes in the geographic mix of sales;
- increased fixed expenses per unit due to reductions in the number of products manufactured;
- manufacturing inefficiencies caused by uneven or unpredictable order patterns, which could reduce our gross margins; and
- higher fixed costs due to increased levels of research and development and expansion of our worldwide sales and marketing organization.

Due to the foregoing factors, we believe that period-to-period comparisons of our operating results should not be relied upon as an indicator of our future performance.

WE ARE DEPENDENT UPON OUR JAPANESE JOINT VENTURE AND SUMITOMO FOR ACCESS TO THE JAPANESE SEMICONDUCTOR EQUIPMENT MARKET.

In 1982, we established our SEN joint venture with Sumitomo to provide us with additional manufacturing capacity for our ion implantation products and local access to the Japanese semiconductor equipment market. Under our arrangements with Sumitomo, our ion implantation products may be sold in Japan only through the joint venture. We receive our 50% proportionate

share of the equity income or loss from SEN. As part of the joint venture arrangement, we have entered into a separate license agreement with SEN, last renewed in 1996, under which SEN is entitled to use our ion implantation technology in sales of ion implanters to semiconductor manufacturers in Japan. We receive substantial income from this license agreement. The license agreement expires on December 31, 2004 and is automatically renewable for successive five-year periods unless either party has provided one year's prior notice of termination. A substantial decline in SEN's sales and income from operations could have a material adverse effect on our net income.

We also have an arrangement with Sumitomo, outside the SEN joint venture, under which it is the exclusive distributor of our dry strip, photostabilization and rapid thermal processing products to semiconductor manufacturers in Japan. This distribution arrangement expires in 2002 and thereafter is renewable from year to year unless either party has given the other party six months prior written notice.

WE ARE SUBSTANTIALLY DEPENDENT UPON SALES OF OUR PRODUCTS AND SERVICES TO CUSTOMERS OUTSIDE THE UNITED STATES.

Sales of our products and services to customers outside the United States, including exports from our U.S. facilities, accounted for approximately 55.4%, 49.4% and 53.5% of our net sales in 1997, 1998 and 1999, respectively. We anticipate that international sales will continue to account for a significant portion of our net sales. Because of our dependence upon international sales, we are subject to a number of factors, including:

- unexpected changes in laws or regulations resulting in more burdensome governmental controls, tariffs, restrictions, embargoes or export license requirements;
- difficulties in obtaining required export licenses;
- volatility in currency exchange rates;
- political and economic instability, particularly in Asia;
- difficulties in accounts receivable collections;
- extended payment terms beyond those customarily offered in the United States;
- difficulties in managing distributors or representatives outside the United States;
- difficulties in staffing and managing foreign subsidiary operations; and
- potentially adverse tax consequences.

Substantially all of our sales to date have been denominated in U.S. dollars. Our products become less price competitive in countries with currencies that are declining in value in comparison to the dollar. This could cause us to lose sales or force us to lower our prices, which would reduce our gross margins. If it becomes necessary for us to make sales denominated in foreign currencies, we will become more exposed to the risk of currency fluctuations. Our equity income and royalty income from SEN are denominated in Japanese yen.

WE MAY NOT BE ABLE TO MAINTAIN AND EXPAND OUR BUSINESS IF WE ARE NOT ABLE TO RETAIN, HIRE AND INTEGRATE ADDITIONAL QUALIFIED PERSONNEL.

Our business depends on our ability to attract and retain qualified, experienced employees. There is substantial competition for experienced engineering, technical, financial, sales and marketing personnel in our industry. In particular, we must attract and retain highly skilled design and process engineers. Competition for such personnel is intense, particularly in the areas where we are based, including the Boston metropolitan area and the Rockville, Maryland area, as well as in Taiwan and Singapore. If we are unable to retain our existing key personnel, or attract and

retain additional qualified personnel, we may from time to time experience inadequate levels of staffing to develop, manufacture and market our products and perform services for our customers. As a result, our growth could be limited due to our lack of capacity to develop and market our products to our customers, or we could fail to meet our delivery commitments or experience deterioration in service levels or decreased customer satisfaction, all of which could adversely affect us and cause the value of our common stock to decline.

OUR DEPENDENCE UPON A LIMITED NUMBER OF SUPPLIERS FOR MANY COMPONENTS AND SUB-ASSEMBLIES COULD RESULT IN INCREASED COSTS OR DELAYS IN MANUFACTURE AND SALES OF OUR PRODUCTS.

We rely to a substantial extent on outside vendors to manufacture many of the components and subassemblies of our products. We obtain many of these components and subassemblies from either a sole source or a limited group of suppliers. Because of our reliance on outside vendors generally, and on a limited group of suppliers in particular, we may be unable to obtain an adequate supply of required components on a timely basis, on price and other terms acceptable to us, or at all. For example, we recently incurred additional costs to obtain an adequate supply of certain electrical components on a timely basis from a sole supplier due to increased demand for that supplier's products.

In addition, we often quote prices to our customers and accept customer orders for our products prior to purchasing components and subassemblies from our suppliers. If our suppliers increase the cost of components or subassemblies, we may not have alternative sources of supply and may not be able to raise the price of our products to cover all or part of the increased cost of components.

The manufacture of some of these components and subassemblies is an extremely complex process and requires long lead times. As a result, we have in the past and may in the future experience delays or shortages. If we are unable to obtain adequate and timely deliveries of our required components or subassemblies, we may have to seek alternative sources of supply or manufacture these components internally. This could delay our ability to manufacture or to ship our systems on a timely basis, causing us to lose sales, incur additional costs, delay new product introductions and suffer harm to our reputation.

WE MAY INCUR COSTLY LITIGATION TO PROTECT OUR PROPRIETARY TECHNOLOGY, AND IF UNSUCCESSFUL, WE MAY LOSE A VALUABLE ASSET OR EXPERIENCE REDUCED MARKET SHARE.

We rely on a combination of patents, copyrights, trademark and trade secret laws, non-disclosure agreements and other intellectual property protection methods to protect our proprietary technology. Despite our efforts to protect our intellectual property, our competitors may be able to legitimately ascertain the non-patented proprietary technology embedded in our systems. If this occurs, we may not be able to prevent their use of this technology. Our means of protecting our proprietary rights may not be adequate and our patents may not be sufficiently broad to prevent others from using technology that is similar to or the same as our technology. In addition, patents issued to us have been, or might be challenged, and might be invalidated or circumvented and any rights granted under our patents may not provide adequate protection to us. Our competitors may independently develop similar technology, duplicate features of our products or design around patents that may be issued to us. As a result of these threats to our proprietary technology, we may have to resort to costly litigation to enforce or defend our intellectual property rights. For example, on February 3, 2000, we filed suit in California Superior Court against Advanced Ion Beam Technology and Jiong Chen, a principal of that company, alleging misappropriation of trade secrets, unfair competition, common law misappropriation and breach of contract. Mr. Chen worked for us as a principal scientist from 1994 until January 1999. During that period, he worked with proprietary ion beam technology, which we believe he later used in violation of an employee confidentiality agreement. A further example is that we are

presently defending a reexamination before the United States Patent and Trademark Office of an important patent, expiring in 2005, which relates to ion implantation equipment having a significant market share.

WE MIGHT FACE INTELLECTUAL PROPERTY INFRINGEMENT CLAIMS OR PATENT DISPUTES THAT MAY BE COSTLY TO RESOLVE AND, IF RESOLVED AGAINST US, COULD BE VERY COSTLY TO US AND PREVENT US FROM MAKING AND SELLING OUR SYSTEMS.

From time to time, claims and proceedings have been or may be asserted against us relative to patent validity or infringement matters. Our involvement in any patent dispute or other intellectual property dispute or action to protect trade secrets, even if the claims are without merit, could be very expensive to defend and could divert the attention of our management. Adverse determinations in any litigation could subject us to significant liabilities to third parties, require us to seek costly licenses from third parties and prevent us from manufacturing and selling our systems. Any of these situations could have a material adverse effect on us and cause the value of our common stock to decline.

#### RISKS RELATED TO OUR SEPARATION FROM EATON

WE CURRENTLY USE EATON'S OPERATIONAL AND ADMINISTRATIVE INFRASTRUCTURE, AND OUR ABILITY TO SATISFY OUR CUSTOMERS AND OPERATE OUR BUSINESS WILL BE ADVERSELY AFFECTED IF WE DO NOT DEVELOP OUR OWN INFRASTRUCTURE QUICKLY AND COST-EFFECTIVELY.

We currently use Eaton's services and systems to support our operations, including services and systems associated with voice and data transmission and other data-related operations, accounts receivable, accounts payable, fixed assets, payroll, general accounting, financial accounting consolidation, cash management, human resources, tax, legal and real estate. Certain of these systems are proprietary to Eaton and are very complex. Some of these services and systems are being modified to enable us to separately monitor, process, support and record information important to our business. These modifications, however, may result in unexpected system failures or the loss or corruption of data.

We are in the process of creating or acquiring our own processes, services and systems to replace some of the services and systems provided to us by Eaton. We may be delayed, or we may not be successful, in implementing these systems and transitioning from Eaton's systems to ours.

Any failure or significant downtime in Eaton's or our own information systems could prevent us from taking customer orders, shipping products or billing customers and could harm our business. In addition, Eaton's and our information systems require the services of employees with extensive knowledge of these information systems and the business environment in which we operate. In order to successfully implement and operate our systems, we must be able to attract and retain a significant number of highly skilled employees.

IF EATON DOES NOT CONSUMMATE ITS DIVESTITURE OF OUR COMPANY, WE WILL NOT BE ABLE TO OPERATE OUR BUSINESS WITHOUT EATON'S CONTROL AND OUR STOCK PRICE MAY DECLINE.

Eaton currently intends to consummate its divestiture of our company approximately six months after this offering. However, it will not be obligated to do so, and we cannot assure you as to whether or when the divestiture will occur. Any divestiture of the shares of our common stock by Eaton will be subject, among other factors, to obtaining approval by the Eaton board of directors and a ruling from the Internal Revenue Service that the divestiture will be tax-free to Eaton and its shareholders and that the contribution of assets from Eaton to us as part of the separation from Eaton will qualify as a tax-free reorganization. At the time of this offering, we will not know what the ruling from the Internal Revenue Service regarding the tax treatment of the

separation and the divestiture will be. If Eaton does not receive a favorable tax ruling, it is not likely to make the divestiture in the expected time frame or at all.

In addition, until this divestiture occurs, the risks discussed below relating to Eaton's control of us and the potential business conflicts of interest between Eaton and us will continue to be relevant to our stockholders. If Eaton does not divest its shares of our common stock, we might face significant difficulty hiring and retaining key personnel, many of whom are attracted by the potential of operating our business as a fully independent entity.

If the divestiture is delayed or not completed at all, the liquidity of our shares in the market will be severely constrained unless and until Eaton elects to sell some or all of its significant ownership interest. There are no limits on these sales except for limits under the Securities Act of 1933, as amended, and the sale or potential sale by Eaton could adversely affect market prices for our common stock. In addition, because of the limited liquidity until the divestiture of its shares of our common stock by Eaton occurs, relatively small trades of our stock could have a disproportionate effect on our stock price.

WE WILL BE CONTROLLED BY EATON AS LONG AS IT OWNS A MAJORITY OF OUR COMMON STOCK, AND OUR OTHER STOCKHOLDERS WILL BE UNABLE TO AFFECT THE OUTCOME OF STOCKHOLDER VOTING DURING THAT TIME.

After the completion of this offering, Eaton will own approximately 83.8% of our outstanding common stock, or approximately 81.8% if the underwriters exercise in full their option to purchase additional shares. As long as Eaton owns a majority of our outstanding common stock, Eaton will continue to be able to elect our entire board of directors and to remove any director, with or without cause, without calling a special meeting. Investors in this offering will not be able to affect the outcome of any stockholder vote prior to the planned divestiture of our stock to Eaton shareholders. As a result, Eaton will control all matters affecting us, including:

- the composition of our board of directors and, through it, any determination with respect to our business direction and policies, including the appointment and removal of officers;
- the allocation of business opportunities that may be suitable for us and Eaton;
- any determinations with respect to mergers or other business combinations;
- our acquisition or disposition of assets;
- our financing;
- changes to the agreements providing for our separation from Eaton;
- the payment of dividends on our common stock; and
- determinations with respect to our tax returns.

Eaton is not prohibited at any time from selling a controlling interest in us to a third party.

OUR HISTORICAL FINANCIAL INFORMATION MAY NOT BE REPRESENTATIVE OF OUR RESULTS AS A SEPARATE COMPANY.

Our combined financial statements have been carved out from the consolidated financial statements of Eaton using the historical bases of assets, liabilities and operating results of the Eaton semiconductor equipment operations business that we comprise. Accordingly, the historical financial information we have included in this prospectus does not necessarily reflect what our financial position, operating results and cash flows would have been had we been a separate, stand-alone entity during the periods presented. Eaton did not operate or account for us as a separate, stand-alone entity for the periods presented. Our costs and expenses include direct charges and an allocation from Eaton for centralized corporate services and infrastructure costs including, for example, services and systems associated with voice and data transmission and other data-related operations, accounts receivable, accounts payable, fixed assets, payroll, general accounting, financial accounting consolidation, cash management, human resources, legal and real estate as well as other functions associated with Eaton's corporate governance and operations support.

This allocation is based on Eaton's internal expense allocation methodology which charges these expenses to operating locations based both on net working capital, excluding short-term investments and short-term debt, and on property, plant and equipment - net. While we believe this allocation methodology is reasonable and allocated costs are representative of the operating expenses that would have been incurred had we operated on a stand-alone basis, the historical financial information is not necessarily indicative of what our financial position, operating results and cash flows will be in the future. We have not made adjustments to our historical financial information to reflect any significant changes that may occur in our cost structure and operations as a result of our separation from Eaton, including increased costs associated with being a publicly traded, stand-alone company.

WE WILL NOT BE ABLE TO RELY ON EATON TO FUND OUR FUTURE CAPITAL REQUIREMENTS, AND FINANCING FROM OTHER SOURCES MAY NOT BE AVAILABLE ON AS FAVORABLE TERMS AS EATON COULD OBTAIN.

In the past, our capital needs have been satisfied by Eaton. However, following our separation, Eaton will no longer provide funds to finance our working capital or other cash requirements. We cannot assure you that financing from other sources, if needed, will be available on favorable terms.

We believe our capital requirements will vary greatly from quarter to quarter, depending on, among other things, capital expenditures, fluctuations in our operating results, financing activities, acquisitions and investments and inventory and receivables management. We believe that the portion of the proceeds from this offering that we will retain, along with our future cash flow from operations, will be sufficient to satisfy our working capital, capital expenditure and research and development requirements for the foreseeable future. We cannot assure you, however, that the underlying assumed levels of sales and expenses will prove to be accurate. In addition, in the future, we may require or choose to obtain additional debt or equity financing in order to finance acquisitions or other investments in our business. Future equity financings would be dilutive to the existing holders of our common stock. We cannot raise additional equity capital without Eaton's consent prior to Eaton's divestiture of our common stock to Eaton shareholders, and following any divestiture, we would be restricted in raising substantial amounts of equity capital under our tax sharing and indemnification agreement with Eaton, as well as by market conditions. Future debt financings could involve restrictive covenants that may limit the manner in which we conduct our business. In addition, we will likely not be able to obtain debt financing with interest rates as favorable as those that Eaton could obtain.

WE MAY HAVE POTENTIAL BUSINESS CONFLICTS OF INTEREST WITH EATON WITH RESPECT TO OUR PAST AND ONGOING RELATIONSHIPS AND, BECAUSE OF EATON'S CONTROLLING OWNERSHIP, WE MAY NOT RESOLVE THESE CONFLICTS ON THE MOST FAVORABLE TERMS TO US.

Conflicts of interest may arise between Eaton and us in a number of areas relating to our past and ongoing relationships, including:

- sales or distributions by Eaton of all or any portion of our common stock owned by Eaton;
- agreements between Eaton and us associated with the divestiture, including under the trademark license agreement and the master separation and distribution agreement;
- labor, tax, employee benefit, indemnification and other matters arising from our separation from Eaton;
- employee retention and recruiting;
- the nature, quality and pricing of transitional services Eaton has agreed to provide us; and
- business opportunities that may be attractive to both Eaton and us.

Nothing restricts Eaton from competing with us.

We may not be able to resolve any potential conflicts and, even if we do, the resolution may be less favorable than if we were dealing with an unaffiliated party. The agreements we have

entered into with Eaton may be amended upon agreement between the parties. While we are controlled by Eaton, Eaton may be able to require us to agree to amendments to these agreements that may be less favorable to us than the current terms of the agreements.

OUR DIRECTORS AND EXECUTIVE OFFICERS MAY HAVE CONFLICTS OF INTEREST BECAUSE OF THEIR OWNERSHIP OF EATON COMMON STOCK AND EATON STOCK OPTIONS AND BECAUSE SOME ALSO ARE DIRECTORS OR EXECUTIVE OFFICERS OF EATON.

Some of our directors and executive officers have a substantial amount of their personal financial portfolios in Eaton common stock and options to purchase Eaton common stock. Their options to purchase Eaton common stock may not convert into options to purchase our common stock if the divestiture does not occur or for other reasons. Ownership of Eaton common stock and options by our directors and officers after our separation from Eaton could create, or appear to create, potential conflicts of interest when directors and officers are faced with decisions that could have different implications for Eaton and us.

Our directors who are also directors or executive officers of Eaton will have obligations to both companies and may have conflicts of interest with respect to matters potentially or actually involving or affecting us. We anticipate that immediately after the offering four of our directors will also be directors of Eaton and that two of these persons will be executive officers of Eaton, although at the time of any divestiture of Eaton's ownership interest in our company no more than three of our directors will be directors of Eaton.

IF THE TRANSITIONAL SERVICES BEING PROVIDED TO US BY EATON ARE NOT SUFFICIENT TO MEET OUR NEEDS, OR IF WE ARE NOT ABLE TO REPLACE THESE SERVICES AFTER OUR AGREEMENTS WITH EATON EXPIRE, WE MAY BE UNABLE TO MANAGE CRITICAL OPERATIONAL FUNCTIONS OF OUR BUSINESS.

Eaton has agreed to provide transitional services to us, including services related to:

- voice and data transmission and other data related operations;
- accounts receivable, accounts payable, fixed assets, payroll, general accounting and financial accounting consolidation;
- cash management;
- human resources;
- tax;
- legal; and
- real estate.

Although Eaton is contractually obligated to provide us with these services, these services may not be provided at the same level as when we were part of Eaton, and we may not be able to obtain the same benefits. The transition periods covered by these agreements vary but are generally less than two years. After the expiration of these various arrangements, we may not be able to replace the transitional services or enter into appropriate leases in a timely manner or on terms and conditions, including cost, as favorable as those we will receive from Eaton.

#### RISKS RELATED TO THE SECURITIES MARKETS AND OWNERSHIP OF OUR COMMON STOCK

SUBSTANTIAL SALES OF OUR COMMON STOCK MAY OCCUR IN CONNECTION WITH THE DIVESTITURE, WHICH COULD CAUSE OUR STOCK PRICE TO DECLINE.

If Eaton divests all of the shares of our common stock it owns to Eaton shareholders after this offering, substantially all of these shares will be eligible for immediate resale in the public market. We are unable to predict whether significant amounts of common stock will be sold in the open market in anticipation of, or following, this distribution, or by Eaton if the divestiture does not occur. We are also unable to predict whether a sufficient number of buyers will be in

the market at that time. Any sales of substantial amounts of common stock in the public market, or the perception that such sales might occur, whether as a result of this divestiture or otherwise, could adversely affect the market price of our common stock. Eaton has the sole discretion to determine the timing, structure and terms of its divestiture of our common stock, all of which may also affect the level of market transactions in our common stock.

OUR SECURITIES HAVE NO PRIOR MARKET, AND WE CANNOT ASSURE YOU THAT OUR STOCK PRICE WILL NOT DECLINE AFTER THE OFFERING.

Before this offering, there has not been a public market for our common stock, and an active public market for our common stock may not develop or be sustained after this offering. The market price of our common stock could be subject to significant fluctuations after this offering. Among the factors that could affect our stock price are:

- quarterly variations in our operating results;
- changes in revenue or earnings estimates or publication of research reports by analysts;
- speculation in the press or investment community;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
- actions by institutional stockholders or by Eaton prior to its divestiture of our stock;
- general market conditions; and
- domestic and international economic factors unrelated to our performance.

The stock markets in general, and the markets for high technology stocks in particular, have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. Moreover, in recent years the stock prices of many companies in the semiconductor industry have been volatile and have declined substantially due to the worldwide semiconductor downturn. These broad market fluctuations may adversely affect the trading price of our common stock. In particular, we cannot assure you that you will be able to resell your shares at or above the initial public offering price, which will be determined by negotiations between the representatives of the underwriters and us.

PROVISIONS IN OUR CHARTER DOCUMENTS AND DELAWARE LAW AND THE TERMS OF THE TAX SHARING AND INDEMNIFICATION AGREEMENT BETWEEN US AND EATON MAY DELAY OR PREVENT AN ACQUISITION OF US, WHICH COULD DECREASE THE VALUE OF YOUR SHARES.

Our certificate of incorporation, bylaws and shareholder rights plan contain provisions that could make it harder for a third party to acquire us without the consent of our board of directors, although these provisions have little significance while we are controlled by Eaton. These provisions include a classified board of directors and limitations on actions by our stockholders by written consent. In addition, our board of directors has the right to issue preferred stock without stockholder approval, which could be used to dilute the stock ownership of a potential hostile acquirer. Delaware law also imposes some restrictions on mergers and other business combinations between us and any holder of 15% or more of our outstanding common stock. Although we believe these provisions provide an opportunity to receive a higher bid by requiring any potential acquirers to negotiate with our board of directors, these provisions apply even if the offer may be considered beneficial by some stockholders.

If Eaton decides to divest its remaining ownership in us after the offering and receives a private letter ruling from the Internal Revenue Service to the effect that such a divestiture will be tax-free, we will be limited in our ability to merge or consolidate with any other person or enter into any transaction or to issue equity securities that would result in one or more persons acquiring a 40% or greater interest in us during the two-year period following any such divestiture under the terms of our tax sharing and indemnification agreement with Eaton.

PURCHASERS IN THIS OFFERING WILL EXPERIENCE IMMEDIATE DILUTION IN NET TANGIBLE BOOK VALUE PER SHARE.

Purchasers of our common stock in this offering will experience immediate dilution of \$17.92 in net tangible book value per share.

## OUR SEPARATION FROM EATON

## OVERVIEW

We are currently a wholly owned subsidiary of Eaton. On April 26, 2000, Eaton announced a plan to reorganize its semiconductor equipment operations into an independent, publicly held company. Prior to the completion of this offering, Eaton will substantially complete the transfer to us of all of the assets of its semiconductor equipment operations that are not currently owned by us and we will assume the related liabilities, and we will enter into arrangements with Eaton relating to various interim relationships between us. In connection with the reorganization, we changed our name from Eaton Semiconductor Equipment Inc. to Axcelis Technologies, Inc. After the completion of the offering, Eaton will own approximately 83.8% of our outstanding common stock, or 81.8% if the underwriters fully exercise their option to purchase additional shares.

## HISTORY OF OUR BUSINESS

Our ion implantation products were initially developed and offered by Eaton in 1980 and constitute our principal product offering. In 1982, we entered into our SEN joint venture to provide us with additional manufacturing capacity for our ion implantation products and local access for these products to the Japanese semiconductor equipment market. Our semiconductor equipment products also include dry strip, photostabilization and rapid thermal processing products. We introduced our rapid thermal processing products in 1996 and we entered the photoresist removal and photostabilization product market through our acquisition of Fusion in August 1997. Fusion pioneered the development of photostabilization in 1983.

## BENEFITS OF THE SEPARATION

We believe that we will realize benefits from Eaton's reorganization of its semiconductor equipment operations and our complete separation from Eaton, including the following:

**GREATER STRATEGIC FOCUS.** In addition to our semiconductor equipment manufacturing business, Eaton generates significant revenue from its other business segments, including electrical power distribution and control equipment, truck transmissions and clutches, engine components, hydraulic products and a wide variety of controls. Our focus will be solely on developing businesses and strategic opportunities for the semiconductor equipment business. This effort will be supported by our own board of directors, management team and employees.

**INCREASED SPEED AND RESPONSIVENESS.** As a smaller company than Eaton we will focus on one line of business, and we expect to make decisions more quickly, deploy resources more rapidly and efficiently and operate with more agility than we could as a part of a larger organization. We expect to be more responsive to our customers and suppliers.

**BETTER INCENTIVES FOR EMPLOYEES AND GREATER ACCOUNTABILITY.** We expect the motivation of our employees and the focus of our management to be strengthened by incentive compensation programs tied to the market performance of our common stock. The separation will enable us to offer our employees compensation directly linked to the performance of our business, which we expect to enhance our ability to attract and retain qualified personnel.

**MORE CAPITAL PLANNING FLEXIBILITY.** As a separate company, we will have enhanced capital planning flexibility. We will be able to have direct access to the capital markets to issue debt or equity securities and to use our own stock to facilitate growth through acquisitions and will no longer have to compete with other business units of Eaton for funding from Eaton.

## SEPARATION AND TRANSITIONAL ARRANGEMENTS

In May 2000, our Board of Directors declared a dividend of \$300 million payable to Eaton. We have the option of paying this dividend in either cash or notes or in a combination thereof.

Any notes issued would bear interest and would have a maturity not to exceed two years. We presently expect to pay all of this dividend in cash out of the net proceeds of this offering.

We will enter into agreements with Eaton providing for the completion of the reorganization of Eaton's semiconductor equipment operations and the separation of our business from Eaton prior to the initial public offering. These agreements generally will provide for, among other things:

- the transfer from Eaton to us of assets and the assumption by us of liabilities relating to our business; and
- various interim relationships between us and Eaton.

#### THE DIVESTITURE BY EATON OF OUR COMMON STOCK

After completion of this offering, Eaton will own approximately 83.8% of the outstanding shares of our common stock, or approximately 81.8% if the underwriters fully exercise their option to purchase additional shares. Eaton currently plans to complete its divestiture of us approximately six months after this offering by distributing all of its shares of our common stock in a tax-free transaction to Eaton shareholders. Eaton may accomplish this through a split-off, a spin-off or some combination of both transactions. Eaton is not, however, obligated to complete the divestiture, and we cannot assure you as to whether or when it will occur.

Eaton has advised us that it has not yet determined definitively either when it expects to complete the divestiture or the structure or terms under which it would accomplish the divestiture of its shares of our common stock. Eaton has advised us that it would not complete the divestiture if its board of directors determines that a complete separation is no longer in the best interest of Eaton and its shareholders. Eaton has further advised us that among the factors that it would consider in determining whether and when to complete the divestiture are:

- the issuance by the Internal Revenue Service of a ruling that the divestiture will be tax-free to Eaton and its shareholders and that Eaton's contribution of assets to us in connection with the separation will qualify as a tax-free reorganization for U.S. federal income tax purposes;
- the absence of any court orders or regulations prohibiting or restricting the completion of the divestiture; and
- the relative advantages of retaining its ownership or completing the divestiture in some other manner.

## USE OF PROCEEDS

We estimate that our net proceeds from this offering will be approximately \$302.0 million, or \$347.2 million if the underwriters fully exercise their option to purchase additional shares, based on an assumed initial public offering price of \$21.00 per share and after deducting an assumed underwriting discount and estimated offering expenses payable by us.

We intend to use the net proceeds of this offering, together with cash from other sources available to us:

- to pay the previously declared \$300 million dividend to Eaton in cash;  
and
- for general corporate purposes, including funding our capital expenditure program, our working capital requirements and other liabilities.

See "Management's Discussion and Analysis-Liquidity and Capital Resources" for a discussion of the other cash we expect to have available to us.

We have budgeted our capital expenditures for the last three quarters of 2000 at approximately \$24.0 million. We expect to use a significant portion of these budgeted capital expenditures to construct an advanced demonstration and application development center at our Beverly, Massachusetts facility and to expand our manufacturing and research facilities in Rockville, Maryland.

## DIVIDEND POLICY

After completion of this offering, we currently intend to retain any future earnings to fund the development and growth of our business. Therefore, we do not anticipate paying any cash dividends in the foreseeable future, other than the previously declared dividend to Eaton described under "Use of Proceeds".

## CAPITALIZATION

The following table sets forth our capitalization as of March 31, 2000. Our capitalization is presented:

- on an actual basis;
- on a pro forma basis to give effect to the previously declared dividend to Eaton of \$300 million; and
- on a pro forma as adjusted basis to reflect our receipt of the estimated net proceeds of \$302.0 million from the sale of shares of our common stock in this offering and the payment of the previously declared \$300 million dividend to Eaton, as well as to reflect the other transactions described in note (4) to the "Prospectus Summary -- Summary Historical Combined Financial Data".

You should read the information set forth below together with "Selected Historical Combined Financial Data", "Management's Discussion and Analysis -- Liquidity and Capital Resources" and our historical combined financial statements and the notes to those statements included elsewhere in this prospectus.

## NOTES:

- (1) During the second quarter of 2000, we estimate that Eaton's management of substantially all of our cash receipts and disbursements in the United States will result in additional cash due us of \$30.1 million.
- (2) On May 3, 2000, our Board of Directors declared a dividend of \$300 million payable to Eaton. We have the option of paying this dividend in either cash or notes or in a combination thereof. We presently expect to pay all of this dividend in cash out of the net proceeds of this offering and other available cash.
- (3) On June 14, 2000, our Board of Directors declared a stock split, to be effected in the form of a stock dividend, increasing the number of outstanding shares of our common stock owned by Eaton from 100 to 80,000,000.

## DILUTION

Our net tangible book value at March 31, 2000 was approximately \$292.6 million, or \$3.66 per share. Pro forma net tangible book value per share is determined by dividing our pro forma net tangible book value, which is total tangible assets less total liabilities after giving effect to the payment of a previously declared \$300 million dividend to Eaton, by the 80,000,000 shares of common stock outstanding immediately before this offering. Dilution in pro forma net tangible book value per share represents the difference between the amount per share paid by purchasers of shares of our common stock in this offering and the pro forma net tangible book value per share of our common stock immediately afterwards. After giving effect to our sale of 15,500,000 shares of common stock in this offering at an assumed initial public offering price of \$21.00 per share and after deducting an assumed underwriting discount and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value at March 31, 2000 would have been approximately \$294.6 million, or \$3.08 per share. This represents an immediate increase in pro forma net tangible book value of \$3.17 per share to our existing stockholder and an immediate dilution in pro forma net tangible book value of \$17.92 per share to new investors purchasing shares of our common stock in this offering. The following table illustrates this dilution per share:

|  |          |
|--|----------|
| Assumed initial public offering price per share.....                                       | \$21.00  |
| Pro forma net tangible book value per share as of March 31, 2000.....                      | \$(0.09) |

|  | -----    |
| Pro forma, as adjusted, net tangible book value per share after this offering.....         | 3.08     |
|  | -----    |
| Dilution in pro forma net tangible book value per share to new investors.....              | \$17.92  |
|  | =====    |

The discussion and table above assume no issuance of shares reserved for future issuance under our 2000 Employee Stock Purchase Plan. As of March 31, 2000, there were no options outstanding to purchase shares of our common stock. To the extent that any options are granted and exercised, there will be further dilution to new investors. We currently plan to grant options to purchase approximately 5,400,000 shares of our common stock to employees at the initial public offering price, none of which options will be immediately exercisable. In addition, we may assume substantially all of the Eaton stock options held by our employees on the date Eaton completes its divestiture of our company. If the divestiture had been completed on June 12, 2000, these options to purchase Eaton common shares would have been converted into options to purchase 2,088,149 shares of our common stock, based on an assumed initial public offering price of \$21.00 per share and on the closing price of \$74 5/16 per Eaton common share on June 12, 2000.

## NOTES:

- (1) On August 4, 1997, we acquired Fusion, a developer and manufacturer of dry strip and photostabilization systems for use in semiconductor manufacturing processes. The acquisition was accounted for under the purchase method of accounting and, accordingly, our combined financial statements include Fusion's results of operations beginning August 4, 1997. Net income in 1997 was reduced by an \$85.0 million write-off of purchased in-process research and development related to the acquisition of Fusion, with no income tax benefit.
- (2) Net loss in 1998 reflects a restructuring charge of \$42.4 million (\$27.5 million aftertax) of which \$17.4 million related to inventory writedowns and reduced gross profit and \$25.0 million related to workforce reductions and other restructuring actions and was recorded in operating expenses.
- (3) Pro forma basic and diluted net income per share amounts are calculated based on 80,000,000 shares of our common stock outstanding that are owned by Eaton prior to this offering, plus an additional 15,402,388 shares of common stock issued in the offering, the proceeds of which will be used to pay the previously declared \$300 million dividend to Eaton. The additional number of shares is calculated by dividing \$300 million by the assumed initial public offering price of \$21.00 per share, reduced by the estimated per share offering costs.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion of our financial condition and results of operations should be read together with our combined financial statements and notes to those statements included elsewhere in this prospectus.

## OVERVIEW

We are a leading producer of ion implantation equipment used in the fabrication of semiconductors and, we also produce dry strip, photostabilization and rapid thermal processing equipment, which is used in semiconductor manufacturing primarily before and after the ion implantation process. In addition, we provide extensive aftermarket service and support, including spare parts, equipment upgrades, maintenance services and customer training. We are a 50-50 joint venture partner in Japan with Sumitomo.

## SEPARATION FROM EATON

We are currently a wholly owned subsidiary of Eaton. Prior to the completion of this offering, Eaton will substantially complete the transfer to us of all of the assets of its semiconductor equipment operations that are not currently owned by us, and we will assume the related liabilities. We will also enter into various other agreements with Eaton which provide for transitional services and support, including those associated with voice and data transmissions and other data-related operations, accounts receivable, accounts payable, fixed assets, payroll, general accounting, financial accounting consolidation, cash management, human resources, tax, legal and real estate. Under these agreements, we will reimburse Eaton for its direct and indirect costs of providing these services until the divestiture, and thereafter, for a limited time, we will reimburse Eaton for its costs plus an additional fee. The transition periods covered by these agreements vary, but are generally less than two years from the date of the completion of this offering. The agreements do not necessarily reflect the costs of obtaining these services from unrelated third parties or of providing the applicable services in-house. However, management believes that purchasing these services from Eaton provides an efficient means of obtaining these services during the transition period. We must also negotiate new agreements with various third parties as a separate, standalone entity. There can be no assurance that the terms we will be able to negotiate for these agreements will be as favorable as those we enjoy as part of Eaton. See "Arrangements with Eaton" for a more detailed discussion of the agreements entered into between our company and Eaton.

## OUR BUSINESS

Our business depends in significant part upon capital expenditures by semiconductor manufacturers, especially manufacturers that are opening new fabrication facilities or expanding existing facilities. These expenditure patterns are based on many factors, including anticipated market demand for semiconductors and the products utilizing them, the available manufacturing capacity in manufacturers' fabrication facilities, the development of new technologies and global economic conditions. We have benefited from the recent growth of the global semiconductor industry, and we expect it to continue to expand over the long term. Although our business is not seasonal, we operate in a cyclical industry. We expect the industry to continue its historically cyclical nature.

The cyclicity in the semiconductor capital equipment market over the last several years resulted in a decline in net sales beginning in late 1997 and continuing through late 1998, with orders and backlog under continuous pressure. This situation was the combined result of an oversupply of memory chips, a decline in personal computer demand and the effects of the Asian financial crisis. Typical of our industry, we have relatively high fixed costs, and our ongoing need to make investments in engineering, marketing, and research and development limit our ability to

reduce expenses during downturns. As a result, a decline in our sales, whether attributable to a downturn in the semiconductor industry or otherwise, could have a disproportionate effect on our business.

In response to the severe downturn in the semiconductor industry that began in late 1997, we undertook a restructuring in the third quarter of 1998 and incurred a related charge of \$42.4 million. Key elements of this restructuring included the closure of our Austin, Texas manufacturing facility, workforce reductions involving 475 employees, almost half of whom were employed in Austin, the relocation of ion implantation production and engineering from Austin to our Beverly, Massachusetts facility and a charge for asset write-downs, primarily inventory, to estimated market value. On May 18, 2000, we sold our idle Austin facility for net proceeds of \$11.0 million, a price that approximated book value. See Notes 5 and 8 to our combined financial statements.

We derive a substantial majority of our net sales from the sale of ion implantation systems. These sales accounted for more than 80.0% of our net sales for each of the three years ended December 31, 1999 and for the three months ended March 31, 2000.

In August 1997, we acquired Fusion, which develops and manufactures dry strip and photostabilization systems for use within the semiconductor manufacturing process. This acquisition was accounted for using the purchase method of accounting, under which goodwill of \$49.8 million, which is being amortized over 15 years with no tax benefit, was recorded. Our combined statements of operations include the results of Fusion beginning in August 1997. The acquisition of Fusion also included \$85.0 million allocable to in-process research and development. This amount was expensed at the date of acquisition, with no tax benefit, because the technological feasibility of certain projects had not been established and no alternative commercial use had been identified.

We have a 50% interest in SEN, our joint venture with Sumitomo. This joint venture manufactures ion implantation equipment under license from us for sale to semiconductor manufacturers in Japan. We account for the results of this joint venture based on the equity method of accounting, which means that we record our pro rata share of the joint venture's earnings or losses in our statement of combined operations under "Other income (expense)". We also receive royalty income from the joint venture based on a percentage of net sales of specific products sold by SEN. Summary financial information for SEN is presented in Note 17 to our combined financial statements.

Historically we have sold a significant proportion of our products and services to a limited number of fabricators of semiconductor products. In 1999, three of our customers, STMicroelectronics N.V., Motorola, Inc. and Texas Instruments Incorporated, accounted for 37.0% of our net sales. Also, we derive most of our revenues from the sale of a relatively small number of expensive products to our customers. The list prices on our principal products range from \$150,000 to over \$4.0 million. Our lengthy sales and installation cycle, coupled with customers' competing capital budget considerations, make timing of customer orders uneven and difficult to predict. As a result, our net sales and operating results for any given period will depend on our shipment and installation of orders as scheduled during that period as well as obtaining new orders for products to be shipped in that same period.

We recognize sales of systems upon shipment to the customer and the costs of installation at the customer's site are accrued at the time of shipment. See Note 3 to our combined financial statements. In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition". SAB No. 101, which was subsequently amended by Staff Accounting Bulletin No. 101A (collectively referred to as SAB 101), articulates certain of the SEC staff's views in applying generally accepted accounting principles to revenue recognition in financial statements. We have concluded that our existing revenue recognition

policy continues to be appropriate and in accordance with generally accepted accounting principles and SAB 101.

#### BASIS OF PRESENTATION

The combined financial statements include our assets, liabilities, revenues and expenses based on Eaton's historical amounts. Prior to January 1, 2000, substantially all of our cash receipts and disbursements in the United States were processed through Eaton's centralized cash management system and were recorded in Parent Company investment. Since December 31, 1999, substantially all of these amounts have been recorded as a receivable from or payable to Eaton. At March 31, 2000, a net amount of \$1.0 million was payable to Eaton by us for these transactions and was included in "Receivables from Eaton Corporation" in our March 31, 2000 combined balance sheet. This payable became a receivable of approximately \$19.4 million at May 31, 2000 and we expect this receivable to increase to approximately \$29.1 million at June 30, 2000. We plan to settle this receivable in cash at or shortly after the closing of this offering.

The remaining balance of the "Receivables from Eaton Corporation" at March 31, 2000 was \$9.2 million and represented primarily cash generated by us in Europe that was processed through Eaton's European centralized cash management system. Of this receivable, \$5.5 million, as well as \$1.5 million of our \$2.8 million of cash and short-term investments at March 31, 2000, will be retained by Eaton and will not be available to us. The resulting \$3.7 million balance of this receivable will also be settled in cash at or shortly after the closing of this offering. Subsequent to March 31, 2000, in connection with Eaton's contribution of assets to us, we received a cash transfer from Eaton, which after offsets, we expect to net to approximately \$7.9 million.

Our combined statements of operations include those expenses originally recorded by us or directly charged to us by Eaton. Further, the statements include an allocation of Eaton's general corporate expenses to reflect the services provided or benefits received by us. This allocation is based on Eaton's internal expense allocation methodology, which charges these expenses to operating locations based both on net working capital, excluding short-term investments and short-term debt, and on property, plant, and equipment-net. We believe that this is a reasonable method of allocating these expenses.

In the opinion of management, all adjustments necessary for a fair presentation of combined financial position, operating results and cash flows for the stated periods have been made. However, Eaton did not operate or account for us as a separate, stand-alone entity for the periods presented and, as a result, the financial information included herein may not reflect our combined financial position, operating results and cash flows as they would have been reported if we had been a separate, stand-alone entity during the periods presented or in the future. The financial information presented in this prospectus does not reflect any significant changes that may occur in our operations as a result of our becoming a stand-alone entity and this offering.

## FIRST QUARTER 2000 COMPARED TO FIRST QUARTER 1999 (UNAUDITED)

## NET SALES

Net sales were \$143.1 million in the first quarter of 2000, an increase of \$84.0 million, or 142.0%, as compared to net sales of \$59.1 million in the first quarter of 1999. The increase in net sales was attributable to continued high levels of capital spending by our semiconductor manufacturing customers, resulting in increased demand for our products and services.

Sales of ion implant products and services accounted for \$115.8 million in total sales in the first quarter of 2000, an increase of \$68.8 million, or 146.4%, as compared to \$47.0 million in the first quarter of 1999. Sales of other products and services, including dry strip products, photostabilization products and rapid thermal processing systems, accounted for \$27.3 million in total sales in the first quarter of 2000, an increase of \$15.2 million, or 125.6%, as compared to \$12.1 million in the first quarter of 1999.

## GROSS PROFIT

Gross profit was \$61.5 million in the first quarter of 2000, an increase of \$40.7 million, or 196.0%, as compared to gross profit of \$20.8 million in the first quarter of 1999. The increase in gross profit was primarily attributable to increased products and services sales volume. Gross profit as a percentage of net sales increased to 43.0% in the first quarter of 2000 from 35.1% in the first quarter of 1999. This increase was due primarily to improved capacity utilization as a result of higher sales volume and, to a lesser extent, to a more favorable product mix of ion implant sales.

## SELLING

Selling expense was \$11.6 million in the first quarter of 2000, an increase of \$2.5 million, or 27.6%, as compared to \$9.1 million in the first quarter of 1999. The increase in selling expense was primarily due to increased headcount expenses of \$2.0 million and increased commissions of \$0.5 million associated with increased net sales. As a percentage of net sales, selling expense decreased to 8.1% in the first quarter of 2000 as compared to 15.4% in the first quarter of 1999, as costs were spread over a higher revenue base.

## GENERAL AND ADMINISTRATIVE

General and administrative expense, including the allocation of Eaton general corporate expenses to our business, was \$13.0 million in the first quarter of 2000, an increase of \$3.4 million, or 35.6%, as compared with \$9.6 million in the first quarter of 1999. The increase in general and administrative expense was primarily attributable to increased personnel costs associated with a greater number of employees. As a percentage of net sales, general and administrative expense decreased to 9.1% in the first quarter of 2000 as compared with 16.2% in the first quarter of 1999 as these costs were spread over a higher revenue base. The allocation of Eaton general corporate expense was \$4.0 million in the first quarter of 2000 as compared to \$3.2 million in the first quarter of 1999. Following the separation, Eaton will provide transitional services under the terms of a transitional services agreement described under "Arrangements with Eaton".

## RESEARCH AND DEVELOPMENT

Research and development expense was \$16.1 million in the first quarter of 2000, an increase of \$3.9 million, or 32.4%, as compared to \$12.2 million in the first quarter of 1999. As a percentage of net sales, research and development expense decreased to 11.3% in the first quarter of 2000 from 20.6% in the first quarter of 1999, as costs were spread over a higher revenue base. We continue to invest significantly in both current product enhancements and new product development.

## AMORTIZATION OF GOODWILL AND INTANGIBLE ASSETS

Amortization of goodwill and intangible assets was \$2.3 million in the first quarter of 2000, consistent with the first quarter of 1999.

## INCOME (LOSS) FROM OPERATIONS

Income from operations was \$18.4 million in the first quarter of 2000 as compared to a loss from operations of \$12.4 million in the first quarter of 1999, primarily as a result of the factors described above.

## OTHER INCOME (EXPENSE)

Total other income-net was \$8.7 million in the first quarter of 2000 as compared to expense of \$1.6 million in the first quarter of 1999. Other income consists primarily of royalty income and equity income from SEN. Royalty income, primarily from SEN, was \$3.8 million in the first quarter of 2000 as compared to \$1.0 million in the first quarter of 1999. Equity income attributable to SEN was \$3.3 million in the first quarter of 2000 compared to a loss of \$2.4 million in the first quarter of 1999. Both increases in 2000 were due to increased SEN sales volume due primarily to the recovery in the Japanese semiconductor market, which began in late 1999.

## INCOME TAXES (CREDIT)

Income taxes were \$8.3 million in the first quarter of 2000 as compared with an income tax credit of \$3.7 million in the first quarter of 1999. Our effective income tax rate was 30.4% in the first quarter of 2000 as compared to 26.2% in the first quarter of 1999. The 1999 rate was lower

than the U.S. federal statutory rate primarily because of benefits associated with research and development credits taken in that year. See Note 13 to our combined financial statements.

#### NET INCOME (LOSS)

Net income increased to \$18.9 million in the first quarter of 2000 as compared to a loss of \$10.4 million in the first quarter of 1999, principally as a result of the factors discussed above.

#### 1999 COMPARED TO 1998

##### NET SALES

Net sales in 1999 were \$397.3 million, an increase of \$131.6 million, or 49.5%, as compared to net sales of \$265.7 million in 1998. The increase in net sales was attributable to the increased demand for our principal products and services resulting from the semiconductor industry's recovery, which began in the second half of 1999. Our third quarter 1999 net sales increased 125.4% over the third quarter of 1998, and fourth quarter 1999 net sales increased 193.7% over the fourth quarter of 1998.

Sales of our ion implant systems and services accounted for \$322.0 million in total sales in 1999 as compared to \$219.9 million in 1998, an increase of 46.4% over 1998. Sales of other products and services, including dry strip products, photostabilization products and rapid thermal processing systems, increased by 64.4% in 1999 over 1998.

International sales, including exports from our three United States manufacturing facilities to customers in Europe and Asia Pacific and the sale of products and services directly by our foreign branches, totalled \$212.4 million in 1999, an increase of \$81.1 million, or 61.8%, as compared to \$131.3 million in 1998. Excluding export sales from the United States, our sales in Europe were \$35.5 million, a decrease of 11.9% from 1998, reflecting a lower volume of sales of service contracts, spares and upgrades. Sales in Asia Pacific were \$18.4 million, an increase of 63.5% over 1998, primarily as a result of the economic recovery in Asia Pacific and increased sales of our products in Taiwan, Singapore and South Korea.

##### GROSS PROFIT

Gross profit was \$157.1 million in 1999, an increase of \$92.9 million, or 144.6%, as compared with gross profit of \$64.2 million in 1998. Of this increase, \$31.9 million resulted from increased sales while \$43.6 million was due primarily to improved capacity utilization resulting from higher product sales volume. In addition, gross profit in 1998 was reduced by \$17.4 million of restructuring charges for inventory writedowns. The increase in gross profit as a percentage of net sales to 39.5% in 1999 from 24.2% in 1998 was due to improved capacity utilization, increased sales and the absence of restructuring charges in 1999.

##### SELLING

Selling expense was \$37.9 million in 1999, a decline of \$4.2 million, or 9.9%, as compared to \$42.1 million in 1998. The reduction in selling expense between years was driven principally by headcount savings attributable to our cost reduction strategy that was initiated in the second quarter of 1998 and continued into the second quarter of 1999. As a percentage of net sales, selling expense decreased to 9.5% in 1999 as compared to 15.9% in 1998.

##### GENERAL AND ADMINISTRATIVE

General and administrative expense, including the allocation of Eaton general corporate expenses to our business, was \$45.9 million in 1999, a decrease of \$1.2 million, or 2.4%, as compared with \$47.1 million in 1998. As a percentage of net sales, general and administrative expense decreased to 11.6% in 1999 as compared with 17.7% in 1998 as these costs were spread over a higher revenue base. The allocation of Eaton general corporate expense was \$15.0 million in 1999 as compared to \$14.8 million in 1998.

## RESEARCH AND DEVELOPMENT

Research and development expense was \$51.6 million in 1999, a decrease of \$27.1 million, or 34.4%, as compared to \$78.7 million in 1998. As a percentage of net sales, research and development expense was 13.0% in 1999 and 29.6% in 1998. Approximately \$17.2 million of the decrease in expense was attributable primarily to synergy savings associated with the closing of our Austin, Texas facility and the subsequent transfer of Austin's ion implant engineering activities to our Beverly, Massachusetts facility. The balance of the decrease was attributable to a reallocation of our research and development efforts following our 1998 restructuring and the completion of certain research projects.

## AMORTIZATION OF GOODWILL AND INTANGIBLE ASSETS

Amortization of goodwill and intangible assets was \$9.3 million in 1999, consistent with 1998.

## INCOME (LOSS) FROM OPERATIONS

Income from operations was \$12.3 million in 1999 as compared to a loss from operations of \$137.9 million in 1998, primarily as a result of the factors described above.

## OTHER INCOME (EXPENSE)

Total other income-net was \$7.2 million in 1999, an increase of \$2.4 million, or 51.3%, as compared to \$4.8 million in 1998. Other income primarily consisted of royalty income and equity income from SEN. Royalty income, more than half of which was from SEN, was \$5.9 million in 1999, as compared to \$7.9 million in 1998, or a decrease of 26.4%. The decrease in 1999 was due to income in 1998 from a large one-time royalty payment from an unrelated party. Equity income attributable to SEN was \$1.3 million in 1999 as compared to a loss of \$2.1 million in 1998. This increase primarily reflects a 19.4% increase in SEN sales volume in 1999 as compared to 1998 as a result of improvements in the Japanese semiconductor market.

## INCOME TAXES (CREDIT)

Income tax expense was \$5.1 million in 1999 as compared with an income tax credit of \$51.1 million in 1998, which was generated by our loss from operations in that year. The effective tax rate for 1999 was 26.2% and included a credit for research activities, as compared to an effective tax rate of 38.4% in 1998. See Note 13 to the combined financial statements.

## NET INCOME (LOSS)

Net income increased to \$14.4 million in 1999 as compared to a loss of \$82.0 million in 1998, principally as a result of the factors discussed above.

## 1998 COMPARED TO 1997

## NET SALES

Net sales in 1998 were \$265.7 million, a decline of \$194.3 million, or 42.2%, as compared with net sales of \$460.0 million in 1997. The decrease in net sales was largely attributable to the severe worldwide downturn in the semiconductor industry that began in late 1997.

Sales of our ion implant systems and services accounted for \$219.9 million of total sales in 1998, a decrease of \$195.3 million, or 47.0%, as compared to \$415.2 million in 1997, caused mainly by decreasing demand for semiconductors which led to excess capacity at manufacturers of semiconductors and lower capital spending. Sales of other products and services, including dry strip products, photostabilization products and rapid thermal processing systems, increased by 2.1% in 1998 compared to 1997 due to the inclusion of a full year of sales from Fusion in 1998 as compared to approximately five months of sales in 1997.

International sales, including exports from our United States facilities to customers in Europe and Asia Pacific and the sale of products and manufacturing services directly by our foreign

operations totaled \$131.3 million in 1998, a decrease of 48.4% as compared to 1997. Excluding export sales from the United States, our sales in Europe were \$40.3 million, an increase of 16.4% as compared to 1997 reflecting a higher volume of sales of service contracts, spares and upgrades. Sales in Asia Pacific were \$11.3 million, a decrease of 29.6% from 1997, primarily as a result of the economic crisis in Asia.

#### GROSS PROFIT

Gross profit was \$64.2 million in 1998, a decrease of \$108.6 million, or 62.8%, as compared to \$172.8 million in 1997. Of this decrease, \$73.1 million was primarily the result of a reduced volume of product sales, while \$18.2 million resulted from excess capacity costs associated with the semiconductor industry downturn. Gross profit was also affected by restructuring charges of \$17.4 million in 1998 related to the writedown of inventory, as described in Note 5 to our combined financial statements. As a percentage of net sales, gross profit decreased to 24.2% in 1998 from 37.6% in 1997, primarily due to the \$17.4 million restructuring charges and the downturn in the semiconductor industry.

#### SELLING

Selling expense was \$42.1 million in 1998, a decline of \$5.0 million, or 10.6%, as compared to \$47.1 million in 1997. Decreases in selling expense of \$9.6 million were primarily the result of product volume decreases offset in part by the full year impact in 1998 of the acquisition of Fusion in August 1997. As a percentage of net sales, selling expense increased to 15.9% in 1998 from 10.3% in 1997.

#### GENERAL AND ADMINISTRATIVE

General and administrative expense, including the allocation of Eaton general corporate expenses to our business, was \$47.1 million in 1998, an increase of \$8.8 million, or 23.0%, as compared with \$38.3 million in 1997, primarily as a result of the full year impact of the Fusion acquisition. As a percentage of net sales, general and administrative expense increased to 17.7% in 1998 compared with 8.3% in 1997, primarily due to spreading fixed costs over a smaller sales base. The allocation of Eaton general corporate expense was \$14.8 million in 1998 as compared to \$11.8 million in 1997, with the increase principally reflecting an increased asset base associated with the acquisition of Fusion.

#### RESEARCH AND DEVELOPMENT

Research and development expense was \$78.7 million in 1998, an increase of \$8.2 million, or 11.6%, as compared to \$70.5 million in 1997. As a percentage of net sales, research and development expense was 29.6% in 1998 as compared to 15.3% in 1997, primarily resulting from a significant decrease in sales in 1998. The increase reflected our continued commitment to new product development and the enhancement of existing product capabilities, notwithstanding the downturn in sales volume in 1998.

#### AMORTIZATION OF GOODWILL AND INTANGIBLE ASSETS

Amortization of goodwill and intangible assets increased to \$9.3 million in 1998 as compared to \$3.9 million in 1997. This increase reflected a full year of amortization resulting from the acquisition of Fusion in August 1997.

#### RESTRUCTURING CHARGES

Restructuring charges of \$25.0 million in 1998, not including the \$17.4 million related to inventory writedowns, which was included in cost of products sold, related primarily to workforce reductions, non-cash asset writedowns, and other restructuring actions. The charge for workforce reductions of \$7.1 million included the termination of approximately 475 employees, primarily manufacturing personnel. As of December 31, 1998, approximately 300 employees had been terminated in this program. In addition, the ion implant equipment manufacturing facility in

Austin, Texas was closed and production was transferred to Beverly, Massachusetts. The writedown of this plant to estimated selling price represented approximately \$2.1 million of asset writedowns. The phase-out of this plant was concluded in the first quarter of 1999. On May 18, 2000, we sold the Austin facility for net proceeds of \$11.0 million, a price that approximated book value. See Notes 5 and 8 to our combined financial statements.

#### WRITE-OFF OF IN-PROCESS RESEARCH AND DEVELOPMENT

Results for 1997 included an \$85.0 million write-off of purchased in-process research and development, with no tax benefit, related to the acquisition of Fusion. This amount was expensed at the date of acquisition because technological feasibility of certain projects had not been established and no alternative commercial use had been identified. See Note 4 to our combined financial statements.

#### LOSS FROM OPERATIONS

Loss from operations was \$137.9 million in 1998 as compared to a loss from operations of \$72.0 million in 1997, primarily as a result of the factors described above.

#### OTHER INCOME (EXPENSE)

Total other income-net was \$4.8 million in 1998 as compared to \$10.7 million in 1997, a decrease of 55.3%, and consisted primarily of royalty and equity income (loss) from SEN. Royalty income, primarily from SEN, was \$7.9 million in 1998, as compared to \$6.3 million in 1997. We also benefited from a one-time royalty payment from an unrelated party in 1998. We recorded an equity loss of \$2.1 million in 1998 attributable to SEN as compared to income of \$3.3 million in 1997, which primarily reflected lower SEN sales and earnings in 1998 as a result of the downturn in the Japanese semiconductor market.

#### INCOME TAXES (CREDIT)

Income tax credit was \$51.1 million in 1998 as compared with income tax expense of \$0.1 million in 1997. The effective income tax rate for 1998 was 38.4% as compared to 0.2% in 1997. The pretax loss in 1997 included a nondeductible charge of \$85.0 million in connection with the write-off of acquired in-process research and development costs resulting from the acquisition of Fusion. See Notes 4 and 13 to our combined financial statements.

#### NET LOSS

We reported a net loss of \$82.0 million in 1998 as compared to a net loss of \$61.5 in 1997, reflecting the factors described above.

## QUARTERLY RESULTS OF OPERATIONS

The following tables present our combined operating results for each of the four quarters in 1998 and 1999 and for the first quarter in 2000, in dollars and as a percentage of net sales. The information for each of these quarters is unaudited and has been prepared on the same basis as the audited combined financial statements included in this prospectus. In the opinion of management, all necessary adjustments, consisting only of normal recurring accruals, have been included to fairly present the unaudited quarterly results. This data should be read together with our combined financial statements and the notes to those statements included in this prospectus.

The historical financial information may not be indicative of our future performance and does not reflect what our financial position and operating results would have been had we operated as a separate, stand-alone entity during the periods presented.

(1) Net loss in the third quarter of 1998 reflects a restructuring charge of \$42.9 million (\$27.9 million aftertax), of which \$17.4 million related to inventory writedowns and reduced gross profit and \$25.5 million related to workforce reductions and other restructuring actions and was recorded in operating expenses.

## LIQUIDITY AND CAPITAL RESOURCES

Historically, Eaton has managed substantially all of our cash on a centralized basis. Cash receipts associated with our business have been transferred to Eaton on a periodic basis and Eaton has provided funds to cover our disbursements. Accordingly, the cash and short-term investment balances presented in the accompanying combined balance sheets do not represent balances required or generated by our operations; rather they primarily relate to cash and highly liquid short-term investments maintained for working capital purposes, primarily at international locations.

Prior to January 1, 2000, substantially all of our cash receipts and disbursements in the United States were processed through Eaton's centralized cash management system and were recorded in Parent Company investment. Since December 31, 1999, substantially all of these amounts have been recorded as a receivable from or payable to Eaton. At March 31, 2000, a net amount of \$1.0 million was payable to Eaton by us for these transactions and was included in "Receivables from Eaton Corporation" in our March 31, 2000 combined balance sheet. This payable became a receivable of approximately \$19.4 million at May 31, 2000 and we expect this receivable to increase to approximately \$29.1 million at June 30, 2000. We plan to settle this receivable in cash at or shortly after the closing of this offering.

The remaining balance of the "Receivables from Eaton Corporation" at March 31, 2000 was \$9.2 million and represented primarily cash generated by us in Europe that was processed through Eaton's European centralized cash management system. Of this receivable, \$5.5 million, as well as \$1.5 million of our \$2.8 million of cash and short-term investments at March 31, 2000, will be retained by Eaton and will not be available to us. The resulting \$3.7 million balance of this receivable will also be settled in cash at or shortly after the closing of this offering. Subsequent to March 31, 2000, in connection with Eaton's contribution of assets to us, we received a cash transfer from Eaton that, after offsets, we expect to net to approximately \$7.9 million. On May 18, 2000, we sold our Austin, Texas facility for net proceeds of \$11.0 million in cash. We closed this plant in the first quarter of 1999.

After giving pro forma effect to the foregoing transactions, including the payments we will receive upon settlement of receivables at or shortly after the closing of this offering, we would have had \$43.3 million of cash and short-term investments at May 31, 2000. This cash, together with the net proceeds from this offering of an estimated \$2.0 million after the payment of the \$300 million dividend to Eaton, will be available to us for working capital and other corporate purposes. See "Use of Proceeds".

Net working capital was \$190.0 million at March 31, 2000 as compared to \$169.8 million at December 31, 1999, \$91.0 million at December 31, 1998 and \$149.0 million at December 31, 1997. The current ratio at those dates was 3.6 as compared to 3.6, 2.6 and 2.7, respectively. The increase in accounts receivable and inventory was the primary cause of the increase in working capital at March 31, 2000 and resulted from increasing sales volume and higher levels of production beginning in the second half of 1999 and continuing into the first quarter of 2000.

Cash (used in) provided by operating activities was (\$2.9 million) for the three months ended March 31, 2000 as compared to (\$39.1 million) in 1999, \$12.2 million in 1998 and (\$6.7 million) in 1997. The cash used in operating activities in 1999 and the first quarter of 2000 was primarily the result of increased accounts receivable and the build-up of inventory balances by period end, resulting from expanding sales volume partially offset by higher accounts payable and improved earnings performance.

Budgeted capital expenditures for 2000 are \$24.1 million, a significant portion of which will be used to build a 140,000 square foot expansion of our Beverly, Massachusetts facility to house an advanced process development, product demonstration and customer training center for all the equipment we produce, and an expansion of our Rockville, Maryland manufacturing and

research facilities. We had capital expenditures of \$0.3 million in the first quarter of 2000, \$16.9 million in 1999, \$15.0 million in 1998 and \$14.2 million in 1997. The amount of our future capital requirements will depend on a number of factors, including the timing and rate of the expansion of our business. We anticipate increased capital expenditures to support anticipated worldwide sales growth.

Our joint venture arrangements provide that any SEN financing must be approved by Sumitomo and us. In recent years, SEN has satisfied its capital needs with unsecured short-term bank financing. Following our separation from Eaton, lenders to SEN may require our guarantee or impose other terms and conditions less favorable to SEN than in the past.

We currently believe that our cash and short-term investments, the receivable due from Eaton and the portion of the net proceeds from this offering being retained by us will provide sufficient capital to fund our operations for at least the next 18 months. We cannot assure you, however, that the underlying assumed levels of sales and expenses will prove to be accurate. We may need to raise additional funds through public or private financings or other arrangements in order to:

- support more rapid expansion of our business than we anticipate;
- develop and introduce new or enhanced products or services;
- respond to competitive pressures;
- invest in or acquire businesses or technologies; or
- respond to unanticipated requirements or developments.

We cannot be certain that financing will be available to us on favorable terms when we need it. We do not intend to raise additional equity capital prior to the complete divestiture by Eaton of our common stock to Eaton shareholders and for two years following any divestiture, we would be restricted in raising substantial amounts of equity capital under our tax sharing and indemnification agreement with Eaton. If additional funds are raised through the issuance of equity securities, dilution to existing stockholders may result. Future debt financings could involve restrictive covenants that may limit the manner in which we conduct our business. If sufficient funds are not available, we may not be able to introduce new products and services, expand the development of our product platform or compete effectively in any of our markets, any of which could materially harm our business, financial condition and operating results.

#### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

##### MARKET RISK DISCLOSURE

We are subject to various inherent financial risks attributable to operating in a global economy.

##### INTEREST RATE SENSITIVITY

As of December 31, 1999 and March 31, 2000, we had cash and short-term investments of \$3.5 million and \$2.8 million, respectively. See "Management's Discussion and Analysis -- Liquidity and Capital Resources" for a discussion of the cash that we expect to have available after the offering.

##### FOREIGN CURRENCY EXCHANGE RISK

Historically, our exposure to foreign exchange rate risk has been managed on an enterprise-wide basis as part of Eaton's risk management strategy. Substantially all of our sales are billed in U.S. dollars, thereby reducing the impact of fluctuations in foreign exchange rates on our results. Our investment in SEN and our royalty and equity income from SEN are subject to foreign

currency exchange risks. We are currently evaluating our exchange rate risk management strategy.

#### EQUITY SECURITY PRICE RISK

We do not own any equity security investments which are subject to price risk and, therefore, we do not currently have any direct equity price risk.

#### EFFECTS OF RECENT ACCOUNTING PRONOUNCEMENTS

In 1998, Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities", was issued. This Statement requires all derivatives to be recognized on the balance sheet at fair value. We must adopt the standard by the first quarter of 2001. We expect that the adoption of the standard will have an immaterial effect on earnings and financial position, if any.

In December 1999, the SEC issued SAB 101, "Revenue Recognition". We have concluded that our existing revenue recognition policy continues to be appropriate and in accordance with generally accepted accounting principles and SAB 101.

#### YEAR 2000

We were included in Eaton's Year 2000 compliance program under which Eaton incurred substantial program costs. We believe that our significant vendors and service providers are Year 2000 compliant and have not, to date, been made aware that any of them have experienced Year 2000 disruptions in their systems. Accordingly, we do not anticipate incurring material expenses or experiencing any material operational disruptions as a result of any Year 2000 problems. Based on operations since January 1, 2000, we have not experienced any significant business disruptions related to the Year 2000 issue.

## BUSINESS

## OVERVIEW OF OUR BUSINESS

We are a leading producer of ion implantation equipment used in the fabrication of semi-conductors in the United States, Europe and Asia Pacific. Our Japanese joint venture licenses our technology and is the leading producer of ion implantation equipment in Japan. We also produce dry strip, photostabilization and rapid thermal processing equipment, which is used in semiconductor manufacturing primarily before and after the ion implantation process. In addition, we provide extensive aftermarket service and support, including spare parts, equipment upgrades, maintenance services and customer training.

## INDUSTRY OVERVIEW

The semiconductor industry is continuing to experience growth in demand for semiconductors, or chips, for use in personal computers, telecommunication equipment, digital consumer electronics, wireless communication products and other applications. Semiconductors are tiny silicon slivers that contain complete electronic circuits. Most semiconductors are built on a base of silicon, called a wafer, and consist of two main structures. The lower structure is made up of the active components, typically transistors or capacitors, and the upper structure consists of the circuitry that connects the active components.

According to World Semiconductor Trade Statistics, an industry trade association, total worldwide sales of semiconductors were \$149 billion in 1999. While the semiconductor industry has been highly cyclical, the worldwide semiconductor market, as measured by total sales, grew at an average annual compound rate of 12.0% in the period from 1989 through 1999. World Semiconductor Trade Statistics projects continued growth at higher rates for the next two years. A significant factor in the growth in demand for semiconductors has been the continuous technological innovation in chip design and manufacture, which has enabled semiconductor manufacturers to produce chips with greater functionality at a lower cost per function. For example, the semiconductor industry historically has been able to double the number of transistors on a given space of silicon every 18 to 24 months.

The increasing demand for semiconductors has required manufacturers to increase chip production. Manufacturers have primarily increased production through efficiency improvements, the addition of manufacturing equipment in existing fabrication facilities and the construction of new fabrication facilities. Efficiency improvements have been derived largely from increased equipment utilization and higher manufacturing yields. In recent years, however, their ability to make significant efficiency gains has diminished. For that reason, as market conditions have improved since early 1999, semiconductor manufacturers have been meeting the increased demand for chips mostly by building new fabrication facilities, which usually cost \$1.0 billion or more, and by making additional equipment purchases to expand existing fabrication facilities.

When new fabrication facilities are built, customers have an opportunity to increase the size of the wafer. By increasing the wafer size, semiconductor manufacturers can produce more chips per wafer, thus reducing the overall manufacturing cost per chip. The more advanced wafer fabrication facilities are currently using circular wafers with a diameter of 200 millimeters, up from the 100 millimeter diameter wafers used 10 to 15 years ago. Currently, some semiconductor manufacturers are commencing pilot production lines using 300 millimeter wafers. It is anticipated that additional manufacturers will add 300 millimeter production capabilities within the next two to five years, which will lead to demand for equipment with 300 millimeter capability.

During the period 1992 through 1998, the most recent semiconductor equipment cycle, growth in sales of high current and high tilt/medium current ion implantation equipment has been lower than the growth in chip sales, while the growth in sales of high energy implanters has been substantially higher. See "Products and Services". Over the past ten years, based on Dataquest

data, sales of ion implantation equipment as a whole have grown faster during periods of high capital spending by semiconductor manufacturers, particularly spending for new fabrication facilities.

Given the magnitude of the investment needed to build a new fabrication facility, independent semiconductor manufacturers, or foundries, have emerged to serve semiconductor producers who design but do not manufacture chips. In addition, foundries manufacture semiconductors for producers who choose to outsource part of their demand. Foundries, which are predominantly located in Taiwan and Singapore, have become significant purchasers of semiconductor equipment. Dataquest forecasts a worldwide rise in semiconductor capital equipment purchases this year of over 40%, and we are fully participating in what we believe will be a multi-year industry rebound.

#### OUR BUSINESS STRATEGY

Our objective is to enhance our position as a leading producer of ion implantation equipment and to offer on an integrated basis a broad array of products and services used primarily in the front-end of the chip fabrication process. Key elements of our strategy to achieve our objective include:

**INCREASE ION IMPLANTATION MARKET PENETRATION.** We seek to increase our share of the ion implantation market by leveraging our competitive strengths in advanced ion implant technology and by capitalizing on key trends toward smaller, faster, more complex chips, such as those used in personal computers, cellular phones and other electronic products. As the market leader in high energy, the fastest growing ion implant sector, we intend to continue to broaden the applications served by our high energy products to capture a greater percentage of the total ion implantation market. We also have broadened our high current product line to include ultra low energy implantation to capitalize on the trend towards faster chips. In addition, we intend to continue to invest in our high tilt/medium current products in order to offer the complete range of ion implantation products.

**MAINTAIN STRONG COMMITMENT TO RESEARCH AND DEVELOPMENT.** Semiconductor manufacturing processes continue to undergo rapid technological change. As a result, we believe that we must continue to be at the forefront of technological innovation in the ion implant sector. We believe that we developed the first high current ion implantation system in the late 1970s and the first high energy ion implantation system in the 1980s. In 1999, we installed what we believe is the first 300 millimeter high energy ion implantation system, which we believe will be the next generation of ion implant products. We also plan to continue to devote substantial research and development resources to our dry strip, photostabilization and rapid thermal processing systems. We pioneered the development of photostabilization in 1983, and we believe that we have developed the only 300 millimeter production photostabilizer in the industry. SEN devotes substantial resources to research and development and we receive a non-exclusive, royalty-free license for the ion implant technology developed by SEN.

**CAPITALIZE ON BROAD PRODUCT LINES TO PROVIDE AN INTEGRATED RANGE OF FRONT-END EQUIPMENT.** In addition to our broad offering of ion implantation systems, we offer a range of products utilized in semiconductor manufacturing primarily before and after the ion implantation process. The high degree of interaction among these individual process steps affects overall process quality, throughput and cost. We believe that semiconductor manufacturers will increasingly seek integrated solutions from their equipment suppliers and we intend to highlight the productivity, high degree of interaction and cost advantages of our broad product line.

**PROVIDE LOWEST COST OF OWNERSHIP.** Total cost of ownership is an important criterion customers apply when selecting semiconductor capital equipment. We seek to provide the lowest cost of ownership by developing products with the best combination of reliability, advanced technology, high throughput and high yield. For example, we have expanded the range of steps

that our most capable high energy machines can perform and, at the same time, we have developed a lower cost high energy machine for those customers with limited need for the broad functionality of our most capable machines. All of our ion implantation systems are designed on a common platform, utilizing the same wafer handling robot, ion source, vacuum system and operator interface. Our dry strip and photostabilization equipment also share the same wafer handling platform. These common platforms reduce our design and production time and costs, and overall cost of ownership for our customers by minimizing training, spare parts inventory and maintenance.

**PROVIDE SUPERIOR CUSTOMER SERVICE.** Prompt and effective field support is critical to our sales efforts, due to the complexity of our machines and the substantial operational and financial commitments made by our customers when they purchase our equipment. We intend to increase our sales and customer support infrastructure in all our markets, particularly in Taiwan, Singapore and South Korea, to capitalize on growth opportunities. Furthermore, we continually seek to improve our responsiveness to customer needs. For example, our SMART internet-based parts supply system streamlines the replenishment of customers' inventory, and we are expanding our Beverly, Massachusetts facility to provide training and education to our customers on advanced processes for all our products.

**REDUCE CYCLE TIMES IN OUR BUSINESS.** We seek to improve our operating efficiencies by, among other things, reducing cycle times across our business. For example, we recently adopted modular testing of our ion implantation products, which avoids the need to assemble, test and disassemble a complete unit prior to shipment. This "ship from cell" process has enabled us to cut approximately four weeks from the average period from receipt of an order to shipment of the product. We have also sought to reduce the development cycle for new products through a collaborative process whereby our engineering, manufacturing and marketing personnel work closely together with one another and with our customers at an earlier stage in the development process.

#### PRODUCTS AND SERVICES

We are a leading producer of ion implantation equipment. We also offer other products and services, including dry strip, photostabilization and rapid thermal processing products used to produce semiconductor devices. We provide extensive aftermarket service and support to our customers, including spare parts, equipment upgrades, maintenance services and customer training.

#### ION IMPLANTATION SYSTEMS

Ion implantation is a principal step in the manufacturing process for semiconductors. An ion implanter is a large, technically advanced machine that injects charged ions, or dopants, such as arsenic, boron or phosphorus, into a silicon wafer through an accurately controlled electric field, with a precisely defined amount of energy ranging between several hundred and three million

volts. Certain areas of the silicon wafer are blocked off by a material known as photoresist so that the dopants will only enter the wafer where needed. The dopants change the electrical properties of the silicon wafer to create the active components of a chip. The amount of energy determines the depth to which the dopant penetrates the wafer, and the amount of dopant or dose determines how much the electrical properties of the silicon wafer are changed.

There are three types of ion implantation machines: high energy, high current and high tilt/medium current. Each type of machine produces chips with varying degrees of computing speed, miniaturization and power consumption. Most complex chips require implant steps from each type of machine and the manufacturer determines the optimal combination of machines based on the performance requirements of the chips being produced. We have designed our products to enhance the manufacturers' flexibility in combining machines during the implant process.

A high energy implanter is typically used to implant dopant deep in the wafer, which allows improved isolation of adjoining circuits on the same chip. High energy implanters enable a closer stacking of circuits, which results in more functionality for the consumer. As a result, in recent years the use of high energy implanters has expanded into the manufacture of virtually all types of chips. They are used in the manufacture of smaller, more complex chips, such as those used in cellular phones and other hand held devices because they enable more functionality with less power consumption. They are also increasingly used in the manufacture of chips that are used in personal computers because they permit greater computing power from a chip of a given size.

For implants that require high dose and medium to very shallow depth, a high current implanter is most often used. In some applications, very shallow, high-dose implants result in faster chips, an important feature for microprocessors, digital signal processors and other chips.

Most ion implant steps occur with the ion beam perpendicular to the wafer. A high tilt/medium current implanter, however, is primarily used for the implant step that requires the ion beam to be positioned at an angle to the wafer to implant dopants below preexisting features. The use of the high tilt/medium current implanter extends into some high energy applications to allow customers greater flexibility in selecting the most optimal combination of implanters for their needs.

The following table shows the 1999 estimated overall market size for high energy, high current and high tilt/medium current implanter machines (excluding aftermarket sales and service revenues), the estimated annual compound growth rate for each of these markets from 1992 to 1998, the 1999 estimated combined market share for our sales and SEN's sales of each product line and the 1999 estimated average selling price for industry sales of each product line. All data in the table has been supplied by Dataquest.

We manufacture a complete line of high energy, high current and high tilt/medium current implanters, which is broader than that of our competitors. The following chart lists our principal products:

Our implanters have been designed with a process overlap that allows customers to tailor the combination of high energy, high current and high tilt/medium current implanters to their specific needs. High energy and high current implanters can be used to cover most high tilt/medium current applications, and the high tilt/medium current implanter can be used for some high energy applications. All of our ion implantation systems share certain of the same modular subsystems for efficiency and convenience. The subsystems for wafer handling robot, ion source, vacuum system and operator interface are common among our three implanters. This common platform reduces our design and production time and costs, and overall cost of ownership for our customers by minimizing training, spare parts inventory and maintenance.

Our high energy and high current machines process wafers in batches of 13 to 25 wafers, while, as is common in the industry, our high tilt/medium current machines process one wafer at a time. In addition, our high energy implanters can perform several implants without reloading the wafers, a process known as chaining. We believe that the ability of our high energy machines to process wafers in batches and to chain has contributed to the high growth of that product line.

We intend to continue to broaden the applications served by our high energy products and have recently introduced our HE(MC) implanter to provide a lower cost alternative for those customers with a limited need for the broad functionality of our most capable high energy machines. We also recently introduced our next generation HE3 implanter designed specifically to process 300 millimeter wafers. Two HE3 machines have been installed in 300 millimeter wafer pilot production lines. Our GSD/HE product is the industry's only ion implantation product to be rated "best product" and was the "Grand Award" winner among semiconductor capital equipment products, an award sponsored by Semiconductor International, an industry publication.

We believe that we developed the first high current ion implantation system. We were ranked number one in this product sector in 1999, according to Dataquest. We have recently introduced our LED implanter, which extends the energy range of our GSD/200E(2) implanter to lower energies than can be achieved with traditional high current implanters. The ULE2 is an ultra low energy, high current implanter. These machines respond to the demand for high dose, ultra shallow implants that increase chip speed at acceptable machine throughput rates.

Our high tilt/medium current ion implanter complements our high energy and high current implanters. Our 8250HT targets high tilt applications that cannot be performed with high energy or high current implanters and extends into some high energy applications to allow customers a flexible combination of implanters. We target our 8250HT high tilt/medium current machine for the relatively few steps that our high energy and high current machines cannot complete. The most important step is an angular implant designed to insert dopants below preexisting features on the wafer. Our recently introduced MC3 high tilt/medium current implanter is designed to process 300 millimeter wafers.

During the past three years, we have also produced a small number of ion implanters used in the production of laptop computer screens and other flat panel displays. We also continue to service the machines that have been installed. Our net sales from the sale and service of these implanters were approximately 1% or less of net sales in each of the last three years.

#### OTHER PRODUCTS

We also produce dry strip, photostabilization and rapid thermal processing equipment, which is used in semiconductor manufacturing primarily before and after the ion implantation process. We introduced our rapid thermal processing products in 1996 and we entered the dry strip and photostabilization product markets through our acquisition of Fusion in August 1997. Fusion pioneered the development of photostabilization in 1983.

We estimate that, in 1999, the market for photostabilizer equipment was \$18 million and our market share was approximately 75%. Dataquest reports that, in 1999, the market for dry strip equipment was \$227 million and our market share was 14% and that the market for rapid thermal processing equipment was \$331 million and our market share was 2%.

**DRY STRIP AND PHOTOSTABILIZATION SYSTEMS.** In the process steps prior to ion implantation, certain areas of the silicon wafer are blocked off to ensure that only defined areas of the wafer are processed. First, a light sensitive, polymer-based liquid, called photoresist, is spread in a uniformly thin film on the wafer. After baking to solidify the liquid, light is passed through a stencil, which projects an image on the photoresist by means of a lithographic tool. Thereafter, photostabilization uses ultraviolet light to harden the photoresist in order to provide better performance for the subsequent implant step. After the implant step, the used photoresist must be removed. The primary means of removing excess photoresist and residue is called dry strip. Our dry strip machines, often called ashers, use microwave energy to turn process gases into plasma, which then acts on the surface of the wafer to remove the photoresist and unwanted residue. Dry strip and photostabilization are also used in conjunction with several other steps in the manufacturing process.

The following chart lists our principal products in each category:

| PRODUCT LINE     | CORE PRODUCTS   | RECENTLY INTRODUCED PRODUCTS   |
|------------------|---|--|
| DRY STRIP        | FUSIONGEMINI PLASMA ASHER<br>- High ash rates with low damage<br>FUSIONGEMINI PLASMA ASHER ES<br>- Adds additional capability for dry residue removal | FUSION ES3<br>- Comprehensive dry strip and residue removal with 300 millimeter capability |
| PHOTOSTABILIZERS | FUSIONGEMINI PHOTOSTABILIZER<br>- Propriety ultraviolet light source; high throughput   | FUSION PS3<br>- Industry's only 300 millimeter production-ready photostabilizer            |

Our FusionGemini dual chamber platform is the foundation for both our dry strip and our photostabilizer products. Fusion pioneered photostabilization technology, and we believe that our products remain the industry standard. Our dry strip tools are capable of removing bulk photoresist from the wafer, as well as the residue left behind after bulk strip. This reduces or eliminates the need for further wet chemical stripping by eliminating the use of hazardous chemicals traditionally used for this step. Manufacturing cost is further reduced by the fact that our ashers do not require side access, conserving expensive cleanroom space. Our Fusion ES3 dry strip product, a 300 millimeter dry strip machine, was tested by Sematech, an industry association of semiconductor manufacturers, and met Sematech's 300 millimeter requirements.

Our photostabilizers are used by a majority of integrated circuit manufacturers worldwide because of our proprietary ultraviolet light source and the high throughput of the FusionGemini dual chamber platform. Our recently introduced Fusion PS3 machine has 300 millimeter wafer capability and we believe that it is the only 300 millimeter production-ready photostabilizer available on the market. It has been installed in 300 millimeter pilot production facilities.

**RAPID THERMAL PROCESSING SYSTEMS.** At a number of points during the manufacturing process, silicon wafers need to be heated rapidly, often to 900 degrees centigrade or higher, in order to complete chemical or electronic reactions. For example, high temperature treatment is needed after all the dopants have been implanted in the wafer so that the dopants will settle into the correct atomic state. This heating process is referred to as rapid thermal processing, or RTP.

Our RTP machine employs a patented design to process a single wafer in a hot wall vertical reactor. The reactor has three zones that are heated by heating coils, as well as an actively cooled base, which create a uniform temperature gradient from top to bottom. The resulting stable temperature profile is inherently repeatable, accurate and reliable. Rapid heating and cooling of the wafer is achieved by simply adjusting the vertical position of the wafer within the reactor. Most other RTP equipment manufacturers use more expensive lamp-based RTP systems, which require frequent lamp replacement and require expensive control systems. For this reason, we believe our RTP machines have lower overall operating costs than these lamp-based systems.

The following chart lists our principal RTP products:

| PRODUCT LINE | CORE PRODUCTS   | RECENTLY INTRODUCED PRODUCTS              |
|--------------|---|---|
| RTP SYSTEMS  | SUMMIT<br>- Accommodates 0.18m devices<br>- Repeatable, accurate temperature gradient | SUMMIT 300<br>- 300 millimeter capability |

Our Summit series of RTP systems has a flexible design, offering both single and dual chamber systems. Its engineering incorporates recent developments in furnace design,

temperature measurement, emission correction techniques and wafer handling. Our recently introduced Summit 300 has 300 millimeter wafer capability.

#### AFTERMARKET SUPPORT AND SERVICES

We offer our customers extensive aftermarket service and support throughout the lifecycle of the equipment we manufacture. We believe that more than 3,200 of our products, including products shipped by SEN, are in use worldwide. The service and support that we provide include spare parts, equipment upgrades, maintenance services and customer training. At March 31, 2000, we offered aftermarket service at 49 locations in nine countries; 13 of these were combined sales and service offices, and the balance were service-only offices, mostly located in our principal customers' fabrication facilities.

Our customer support network includes approximately 500 sales and marketing personnel and service engineers, including field service engineers, spare parts support staff and applications engineers. An additional 300 persons located at our three manufacturing facilities work with our customers to provide advanced equipment support, applications support, customer training and documentation.

Most of our customers maintain spare parts inventories for our machines. In 1997, we launched a web-based spare parts management and replenishment tracking program, or SMART, to facilitate internet communication with our customers. The implementation of our SMART program has helped us to achieve reduced order fulfillment costs and cycle times.

Our process technology center in Beverly, Massachusetts is available to customers for developing and testing advanced ion implantation and RTP processes, and our process technology center in Rockville, Maryland is available to customers for developing and testing dry strip and photostabilization processes. At these facilities, we also make available to our customers advanced testing and analysis equipment. In addition, we are constructing a 140,000 square foot addition to the Beverly facility, which will house an advanced process development, product demonstration and customer training center for all of the equipment we produce.

The ability to provide prompt and effective field support is critical to our sales efforts, due to the substantial operational and financial commitments made by customers that purchase our systems. Our customer support programs, combined with our research and development efforts, have served to encourage use of our systems in production applications and have accelerated penetration of certain key accounts.

#### SALES AND MARKETING

We primarily sell our equipment and services through our direct sales force. At March 31, 2000, we had 13 sales offices in seven countries. Aftermarket service and support is also offered at all of these offices. In the United States, we conducted sales and marketing activities from seven locations. Outside of the United States, our sales offices are located in Taiwan, South Korea, Germany, Singapore, Italy and France. At March 31, 2000, we had approximately 500 sales and marketing personnel and service engineers. Our sales objective is to work closely with customers to secure purchase orders for multiple systems as they expand existing facilities and build new wafer facilities. We believe that our marketing efforts are enhanced by the technical expertise of our research and development personnel. At March 31, 2000, over 44% of our workforce consisted of engineers, scientists and technical personnel.

We sell our photostabilizers, dry strip and rapid thermal processing products to semiconductor fabricators in Japan through a distribution agreement with Sumitomo entered into in 1999. The agreement also provides for the parties to discuss the manufacture and sale of these products through SEN if sales volumes in the future meet agreed levels. The distribution

arrangement expires in 2002 and thereafter is renewable from year to year, unless either party has given the other party six months prior written notice.

In addition, isolated sales are made in smaller markets through distributors and manufacturers representatives. SEN sells its machines and services directly to semiconductor fabricators in Japan.

The semiconductor fabrication industry is currently experiencing significant growth in Asia, particularly in Taiwan, Singapore and South Korea. As a result, we have also increased our focus on markets in Asia outside of Japan by increasing our sales and customer support personnel focused on those countries. We intend to make additional investments in this region over the next few years.

International sales, including export sales from our U.S. manufacturing facilities to foreign customers and sales by our foreign subsidiaries and branches, accounted for 53.5% of total net sales in 1999, 49.4% in 1998 and 55.4% in 1997. We expect that international sales will continue to account for a significant portion of our net sales. International sales are subject to various risks that are described under "Risk Factors--Risks Relating to Our Business--A Decline in Our International Sales Could Harm Our Business". Substantially all of our sales are denominated in U.S. dollars. SEN's sales are denominated in Japanese yen.

#### CUSTOMERS

In 1999, the top 20 semiconductor manufacturers accounted for approximately 75% of total semiconductor industry capital spending. These manufacturers are from the four largest semiconductor manufacturing regions in the world: the United States, Asia Pacific (Taiwan, South Korea and Singapore), Japan and Europe. We and SEN serve all of the 20 largest semiconductor manufacturers. We believe that more than 3,200 of our products, including products shipped by SEN, are in use worldwide.

Net sales to our ten largest customers accounted for 48.7%, 37.6% and 59.1% of net sales, respectively, in 1997, 1998 and 1999. We expect that sales of our products to relatively few customers will continue to account for a high percentage of net sales for the foreseeable future. In 1999, net sales to STMicroelectronics N.V., Motorola, Inc. and Texas Instruments Incorporated accounted for 15.9%, 10.6% and 10.5%, respectively, of our net sales. No other customer accounted for as much as 10% of our net sales in 1999. In 1997 and 1998, no single customer accounted for as much as 9.0% of our net sales.

#### SEN JOINT VENTURE

In 1982, we established our SEN joint venture with Sumitomo to provide us with additional manufacturing capacity for our ion implant products and local access to the Japanese semiconductor equipment market. Under our arrangements with Sumitomo, our ion implant products may be sold in Japan only through the joint venture. SEN may sell its products outside Japan only with our consent and through us as exclusive distributor. There are isolated sales of our equipment into Japan to our non-Japanese customers and isolated sales of SEN equipment outside of Japan primarily to its Japanese customers and their joint ventures. SEN manufactures ion implantation equipment at its Toyo, Japan location under the license from us described below. From time to time, we sell ion implantation equipment and other products to SEN. In 1999, our net sales of products to SEN amounted to \$6.7 million.

As part of the joint venture arrangement, we have entered into a separate license agreement with SEN, last renewed in 1996, under which we have granted SEN an exclusive license in Japan to use our current and future ion implantation technology and to manufacture, use and sell products using our current and future ion implantation patents. We have also granted SEN a non-exclusive license to sell ion implantation products outside of Japan. We received royalty income

from SEN under the license agreement of \$6.2 million in 1997, \$4.0 million in 1998 and \$3.8 million in 1999. The license agreement expires on December 31, 2004 and is automatically renewable for successive five year periods unless either party has provided one year's prior notice of termination.

SEN has the right to use the name "EATON" as part of its corporate name under a corporate name agreement with Eaton that has been assigned to us. We have the right, however, to terminate that agreement at any time upon 60 days' notice and we are obligated under our trademark license agreement with Eaton to terminate the corporate name agreement on December 31, 2004. SEN also has the right to use in Japan the trademarks "EATON" and "NOVA" on its ion implantation products under SEN's separate trademark license agreement with Eaton that also has been assigned to us. SEN does not, however, have the right to use "EATON" in logo format. The SEN trademark license agreement requires SEN to pay us semiannual royalties equal to 0.5% of net sales. SEN must maintain quality and reliability standards, and we are entitled to terminate our trademark agreement with SEN at any time for cause and we are obligated under our trademark license agreement with Eaton to terminate the SEN trademark license agreement on December 31, 2004.

#### RESEARCH AND DEVELOPMENT

Our industry continues to experience rapid technological change, requiring us to frequently introduce new products and enhancements. Our ability to remain competitive in this market will depend in part upon our ability to develop new and enhanced systems and to introduce these systems at competitive prices and on a timely and cost effective basis.

We devote a significant portion of our personnel and financial resources to research and development programs and seek to maintain close relationships with our customers to remain responsive to their product needs. We have also sought to reduce the development cycle for new products through a collaborative process whereby our engineering, manufacturing and marketing personnel work closely together with one another and with our customers at an earlier stage in the process. We also use 3D, computer-aided design, finite element analysis and other computer-based modeling methods to test new designs. We conduct our research and development programs at our facilities in Beverly and Peabody, Massachusetts and in Rockville, Maryland. SEN also conducts research and development in Toyo, Japan.

Our product development efforts have led to numerous industry breakthroughs, including the first production high current implantation system, the first production high energy implanter and the first photostabilizer.

An important focus of our current research and development efforts is directed at machines capable of processing 300 millimeter wafers. Our 300 millimeter high energy ion implanter, the HE3, and our 300 millimeter photostabilizer, the PS3, were installed by Semiconductor 300 in 1999 in its Dresden, Germany pilot production facility.

Our expenditures for research and development during 1997, 1998 and 1999 were \$70.5 million, \$78.7 million and \$51.6 million, respectively, or 15.3%, 29.6% and 13.0% of net sales, respectively. Our budgeted research and development expenditures for 2000 are approximately \$69.0 million, of which \$16.1 million was spent in the first quarter of 2000. The increase in research and development expenditures in 2000 as compared to 1999 primarily reflected our research focus to develop products capable of processing 300 millimeter wafers. We expect in future years that research and development expenditures will continue to represent a substantial percentage of net sales.

## MANUFACTURING

We manufacture our products at facilities in Beverly and Peabody, Massachusetts and in Rockville, Maryland. In addition, SEN manufactures products at its facility in Toyo, Japan.

Our Beverly, Massachusetts facility manufactures our high energy, high current and high tilt/medium current ion implantation systems. In 1999, we completed an 80,000 square foot expansion of this facility.

We manufacture photoresist removal and curing systems in our Rockville, Maryland facility, including our photostabilizer and dry strip product lines. We currently manufacture our rapid thermal processing products in our Peabody, Massachusetts facility, but we are considering relocating the Peabody facility to our Beverly plant.

Our manufacturing facilities employ advanced manufacturing methods and technologies, including lean manufacturing, Six Sigma controls and processes and web-enabled inventory purchase systems. We manufacture our products in cleanroom environments that are similar to the cleanrooms used by semiconductor manufacturers for wafer fabrication. This procedure is intended to reduce installation and production qualification times and the amount of particulates and other contaminants in the assembled system, which in turn improves yield and reduces downtime for the customer. After testing, the system is disassembled and packaged to maintain cleanroom standards during shipment. We recently adopted modular testing of our ion implantation products, which avoids the need to assemble, test and disassemble a complete unit prior to shipment. This "ship from cell" process has enabled us to cut approximately four weeks from the average period from receipt of an order to shipment of the product.

We purchase materials, components and subassemblies, such as pumps, machine components, power supplies and other electrical components, from various suppliers. These items are either standard products or built to our specifications. Some of the components and subassemblies included in our products are obtained either from a sole source or a limited group of suppliers, which could result in disruptions to our operations. We have installed a web-based supply chain system in order to increase efficiency and cut costs associated with obtaining materials and components. This system electronically exchanges information with our vendors as to purchase orders, forecasts and automatic delivery updates.

## COMPETITION

The semiconductor equipment market is highly competitive and is characterized by a small number of large participants. We compete in four principal product markets primarily at the front-end of the semiconductor manufacturing process: ion implantation, dry strip, photostabilization and rapid thermal processing.

A substantial investment is required by customers to install and integrate capital equipment into a semiconductor production line. As a result, once a semiconductor manufacturer has selected a particular vendor's capital equipment for a production line, we believe that most manufacturers continue to rely heavily on the incumbent supplier's equipment for that production line. However, we believe that, although the existing suppliers have some advantage in supplying a new fabrication facility for the same manufacturer, the manufacturer will also take into account technological advances and other competitive factors in deciding from whom to buy.

In addition to the importance of preexisting relationships, significant competitive factors in the semiconductor equipment market include price/cost of ownership, performance, customer support, breadth of product line, distribution and financial viability. Price wars have not been common in our industry.

## ION IMPLANTATION

We are a leading producer of ion implantation equipment used in the fabrication of integrated circuits and, together with our Japanese joint venture, were ranked number one in sales in the world in this category for 1999 by Dataquest. In high energy equipment, where we have a commanding market position, our principal competitor is Varian Semiconductor Equipment Associates, Inc. ("Varian"). In high current products, we and Applied Materials Inc. have substantial market shares and Varian has a smaller share. In high tilt/medium current equipment, where we have a small market share, Varian has a commanding market position. SEN is the largest manufacturer of ion implantation equipment in Japan and competes with Nissin Electric Co., Ltd., Varian, Ulvac Technologies, Inc. and Applied Materials Inc. for sales in that market.

## DRY STRIP, PHOTOSTABILIZATION AND RAPID THERMAL PROCESSING

Our principal competitors in the dry strip product market are GaSonics International Corp., Mattson Technology Inc., KEM and Canon Inc., and our principal competitor in photostabilization is Ushio Inc.. Our chief competitors in the rapid thermal processing equipment market are Applied Materials Inc., Steag AG and Dainippon Screen Mfg. Co., Ltd.

## INTELLECTUAL PROPERTY

We rely on patent, copyright, trademark and trade secret protection, as well as contractual restrictions, in the United States and in other countries to protect our proprietary rights in our products and our business. At March 31, 2000, we had 134 patents in the United States and 232 patents in other countries, as well as 416 patent applications (63 in the United States and 353 in other countries) on file with various patent agencies worldwide. We intend to file additional patent applications as appropriate. Although patents are important to our business, we do not believe that we are substantially dependent on any single patent or any group of patents.

We have trademarks, both registered and unregistered, that are maintained to provide customer recognition for our products in the marketplace. We have a license from Eaton to use the Eaton trademark and logo for a fixed period of time in connection with the sale of semiconductor manufacturing equipment. See "Arrangements with Eaton--Trademark License Agreement".

We have agreements with third parties, mostly as licensor, that provide for the licensing of patented or proprietary technology. These agreements include royalty-bearing licenses and technology cross-licenses. Our license agreement with SEN is described above under "SEN Joint Venture". No other license is material to us.

There has been substantial litigation regarding patent and other intellectual property rights in semiconductor-related industries. For example, on February 3, 2000, we filed suit in California Superior Court against Advanced Ion Beam Technology and Jiong Chen, a principal of that company, alleging misappropriation of trade secrets, unfair competition, common law misappropriation and breach of contract. Mr. Chen worked for us as a principal scientist from 1994 until January 1999. During that period, he worked with proprietary ion beam technology, which we believe he later used in violation of an employee confidentiality agreement. We also are defending a reexamination before the United States Patent and Trademark Office of a patent, expiring in 2005, which relates to ion implantation equipment having a significant market share. While this patent is important to us, we do not believe that any adverse final disposition is likely to materially affect us.

We can give no assurance that we, our licensors, licensees, customers or suppliers will not be subject to claims of patent infringement or claims to invalidate our patents, and that any such claim will not be successful and require us to pay substantial damages or delete certain features from our products or both.

## BACKLOG

As of March 31, 2000, our backlog was \$166.1 million, as compared to \$93.8 million, \$27.8 million and \$67.1 million, respectively, for year end 1999, 1998 and 1997. Our policy is to include in backlog only those orders for which we have accepted purchase orders. All orders are subject to cancellations or rescheduling by customers with limited or no penalties. Due to possible changes in system delivery schedules, cancellations of orders and delays in systems shipments, our backlog at any particular date is not necessarily indicative of our actual sales for any succeeding period. In addition, our backlog at the beginning of a quarter typically does not include all orders required to achieve our sales objectives for that quarter and is not a reliable indicator of our future sales.

## PROPERTIES

We have a total of 35 properties, of which 26 are located in the United States and the remainder are located in Asia and Europe, including offices in Taiwan, Singapore, South Korea, Italy, Germany, France and the United Kingdom. Of these properties, two are owned and 33 are leased. We own our 54,600 square foot corporate headquarters in Beverly, Massachusetts located adjacent to our Beverly manufacturing facility.

Our manufacturing facilities are listed below:

| FACILITY LOCATION<br>----- | PRINCIPAL USE<br>-----  | SQUARE FOOTAGE<br>(OWNED/LEASED) |
|----------------------------|---|----------------------------------|
| Beverly, Massachusetts     | Manufacturing of ion implantation products and research and development | 310,200 (owned)                  |
| Peabody, Massachusetts     | Manufacturing of rapid thermal processing products                      | 20,000 (leased)                  |
| Rockville, Maryland        | Manufacturing of photoresist and photostabilization products            | 151,000 (leased)                 |

Our Japanese joint venture manufactures ion implantation products in a 300,300 square foot owned facility located in Toyo, Japan.

The Beverly facility includes an 11,000 square foot demonstration line, which is used to develop next-generation application solutions for specific customers, as well as to demonstrate the full range of our integrated process equipment. We also have a process technology center in Rockville, Maryland that is available to customers for developing and testing dry strip and photostabilization processes.

We are building a 140,000 square foot facility in Beverly, Massachusetts which will house an advanced process development, product demonstration and customer training center with all of the equipment we produce, and we are expanding our manufacturing and research facilities in Rockville, Maryland. In 1998, as part of our restructuring, we closed our Austin, Texas ion implant manufacturing facility and transferred production to our Beverly, Massachusetts facility. On May 18, 2000, we sold our Austin facility for net proceeds of \$11.0 million, a price that approximated book value.

We do not believe there is any material, long-term, excess capacity in our facilities, although utilization is subject to change based on customer demand. We believe that our manufacturing facilities and equipment generally are well-maintained, in good operating condition, suitable for our purposes, and adequate for our present operations. Our Beverly, Massachusetts and Rockville, Maryland facilities are ISO 9001 certified.

## EMPLOYEES

As of March 31, 2000, we had 1,717 full-time and 165 temporary employees worldwide, of which 1,663 were employed in North America, 119 in Asia and 100 in Western Europe. At that date, more than 44% of our workforce consisted of scientists, engineers and technicians. All of our employees have entered into confidentiality and noncompetition agreements with us. At that date, none of our employees based in the United States was represented by a union, and we have never experienced a work stoppage, slowdown or strike. Our employees based in Germany are subject to collective bargaining agreements. We consider our relationship with our employees to be good.

## ENVIRONMENTAL

We are subject to environmental laws and regulations in the countries in which we operate that regulate, among other things: air emissions; water discharges; and the generation, use, storage, transportation, handling and disposal of solid and hazardous wastes produced by our manufacturing, research and development and sales activities. As with other companies engaged in like businesses, the nature of our operations exposes us to the risk of environmental liabilities, claims, penalties and orders. We believe, however, that our operations are in substantial compliance with applicable environmental laws and regulations and that there are no pending environmental matters that would have a material impact on our business.

## LEGAL PROCEEDINGS

From time to time, a number of lawsuits, claims and proceedings have been or may be asserted against us relating to the conduct of our business, including those pertaining to patent validity or infringement, commercial, employment and employee benefits matters. While the outcome of litigation cannot be predicted with certainty, and some of these lawsuits, claims or proceedings may be determined adversely to us, we do not believe that the disposition of any such pending matters is likely to materially affect us.

(1) All Other Compensation contains several components. The Eaton Corporation Share Purchase and Investment Plan permits an employee to contribute from 1% to 6% of salary to the matching portion of the plan. Eaton makes a matching contribution which, except in special circumstances, ranges between \$0.25 and \$1.00 for each dollar contributed by the participating employee, as determined under a formula designed to reflect Eaton's quarterly earnings per share. The amount contributed during 1999 for each named executive officer was as follows: B.R. Bachman, \$4,392 and M.G. Puma, \$4,357. Under an Eaton program, certain executives may acquire an automobile. Under this program for 1999, the approximate cost to Eaton for each named executive officer was: B.R. Bachman, \$9,486 and M.G. Puma, \$7,459. Eaton provides certain executives, including the named executive officers, with the opportunity to acquire individual whole-life insurance. The annual premiums paid by Eaton during 1999 for each of the named executive officers were as follows: B.R. Bachman, \$682 and M.G. Puma, \$706.

## GRANTS OF STOCK OPTIONS

The following table shows all grants of options to acquire shares of Eaton common stock to the executive officers named in the Summary Compensation Table in 1999.

| NAME          | NUMBER OF SECURITIES UNDERLYING OPTIONS GRANTED(#) | % OF TOTAL OPTIONS GRANTED TO EATON EMPLOYEES IN FISCAL YEAR | EXERCISE OR BASE PRICE (\$/SH) | EXPIRATION DATE | POTENTIAL REALIZABLE VALUE AT ASSUMED ANNUAL RATES OF STOCK APPRECIATION FOR OPTION TERM(1) |             |
|---------------|--|--|--------------------------------|-----------------|---|-------------|
|               |  |  |                                |                 | 5%(\$)  | 10%(\$)     |

(1) Potential realizable values are net of exercise price, but before deduction for taxes associated with exercise. These amounts represent certain assumed rates of appreciation only, based on Securities and Exchange Commission rules, and do not represent our estimate of future stock prices. No gain to an optionee is possible without an increase in stock price, which will benefit all stockholders commensurately. A zero percent gain in stock price will result in zero dollars for the optionee. Actual realizable values, if any, on stock option exercises are dependent on the future performance of our common stock, overall market conditions and the option holders' continued employment through the vesting period.

## EMPLOYMENT ARRANGEMENTS

We intend to enter into employment agreements with Mr. Bachman and Ms. Puma effective as of the date of this offering. Each agreement provides for a three-year term of employment. Mr. Bachman's agreement can be extended by mutual consent of the parties. Ms. Puma's is self-extending unless one party notifies the other that the agreement will not be extended. The agreements provide that neither employee may compete with us for a period of 12 months after termination of his or her active employment or the remaining term of his or her agreement whichever is longer, and neither may reveal confidential information for a specified period of time. In the event the agreement and the employee's employment is terminated prior to the end of the term for reasons other than cause, death, disability or voluntary resignation, the employee is entitled to receive all compensation accrued to date, acceleration of vesting of options and other equity rights and base compensation and target bonus, for Mr. Bachman, for the greater of 12 months or the then remaining term or, for Ms. Puma, two years, in each case from the date of termination of employment.

Mr. Bachman's starting base salary will be \$600,000 per year and he will have an annual target incentive compensation of 50% of that amount. Ms. Puma will receive \$380,000 in initial base salary and will have an annual target incentive compensation opportunity of 45% of base salary. Actual incentive compensation for any year may be greater or less if actual performance is greater or less than the target. Base salary and incentive opportunities can be increased by our Board of Directors. The agreements provide that both executives will also participate in the 2000 Plan (as described below), the defined contribution/401(k) Savings Plan and the welfare benefit plans which we sponsor. At the time of the offering, Mr. Bachman and Ms. Puma will be granted options under the 2000 Plan to purchase shares of our common stock at the initial public offering price for the number of shares determined by dividing \$12,000,000 and \$8,000,000, respectively, by the per share option value indicated by the Black-Scholes option valuation model.

Ms. Puma has been granted a credit line by Eaton in the maximum amount of \$500,000. The outstanding balance on that line as of May 1, 2000 was \$175,000. We intend to make comparable credit line arrangements for Ms. Puma and to assume the outstanding balance on that line.

We also intend to enter into change in control agreements with several of our senior officers, including Mr. Bachman and Ms. Puma. These agreements would provide that in the event there was both a change in control and a termination of employment within three years of that change in control for reasons other than voluntary resignation, cause, death or disability, the covered employee would be entitled to severance compensation. Under the change in control agreement, a resignation by a covered employee for reasons of a demotion or reduction in compensation,

benefits or position is a termination by us and is not a voluntary resignation. If severance compensation is payable, severance consists of (i) a cash payment equal to the sum of (a) incentive compensation for the completed portion of the incentive period and (b) the amount determined by multiplying the employee's then salary and average bonus by three, and (ii) continuation of our medical, life and other welfare benefits for three years. We will also reimburse the employee for the effects, including federal, state and local income tax consequences, of any excise tax due on severance compensation.

#### TREATMENT OF EATON OPTIONS

As of March 31, 2000, our employees held options to purchase 579,286 shares of Eaton common stock at a weighted average exercise price per share of \$72.88. The price of Eaton common stock on that date was \$78.00.

If Eaton completes its divestiture of our shares of common stock by means of a spin-off to its shareholders, we intend to assume substantially all of the Eaton options held by our employees on the date of the divestiture. These assumed options would convert at the date of the spin-off by our granting options to our employees to purchase our common stock and cancelling their rights to acquire Eaton shares. The conversion would be done in such a manner that (1) the aggregate intrinsic value of the options immediately before and after the exchange are the same, (2) the ratio of the exercise price per option to the market value per share is not reduced, and (3) the vesting provisions and option period of the Axcelis options do not accelerate or extend the original vesting terms and option period of the Eaton options. Performance vesting provisions would change, as appropriate, to focus on our performance, as opposed to Eaton's performance. No option will be exercisable, however, if the effect of that exercise would prevent us from filing a consolidated federal income tax return with Eaton. If we do not assume substantially all of the Eaton options held by our employees on the date of the divestiture, we intend to make equitable arrangements to preserve the economic value of substantially all Eaton options held by our employees, if the financial reporting consequences are not materially adverse.

#### INCENTIVE PLANS

##### 2000 STOCK PLAN

Our board of directors adopted the 2000 Stock Plan, referred to as the "2000 Plan," on June 12, 2000, and our sole stockholder initially approved our 2000 Plan on June 13, 2000. Our 2000 Plan provides for the grant of incentive stock options to our employees, and for the grant of nonstatutory stock options, restricted stock, stock purchase rights, performance units and other equity-based awards to our employees, directors and consultants.

Number of Shares of Common Stock Available under the 2000 Plan. As of June 12, 2000, a total of 18,500,000 shares of our common stock were reserved for issuance pursuant to the 2000 Plan. No options to acquire shares of our common stock were issued and outstanding as of that date. Our 2000 Plan provides for annual increases in the number of shares available for issuance on the first day of each fiscal year, beginning with our 2001 fiscal year, equal to the lesser of 5% of our outstanding shares of common stock on that date, 5,000,000 shares or a lesser amount determined by our board. The shares represented by the annual increases may not be granted as incentive stock options. No awards under the 2000 Plan will become exercisable or otherwise convertible into our securities if the effect of that exercise or conversion is to cause Eaton to be ineligible to file a consolidated federal income tax return with us, or if the conversion would cause Eaton not to be in control of us for purposes of Section 368(c) of the Internal Revenue Code.

Administration of the 2000 Plan. Our board of directors or, with respect to options intended to qualify as "performance-based compensation" within the meaning of Section 162(m) of the

Internal Revenue Code, the committee described in "Board Structure and Compensation" above) will administer the 2000 Plan. In the case of options intended to qualify as "performance-based compensation" within the meaning of Section 162(m) of the Internal Revenue Code, the committee will consist of two or more "outside directors" within the meaning of Section 162(m) of the Internal Revenue Code. The administrator has the power to determine the terms of the options or stock purchase rights granted, including the exercise price, the number of shares subject to each option or stock purchase right, the exercisability of the options and the form of consideration payable upon exercise.

Effective upon consummation of the offering, each non-employee director will be granted a fully vested, nonstatutory option with a term of ten years to purchase 24,000 shares of common stock at the initial public offering price. In addition, at such time as a member of our initial Board of Directors first becomes a non-employee director, such person will be granted a nonstatutory stock option to purchase up to 24,000 shares of common stock at an exercise price equal to the then fair market value of our common stock. Thereafter, any then non-employee director will receive an annual grant of a fully vested, nonstatutory option with a term of ten years to purchase 12,000 shares of common stock at an exercise price equal to the then fair market value of our common stock.

Options. The administrator determines the exercise price of options granted under the 2000 Plan, but with respect to nonstatutory stock options intended to qualify as "performance-based compensation" within the meaning of Section 162(m) of the Code and all incentive stock options, the exercise price must at least be equal to the fair market value of our common stock on the grant date. The term of an incentive stock option may not exceed ten years, except that with respect to any participant who owns 10% of the voting power of all classes of our outstanding capital stock, the term must not exceed five years and the exercise price must at least equal 110% of the fair market value on the grant date. The administrator determines the term of all other options.

No optionee may be granted an option to purchase more than 1,250,000 shares in any fiscal year, except that in connection with his or her initial service, an optionee may be granted an additional option to purchase up to 1,250,000 shares.

After termination of the employment of an option holder, he or she may exercise his or her option for the period of time stated in the option agreement. Generally, if termination is due to death or disability, the option will remain exercisable until the earlier of the expiration date as provided in the option contract, or the first anniversary of the date of the death or disability or of the date of this offering, whichever is later. If the termination is due to resignation of the optionee or termination by our company, the option will expire immediately upon that event. However, an option may never be exercised later than the expiration of its term.

Restricted Stock. The 2000 Plan permits the administrator to grant restricted shares of common stock to eligible employees. The stock will be subject to such restrictions as the administrator determines appropriate, including lapse of restrictions over time or lapse of restrictions based on attainment of predetermined goals. The administrator may, but is not required to, grant stock purchase rights to participants who receive a grant of restricted stock and timely notify the administrator of his or her electing immediate federal income tax treatment on that grant. The administrator determines the exercise price of stock purchase rights granted under our 2000 Plan. Unless the administrator determines otherwise, the restricted stock purchase agreement will grant us a repurchase option that we may exercise upon the voluntary or involuntary termination of the participant's service with us for any reason, including death or disability. The purchase price for shares we repurchase will generally be the original price paid by the participant and may be paid by cancellation of any indebtedness of the participant to us. The administrator will determine the date at which our repurchase option will lapse.

**Performance Units.** The administrator may grant performance units to employees, directors or consultants. Performance units are the right to receive a designated number of shares of common stock and/or cash if performance goals set at the time of the grant of the performance units are actually achieved.

**Other Awards.** The administrator may grant other awards as the administrator determines appropriate in its discretion.

**Transferability of Options and Stock Purchase Rights.** Our 2000 Plan generally prohibits transfer or assignment of options or stock purchase rights other than by will or the laws of descent and only the optionee may exercise an option or stock purchase right during his or her lifetime. The administrator may, but is not required to, permit nonstatutory options to be transferable, without payment of any consideration, to certain persons including immediate family members of the option holder or trusts or partnerships created for such family members. Performance units and other awards are not transferable.

**Adjustments upon Merger or Asset Sale.** Our 2000 Plan provides that in the event of our merger with or into another corporation or a sale of substantially all of our assets, the successor corporation will assume or substitute an equivalent award for each option, stock purchase right, performance unit or other award. If, for any reason, the successor does not agree to assume or substitute an equivalent award for each award, all awards will become vested and exercisable immediately prior to the consummation of the merger transaction. In addition, in the event of a change in control, all then outstanding options shall become completely vested and exercisable and any restrictions on other awards will lapse; performance units and/or other awards are deemed owned and are then payable. If the outstanding options or stock purchase rights are not assumed or substituted for in connection with a merger or sale of assets, the administrator will provide notice to the optionee that he or she has the right to exercise the option or stock purchase right as to all of the shares subject to the option or stock purchase right, including shares which would not otherwise be exercisable, as of a date determined by the administrative prior to such merger.

**Amendment and Termination of our 2000 Plan.** Our 2000 Plan will automatically terminate in 2010, unless we terminate it sooner. In addition, our board of directors has the authority to amend, suspend or terminate the 2000 Plan, provided such action does not adversely affect any option previously granted under our 2000 Plan.

#### 2000 EMPLOYEE STOCK PURCHASE PLAN

Within one year of the offering, we intend to establish an Employee Stock Purchase Plan, referred to as the "Purchase Plan." The board adopted the Purchase Plan on June 12, 2000, to be implemented within one year of the consummation of this offering.

**Number of Shares of Common Stock Available under the Purchase Plan.** A total of 2,500,000 shares of our common stock will be made available for sale under the Purchase Plan. In addition, our Purchase Plan will provide for annual increases in the number of shares available for issuance on the first day of each fiscal year, beginning with our 2001 fiscal year, equal to 1% of the outstanding shares of our common stock on the first day of the fiscal year, or a lesser amount as may be determined by our board of directors.

**Administration of the Purchase Plan.** Our board of directors or a committee of our board will administer the Purchase Plan. Our board of directors or its committee will have full and exclusive authority to interpret the terms of the Purchase Plan and determine eligibility.

**Eligibility to Participate.** All of our employees, other than officers elected by our board of directors, will be eligible to participate in the Purchase Plan if we or any authorized and

participating subsidiary customarily employ them on a regular schedule. However, an employee will not be granted the right to purchase stock under the Purchase Plan if:

- immediately after grant the employee owns stock possessing 5% or more of the total combined voting power or value of all classes of our capital stock; or
- the employee's rights to purchase stock under all of our employee stock purchase plans accrues at a rate that exceeds \$25,000 worth of stock for each calendar year.

**Offering Periods and Contributions.** Our Purchase Plan will be intended to qualify under Section 423 of the Code and will contain 24-month offering periods. Each offering period will include four six-month purchase periods. The offering periods generally start on the first trading day on or after January 1 and July 1 of each year, except for the first such offering period which will commence on the first trading day on or after the date Eaton disposes of its ownership interest in our company, and will end on the last trading day on or before June 30, 2002.

Our Purchase Plan will permit participants to purchase common stock through payroll deductions of up to 10% of their eligible compensation, which will include a participant's base salary and commission but will exclude all other compensation paid to the participant. A participant will be allowed to purchase only the lesser of \$25,000 worth of our common stock at the prices then offered under the Purchase Plan or 1,500 shares during a six-month purchase period.

**Purchase of Shares.** Amounts deducted and accumulated by the participant will be used to purchase shares of our common stock at the end of each six-month purchase period. The price will be 85% of the lower of the fair market value of our common stock at either the beginning or end of an offering period. If the fair market value at the end of a purchase period is less than the fair market value at the beginning of the offering period, participants will be withdrawn from the current offering period following their purchase of shares on the purchase date and will be automatically re-enrolled in a new offering period. Participants will be allowed to end their participation at any time during an offering period and any payroll deductions from their checks through that date will be repaid to them in cash. Participation ends automatically upon termination of employment with us.

**Transferability of Rights.** A participant will not be permitted to transfer rights granted under the Purchase Plan other than by will, the laws of descent and distribution or designation of a beneficiary as provided under the Purchase Plan.

**Adjustments upon Merger or Asset Sale.** In the event of our merger with or into another corporation or a sale of all or substantially all of our assets, a successor corporation may assume or substitute for each outstanding purchase authorizations. If the successor corporation refuses to assume or substitute for the outstanding purchase authorizations, the offering periods then in progress will be shortened, and a new purchase date will be set prior to the merger or sale of assets.

**Amendment and Termination of the Purchase Plan.** Our Purchase Plan will terminate in 2010. However, our board of directors will have the authority to amend or earlier terminate the Purchase Plan, except that, subject to exceptions described in the Purchase Plan, no such action may adversely affect any outstanding rights to purchase stock under our Purchase Plan.

## ARRANGEMENTS WITH EATON

We have provided below a summary description of the master separation and distribution agreement along with the key related agreements. This description, which summarizes the material terms of the agreements, is not complete. You should read the full text of these agreements, which will be filed with the Securities and Exchange Commission as exhibits to the registration statement of which this prospectus is a part.

## MASTER SEPARATION AND DISTRIBUTION AGREEMENT

The master separation and distribution agreement contains the key provisions relating to our separation from Eaton, this offering and the possible divestiture of our shares to Eaton shareholders.

THE SEPARATION. The master separation and distribution agreement provides for the transfer to us of the business, assets and liabilities from Eaton related to our business as described in this prospectus prior to the consummation of this offering. The various ancillary agreements that are exhibits to the separation agreement and which detail the separation and various interim and ongoing relationships between Eaton and us following the separation date include:

- a general assignment and assumption agreement;
- a trademark license agreement;
- an employee matters agreement;
- a tax sharing and indemnification agreement;
- a transitional services agreement;
- a real estate matters agreement; and
- an indemnification and insurance matters agreement.

To the extent that the terms of any of these ancillary agreements conflict with the separation agreement, the terms of these agreements will govern. These agreements are described more fully below.

THE INITIAL PUBLIC OFFERING. Under the terms of the separation agreement, Eaton will continue to own at least 80.1% of our outstanding common stock immediately following this offering. We are obligated to use our reasonable commercial efforts to satisfy the following conditions to the consummation of this offering, any of which may be waived by Eaton:

- the registration statement containing this prospectus must be effective;
- U.S. and foreign securities and blue sky laws must be satisfied;
- our common stock must have been approved for quotation on the Nasdaq National Market;
- all our obligations under the underwriting agreement must be satisfied or waived by the underwriters;
- Eaton must own at least 80.1% of our outstanding common stock following this offering and must be satisfied that any divestiture of all the shares of our common stock will be tax-free to its U.S. shareholders;
- no legal restraints must exist preventing the separation or this offering;
- the separation must have occurred; and
- the separation agreement must not have been terminated.

THE DIVESTITURE. Following consummation of this offering, Eaton may divest itself of our common stock through a distribution to Eaton shareholders in a tax-free transaction. Eaton is not obligated to complete the divestiture and may, in its sole discretion, determine the form, structure, timing and terms on which it would accomplish the divestiture and whether and when

it expects to complete the divestiture. Eaton intends to consummate the divestiture only if the following conditions are met, any of which may be waived by Eaton:

- the Internal Revenue Service must issue a ruling that the divestiture of Eaton's shares of our common stock will be tax-free to Eaton and its shareholders and that Eaton's contribution of assets to us in connection with the separation will qualify as a tax-free reorganization for U.S. federal income tax purposes;
- all required government approvals must be in effect;
- no legal restraints must exist preventing this divestiture; and
- nothing must have happened prior to the divestiture that would have a material adverse effect on Eaton or its shareholders.

In addition, we have agreed that we will not issue or sell shares of common stock before Eaton's divestiture without Eaton's prior written consent.

**COVENANTS WITH EATON.** In addition to signing documents that transfer control and ownership of various assets and liabilities of Eaton relating to our business, we have agreed with Eaton to enter into additional transitional service agreements, exchange information, engage in auditing practices and resolve disputes in particular ways.

**INFORMATION EXCHANGE.** Both Eaton and we have agreed to share information relating to governmental, accounting, contractual and other similar requirements of our ongoing businesses, unless the sharing would be commercially detrimental, violate any law or agreement or waive any attorney-client privilege. In furtherance of this arrangement, both Eaton and we have agreed as follows:

- each party will maintain at its own cost and expense adequate internal accounting and will provide, at the request of the other party, all financial and other data and information as necessary to allow the other party to satisfy its reporting obligations and prepare its financial statements;
- each party will retain records beneficial to the other party for a specified period of time. If the records are going to be destroyed, the destroying party will give the other party an opportunity to retrieve all relevant information from the records, unless the records are destroyed in accordance with adopted record retention policies; and
- each party will use commercially reasonable efforts to provide the other party with directors, officers, employees, other personnel and agents who may be used as witnesses, and books, records and other documents which may reasonably be required, in connection with legal, administrative or other proceedings.

**ACCOUNTING AND AUDITING PRACTICES.** As long as Eaton is required to consolidate and report on our results of operations and financial position, we and Eaton have agreed that:

- we will inform Eaton of any significant changes in any accounting policy or principle before the changes are implemented;
- Eaton will inform us of any significant changes in accounting estimate or principle before the changes are implemented;
- we will comply with all Eaton financial reporting requirements, policies, and accounting and reporting deadlines, including providing to Eaton on a timely basis all information that Eaton reasonably requires for the preparation of Eaton's annual and quarterly financial statements;
- we will provide any supplemental information required by Eaton for external financial reporting or compliance, and Eaton will provide any supplemental information required by us for external financial reporting or compliance;
- we will not select a different independent accounting firm from that used

- we will use all reasonable commercial efforts to enable our auditors to date their opinion on our audited financial statements on the same date as Eaton's auditors date their opinion on Eaton's financial statements; and
- we will grant each other's internal and external auditors and their designees access to each other's records as necessary.

DISPUTE RESOLUTION. If problems arise between us and Eaton, we have agreed to the following procedures:

- the parties will make a good faith effort to first resolve the dispute through negotiation;
- if negotiations fail, the parties will attempt to resolve the dispute through non-binding mediation; and
- if mediation fails, the parties can resort to binding arbitration.

In addition, nothing prevents either party acting in good faith from initiating litigation at any time if failure to do so would cause serious and irreparable injury to one of the parties or to others.

NO REPRESENTATIONS AND WARRANTIES. Neither party is making any promises to the other regarding:

- the value of any asset that Eaton is transferring or has transferred;
- whether there is a lien or encumbrance on any asset Eaton is transferring or has transferred;
- the absence of defenses or freedom from counterclaims with respect to any claim Eaton is transferring; or
- the legal sufficiency of any conveyance of title to any asset Eaton is transferring or has transferred.

CASH. Prior to January 1, 2000, substantially all of our cash receipts and disbursements in the United States were processed through Eaton's centralized cash management system and were recorded in Parent Company investment. Since December 31, 1999, substantially all of these amounts have been recorded as a receivable from or payable to Eaton. At March 31, 2000, a net amount of \$1.0 million was payable to Eaton by us for these transactions and was included in "Receivables from Eaton Corporation" in our March 31, 2000 combined balance sheet. This payable became a receivable of approximately \$19.4 million at May 31, 2000 and we expect it to increase to approximately \$29.1 million at June 30, 2000. We plan to settle this receivable in cash at or shortly after the closing of this offering.

The remaining balance of the "Receivables from Eaton Corporation" at March 31, 2000 was \$9.2 million and represented primarily cash generated by us in Europe that was processed through Eaton's European centralized cash management system. Of this receivable, \$5.5 million, as well as \$1.5 million of our \$2.8 million of cash and short-term investments at March 31, 2000, will be retained by Eaton and will not be available to us. The resulting \$3.7 million balance of this receivable will also be settled in cash at or shortly after the closing of this offering. Subsequent to March 31, 2000, in connection with Eaton's contribution of assets to us, we received a cash transfer from Eaton that we expect, after offsets, to net to approximately \$7.9 million.

NO SOLICITATION. Each party has agreed not to directly solicit or recruit employees of the other party without the other party's consent for two years after the divestiture date. However, this prohibition does not apply to general recruitment efforts carried out through public or general solicitation or where the solicitation is employee-initiated.

EXPENSES. It is anticipated that we will bear the costs and expenses associated with the reorganization transactions and associated with this offering and Eaton will bear the costs and expenses associated with the divestiture. We will each bear our own internal costs incurred in consummating these transactions.

TERMINATION OF THE SEPARATION AGREEMENT. Eaton, in its sole discretion, can terminate the separation agreement and all ancillary agreements at any time prior to the completion of this offering. Both Eaton and we must agree to any early termination of the separation agreement and all ancillary agreements at any time between the completion of this offering and the divestiture.

#### GENERAL ASSIGNMENT AND ASSUMPTION AGREEMENT

The general assignment and assumption agreement identifies the assets Eaton will transfer to us and the liabilities we will assume from Eaton in the separation, to the extent not transferred prior to the separation date. The agreement also describes when and how these transfers and assumptions will occur.

ASSET TRANSFER. To the extent not transferred prior to the separation date, effective on the separation date, Eaton transferred all of the assets to us that it held related to our business, to the extent that those assets were, prior to the separation date, an Eaton asset.

ASSUMPTION OF LIABILITIES. Effective on the separation date and with no recourse to Eaton, we assumed the actual and contingent liabilities from Eaton which are liabilities related to our business, except as specifically provided to the contrary in an ancillary or other agreement.

EXCLUDED LIABILITIES. The general assignment and assumption agreement also provides that we will not assume specified liabilities, including:

- except for policy deductibles or retention amounts, any liabilities that would otherwise be allocated to us but which are covered by Eaton's insurance policies, unless we are a named insured under such policies; and
- other specified liabilities.

NON-UNITED STATES ASSETS. The transfer of international assets and assumption of international liabilities will be accomplished through agreements entered into between international subsidiaries. The agreement acknowledges that circumstances in various jurisdictions outside of the United States may require the timing of portions of the international separation to be delayed past the separation date. If it is not practicable to transfer specified assets and liabilities on the separation date, the agreement provides that these assets and liabilities will be transferred at such other time as the parties shall agree.

TERMS OF ANCILLARY AGREEMENTS GOVERN. If another ancillary agreement expressly provides for the transfer of an asset or an assumption of a liability, the terms of the other ancillary agreement will determine the manner of the transfer and assumption.

OBTAINING APPROVALS AND CONSENTS. The parties agree to use all commercially reasonable efforts to obtain any required consents, substitutions or amendments required to novate or assign all rights and obligations under any contracts that will be transferred or assumed in the separation, provided that there will be no obligation to pay any consideration to any third party from whom such consents, substitutions or amendments are required.

NONRECURRING COSTS AND EXPENSES. Any nonrecurring costs and expenses that are not allocated in the separation agreement or any other ancillary agreement shall be the responsibility of the party that incurs the costs and expenses.

#### TRADEMARK LICENSE AGREEMENT

The trademark license agreement governs our use of the "EATON" trademark. We are licensed to use, on a worldwide basis, the Eaton logo and "EATON" trademark in connection with ion implantation, dry strip, photostabilization and rapid thermal processing products. The license is non-exclusive and royalty free. We are required to allow Eaton, upon request and at its expense, to inspect the quality of the goods with the Eaton trademark to ensure conformity with quality standards. We are not allowed to use any confusingly similar trademarks. The license is for a period of three years and expires June 30, 2003. We are obligated to notify Eaton of any alleged infringement and will indemnify Eaton for our use. We do not have the right to sublicense

the Eaton logo or "EATON" trademark except to carry out the terms of an agreement with SEN. The agreement is assignable only with the express permission of Eaton.

#### EMPLOYEE MATTERS AGREEMENT

We have entered into an employee matters agreement with Eaton to allocate assets, liabilities and responsibilities relating to our current and former employees and their participation in the benefit plans, including stock plans, that Eaton currently sponsors and maintains for our eligible employees.

All of our eligible employees will, in most instances, continue to participate in such Eaton benefit plans on comparable terms and conditions to those provided to such employees prior to the offering until the earlier of our adoption of a comparable plan or the date that Eaton and Axcelis cease to be members of the same controlled group for federal income tax purposes. After such date, we may establish benefit plans for our employees, or elect not to establish comparable plans, if it is not legally or financially practical or competitively advisable.

Once we establish our own benefit plans, we may modify or terminate each plan in accordance with the terms of that plan and our policies. None of our benefit plans will pay benefits that duplicate payments already made under the corresponding Eaton benefit plan at the time of the distribution. Each of our benefit plans will provide that all service, compensation and other benefit determinations that, as of the distribution, were recognized under the corresponding Eaton benefits plan will be taken into account under our corresponding benefit plan.

Except with respect to the Eaton Share Purchase and Investment Plan, a defined contribution plan with 401(k) deferral features, the assets relating to Eaton's employee benefit plans will not be transferred to our related plans.

OPTIONS. We have established a replacement stock option plan for our eligible employees on or before the completion of this offering. Upon the divestiture, we will assume all Eaton options held by our employees. These options then will be converted into options to purchase our common stock. The number of shares and the exercise price of Eaton options that convert into our options will be adjusted using a conversion formula. The conversion formula will be based on the opening per share price of our common stock on the first trading day after the distribution relative to the closing per share price of Eaton common stock on the last trading day before the divestiture. The resulting Axcelis options will maintain vesting provisions and option periods substantially similar to those of the initial grant.

#### TAX SHARING AND INDEMNIFICATION AGREEMENT

We have entered into a tax sharing and indemnification agreement with Eaton that allocates responsibilities and liabilities for tax matters between us and Eaton. The agreement requires us to pay Eaton for our allocable share of any taxes due with respect to consolidated, combined or unitary tax returns that we file with Eaton for all periods beginning after December 31, 1999, prior to the divestiture date. The agreement also provides for compensation or reimbursement as the case may be, to reflect redeterminations of our tax liability for periods beginning after December 31, 1999 during which we joined in filing consolidated, combined or unitary tax returns with Eaton.

In order to initially satisfy our tax liability for the first quarter of 2000, we will pay Eaton cash in an amount equal to the \$8.3 million tax provision shown in our combined financial statements for the quarter. This payment will be made as part of the settlement of the cash management receivable or payable described in note (4) to the "Prospectus Summary -- Summary Historical Combined Financial Data". The ultimate amount of tax liability that we will have to pay Eaton in respect of this quarter under the tax sharing and indemnification agreement will be based on our allocable share of any taxes due with respect to tax returns that we file with Eaton.

If Eaton completes the divestiture of its shares of our common stock to the Eaton shareholders and it is held to be taxable for U.S. federal income tax purposes, Eaton and its

shareholders could be subject to a material amount of taxes. The tax sharing and indemnification agreement requires us to indemnify Eaton for certain of these taxes (including interest and penalties), including:

- any taxes resulting from our separation from Eaton that are imposed on Eaton due to any action on our part that is not contemplated in the master separation and distribution agreement or any failure to take action required by that agreement.
- any taxes imposed on Eaton that would not have been payable but for the breach by us of any representation, warranty or obligation under the tax sharing and indemnification agreement, the private letter tax ruling request or other agreements; and
- the additional taxes that would result if any acquisition of our stock after the divestiture of our common stock to Eaton's shareholders causes the divestiture not to qualify for tax-free treatment to Eaton and/or its shareholders, regardless of whether Eaton consents to such acquisition.

The tax sharing and indemnification agreement provides that for a period of two years after the divestiture, we will not, without Eaton's prior written consent, liquidate, merge or consolidate with any other person, or enter into any transaction or make any change in our equity structure that may cause the divestiture to be treated as part of a plan pursuant to which one or more persons other than Eaton shareholders acquire a 40 percent or greater interest in our stock.

Each member of a consolidated group for United States federal income tax purposes is jointly and severally liable for the group's federal income tax liability for the period during which it is a member even after it withdraws from the group, and the tax sharing and indemnification agreement does not change this result. Accordingly, we could be required to pay a deficiency in the Eaton group's federal income tax liability for a period during which we were a member of the group even if the tax sharing and indemnification agreement allocates that liability to Eaton or another member. In this event, however, we would have a claim for indemnification from Eaton under this agreement.

The tax sharing and indemnification agreement also assigns responsibilities for administrative matters, such as the filing of returns, payment of taxes due, retention of records, and conduct of audits, examinations or similar proceedings.

#### TRANSITIONAL SERVICES AGREEMENT

The transitional services agreement governs providing transitional services by Eaton and us to each other, on an interim basis, generally for one year or less after the distribution date, unless extended for up to one additional year for specific services or otherwise indicated in the agreement. The agreement provides for transitional services, systems and support to our operations, including those associated with voice and data transmissions and other data-related operations, accounts receivables, accounts payable, fixed assets, payroll, general accounting, financial accounting consolidations, cash management, human resources, tax, legal and real estate. Services are generally priced at cost prior to the divestiture and thereafter at fair market rates. The transitional services agreement also covers the provision of additional transitional services identified from time to time after the separation date that were inadvertently or unintentionally omitted from the specified services, or that are essential to effectuate an orderly transition under the separation agreement, so long as the provision of such services would not significantly disrupt Eaton's operations or significantly increase the scope of its responsibility under the agreement.

#### REAL ESTATE MATTERS AGREEMENT

The real estate matters agreement addresses real estate matters relating to the Eaton leased and owned properties that Eaton will transfer to or share with us. The agreement describes the manner in which Eaton will transfer to us various leased and owned properties and the manner in which we will share occupancy of one leased property.

The real estate matters agreement identifies each owned property to be transferred to us and each leased property to be assigned to us. The real estate matters agreement requires both parties to use reasonable efforts to obtain any landlord consents required for the proposed transfers of leased sites, including us agreeing to provide any security required under the applicable lease or by the applicable landlord as a condition to the landlord's release of Eaton from any further liability under the lease.

The real estate matters agreement provides that we may occupy a leased property as a licensee pending receipt of the landlord's consent to the assignment of the lease to us. If the landlord refuses to consent to the assignment, Eaton will use reasonable efforts to obtain the landlord's consent to sublease the property to us. We will indemnify Eaton against all further liabilities under each lease assigned to us. Eaton will pay all reasonable costs required to obtain each landlord's consent to the assignment or sublease.

The real estate matters agreement further provides that we will be required to accept the transfer of all sites allocated to us, even if a site has been damaged by a casualty before the separation date. Transfers with respect to leased sites where the underlying lease is terminated due to casualty or action by the landlord prior to the separation date will not be made, and neither party will have any liability related thereto.

#### INDEMNIFICATION AND INSURANCE MATTERS AGREEMENT

**GENERAL RELEASE OF PRE-SEPARATION CLAIMS.** Effective as of the separation date, subject to specified exceptions, we will release Eaton and its affiliates, agents, successors and assigns, and Eaton will release us, and our affiliates, agents, successors and assigns, from any liabilities arising from events occurring on or before the separation date, including events occurring in connection with the activities to implement the separation. This provision will not impair a party from enforcing the separation agreement or any ancillary agreement.

**INDEMNIFICATION.** In general, we have agreed to indemnify Eaton and its affiliates, agents, successors and assigns from all liabilities arising from:

- our business, any of our liabilities or any of our contracts;
- any breach by us of the separation agreement or any ancillary agreement; and
- any untrue statement of a material fact or any omission of a material fact in this prospectus.

Eaton has agreed to indemnify us and our affiliates, agents, successors and assigns from all liabilities arising from:

- Eaton's business other than our business and Eaton's liabilities other than our liabilities; and
- any breach by Eaton of the separation agreement or any ancillary agreement.

These indemnification provisions do not apply to any liabilities which have been satisfied from insurance collection. The agreement also contains provisions governing notice and indemnification procedures.

**LIABILITY ARISING FROM THIS PROSPECTUS.** We will bear any liability arising from any untrue statement of a material fact or any omission of a material fact in this prospectus.

**INSURANCE MATTERS.** The agreement also contains provisions governing our insurance coverage from the separation date until the divestiture date. In general, we agree to reimburse Eaton for premium expenses related to insurance coverage during this period. Prior to the divestiture, Eaton will maintain insurance policies on our behalf. We will work with Eaton to secure additional insurance if desired and cost effective.

**ENVIRONMENTAL MATTERS.** We have agreed to indemnify Eaton and its

affiliates, agents, successors and assigns from all liabilities arising from environmental conditions or any actions

relating to, resulting from, or present at, our properties, facilities or operations, either before or after the separation date. This includes indemnifying Eaton from any liabilities resulting from the transportation of hazardous materials to or from any of our facilities either before or after the separation date.

ASSIGNMENT. The indemnification and insurance matters agreement is not assignable by either party without the prior written consent of the other party.

## PRINCIPAL STOCKHOLDER

Prior to this offering, all of the outstanding shares of our common stock will be owned by Eaton. After this offering, Eaton will own about 83.8% of our outstanding common stock, or about 81.8%, if the underwriters fully exercise their option to purchase additional shares of our common stock. Except for Eaton, we are not aware of any person or group that will beneficially own more than 5% of the outstanding shares of our common stock following this offering. None of our executive officers, directors or director nominees currently owns any shares of our common stock, and those who own shares of Eaton common stock will be treated on the same terms as other holders of Eaton stock in any divestiture of our common stock by Eaton to its shareholders. Our executive officers, however, will be granted options to purchase our common stock at the initial public offering price. See "Management -- Stock Ownership of Directors and Executive Officers" for a description of the ownership of Eaton stock by our directors and executive officers.

## DESCRIPTION OF CAPITAL STOCK

## GENERAL

We are authorized to issue 300,000,000 shares of common stock, \$0.001 par value, and 30,000,000 shares of undesignated preferred stock, \$0.001 par value. The following description of our capital stock is subject to our certificate of incorporation and bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part, and to the provisions of applicable Delaware law.

## COMMON STOCK

The holders of our common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of our common stock are entitled to receive ratably such dividends, if any, as our board of directors may declare from time to time out of funds legally available for that purpose. See "Dividend Policy". In the event of our liquidation, dissolution or winding up, the holders of our common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to the priority of preferred stock, if any, then outstanding. The holders of our common stock have no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to our common stock.

## PREFERRED STOCK

Our board of directors has the authority, without action by the stockholders, to designate and issue preferred stock in one or more series and to designate the rights, preferences and privileges of each series, which may be greater than the rights of our common stock. It is not possible to state the actual effect of the issuance of any shares of preferred stock upon the rights of holders of our common stock until our board of directors determines the specific rights of the holders of the preferred stock. However, the effects might include, among other things:

- restricting dividends on our common stock;
- diluting the voting power of our common stock;
- impairing the liquidation rights of our common stock; or
- delaying or preventing a change in control of us without further action by the stockholders.

At the closing of this offering, no shares of preferred stock will be outstanding, and we have no present plans to issue any shares of preferred stock. See "Rights Plan" below.

## ANTI-TAKEOVER EFFECTS OF OUR CERTIFICATE AND BYLAWS AND DELAWARE LAW

Some provisions of Delaware law and our certificate of incorporation and bylaws could make the following more difficult:

- acquisition of us by means of a tender offer;
- acquisition of us by means of a proxy contest or otherwise; or
- removal of our incumbent officers and directors.

These provisions, summarized below, are expected to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of increased protection give us the potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us and outweigh the

disadvantages of discouraging those proposals because negotiation of those proposals could result in an improvement of their terms.

**ELECTION AND REMOVAL OF DIRECTORS.** Our board of directors is divided into three classes. The directors in each class will serve for a three-year term, one class being elected each year by our stockholders. See "Management-Directors and Executive Officers". This system of electing directors may discourage a third party from making a tender offer or otherwise attempting to obtain control of us because it generally makes it more difficult for stockholders to replace a majority of the directors. Under the terms of our bylaws, this provision cannot be changed without a supermajority vote of our stockholders.

**STOCKHOLDER MEETINGS.** Under our bylaws, only our board of directors, the chairman or the vice chairman of our board of directors, or the chief executive officer, and until Eaton owns less than 50% of our common stock, Eaton, may call special meetings of stockholders.

**REQUIREMENTS FOR ADVANCE NOTIFICATION OF STOCKHOLDER NOMINATIONS AND PROPOSALS.** Our bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors. Under the terms of our bylaws, this provision cannot be changed without a supermajority vote of our stockholders.

**DELAWARE ANTI-TAKEOVER LAW.** We are subject to Section 203 of the Delaware General Corporation Law, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years following the date the person became an interested stockholder, unless the "business combination" or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a "business combination" includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an "interested stockholder" is a person who, together with affiliates and associates, owns or within three years prior to the determination of interested stockholder status, did own, 15% or more of a corporation's voting stock. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging attempts that might result in a premium over the market price for the outstanding shares of our common stock. After completion of this offering, Eaton will be an "interested stockholder" subject to these statutory provisions.

**ELIMINATION OF STOCKHOLDER ACTION BY WRITTEN CONSENT.** Our certificate of incorporation eliminates the right of stockholders other than Eaton to act by written consent without a meeting. Eaton will lose this right once it owns less than 50% of our common stock.

**ELIMINATION OF CUMULATIVE VOTING.** Our certificate of incorporation and bylaws do not provide for cumulative voting in the election of directors.

**UNDESIGNATED PREFERRED STOCK.** The authorization of undesignated preferred stock makes it possible for our board of directors to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to change control of us. These and other provisions may have the effect of deferring hostile takeovers or delaying changes in control or management of us.

**AMENDMENT OF CHARTER PROVISIONS.** The amendment of any of the above provisions would require approval by holders of at least 75% of our outstanding common stock.

#### RIGHTS PLAN

Our rights plan may have the effect of delaying or preventing a change in control of our company. This plan attaches to each common share one right that, when exercisable, entitles the holder of a right to purchase one one-hundredth of a share of Preferred Stock at a purchase

price of \$ \_\_\_\_\_, subject to adjustment. If certain takeover events occur, exercise of the rights would entitle the holders thereof (other than the acquiring person or group) to receive common shares or common stock of a surviving corporation, or cash, property or other securities, with a market value equal to twice the purchase price. These takeover events include a person or group becoming the owner of 20% or more of our outstanding common stock or the commencement of, or announcement of an intention to make, a tender offer or exchange offer the consummation of which would result in the beneficial ownership by a person or group of 20% or more of our outstanding common shares. Accordingly, exercise of the rights may cause substantial dilution to a person who attempts to acquire our company.

The rights automatically attach to each outstanding common share. There is no monetary value presently assigned to the rights, and they will not trade separately from our common stock unless and until they become exercisable. The rights, which expire in June 2010, may be redeemed, at the option of our Board of Directors, at a price of \$.001 per right at any time prior to a group or person acquiring ownership of 20% or more of the outstanding common shares. The rights agreement may have certain antitakeover effects, although it is not intended to preclude any acquisition or business combination that is at a fair price and otherwise in the best interests of our company and our stockholders as determined by our Board of Directors. However, a stockholder could potentially disagree with the Board's determination of what constitutes a fair price or the best interests of our company and our stockholders.

The description and terms of the rights are set forth in a rights agreement between us and Equiserve Trust Company N.A., as rights agent. A copy of the rights agreement is filed as an exhibit to the registration statement of which this prospectus forms a part. The above summary of the material terms of the rights does not purport to be complete and is qualified in its entirety by reference to the rights agreement.

#### TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for our common stock will be Equiserve Trust Company N.A.

#### SHARES ELIGIBLE FOR FUTURE SALE

All of the shares of our common stock sold in this offering will be freely tradeable without restriction under the Securities Act, except for any shares which may be acquired by an affiliate of ours, as that term is defined in Rule 144 under the Securities Act. Persons who may be deemed to be affiliates generally include individuals or entities that control, are controlled by, or are under common control with, us and may include our directors and officers as well as our significant stockholders, if any.

Eaton currently plans to complete its divestiture of all of its shares of our common stock approximately six months following this offering by disposing of all of its shares of our common stock to Eaton shareholders, although Eaton is not obligated to complete this divestiture. Any shares of our common stock distributed to Eaton shareholders in the divestiture generally will be freely transferable, except for shares of common stock received by persons who may be deemed to be our affiliates. Persons who are affiliates will be permitted to sell the shares of common stock that are issued in this offering or that they receive in the divestiture only through registration under the Securities Act, or under an exemption from registration, such as the one provided by Rule 144. Generally, Rule 144, as presently in effect, provides that an affiliate who has owned shares of our common stock for at least one year is entitled to sell in the open market in broker's transactions, within any three-month period, a number of shares that does not exceed the greater of:

- one percent of the then outstanding shares of our common stock, which will equal approximately 955,000 shares immediately after this offering, or 978,250 shares if the underwriters fully exercise their option to purchase additional shares of our common stock; and
- the average weekly trading volume of our common stock during the four calendar weeks preceding the sale.

Sales under Rule 144 are also subject to additional restrictions relating to the manner of sale and the availability of current public information about our company.

The shares of our common stock held by Eaton before the divestiture are deemed "restricted securities" as defined in Rule 144, and may not be sold other than through registration under the Securities Act or under an exemption from registration, such as the one provided by Rule 144. Eaton, our directors and officers and we have agreed not to offer, sell or otherwise dispose of any shares of our common stock, subject to exceptions, for a period of 180 days after the date of this prospectus, without the prior written consent of Goldman, Sachs & Co. This agreement does not apply to the divestiture of our common stock owned by Eaton to its shareholders on or after November 1, 2000, any sale by Eaton of its shares of our common stock to a purchaser who offers to buy all other outstanding shares of our common stock at the same price, any grants under our existing employee benefit plans or transactions in Eaton common shares. See "Underwriting."

If Eaton distributes all of the shares of our common stock it owns to Eaton shareholders after this offering, substantially all of these shares will be eligible for immediate resale in the public market. We are unable to predict whether significant amounts of common stock will be sold in the open market in anticipation of, or following, this divestiture, or by Eaton if the divestiture does not occur. We are also unable to predict whether a sufficient number of buyers will be in the market at that time. Any sales of substantial amounts of common stock in the public market, or the perception that such sales might occur, whether as a result of this divestiture or otherwise, could harm the market price of our common stock. Eaton has the sole discretion to determine the timing, structure and all terms of its divestiture of our common stock, all of which may also affect the level of market transactions in our common stock.

We will grant shares of our common stock pursuant to the 2000 Stock Plan subject to restrictions. See "Management -- Incentive Plans -- 2000 Stock Plan." We currently expect to file a registration statement under the Securities Act to register shares reserved for issuance under the 2000 Stock Plan and the 2000 Employee Stock Purchase Plan. Shares issued pursuant to awards after the date of this prospectus, other than shares issued to affiliates, generally will be freely tradable without further registration under the Securities Act. Shares issued pursuant to any vested and exercisable options of Eaton converted into our options will also be freely tradable without registration under the Securities Act after the date of this prospectus. See "Management -- Treatment of Eaton Options".

## UNDERWRITING

Axcelis and the underwriters named below have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Goldman, Sachs & Co., Morgan Stanley & Co. Incorporated and Salomon Smith Barney Inc. are the representatives of the underwriters.

| Underwriters<br>-----                  | Number of Shares<br>-----        |
|--|----------------------------------|
| Goldman, Sachs & Co.....               |                                  |
| Morgan Stanley & Co. Incorporated..... |                                  |
| Salomon Smith Barney Inc. ....         |                                  |
| <br>Total.....                         | <br>-----<br>15,500,000<br>===== |

If the underwriters sell more shares than the total number set forth in the table above, the underwriters have an option to buy up to an additional 2,325,000 shares from Axcelis to cover such sales. They may exercise that option for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by Axcelis. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 2,325,000 additional shares.

|                | Paid by Axcelis<br>----- |                        |
|----------------|--------------------------|------------------------|
|                | No Exercise<br>-----     | Full Exercise<br>----- |
| Per Share..... | \$                       | \$                     |
| Total.....     | \$                       | \$                     |

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ per share from the initial public offering price. Any such securities dealers may resell any shares purchased from the underwriters to certain other brokers or dealers at a discount of up to \$ per share from the initial public offering price. If all the shares are not sold at the initial offering price, the representatives may change the offering price and the other selling terms.

Axcelis and its directors, director nominees and officers, and Eaton have agreed with the underwriters not to dispose of or hedge any of Axcelis' common stock or securities convertible into or exchangeable for shares of Axcelis' common stock during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus, except with the prior written consent of Goldman, Sachs & Co. This agreement does not apply to the divestiture of shares of Axcelis' common stock owned by Eaton to its shareholders on or after November 1, 2000, any sale by Eaton of its shares of our common stock to a purchaser who offers to buy all other outstanding shares of our common stock at the same price, any grants under Axcelis' existing employee benefit plans or transactions in Eaton common shares. See "Shares Eligible For Future Sale" for a discussion of transfer restrictions.

Prior to the offering, there has been no public market for the shares. The initial public offering price will be negotiated between Axcelis and the representatives. Among the factors to be considered in determining the initial public offering price of the shares, in addition to prevailing market conditions, will be Axcelis' historical performance, estimates of Axcelis' business potential and earnings prospects, an assessment of Axcelis' management and the consideration of the above factors in relation to market valuation of companies in related businesses.

Axcelis has applied to have its common stock quoted on the Nasdaq National Market under the symbol "ACLS".

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the common stock while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected on the Nasdaq National Market, in the over-the-counter market or otherwise.

The underwriters do not expect sales to discretionary accounts to exceed five percent of the total number of shares offered.

Axcelis estimates that its share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$ .

Axcelis and Eaton agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

Goldman, Sachs & Co. has been engaged by Eaton to provide financial advisory services relating to our separation from Eaton and the distribution of shares of our common stock to Eaton shareholders, for which it will be paid a fee upon completion of the divestiture. Goldman, Sachs & Co. has from time to time performed various investment banking services for Eaton in the past, and it may from time to time in the future perform investment banking services for Eaton and us for which it has received and will receive customary fees.

AXCELIS TECHNOLOGIES, INC.  
(WHOLLY-OWNED SUBSIDIARY OF EATON CORPORATION)

NOTES TO COMBINED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 1997, 1998 AND 1999 (AUDITED) AND  
THREE MONTHS ENDED MARCH 31, 1999 AND 2000 (UNAUDITED)

1. THE COMPANY

On April 26, 2000, Eaton Corporation (Eaton or Parent Company) announced its plan to restructure its semiconductor equipment operations into an independent publicly-traded company, Axcelis Technologies, Inc. (Axcelis). Eaton's semiconductor equipment operations are currently conducted principally through its direct and indirect wholly-owned subsidiaries, Axcelis Technologies, Inc. and subsidiaries, Fusion Systems Corporation and High Temperature Engineering Corporation, Eaton's 50% interest in Sumitomo Eaton Nova Corporation, a joint venture in Japan with Sumitomo Heavy Industries, Inc., and various foreign branches and divisions of other Eaton subsidiaries. Through a reorganization transaction, Eaton intends to transfer to Axcelis all of the assets and liabilities of its semiconductor equipment operations not owned by Axcelis. After completion of the initial public offering, Eaton will own at least 80.1% of Axcelis' outstanding common stock. Eaton currently plans to complete the divestiture of Axcelis approximately six months following the completion of the initial public offering by distributing all of its shares of the common stock on a tax-free basis to Eaton shareholders (the distribution date).

Axcelis includes all of Eaton's operations that manufacture, sell and service capital equipment used in the production of semiconductors, including high- and medium- current implanters and high-energy implanters, and other products, including photostabilizers, ozone and plasma ashers and thermal processing systems. At the end of 1999, it had approximately 1,800 employees including 200 temporary employees, primarily located at manufacturing sites in Beverly and Peabody, Massachusetts and Rockville, Maryland. Axcelis also has sales and service locations in Germany, the United Kingdom, Taiwan, Singapore, South Korea, Italy and France. Additionally, it has a 50% ownership interest in Sumitomo Eaton Nova Corporation (SEN), a joint venture in Japan engaged in the design, manufacture, sale and service of ion implantation equipment in Japan.

2. BASIS OF PRESENTATION

The combined financial statements include the assets, liabilities, revenues and expenses of Eaton's semiconductor operations to be included in Axcelis after the reorganization transaction, based on Eaton's historical amounts. Parent Company investment represents Eaton's investment in Axcelis.

The statements of combined operations include those expenses originally recorded by Axcelis or directly charged to it by Eaton. Further, the statements include an allocation of Eaton's general corporate expenses to reflect the services provided or benefits received by Axcelis. This allocation is based on Eaton's internal expense allocation methodology which charges these expenses to operating locations based both on net working capital, excluding short-term investments and short-term debt, and on property, plant and equipment -- net. Management believes this is a reasonable method of allocating these expenses and is representative of the operating expenses that would have been incurred had Axcelis operated on a stand-alone basis.

In the opinion of management, all adjustments necessary for a fair presentation of combined financial position, operating results and cash flows for the stated periods have been made. However, Eaton did not account for or operate Axcelis as a separate, stand-alone entity for the periods presented and, as a result, the financial information included herein may not reflect the

NOTES TO COMBINED FINANCIAL STATEMENTS -- (CONTINUED)

combined financial position, operating results and cash flows of Axcelis if it had been a separate, stand-alone entity during the periods presented or in the future.

3. ACCOUNTING POLICIES

COMBINATION

The combined financial statements include the accounts of Axcelis, which includes all of Eaton's semiconductor equipment operations. All significant intercompany and interunit accounts and transactions have been eliminated. The equity method is used to account for the 50% investment in SEN.

FOREIGN CURRENCY TRANSLATION

The functional currency for all operations outside the United States is the local currency. Financial statements for these operations are translated into United States dollars at year-end exchange rates as to assets and liabilities and weighted-average exchange rates as to revenues and expenses. The resulting translation adjustments are recorded in stockholder's net investment in accumulated other comprehensive income (loss).

CASH AND SHORT-TERM INVESTMENTS

Axcelis participates in Eaton's centralized cash management system. Under this system, cash receipts are transferred to Eaton and Eaton funds cash disbursements. Accordingly, the cash and short-term investment balances presented in the accompanying combined balance sheets do not represent balances required or generated by operations. The amounts for cash and short-term investments presented in the combined balance sheet substantially relate to cash and highly liquid short-term investments maintained for working capital purposes, primarily at international locations.

For purposes of classification in the statement of combined cash flows, all short-term investments are considered cash equivalents.

The carrying values of cash and short-term investments in the combined balance sheets approximated their estimated fair values. The estimated fair value of these financial instruments was principally based on quoted market prices.

INVENTORIES

Inventories are carried at lower of cost, determined using the first-in, first-out (FIFO) method, or market.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization are computed by the straight-line method for financial statement purposes. The historical cost of buildings is depreciated over forty years and machinery and equipment principally over three to ten years. Substantially all goodwill is amortized over fifteen years. Intangible assets, consisting of developed technology, are amortized over seven years.

Goodwill and other long-lived assets are reviewed for impairment losses whenever events or changes in circumstances indicate the carrying amount may not be recoverable. Events or circumstances that would result in an impairment review primarily include operations reporting

AXCELIS TECHNOLOGIES, INC.  
(WHOLLY-OWNED SUBSIDIARY OF EATON CORPORATION)

NOTES TO COMBINED FINANCIAL STATEMENTS -- (CONTINUED)

losses or a significant change in the use of an asset. The asset would be considered impaired when the future net undiscounted cash flows generated by the asset are less than its carrying value. An impairment loss would be recognized based on the amount by which the carrying value of the asset exceeds its fair value.

FINANCIAL INSTRUMENTS

Axcelis has no material financial instruments outstanding at December 31, 1999 used to manage foreign exchange or interest rate risk. In 1998, Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities", was issued. This Statement requires all derivatives to be recognized on the balance sheet at fair value. Axcelis must adopt the standard by the first quarter of 2001. It expects that the adoption of the standard will have an immaterial effect on financial position and operating results, if any.

REVENUE RECOGNITION

Axcelis recognizes sales at the time of shipment of the system to the customer. The costs of installation at the customer's site are accrued at the time of shipment. The majority of Axcelis' systems are designed and tailored to meet the customer's specifications as outlined in the contract between the customer and Axcelis. To ensure that the customer's specifications are satisfied, per contract terms, the systems are tested and approved at Axcelis' facilities prior to shipment, normally with the customer present. There is a demonstrated history of customer acceptance subsequent to shipment and installation of these systems.

In December 1999, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition". SAB No. 101, which was subsequently amended by Staff Accounting Bulletin No. 101A (collectively referred to as SAB 101), articulates certain of the SEC staff's views in applying generally accepted accounting principles to revenue recognition in financial statements. Axcelis has concluded that its revenue recognition policy continues to be appropriate and in accordance with generally accepted accounting principles and SAB 101.

INTEREST EXPENSE

The statements of combined operations do not include an allocation of interest expense related to Eaton's debt obligations, consistent with Eaton's internal expense allocation methodology.

INCOME TAXES

Eaton accounts and pays for all United States income taxes. Axcelis' taxable income (loss) related to its United States operations is included in Eaton's consolidated income tax returns. Consistent with the terms of the tax sharing agreement with Eaton, the statements of combined operations include an allocation of Eaton's United States income taxes (credit) in amounts generally equivalent to the provisions which would have resulted had it filed separate income tax returns for the years presented. It has also been allocated United States deferred income taxes based on the estimated differences between the book and tax basis of its assets and liabilities. For tax years beginning in 2000, Axcelis will assume the liability to pay for Federal income taxes attributable to Axcelis' operations in the United States.

AXCELIS TECHNOLOGIES, INC.  
(WHOLLY-OWNED SUBSIDIARY OF EATON CORPORATION)

NOTES TO COMBINED FINANCIAL STATEMENTS -- (CONTINUED)

Several of Axcelis' operations outside the United States account and pay for income taxes related to their operations. For those operations which have not accounted and paid for income taxes related to their operations, the statements of combined operations include an allocation of Eaton's foreign income taxes in amounts generally equivalent to the provisions which would have resulted had Axcelis filed separate income tax returns for the years presented. These operations have also been allocated foreign deferred income taxes based on the estimated differences between the book and tax basis of their assets and liabilities.

STOCK OPTIONS FOR COMMON SHARES HELD BY AXCELIS EMPLOYEES

Axcelis applies the intrinsic value based method described in Accounting Principles Board Opinion (APB) No. 25 to account for stock options granted to employees. Under this method, no compensation expense is recognized on the grant date, since on that date the option price equals the market price of the underlying common shares.

NET INCOME (LOSS) PER SHARE

All of Axcelis' outstanding common stock is owned by Eaton. Basic and diluted net income (loss) per share amounts are computed by dividing the net income (loss) for the period by the common stock outstanding after the conversion of the 100 shares of Axcelis common stock held by Eaton into 80 million shares of common stock as discussed in footnote 19 to the combined financial statements.

Net income (loss) per share amounts do not give effect to any conversion of Eaton stock options into Axcelis stock options. The actual number of Eaton stock options to be converted into Axcelis stock options will not be determined until the individual employee options are converted into Axcelis stock options at the distribution date. See footnote 12 to the combined financial statements for a description of how Eaton stock options are expected to be converted into Axcelis stock options at the distribution date.

UNAUDITED PRO FORMA NET INCOME PER SHARE

Unaudited pro forma basic and diluted net income per share amounts are calculated based on 80 million shares of common stock outstanding that are owned by Eaton prior to this offering, plus 15.402 million shares of common stock whose proceeds will be used to pay the previously declared \$300 million dividend to Eaton described below based on an assumed initial public offering price of \$21 per share, reduced by the estimated per share offering costs.

UNAUDITED PRO FORMA BALANCE SHEET

The unaudited pro forma balance sheet as of March 31, 2000 gives effect to the \$300 million dividend declared on May 3, 2000 to be paid by Axcelis to Eaton, as though it had been declared and payable as of March 31, 2000. Axcelis presently expects to pay all of this dividend to Eaton in cash out of the net proceeds of this offering.

ESTIMATES

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying combined financial statements and notes. Actual results could differ from these estimates.

AXCELIS TECHNOLOGIES, INC.  
(WHOLLY-OWNED SUBSIDIARY OF EATON CORPORATION)

INTERIM FINANCIAL INFORMATION

The financial information as of March 31, 2000 and for the three months ended March 31, 1999 and 2000 is unaudited and includes all adjustments, consisting only of normal and recurring accruals, that management considers necessary for a fair presentation of combined financial position, operating results and cash flows. Results for the three months ended March 31, 1999 and 2000 are not necessarily indicative of results to be expected for full year 2000 or for any future period.

Subsequent to December 31, 1999, Axcelis' cash receipts and disbursements processed through Eaton's centralized cash management system in the United States are being recorded as a receivable from or payable to Eaton. Prior to January 1, 2000, the majority of these amounts were recorded in Parent Company investment. As of March 31, 2000, a net amount of \$1.0 million was payable to Eaton for these transactions and is included in "Receivables from Eaton Corporation" in the Combined Balance Sheet.

4. ACQUISITION OF FUSION SYSTEMS CORPORATION

On August 4, 1997, Fusion Systems Corporation (Fusion) was acquired. Fusion, which had \$85 million of sales in 1996, develops and manufactures dry strip and photostabilization systems for use within the semiconductor manufacturing process.

The acquisition was accounted for by the purchase method of accounting and, accordingly, Axcelis' combined financial statements include the results of Fusion beginning August 4, 1997. A summary of the estimated fair values of the assets acquired and liabilities assumed in the acquisition follows (in thousands):

|  |           |
|--|-----------|
| Assets acquired.....                   | \$ 57,172 |
| Liabilities assumed.....               | (30,433)  |
| Intangible assets.....                 | 40,000    |
| Goodwill.....                          | 49,813    |
| In-process research & development..... | 85,000    |
|  | -----     |
|  | \$201,552 |
|  | =====     |

Goodwill and intangible assets, consisting of developed technology, are being amortized by the straight-line method for financial statement purposes over a useful life of fifteen and seven years, respectively.

The purchase price allocation included \$85 million for purchased in-process research and development. This amount was expensed at the date of acquisition because technological feasibility had not been established and no alternative commercial use had been identified. Therefore, 1997 results include a write-off of \$85 million for purchased in-process research and development, with no income tax benefit.

Eaton's management was primarily responsible for estimating the fair value of the purchased in-process research and development. The purchased in-process research and development was determined based on the income method using a risk adjusted discount rate of 31% applied to project cash flows. Three groups of projects comprised over 95% of the total value of purchased in-process research and development, and are described in more detail below. The nature of the efforts required to develop the purchased in-process technology into commercially viable products principally related to the completion of all planning, designing and testing activities that

AXCELIS TECHNOLOGIES, INC.  
(WHOLLY-OWNED SUBSIDIARY OF EATON CORPORATION)

NOTES TO COMBINED FINANCIAL STATEMENTS -- (CONTINUED)

were necessary to establish that these products could be produced to meet their design requirements, including functions, features and technical performance requirements.

Gemini Photostabilizer (GPS) -- This project involved the development of a 300 millimeter photostabilizer and was valued at \$22.4 million. This product was scaled for 300 millimeter wafers and included functions new to photostabilizing. In order to realize this new technology, product designs had to be configured and scaled for the larger wafers. At the acquisition date, the greatest risk of potential failure associated with this project was that it could not be accomplished given technical and economic constraints. Product completion was originally expected in late 1998 with an undiscounted cost of completion of \$13.2 million. Development was ultimately completed in the first quarter of 1999 at a cost approximating the estimate, resulting in the sale of the first prototype.

Gemini Enhanced Strip (GES) -- These projects involved the development of the next generation enhanced strip products for both 200 millimeter and 300 millimeter wafers and together were valued at \$37.4 million. These new products incorporated various new functions, including targeting applications for 0.25 micron and 0.18 micron geometries. Areas requiring design were the same as those in the GPS project, with corresponding risks of failure. Product development was ultimately completed in mid-1999 at an undiscounted cost of completion of \$8.5 million, which approximated the original cost estimate.

Gemini Microwave Plasma Asher (GPL) -- These projects involved the development of the next generation of plasma ashers for 200 millimeter and 300 millimeter wafers and together were valued at \$22.8 million. These new products incorporated substantial changes to enable targeting applications for 0.25 micron and 0.18 micron geometries. The primary risk related to these projects involved the achievement of tightly controlled process parameters, which was considered difficult due to the smaller line widths targeted with these projects. Product development was originally planned for mid-1998, and was completed by the fourth quarter of 1998 at an undiscounted cost of completion of \$2.5 million, which approximated the original cost estimate.

#### 5. RESTRUCTURING CHARGES

Due to the decline of the semiconductor capital equipment market in 1998, Axcelis took actions in the third quarter of 1998 to restructure its business and recorded restructuring charges of \$42.4 million (\$27.5 million aftertax).

Several specific actions comprised the overall restructuring efforts, including workforce reductions, asset write-downs and other restructuring actions. The charge for workforce reductions, primarily severance and other related employee benefits, included the termination of approximately 475 employees, primarily manufacturing personnel. Approximately half of the workforce reductions related to the closing of the Austin, Texas plant. The charge for asset write-downs included \$17.4 million for inventory, which was written down to estimated market value, and is included in cost of products sold. The ion implantation equipment manufacturing facility in Austin, Texas was closed and production was transferred to Beverly, Massachusetts. The write-down of this plant to estimated selling price represented approximately \$2.1 million of the restructuring charge. The phase-out of production was concluded in the first quarter of 1999. Further, the Thermal Processing Systems product line, located in Peabody, Massachusetts, was merged into the Fusion Systems division in Rockville, Maryland, and the Flat Panel Equipment product line was merged into the Implant Systems division in Beverly, Massachusetts.

The matching contribution percentage, which is determined each quarter based on net income per

Eaton Common Share -- basic, ranges from 25% to 100% of a participant's contribution and is invested in Eaton Common Shares. Expense related to the 401k plan match (in millions) was \$2.5 in 1997, \$3.6 in 1998 and \$2.0 in 1999. After the initial public offering, Axcelis intends to establish a separate 401k plan for its employees.

Beginning in 1997, the majority of Axcelis' United States employees have been covered by a non-contributory defined benefit pension plan of Eaton. The plan provides a benefit that is based on an employee's accumulated pay, as defined in the plan. Eaton's policy is to fund at least the minimum required by applicable regulations. Expense for participation in the pension plan (in millions) was \$2.4 in 1997 and 1998 and \$2.2 in 1999.

Certain of Axcelis' employees at foreign operations, primarily Germany, are covered by non-contributory defined benefit pension plans of Eaton. Expense for participation in these plans (in millions) was \$0.3 in 1997, \$0.6 in 1998 and \$0.5 in 1999.

After the initial public offering, Axcelis intends to establish separate pension plans for its employees.

Axcelis also provides postretirement benefits other than pensions, primarily long-term disability benefits, to a limited number of its United States employees. Expense related to these benefits (in millions) was \$0.3 in 1997 and 1998 and \$0.4 in 1999.

#### 11. EQUITY

Axcelis has authorized common stock of 1,000 shares with a par value of \$1.00 per share; 100 shares are outstanding and owned by Eaton. As described in Note 19, in June 2000, the Axcelis Board of Directors authorized the conversion of the 100 shares of Axcelis common stock owned by Eaton into 80 million shares and increased the number of authorized shares to 300 million with a par value of \$0.001 per share.

Historically, the majority of these options vest ratably during the three-year period following the date of grant and expire ten years from the date of grant. Stock options granted in 1997 and 1998 included 105,000 and 34,000, respectively, of special performance-vested options in lieu of the more standard options. These options become exercisable when Eaton achieves certain net income and Eaton Common Share price targets. If these targets are not achieved, these options

If the financial reporting consequences are not materially adverse, Axcelis intends to make equitable arrangements with its employees regarding the value of their Eaton options if and when Eaton disposes of substantially all of its interest in Axcelis. If Eaton disposes of its interest in a distribution of shares to Eaton shareholders, Axcelis intends to assume substantially all of the Eaton options held by Axcelis employees on the date of the distribution. These assumed options will convert at the distribution by the granting of options to Axcelis employees to purchase Axcelis common stock and cancellation of their rights to acquire Eaton shares. The conversion is expected to be done in such a manner that (1) the aggregate intrinsic value of the options immediately before and after the exchange are the same, (2) the ratio of the exercise price per option to the market value per share is not reduced, and (3) the vesting provisions and option period of the replacement Axcelis options do not accelerate or extend the original vesting terms and option period of the Eaton options. Performance vesting provisions will change to focus on Axcelis' performance, as opposed to Eaton's performance. No option will be exercisable, however, if the effect of that exercise would prevent Axcelis from filing a consolidated federal income tax return with Eaton, or if the exercise would cause Eaton not to be in control of Axcelis for purposes of Section 368(c) of the Internal Revenue Code. If Eaton disposes of its interest in any other transaction, Axcelis intends to make equitable arrangements to preserve the economic value of substantially all Eaton options held by Axcelis employees.

As permitted under Statement of Financial Accounting Standard (SFAS) No. 123, Accounting for Stock-Based Compensation, Axcelis has elected to follow Accounting Principles Board Opinion (APB) No. 25 and related interpretations in accounting for stock-based awards to employees. Under APB No. 25, it recognizes no compensation expense with respect to such awards, since on the date the options were granted, the option price equaled the market value of Eaton Common Shares.

Pro forma information regarding net income (loss) is required by SFAS No. 123. This information is required to be determined as if Axcelis had accounted for stock-based awards to its employees granted subsequent to 1995 under the fair value method of that Statement. The fair value of the options granted has been estimated at the date of grant using the Black-Scholes option pricing model with Eaton's input assumptions as follows:

#### 18. TRANSACTIONS WITH EATON CORPORATION

The statements of combined operations include those expenses originally recorded by Axcelis or directly charged to Axcelis by Eaton. Further, the statements include an allocation of Eaton's general corporate expenses to reflect the services provided or benefits received by Axcelis. Such allocated expenses were (in millions) \$11.8 in 1997, \$14.8 in 1998 and \$15.0 in 1999 and are included in "General & Administrative Expense" in the Statements of Combined Operations. This allocation is based on Eaton's internal expense allocation methodology which charges these expenses to operating locations based both on net working capital, excluding short-term investments and short-term debt, and on property, plant, and equipment - net. Management believes this is a reasonable method of allocating these expenses, and are representative of the operating expenses that would have been incurred had Axcelis operated on a stand-alone basis.

Prior to the initial public offering, Axcelis will enter into agreements with Eaton providing for the reorganization of Eaton's semiconductor equipment operations and separation of this business from Eaton. These agreements generally will provide for, among other things, the transfer from Eaton to Axcelis of assets and liabilities relating to this business, and various interim and ongoing relationships between Axcelis and Eaton.

## ITEM 14. INDEMNIFICATION OF DIRECTORS AND OFFICERS

We are incorporated under the laws of the State of Delaware. Section 145 ("Section 145") of the General Corporation Law of the State of Delaware, as the same exists or may hereafter be amended (the "General Corporation Law"), inter alia, provides that a Delaware corporation may indemnify any persons who were, are or are threatened to be made, parties to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of such corporation), by reason of the fact that such person is or was an officer, director, employee or agent of such corporation, or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, provided such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the corporation's best interests and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his conduct was illegal.

Section 145 further authorizes a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against any liability asserted against him and incurred by him in any such capacity, arising out of his status as such, whether or not the corporation would otherwise have the power to indemnify him under Section 145.

Our Amended and Restated Certificate of Incorporation and Bylaws, as amended, provide for the indemnification of officers and directors to the fullest extent permitted by the General Corporation Law.

All of our directors and officers will be covered by insurance policies maintained by us against specified liabilities for actions taken in their capacities as such, including liabilities under the Securities Act of 1933, as amended. In addition, we have entered into indemnity agreements with our directors and executive officers (a form of which is filed as Exhibit 10.2 to this

Registration Statement) that obligate us to indemnify such directors and executive officers to the fullest extent permitted by the General Corporation Law.

ITEM 17. UNDERTAKINGS

The Registrant hereby undertakes to provide the Underwriters at the closing specified in the Underwriting Agreement certificates in such denominations and registered in such names as required by the Underwriters to permit prompt delivery to each purchaser.

Insofar as the indemnification for liabilities arising under the Securities Act of 1933 may be permitted as to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payments by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes that:

(1) for purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective; and

(2) for the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and this offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

## SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this amendment to registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Cleveland, State of Ohio, on June 14, 2000.

## FORM OF MASTER SEPARATION AND DISTRIBUTION AGREEMENT

This Master Separation and Distribution Agreement ("Agreement") is made and entered into on June \_\_, 2000, by and between Eaton Corporation ("Eaton"), an Ohio corporation, and Axcelis Technologies, Inc. (formerly known as Eaton Semiconductor Equipment Inc.) ("Axcelis Technologies"), a Delaware corporation. Capitalized terms used herein and not otherwise defined shall have the meanings ascribed to such terms in Article VII hereof.

## RECITALS

WHEREAS, Eaton currently owns all of the issued and outstanding common stock of Axcelis Technologies;

WHEREAS, the business of Axcelis Technologies consists of the business and operations conducted by Eaton and its Subsidiaries as Eaton's Semiconductor Equipment Operations (the "Axcelis Technologies Business") as described in the IPO Registration Statement (as defined below);

WHEREAS, the Board of Directors of Eaton has determined that it would be appropriate and desirable to separate the Axcelis Technologies Business from Eaton and to reorganize it into an independent publicly held company;

WHEREAS, the Boards of Directors of Eaton and Axcelis Technologies have each determined that it would be appropriate and desirable for Eaton to contribute and transfer to Axcelis Technologies, and for Axcelis Technologies to receive and assume, directly or indirectly, the Assets and Liabilities (including contingent liabilities) of Eaton and its Subsidiaries associated with the Axcelis Technologies Business to the extent not contributed and transferred to Axcelis Technologies prior to May 4, 2000 (the "Separation");

WHEREAS, as part of the transactions contemplated by the Separation, prior to the date hereof Eaton has caused the transfer to Axcelis of all of the issued and outstanding capital stock of Fusion Systems Corporation and High Temperature Engineering Corporation, all of Eaton's ownership interest in Sumitomo Eaton Nova Corporation and the intellectual property assets of the Axcelis Technologies Business.

WHEREAS, Eaton and Axcelis Technologies currently contemplate that, following the Separation, Axcelis Technologies will make an initial public offering ("IPO") of an amount of its common stock pursuant to a registration statement on Form S-1 under the Securities Act of 1933, as amended (the "IPO Registration Statement"), that will reduce Eaton's ownership interest in Axcelis Technologies to not less than 80.1% of the outstanding common stock of Axcelis Technologies;

WHEREAS, Eaton currently plans to complete the divestiture of Axcelis Technologies approximately six months following such IPO by means of a distribution of all of the common stock of Axcelis Technologies owned by Eaton to holders of Eaton common stock on a tax-free basis in a split-off, a spin-off or some combination of both transactions (the "Distribution");

WHEREAS, Eaton and Axcelis Technologies intend that the Separation will qualify as a tax-free reorganization under Section 368(a)(1)(D) of the Internal Revenue Code of 1986, as

amended (the "Code"), that the Distribution will qualify as a tax-free distribution under Section 355 of the Code and that this Agreement shall be, and is hereby adopted as, a plan of reorganization under Section 368 of the Code; and

WHEREAS, the parties intend in this Agreement, including the Exhibits hereto, to set forth the principal arrangements between them regarding the Separation and to set forth certain other matters regarding the IPO and the Distribution.

NOW, THEREFORE, in consideration of the foregoing and the covenants and agreements set forth below, Eaton and Axcelis Technologies, intending to be legally bound, hereby agree as follows:

#### ARTICLE I

##### SEPARATION

Section 1.1 Separation Date. Unless otherwise provided in this Agreement or in any agreement to be executed in connection with this Agreement, the effective time and date of the Separation shall be the earlier of (i) 12:01 a.m. on the IPO Closing Date or (ii) 12:59 p.m. on June 30, 2000 or such subsequent date as may be designated at any time prior to the earlier of such dates by the Chairman or President of Eaton (the "Separation Date").

Section 1.2 Closing of Transactions. Except as otherwise provided herein, the closing of the transactions contemplated in Article II (the "Separation Closing") shall occur on the Separation Date (beginning at 10:00 a.m. Cleveland time), at the offices of Eaton at Eaton Center, 1111 Superior Avenue, Cleveland, Ohio 44114, or at such other place as Eaton may in its sole discretion determine, by the delivery of the executed instruments of transfer, assumptions of liability, undertakings, agreements, instruments or other documents to be executed pursuant to Article II of this Agreement.

#### ARTICLE II

##### DOCUMENTS AND ITEMS TO BE DELIVERED AT THE SEPARATION CLOSING

Section 2.1 Documents to Be Delivered by Eaton. (a) A duly executed General Assignment and Assumption Agreement (the "Assignment Agreement") substantially in the form attached hereto as Exhibit A;

(b) A duly executed Trademark License Agreement substantially in the form attached hereto as Exhibit B;

(c) A duly executed Employee Matters Agreement substantially in the form attached hereto as Exhibit C;

(d) A duly executed Tax Sharing and Indemnification Agreement substantially in the form attached hereto as Exhibit D;

(e) A duly executed Transitional Services Agreement substantially in the form attached hereto as Exhibit E;

(g) A duly executed Indemnification and Insurance Matters Agreement substantially in the form attached hereto as Exhibit G;

(h) Such other agreements, documents or instruments as Eaton may determine are necessary or desirable in order to achieve the purposes hereof.

Section 2.2 Documents to Be Delivered by Axcelis Technologies. On or before the Separation Date, Axcelis Technologies will deliver to Eaton a duly executed counterpart of any agreement or instrument referred to in Section 2.1 in each case where Axcelis Technologies is to be a party to such agreement or instrument.

Section 2.3 Cash to be Transferred. Since December 31, 1999, portions of the cash receipts and disbursements of Axcelis and certain of its Subsidiaries have been processed through Eaton's centralized cash management system and recorded as a receivable from or payable to Eaton. In connection with the Separation Closing, Eaton shall calculate the net amount, if any, of such receivables and payables for each of Axcelis and any of its Subsidiaries, and such amounts (plus any applicable interest thereon) shall be paid in cash by Eaton or Axcelis Technologies or its relevant subsidiaries, as the case may be, promptly following such determination. In addition, other intercompany receivables payable by Eaton shall be paid in cash by Eaton in connection with the Separation Closing.

### ARTICLE III

#### THE IPO AND ACTIONS PENDING THE IPO

Section 3.1 Transactions Related to the IPO. Subject to the conditions specified in Section 3.3, Eaton and Axcelis Technologies shall use their reasonable commercial efforts to consummate the IPO. Such efforts shall include, without limitation, those specified in this Section 3.1.

(a) Registration Statement. Axcelis Technologies filed on May 4, 2000 and shall file with the Securities and Exchange Commission (the "SEC") the IPO Registration Statement and such amendments or supplements thereto as may be necessary in order to cause the same to become and remain effective as required by law, including, but not limited to, filing such amendments to the IPO Registration Statement as may be required by the underwriting agreement to be entered into between the managing underwriters for the IPO (the "Underwriters") and Axcelis Technologies, (the "Underwriting Agreement") or by the SEC or other applicable federal, state or foreign

securities laws. Eaton and Axcelis Technologies shall also cooperate in preparing, filing with the SEC and causing to become effective a registration statement registering the common stock of Axcelis Technologies under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and any registration statements or amendments thereof which are required to reflect the establishment of, or amendments to, any employee benefit and other plans necessary or appropriate in connection with the Separation, the IPO, the Distribution and the other transactions contemplated by this Agreement.

(b) Underwriting Agreement. Axcelis Technologies shall enter into the Underwriting Agreement, including indemnification by Eaton as described in the IPO Registration Statement in form and substance reasonably satisfactory to the committee established by the Board of Directors of Axcelis Technologies with respect to the IPO, consisting of the three persons constituting the directors of Axcelis Technologies on May 3, 2000 (the "Offering Committee"), and shall comply with its obligations thereunder.

(c) Nasdaq Listing. Axcelis Technologies shall prepare, file and use reasonable commercial efforts to make effective an application for listing of the common stock of Axcelis Technologies issued in the IPO on the Nasdaq National Market ("Nasdaq"), subject to official approval for quotation.

(d) Resignations. Eaton will obtain, or cause its appropriate Subsidiaries to obtain, resignations of each person who is an officer of Eaton or its Subsidiaries immediately prior to the IPO Closing and who will be an employee of Axcelis Technologies from and after the IPO Closing Date.

Section 3.2 Cooperation. Axcelis Technologies shall consult, and cooperate in all respects, with Eaton in connection with the pricing of the common stock of Axcelis Technologies to be offered in the IPO. Axcelis Technologies shall, at Eaton's direction, promptly take any and all actions necessary or desirable to consummate the IPO as contemplated by the IPO Registration Statement and the Underwriting Agreement.

Section 3.3 Conditions Precedent to Consummation of the IPO. The obligations of the parties to use their reasonable commercial efforts to consummate the IPO shall be conditioned on the satisfaction of the following conditions:

(a) Registration Statement. The IPO Registration Statement shall have been filed and declared effective by the SEC, and there shall be no stop-order in effect with respect thereto.

(b) Blue Sky and NASD. The actions and filings with regard to state securities and blue sky laws of the United States (and any comparable laws under any foreign jurisdictions) shall have been taken and, where applicable, become effective or been accepted. Where the amount of compensation to be allowed or paid to the underwriters and any other arrangement among Axcelis Technologies, Eaton, the underwriters and other broker dealers participating in the IPO are reviewed by the National Association of Securities Dealers, Inc. ("NASD"), no statement shall have been issued by the NASD prior to effectiveness expressing objections to the compensation and other arrangements which has not been resolved as of the IPO Closing Date.

(c) Nasdaq Listing. The common stock of Axcelis Technologies to be issued in the IPO shall have been accepted for listing on the Nasdaq, on official approval for quotation.

(d) Underwriting Agreement. Axcelis Technologies shall have entered into the Underwriting Agreement, including indemnification by Eaton as described in the IPO Registration Statement and all conditions to the obligations of Axcelis Technologies and the Underwriters shall have been satisfied or waived.

(e) Common Stock Ownership. Eaton shall be satisfied in its sole discretion that it will own at least 80.1% of the outstanding common stock of Axcelis Technologies following the IPO. All other conditions to permit the Separation, the IPO and the Distribution to qualify as a tax-free distribution to Eaton, Axcelis Technologies and Eaton's stockholders shall, to the extent applicable as of the time of the IPO, be satisfied. There shall be no event or condition that is likely to cause any of such conditions not to be satisfied as of the time of the IPO or thereafter.

(f) No Legal Restraints. No order, injunction or decree issued by any court or agency of competent jurisdiction or other legal restraint or prohibition preventing the consummation of the Separation or the IPO or any of the other transactions contemplated by this Agreement shall be in effect.

(g) Separation. The Separation shall have become effective in accordance with Articles I and II hereof.

(h) Other Actions. Such other actions as the parties hereto may, based upon the advice of counsel, reasonably request to be taken prior to the IPO to assure the successful completion of the IPO shall have been taken.

(i) No Termination. This Agreement shall not have been terminated.

Section 3.4 Dividend Payment. Axcelis Technologies presently expects to pay the \$300 million dividend payable to Eaton in cash out of the net proceeds of the IPO, which dividend payment Eaton intends to use directly to satisfy obligations to its lenders.

#### ARTICLE IV

##### THE DISTRIBUTION

Section 4.1 The Distribution. Subject to the provisions of Section 4.2, Eaton currently intends to complete the Distribution within approximately six months of the IPO Closing Date. Eaton shall, in its sole and absolute discretion, determine the date of the consummation of the Distribution and all terms of the Distribution, including, without limitation, the form, structure, timing and terms of any transaction(s) and/or offering(s) to effect the Distribution and the timing of and conditions to the consummation of the Distribution. In addition, Eaton may at any time and from time to time until the completion of the Distribution modify or change the terms of the Distribution, including without limitation by accelerating or delaying the timing of the consummation of all or part of the Distribution. Axcelis Technologies shall cooperate with Eaton in all respects to accomplish the Distribution and shall, at Eaton's direction, promptly take any and all actions necessary or desirable to effect the Distribution, including without limitation the registration under the Securities Act of the common stock of Axcelis Technologies on an appropriate registration form or forms to be designated by Eaton and any listing thereof with Nasdaq. Eaton shall select any investment banker(s) and manager(s) in connection with the Distribution, as well as any financial printer, solicitation and/or exchange agent and outside counsel for Eaton; provided, however, that nothing herein shall prohibit Axcelis Technologies from engaging (at its own expense) its own financial, legal, accounting and other advisors in

connection with the Distribution. Axcelis Technologies shall not issue or sell any shares of its common stock on or prior to the Distribution Date without the prior written consent of Eaton, although Axcelis may at any time on or after the IPO Closing Date grant options pursuant to the Axcelis Technologies 2000 Stock Option Agreement.

Section 4.2 Conditions Precedent to Distribution. Axcelis Technologies acknowledges and agrees that, notwithstanding anything to the contrary contained in this Agreement or any Ancillary Agreement, Eaton is not obligated in any respect to proceed with or complete the Distribution and that Eaton may, in its sole discretion, at any time abandon its plan to proceed with or complete the Distribution. Without limiting the foregoing, the following are certain conditions that must take place prior to the consummation of the Distribution:

(a) IRS Ruling. Eaton shall have obtained a private letter ruling from the Internal Revenue Service in form and substance satisfactory to Eaton (in its sole discretion), and such ruling shall remain in effect as of the date of the consummation of the Distribution (the "Distribution Date"), to the effect that (i) the transfer by Eaton and its Subsidiaries to the Axcelis Technologies Group of the property, subject to liabilities, held by Eaton of the Axcelis Technologies Business, and Axcelis Technologies' assumption of the liabilities held by Eaton and its Subsidiaries related to the Axcelis Technologies Business, followed by the distribution by Eaton of all of its Axcelis Technologies common stock to stockholders of Eaton, will qualify as a reorganization under Sections 368(a)(1)(D) and 355 of the Code; (ii) no gain or loss will be recognized by Eaton on its transfer of property of the Axcelis Technologies Business to Axcelis Technologies; (iii) no gain or loss will be recognized by Axcelis Technologies on its receipt of property of the Axcelis Technologies Business from Eaton; and (iv) no gain or loss will be recognized by (and no amount will otherwise be included in the income of) stockholders of Eaton upon their receipt of Axcelis Technologies common stock pursuant to the Distribution;

(b) Government Approvals. Any material Governmental Approvals necessary to consummate the Distribution shall have been obtained and be in full force and effect;

(c) No Legal Restraints. No order, injunction or decree issued by any court or agency of competent jurisdiction or other legal restraint or prohibition preventing the consummation of the Distribution shall be in effect, and no other event outside the control of Eaton shall have occurred or failed to occur that prevents the consummation of the Distribution; and

(d) No Material Adverse Effect. No other events or developments shall have occurred that, in the judgment of the Board of Directors of Eaton, would result in the Distribution having a material adverse effect on Eaton or on the stockholders of Eaton.

#### ARTICLE V

##### COVENANTS AND OTHER MATTERS

Section 5.1 Other Agreements. Eaton and Axcelis Technologies will execute or cause to be executed by the appropriate parties and deliver, as appropriate, such other agreements,

instruments and other documents as may be necessary or desirable in order to effect the purposes of this Agreement and the Ancillary Agreements.

Section 5.2 Further Instruments. Subject to Eaton's approval in its reasonable judgment, and without further consideration, Eaton will execute and deliver, and will cause its applicable Subsidiaries to execute and deliver, to Axcelis Technologies and its Subsidiaries such other instruments of transfer, conveyance, assignment, substitution and confirmation and take such action as Axcelis Technologies may reasonably request in order more effectively to transfer, convey and assign to Axcelis Technologies and its Subsidiaries and confirm Axcelis Technologies' and its Subsidiaries' title to all of the assets, rights and other things of value contemplated to be transferred to Axcelis Technologies and its Subsidiaries pursuant to this Agreement, the Ancillary Agreements, and any documents referred to herein and therein, to put Axcelis Technologies and its Subsidiaries in actual possession and operating control thereof and to permit Axcelis Technologies and its Subsidiaries to exercise all rights with respect thereto (including, without limitation, rights under contracts and other arrangements as to which the consent of any third party to the transfer thereof shall not have previously been obtained). At the request of Eaton and without further consideration, Axcelis Technologies will execute and deliver, and will cause its applicable Subsidiaries to execute and deliver, to Eaton and its Subsidiaries all instruments, assumptions, novations, undertakings, substitutions or other documents and take such other action as Eaton may reasonably deem necessary or desirable in order to have the Axcelis Technologies Group fully and unconditionally assume and discharge the liabilities contemplated to be assumed by the Axcelis Technologies Group under this Agreement or any document in connection herewith and to relieve the Eaton Group of any liability or obligation with respect thereto and evidence the same to third parties.

#### Section 5.3 Agreement for Exchange of Information.

(a) Generally. Each of Eaton and Axcelis Technologies shall provide, or cause to be provided, to each other, at any time before or after the Distribution Date, as soon as reasonably practicable after written request therefor, any Information in the possession or under the control of such party that the requesting party reasonably needs (i) to comply with reporting, disclosure, filing or other requirements imposed on the requesting party (including under applicable securities laws) by a Governmental Authority, (ii) for use in any judicial, regulatory, administrative or other proceeding or in order to satisfy audit, accounting, claims, litigation, regulatory, tax or other similar requirements, (iii) to comply with its obligations under this Agreement or any Ancillary Agreement or (iv) in connection with the ongoing businesses of Eaton or Axcelis Technologies, as the case may be; provided, however, that in the event that any party determines that any such provision of Information would be commercially detrimental, violate any law or agreement or waive any attorney-client privilege, the parties shall take all reasonable measures to permit the compliance with such obligations in a manner that avoids any such harm or consequence.

(b) Internal Accounting Controls; Financial Information. After the Separation Date, each party shall (i) maintain and cause its Subsidiaries to maintain in effect at its own cost and expense adequate systems and controls for its business to the extent necessary to enable the other party to satisfy its reporting, accounting, audit and other obligations, and (ii) provide and cause its Subsidiaries to provide, or cause to be provided, to the other party and its Subsidiaries

in such form as such requesting party shall request, at no charge to the requesting party, all financial and other data and information as the requesting party determines necessary or advisable in order to prepare its and its Subsidiaries financial statements and reports or filings with any Governmental Authority.

(c) Ownership of Information. Any Information owned by a party that is provided to a requesting party pursuant to this Section 5.3 shall remain the property of the providing party. Unless specifically set forth herein, nothing contained in this Agreement shall be construed as granting or conferring rights of license or otherwise in any such Information.

(d) Record Retention. To facilitate the possible exchange of Information pursuant to this Section 5.3 and other provisions of this Agreement after the Distribution Date, each party shall use its reasonable commercial efforts to retain all Information in its respective possession or control on the Distribution Date substantially in accordance with the policies of Eaton as in effect on the Separation Date. However, except as set forth in the Tax Sharing and Indemnification Agreement, at any time after the Distribution Date, each party may amend its respective record retention policies at such party's discretion; provided, however, that if a party desires to effect the amendment within three (3) years after the Distribution Date, the amending party must give sixty (60) days prior written notice of such change in the policy to the other party to this Agreement. No party will destroy, or permit any of its Subsidiaries to destroy, any Information that exists on the Separation Date (other than Information that is permitted to be destroyed under the current record retention policies of Eaton) and that falls under the categories listed in Section 5.3(a), without first using its reasonable commercial efforts to notify the other party of the proposed destruction and giving the other party the opportunity to take possession of such Information prior to such destruction.

(e) Limitation of Liability. No party shall have any liability to any other party in the event that any Information exchanged or provided pursuant to this Section 5.3 is found to be inaccurate, in the absence of gross negligence or willful misconduct by the party providing such Information. No party shall have any liability to any other party if any Information is destroyed or lost after reasonable commercial efforts by such party to comply with the provisions of Section 5.3(d).

(f) Other Agreements Providing for Exchange of Information. The rights and obligations granted under this Section 5.3 are subject to any specific limitations, qualifications or additional provisions on the sharing, exchange or confidential treatment of Information set forth in this Agreement or any Ancillary Agreement.

(g) Production of Witnesses; Records; Cooperation. After the Distribution Date, except in the case of a legal or other proceeding by one party against another party (which shall be governed by such discovery rules as may be applicable under Section 5.8 or otherwise), each party hereto shall use its reasonable commercial efforts to make available to each other party, upon written request, the former, current and future directors, officers, employees, other personnel and agents of such party as witnesses and any books, records or other documents within its control or which it otherwise has the ability to make available, to the extent that any such person (giving consideration to business demands of such directors, officers, employees, other personnel and agents) or books, records or other documents may reasonably be required in

connection with any legal, administrative or other proceeding in which the requesting party may from time to time be involved, regardless of whether such legal, administrative or other proceeding is a matter with respect to which indemnification may be sought hereunder. The requesting party shall bear all costs and expenses in connection therewith.

Section 5.4 Auditors and Audits; Annual and Quarterly Statements and Accounting. For as long as Eaton is required in accordance with United States generally accepted accounting principles to consolidate Axcelis Technologies' results of operations and financial position:

(a) Selection of Auditors. Axcelis Technologies shall not select a different accounting firm from that used by Eaton in each respective country to serve as its (and its Subsidiaries') independent certified public accountants ("Axcelis Technologies' Auditors") for purposes of providing an opinion on its consolidated financial statements without Eaton's prior written consent (which shall not be unreasonably withheld).

(b) Date of Auditors' Opinion and Quarterly Reviews. Axcelis Technologies shall use its reasonable commercial efforts to enable Axcelis Technologies' Auditors to complete their audit such that they will date their opinion on Axcelis Technologies' audited annual financial statements on the same date that Eaton's independent certified public accountants ("Eaton's Auditors") date their opinion on Eaton's audited annual financial statements, and to enable Eaton to meet its timetable for the printing, filing and public dissemination of Eaton's annual financial statements. Axcelis Technologies shall use its reasonable commercial efforts to enable Axcelis Technologies' Auditors to complete their quarterly review procedures such that they will provide clearance on Axcelis Technologies' quarterly financial statements on the same date that Eaton's Auditors provide clearance on Eaton's quarterly financial statements.

(c) Annual and Quarterly Financial Statements. Axcelis Technologies shall provide to Eaton on a timely basis all Information that Eaton reasonably requires to meet its schedule for the preparation, printing, filing and public dissemination of Eaton's annual and quarterly financial statements. Without limiting the generality of the foregoing, Axcelis Technologies will provide all required financial Information with respect to Axcelis Technologies and its Subsidiaries to Axcelis Technologies' Auditors in a sufficient and reasonable time and in sufficient detail to permit Axcelis Technologies' Auditors to take all steps and perform all reviews necessary to provide sufficient assistance to Eaton's Auditors with respect to financial Information to be included or contained in Eaton's annual and quarterly financial statements. Similarly, Eaton shall provide to Axcelis Technologies on a timely basis all financial Information that Axcelis Technologies reasonably requires to meet its schedule for the preparation, printing, filing and public dissemination of Axcelis Technologies' annual and quarterly financial statements. Without limiting the generality of the foregoing, Eaton will provide all required financial Information with respect to Eaton and its Subsidiaries to Eaton's Auditors in a sufficient and reasonable time and in sufficient detail to permit Eaton's Auditors to take all steps and perform all reviews necessary to provide sufficient assistance to Axcelis Technologies' Auditors with respect to Information to be included or contained in Axcelis Technologies' annual and quarterly financial statements.

(d) Identity of Personnel Performing the Annual Audit and Quarterly Reviews. Axcelis Technologies shall authorize Axcelis Technologies' Auditors to make

available to Eaton's Auditors both the personnel who performed or will perform the annual audits and quarterly reviews of Axcelis Technologies and work papers related to the annual audits and quarterly reviews of Axcelis Technologies, in all cases within a reasonable time prior to Axcelis Technologies' Auditors' opinion date, so that Eaton's Auditors are able to perform the procedures they consider necessary to take responsibility for the work of Axcelis Technologies' Auditors as it relates to Eaton's Auditors' report on Eaton's financial statements, all within sufficient time to enable Eaton to meet its timetable for the printing, filing and public dissemination of Eaton's annual and quarterly statements. Similarly, Eaton shall authorize Eaton's Auditors to make available to Axcelis Technologies' Auditors both the personnel who performed or will perform the annual audits and quarterly reviews of Eaton and work papers related to the annual audits and quarterly reviews of Eaton, in all cases within a reasonable time prior to Eaton's Auditors' opinion date, so that Axcelis Technologies' Auditors are able to perform the procedures they consider necessary to take responsibility for the work of Eaton's Auditors as it relates to Axcelis Technologies' Auditors' report on Axcelis Technologies' statements, all within sufficient time to enable Axcelis Technologies to meet its timetable for the printing, filing and public dissemination of Axcelis Technologies' annual and quarterly financial statements.

(e) Access to Books and Records. Axcelis Technologies shall provide Eaton's internal auditors and their designees access to Axcelis Technologies' and its Subsidiaries' books and records so that Eaton may conduct reasonable audits relating to the financial statements provided by Axcelis Technologies pursuant hereto as well as to the internal accounting controls and operations of Axcelis Technologies and its Subsidiaries. Similarly, Eaton shall provide Axcelis Technologies' internal auditors and their designees access to Eaton's and its Subsidiaries' books and records so that Axcelis Technologies may conduct reasonable audits relating to the financial statements provided by Eaton pursuant hereto as well as to the internal accounting controls and operations of Eaton and its Subsidiaries.

(f) Notice of Change in Accounting Principles. Subsequent to the Distribution, Axcelis Technologies shall give Eaton as much prior notice as reasonably practical of any proposed determination of, or any significant changes in, its accounting estimates or accounting principles from those in effect prior to the Distribution. Axcelis Technologies will consult with Eaton and, if requested by Eaton, Axcelis Technologies will consult with Eaton's Auditors with respect thereto. Eaton shall give Axcelis Technologies as much prior notice as reasonably practical of any proposed determination of, or any significant changes in, its accounting estimates or accounting principles from those in effect on the Separation Date. Eaton will consult with Axcelis Technologies and, if requested by Axcelis Technologies, Eaton will consult with Axcelis Technologies' Auditors with respect thereto.

(g) Conflict with Third-Party Agreements. Nothing in this Section 5.4 shall require Eaton or Axcelis Technologies to violate any agreement with any third party regarding the confidentiality of confidential and proprietary information relating to that third party or its business; provided that in the event that Eaton or Axcelis Technologies is required under this Section 5.4 to disclose any such information, each of Eaton and Axcelis Technologies shall use commercially reasonable efforts to seek to obtain such third party's consent to the disclosure of such information.

Section 5.5 Consistency with Past Practices. At all times prior to the consummation of the IPO, Eaton and Axcelis Technologies will use commercially reasonable efforts to conduct the Axcelis Technologies Business in the ordinary course, consistent with past practices, except as otherwise contemplated in connection with the Separation.

Section 5.6 Payment of Expenses. Except as otherwise specifically provided to the contrary in any of the Ancillary Agreements, Axcelis Technologies shall be responsible, as determined by Eaton in its sole discretion, for third party costs and expenses incurred by the parties hereto in connection with the IPO (including without limitation discounts, commissions and reimbursable expenses of the Underwriters), and Eaton shall be responsible, as determined by Eaton in its sole discretion, for the balance of such fees, costs and expenses incurred in connection with this Agreement (including such fees, costs and expenses incurred solely in connection with the Distribution). Axcelis Technologies and Eaton shall each be responsible for their own internal costs and expenses incurred in connection with the Separation, the IPO and the Distribution.

Section 5.7 Foreign Subsidiaries. Eaton and Axcelis Technologies shall cause their applicable foreign subsidiaries to execute such local transfer agreements, assignments, assumptions, novations and other documents and to take such other actions as shall be necessary to carry out the Non-US Plan, a copy of which is attached hereto as Exhibit H (the "Non-US Plan"), to effect the purposes of this Agreement with respect to their respective operations outside the United States.

#### Section 5.8 Dispute Resolution.

(a) If a dispute, controversy or claim ("Dispute") arises between the parties relating to the interpretation or performance of this Agreement or the Ancillary Agreements, or the grounds for the termination hereof, appropriate senior executives of each party with authority to resolve the matter shall meet to attempt in good faith to negotiate a resolution of the Dispute prior to pursuing other available remedies. The initial meeting between the appropriate senior executives shall be referred to herein as the "Dispute Resolution Commencement Date". Discussions and correspondence relating to trying to resolve such Dispute shall be treated as confidential information developed for the purpose of settlement and shall be exempt from discovery or production and shall not be admissible in arbitration or litigation. If the senior executives are unable to resolve the Dispute within thirty (30) days from the Dispute Resolution Commencement Date, and either party wishes to pursue its rights relating to such Dispute, then the Dispute will be mediated by a mutually acceptable mediator selected by the parties within forty-five (45) days after written notice by one party to the other demanding non-binding mediation. Neither party may unreasonably withhold consent to the selection of a mediator or the location of the mediation. Both parties will share the costs of the mediation equally, except that each party shall bear its own costs and expenses, including attorneys' fees, witness fees, travel expenses, and preparation costs. The parties may also agree to replace mediation with some other form of non-binding or binding ADR.

(b) Any Dispute which the parties cannot resolve through mediation within ninety (90) days of the Dispute Resolution Commencement Date, unless otherwise mutually agreed, shall be submitted to final and binding arbitration under the then current Commercial

Arbitration Rules of the American Arbitration Association ("AAA"), by three (3) arbitrators in Cleveland, Ohio. Such arbitrators shall be selected by the mutual agreement of the parties or, failing such agreement, shall be selected according to the aforesaid AAA rules. The arbitrators will be instructed to prepare and deliver a written, reasoned opinion stating their decision within thirty (30) days of the completion of the arbitration. The prevailing party in such arbitration shall be entitled to its expenses, including costs and reasonable attorneys' and other professional fees, incurred in connection with the arbitration (but excluding any costs and fees associated with prior negotiation or mediation). The decision of the arbitrators shall be final and non-appealable and may be enforced in any court of competent jurisdiction. The use of any ADR procedures will not be construed under the doctrine of laches, waiver or estoppel to adversely affect the rights of either party.

(c) Any Dispute regarding the following is not required to be negotiated, mediated or arbitrated prior to seeking relief from a court of competent jurisdiction: breach of any obligation of confidentiality; infringement, misappropriation, or misuse of any intellectual property right; or any other claim where interim relief from the court is sought to prevent serious and irreparable injury to one of the parties or to others. However, the parties to the Dispute shall make a good faith effort to negotiate and mediate such Dispute, according to the procedures described above in paragraph (a), while such court action is pending.

(d) Continuity of Service and Performance. Unless otherwise agreed to in writing, the parties will continue to provide service and honor all other commitments under this Agreement and each Ancillary Agreement during the course of dispute resolution pursuant to the provisions of this Section 5.8 with respect to all matters not subject to such dispute, controversy or claim.

Section 5.9 Governmental Approvals. To the extent that the Separation, the IPO or the Distribution requires any Governmental Approvals, the parties will use their reasonable commercial efforts to obtain such Governmental Approvals.

Section 5.10 No Representation or Warranty. Unless specifically provided to the contrary in any agreement specifically covering any portion of the non-US operations of the Axcelis Technologies Business, Eaton does not, in this Agreement or any other agreement, instrument or document contemplated by this Agreement, make any representation as to, warranty of or covenant with respect to:

(a) the value of any asset or thing of value to be transferred to Axcelis Technologies;

(b) the freedom from encumbrance of any asset or thing of value to be transferred to Axcelis Technologies;

(c) the absence of defenses or freedom from counterclaims with respect to any claim to be transferred to Axcelis Technologies; or

(d) the legal sufficiency of any assignment, document or instrument delivered hereunder to convey title to any asset or thing of value upon its execution, delivery and filing.

Except as may expressly be set forth herein or in any Ancillary Agreement, all assets to be transferred to Axcelis Technologies shall be transferred "AS IS, WHERE IS," and Axcelis Technologies shall bear the economic and legal risk that any conveyance shall prove to be insufficient to vest in Axcelis Technologies good and marketable title, free and clear of any lien, claim, equity or other encumbrance.

Section 5.11 Non-Solicitation of Employees. Eaton and Axcelis Technologies shall not solicit or recruit, without the other party's express prior written consent, any of the other party's employees for a period of two (2) years following the Distribution Date. To the extent this prohibition is waived, any recruitment efforts by either Eaton or Axcelis Technologies during such two-year period shall be coordinated by each party's senior human resources executive or his or her designee and appropriate management. Notwithstanding the foregoing, this prohibition on solicitation does not apply to actions taken by a party solely as a result of: (a) an employee's affirmative response to a general recruitment effort carried out through a public or general solicitation, or (b) an employee's initiative.

Section 5.12 Cooperation in Obtaining New Agreements. Eaton understands that, prior to the Separation Date, Axcelis Technologies has derived benefits under certain agreements and relationships between Eaton and third parties, which agreements and relationships are not being assigned or transferred to Axcelis Technologies in connection with the Separation. Upon the request of Axcelis Technologies, Eaton will make introductions of appropriate Axcelis Technologies personnel to Eaton's contacts at such third parties, and will provide reasonable assistance to Axcelis Technologies, at Eaton's expense, so that Axcelis Technologies may enter into agreements or relationships with such third parties under substantially equivalent terms and conditions, including financial terms and conditions, that apply to Eaton. Such assistance may include, but is not limited to, (i) requesting and encouraging such third parties to enter into such agreements or relationships with Axcelis Technologies, (ii) attending meetings and negotiating sessions with Axcelis Technologies and such third parties, and (iii) participating in buying consortiums with Axcelis Technologies. Eaton also understands that certain agreements between Eaton and third parties which are being assigned to Axcelis Technologies in connection with the Separation may require the consent of the applicable third party. Eaton shall assist Axcelis Technologies in seeking and obtaining the consent of such third parties to such assignment. The parties expect that the activities contemplated by this Section 5.12 will be substantially completed by the Distribution Date, but in any event Eaton's obligations hereunder will terminate after the first anniversary of the Distribution Date.

Section 5.13 Property Damage to Axcelis Technologies Assets Prior to the Separation Date. In the event of any property damage, other than ordinary wear and tear, to any Axcelis Technologies Assets held by Eaton which occurs prior to the Separation Date, Eaton shall repair or otherwise address such damage in the ordinary course of business consistent with past practices; provided, however, that nothing in this clause shall restrict Eaton from disposing of any Assets in the ordinary course of business consistent with past practices.

ARTICLE VI  
MISCELLANEOUS

Section 6.1 Limitation of Liability. EXCEPT TO THE EXTENT, IF ANY, SPECIFICALLY PROVIDED TO THE CONTRARY HEREIN OR IN ANY ANCILLARY AGREEMENT, IN NO EVENT SHALL ANY MEMBER OF THE EATON GROUP OR THE AXCELIS TECHNOLOGIES GROUP BE LIABLE TO ANY OTHER MEMBER OF THE EATON GROUP OR THE AXCELIS TECHNOLOGIES GROUP FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT, INCIDENTAL OR PUNITIVE DAMAGES OR LOST PROFITS, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY (INCLUDING NEGLIGENCE), ARISING IN ANY WAY OUT OF THIS AGREEMENT OR ANY ANCILLARY AGREEMENT, WHETHER OR NOT SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES; PROVIDED THAT THE FOREGOING LIMITATIONS SHALL NOT LIMIT EITHER PARTY'S INDEMNIFICATION OBLIGATIONS FOR LIABILITIES AS SET FORTH IN THE INDEMNIFICATION AND INSURANCE MATTERS AGREEMENT.

Section 6.2 Governing Law. This Agreement and the Ancillary Agreements (except to the extent that a mandatory rule of law which governs any matter contemplated by the Non-US Plan otherwise provides) shall be construed in accordance with, and all Disputes hereunder or thereunder shall be governed by, the local laws of the State of Ohio, excluding its conflict of law rules. The United States District Court for the Northern District of Ohio shall have jurisdiction and venue over, and shall be the sole court used by the parties to initiate resolution of, all Disputes between the parties hereto and to the Ancillary Agreements.

Section 6.3 Termination. This Agreement and all Ancillary Agreements may be terminated and the IPO abandoned, or the IPO may be delayed, at any time prior to the IPO Closing by and in the sole discretion of Eaton without the consent of Axcelis Technologies. This Agreement or any of the Ancillary Agreements may be terminated at any time after the IPO Closing and before the Distribution Date by mutual consent of Eaton and Axcelis Technologies. In the event of termination pursuant to this Section 6.3, no party shall have any liability of any kind to the other party.

Section 6.4 Notices. Notices, offers, instructions, consents, requests or other communications required or permitted to be given by either party pursuant to the terms of this Agreement or any Ancillary Agreement shall be given in writing to the respective parties to the following addresses:

if to Eaton:

or to such other address as the party to whom notice is given may have previously furnished to the other in writing as provided herein. Any notice involving non-performance, termination, or renewal shall be sent by hand delivery, recognized overnight courier or, within the United States, may also be sent via certified mail, return receipt requested. All other notices may also be sent by fax, confirmed by first class mail. All notices shall be deemed to have been given and received on the earlier of actual delivery or three (3) days from the date of postmark.

Section 6.5 Counterparts. This Agreement and the Ancillary Agreements will be executed in counterparts, each of which shall be deemed to be an original but all of which shall constitute one and the same agreement.

Section 6.6 Binding Effect; Assignment. This Agreement and the Ancillary Agreements shall inure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns. This Agreement may be enforced separately by each member of the Eaton Group and each member of the Axcelis Technologies Group. Neither party may assign this Agreement or any Ancillary Agreement or any rights or obligations hereunder or thereunder in whole or in part without the prior written consent of the other party, which consent shall not be unreasonably withheld, and any assignment without such consent shall be void. No permitted assignment of any rights or obligations hereunder or in any Ancillary Agreement, in whole or in part, by operation of law or otherwise, will release the assigning party as the obligor, jointly and severally with the assignee, from any of its obligations hereunder or in any Ancillary Agreement.

Section 6.7 Severability. If any term or other provision of this Agreement or any Ancillary Agreement is determined by a court, administrative agency or arbitrator to be invalid, illegal or incapable of being enforced by any rule of law or public policy, all other conditions and provisions of this Agreement or any Ancillary Agreement shall nevertheless remain in full force and effect. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement or such Ancillary Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner to the end that the transactions contemplated hereby or in such Ancillary Agreement are fulfilled to the fullest extent possible.

Section 6.8 Failure or Indulgence Not Waiver; Remedies Cumulative. Any provision of this Agreement or any Ancillary Agreement or any breach thereof may only be waived if done specifically and in writing by the party that is entitled to the benefits thereof. No failure or delay on the part of either party hereto or thereto in the exercise of any right hereunder or thereunder shall impair such right or be construed to be a waiver of, or acquiescence in, any breach of any representation, warranty or agreement herein or therein, nor shall any single or partial exercise of any such right preclude other or further exercise thereof or of any other right. All rights and

remedies existing under this Agreement or the Ancillary Agreements are cumulative to, and not exclusive of, any rights or remedies otherwise available.

Section 6.9 Entire Agreement; Amendment. This Agreement and the Ancillary Agreements constitute the sole and entire understanding of the parties with respect to the matters contemplated hereby and thereby and supersede and render null and void all prior negotiations, representations, agreements and understandings (oral and written) between the parties with respect to such matters. No change or amendment may be made to this Agreement or any Ancillary Agreement except by an instrument in writing signed by each of the parties thereto.

Section 6.10 Authority. Each of the parties hereto represents to the other that (a) it has the corporate or other requisite power and authority to execute, deliver and perform this Agreement and the Ancillary Agreements, (b) the execution, delivery and performance of this Agreement and the Ancillary Agreements by it have been duly authorized by all necessary corporate or other actions, (c) it has duly and validly executed and delivered this Agreement and the Ancillary Agreements, and (d) this Agreement and each of the Ancillary Agreements constitutes a legal, valid and binding obligation, enforceable against it in accordance with its terms subject to applicable bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights generally and subject to general equity principles.

Section 6.11 Interpretation. The headings contained in this Agreement and the Ancillary Agreements and in the tables of contents to this Agreement and the Ancillary Agreements are for reference purposes only and shall not affect in any way the meaning or interpretation hereof or thereof. Any capitalized term used in any Exhibit or Schedule to this Agreement or any Ancillary Agreement but not otherwise defined therein shall have the meaning assigned to such term in this Agreement. When a reference is made in this Agreement to an Article or a Section, Exhibit or Schedule, such reference shall be to an Article or Section of, or an Exhibit or Schedule to, this Agreement unless otherwise indicated. The language used in this Agreement and in any Ancillary Agreement will be deemed to be the language chosen by the parties hereto to express their mutual intent and agreement, and no rule of strict construction or canons or aids in interpretation will be applied against either party.

Section 6.12 Conflicting Agreements. In the event of conflict between this Agreement and any Ancillary Agreement or other document executed in connection herewith, unless otherwise specifically provided in this Agreement, the provisions of such Ancillary Agreement or document shall prevail.

Section 6.13 Public Announcements. Through the Distribution Date, Eaton shall determine the contents of all press releases relating to any matters contemplated by this Agreement or any of the Ancillary Agreements, including without limitation the Separation, the IPO and the Distribution, to be issued by either of the parties, after consultation with Axcelis Technologies, including without limitation any termination of this Agreement for any reason, and such press releases shall be consistent with the respective disclosure obligations of the parties.

Section 6.14 Subsequent Legal Fees. In the event that any arbitration or litigation is initiated to interpret or enforce the terms and provisions of this Agreement or any Ancillary

Agreement, the party prevailing in said action shall be entitled to its reasonable attorneys' fees and costs and shall be paid same in full by the losing party promptly upon demand by the prevailing party. A party may also include its claim for such fees and costs in such arbitration or litigation.

#### Section 6.15 No Third-Party Beneficiaries or Right to Rely.

Notwithstanding anything to the contrary in this Agreement or any Ancillary Agreement, (a) nothing in this Agreement or any Ancillary Agreement is intended to or shall create for or grant to any third Person any rights or remedies whatever, as a third party beneficiary or otherwise; (b) no third Person is entitled to rely on any of the representations, warranties, covenants or agreements contained herein or in any Ancillary Agreement; and (c) no party hereto or to any Ancillary Agreement shall incur any liability or obligation to any third Person because of any reliance by such third Person on any representation, warranty, covenant or agreement herein or in any Ancillary Agreement.

Notwithstanding anything in the Separation Agreement, this Agreement or any other Ancillary Agreement to the contrary, no party to a Local Transfer Agreement shall be entitled to receive or retain any Asset unless such party shall have paid any consideration contemplated to be paid in connection therewith pursuant to the Non-US Plan.

#### Section 1.5 Methods of Transfer and Assumption.

(a) Terms of Ancillary Agreements Govern. The parties shall enter into the Separation Agreement and the other Ancillary Agreements on or about the date of this Agreement. To the extent that the transfer of any Axcelis Technologies Assets or the assumption of any Axcelis Technologies Liabilities is expressly provided for by the terms of the Separation Agreement or any other Ancillary Agreements, the terms of the Separation Agreement or such Ancillary Agreement shall effect, and determine the manner of, the transfer or assumption. It is the intent of the parties that pursuant to Sections 1.1, 1.2 and 1.3 hereof, the transfer and assumption of all other Axcelis Technologies Assets and Axcelis Technologies Liabilities shall be made effective not later than the Separation Date; provided that circumstances in various jurisdictions outside the United States may require the transfer of certain Assets and the assumption of certain Liabilities to occur in such other manner and at such other times as Eaton

reasonably determines in accordance with any other applicable provision of this Agreement, including without limitation Sections 1.4 and 1.6 hereof.

(b) Documents Relating to Other Transfers of Assets and Assumptions of Liabilities. In furtherance of the assignment, transfer and conveyance of Axcelis Technologies Assets and the assumption of Axcelis Technologies Liabilities set forth in the Separation Agreement, this Agreement and any other Ancillary Agreement, simultaneously with the execution and delivery hereof at the Separation Closing or as promptly as practicable thereafter, (i) Eaton shall execute and deliver, and shall cause its Subsidiaries in accordance with Local Transfer Agreements to execute and deliver, such bills of sale, stock powers, certificates of title, assignments of contracts and other instruments of transfer, conveyance and assignment as and to the extent in Eaton's judgment necessary to evidence the transfer, conveyance and assignment of all of Eaton's and its Subsidiaries' right, title and interest in and to the Axcelis Technologies Assets to Axcelis Technologies and its Subsidiaries, and (ii) Axcelis Technologies shall execute and deliver, and cause its Subsidiaries to execute and deliver, to Eaton and its Subsidiaries such assumptions of contracts and other instruments of assumption as and to the extent in Eaton's judgment necessary to evidence the valid and effective assumption of the Axcelis Technologies Liabilities by Axcelis Technologies and its Subsidiaries.

#### Section 1.6 Governmental Approvals and Consents.

(a) Transfer in Violation of Laws. If and to the extent that the valid, complete and perfected transfer, assignment, conveyance or novation to the Axcelis Technologies Group of any Axcelis Technologies Assets (or from the Axcelis Technologies Group of any assets which are not Axcelis Technologies Assets) or the valid, complete and perfected assumption of any Axcelis Technologies Liabilities by the Axcelis Technologies Group would be a violation of applicable law or require any consent or Governmental Approval in connection with the Separation, the IPO, the Distribution or otherwise, then, unless Eaton shall otherwise determine, the transfer, assignment, conveyance or novation to or from the Axcelis Technologies Group, as the case may be, of such Axcelis Technologies Assets or assets which are not Axcelis Technologies Assets, or such assumption of Axcelis Technologies Liabilities by the Axcelis Technologies Group respectively, shall be automatically deferred and any such purported transfer, assignment, conveyance or novation or such assumption shall be null and void until such time as all legal impediments are removed and/or such consents or Governmental Approvals have been obtained. Notwithstanding the foregoing, such Asset shall still be considered an Axcelis Technologies Asset for purposes of determining whether any Liability is an Axcelis Technologies Liability; provided that if such consents or Governmental Approvals have not been obtained within twelve months after the Separation Date, the parties will use reasonable commercial efforts to achieve an alternative solution in accordance with the parties' intentions.

(b) Transfers Not Consummated by the Separation Date. If the transfer, assignment, conveyance or novation of any Assets intended to be transferred, assigned or conveyed hereunder, including pursuant to the Non-US Plan, is not consummated prior to or on the Separation Date or such other date as Eaton may determine pursuant to the Non-US Plan, whether as a result of the provisions of Section 1.6 (a) hereof or for any other reason, then the Person retaining such Asset shall thereafter hold such Asset for the use and benefit, insofar as

reasonably possible, of the Person entitled thereto. In addition, the Person retaining such Asset shall take such other actions as may be reasonably requested by the Person to whom such Asset is to be transferred in order to place such Person, insofar as reasonably possible, in the same position as if such Asset had been transferred as contemplated hereby and so that all the benefits and burdens relating to such Assets, including possession, use, risk of loss, potential for gain, and dominion, control and command over such Asset inure from and after the Separation Date to the Person to whom the asset is to be transferred. If and when the consents and/or Governmental Approvals, the absence of which caused the deferral of transfer of any Asset pursuant to Section 1.6(a) hereof or otherwise, are obtained, the transfer of the applicable Asset shall be effected in accordance with the terms of this Agreement and/or such applicable Ancillary Agreement.

(c) Expenses. The Person retaining an Asset due to the deferral of the transfer of such Asset shall not be obligated, in connection with the foregoing, to expend any money unless the necessary funds are advanced by the Person entitled to the Asset.

#### Section 1.7 Nonrecurring Costs and Expenses.

Notwithstanding anything herein to the contrary, any nonrecurring costs and expenses incurred by the parties hereto to effect the transactions contemplated hereby which are not allocated pursuant to the terms of the Separation Agreement, this Agreement or any other Ancillary Agreement shall be the responsibility of the party which incurs such costs and expenses.

#### Section 1.8 Novation of Assumed Axcelis Technologies Liabilities.

(a) Reasonable Commercial Efforts. Each of Eaton and Axcelis Technologies, at the request of the other, shall use reasonable commercial efforts to obtain, or to cause to be obtained, any consent, substitution, approval or amendment required to novate (including with respect to any federal government contract) or assign all rights and obligations under agreements, leases, licenses and other obligations or Liabilities (including Axcelis Technologies OFLs) of any nature whatsoever that constitute Axcelis Technologies Liabilities or to obtain in writing the unconditional release of all parties to such arrangements other than any member of the Axcelis Technologies Group, so that, in any such case, Axcelis Technologies and its Subsidiaries will be solely responsible for such Liabilities; provided that neither Eaton, Axcelis Technologies nor their Subsidiaries shall be obligated to pay any consideration therefor to any third party from whom such consents, approvals, substitutions and amendments are requested.

(b) Inability to Obtain Novation. If Eaton and Axcelis Technologies are unable to obtain, or to cause to be obtained, any such required consent, approval, release, substitution or amendment, and the applicable member of the Eaton Group shall continue to be bound by such agreements, leases, licenses and other obligations or Liabilities and, unless not permitted by law or the terms thereof (except to the extent expressly set forth in the Separation Agreement, this Agreement or any other Ancillary Agreement), Axcelis Technologies shall, as agent or subcontractor for Eaton or such other Person, as the case may be, pay, perform and discharge fully, or cause to be paid, transferred or discharged fully all the obligations or other Liabilities of Eaton or such other Person, as the case may be, thereunder from and after the Separation Date.

Eaton shall, without further consideration, promptly pay and remit, or cause to be paid or remitted, to Axcelis Technologies or its appropriate Subsidiary all money, rights and other consideration received by it or any member of the Eaton Group, as applicable, in respect of such performance (unless any such consideration is an Excluded Asset). If and when any such consent, approval, release, substitution or amendment shall be obtained or such agreement, lease, license or other rights or obligations or Liabilities shall otherwise become assignable or able to be novated, Eaton shall thereafter assign, or cause to be assigned, all its rights, obligations and other Liabilities thereunder or any rights or obligations of any member of the Eaton Group to Axcelis Technologies without payment of further consideration and Axcelis Technologies shall, without the payment of any further consideration, fully assume such rights, obligations and Liabilities.

Without limiting the generality of the foregoing: (a) none of the Separation, the IPO or the Distribution, nor the termination of the Participating Company status of Axcelis Technologies or any member of the Axcelis Technologies Group shall cause any employee to be deemed to have incurred a termination of employment unless required by applicable law; and (b) no transfer of employment between Eaton and Axcelis Technologies shall be deemed a termination of employment for any purpose hereunder.

9.9 Employment Claims. Axcelis Technologies shall have the sole

10.11 Entire Agreement; Amendment. This Agreement, the Separation Agreement, and the other Ancillary Agreements, including the Exhibits and Schedules attached hereto and thereto, constitute the sole and entire understanding of the parties with respect to the matters contemplated hereby and thereby and supersede and render null and void all prior negotiations, representations, agreements and understandings (oral and written) between the parties with respect to such matters. ## ARTICLE 2

### TRANSITION SERVICE SCHEDULES

This Agreement will govern individual transitional services as requested by Axcelis and provided by Eaton, the details of which are set forth in the Transition Service Schedules attached to this Agreement. Each Service shall be covered by this Agreement upon execution of a transition service schedule in the form attached hereto (each transition service schedule, a "Transition Service Schedule").

For each Service, the parties shall set forth, among other things, the time period during which the Service will be provided (if different from the term of this Agreement determined pursuant to Article 4), a summary of the Service to be provided, a description of the Service, and the charge, if any, for the Service and any other terms applicable thereto on the Transition Service Schedule. Obligations regarding each Transition Service Schedule shall be effective upon the Separation Date. This Agreement and all the Transition Service Schedules shall be defined as the "Agreement" and incorporated herein wherever reference to it is made.

## ARTICLE 3

### SERVICES

3.1 SERVICES GENERALLY. Except as otherwise provided herein, for the term determined pursuant to Article 4, Eaton shall provide or cause to be provided to Axcelis the service(s) described in the Transition Service Schedule(s) attached hereto. The service(s) described in a single Transition Service Schedule shall be referred to herein as a "Service", and,

collectively, the services described in all the Transition Service Schedules (including Additional Services) shall be referred to herein as "Services." During the term of this Agreement, Axcelis shall continue to provide or cause to be provided to Eaton any services being so provided on the Separation Date ("Axcelis Service(s)").

3.2 IMPRACTICABILITY. Neither party hereto shall be required to provide any service to the extent the performance of such service becomes "Impracticable" as a result of a cause or causes outside the reasonable control of such party, including without limitation unfeasible technological requirements, or to the extent the performance of such services would violate any applicable laws, rules, regulations or existing written policies of such parties or would breach any software license or other applicable contract.

3.3 ADDITIONAL RESOURCES. Except as provided in a Transition Service Schedule for a specific Service, in providing the Services, Eaton shall not be obligated to: (i) hire any additional employees or contract workers; (ii) maintain the employment of any specific employee; (iii) purchase, lease or license any additional equipment or software; or (iv) pay any costs related to the transfer or conversion of data or any alternate supplier of Services.

3.4 ADDITIONAL SERVICES. From time to time after the Separation Date, the parties may identify additional services that one party will provide to the other party in accordance with the terms of this Agreement (the "Additional Services"). Accordingly, the parties shall execute additional Transition Service Schedules for such Additional Services pursuant to Article 2. Except as set forth in Section 3.5, the parties may agree in writing on Additional Services during the term of this Agreement.

3.5 OBLIGATIONS AS TO ADDITIONAL SERVICES. Except as set forth in the next sentence, Eaton shall be obligated to perform, at a charge determined using the principles for determining fees under Section 5.1, any Additional Service that: (a) was provided by Eaton immediately prior to the Separation Date and that was inadvertently or unintentionally omitted from the list of Services, or (b) is essential to effectuate an orderly transition under the Separation Agreement, unless such performance would significantly disrupt Eaton's operations or materially increase the scope of its responsibilities under this Agreement. If Eaton reasonably believes the performance of Additional Services required under clauses (a) or (b) of the preceding sentence would significantly disrupt its operations or materially increase the scope of its responsibilities under this Agreement, Eaton and Axcelis shall negotiate in good faith to establish terms under which Eaton can provide such Additional Services, but Eaton shall not be obligated to provide such Additional Services if, following good faith negotiation, Eaton and Axcelis are unable to reach agreement on such terms.

#### ARTICLE 4

##### TERM

The term of this Agreement shall commence on the Separation Date and shall remain in effect until one (1) year after the Distribution Date (the "Expiration Date"), unless earlier

terminated under Article 7. This Agreement may be extended for up to one (1) additional year by the parties in writing, either in whole or with respect to one or more of the Services; provided that such extension shall only apply to the Services for which the Agreement was extended and only to the extent permissible by U.S. tax laws in order to maintain the tax-free status of the Distribution (as defined in the Separation Agreement). The parties shall be deemed to have extended this Agreement with respect to a specific Service if the Transition Service Schedule for such Service specifies a completion date beyond the aforementioned Expiration Date. The parties may agree on an earlier expiration date respecting a specific Service by specifying such date on the Transition Service Schedule for that Service. Services shall be provided up to and including the dates established pursuant to this Article 4.

## ARTICLE 5

### COMPENSATION

5.1 CHARGES FOR SERVICES. Each party shall pay the other party the charges, if any, set forth on the Transition Service Schedules for each of the Services listed therein as adjusted, from time to time, in accordance with the processes and procedures established under Section 5.4 and Section 5.5. Such charges shall include the direct costs, as determined using the process described in such Transition Service Schedule, and indirect costs of providing the Services plus any mark-up specified in such Transitional Service Schedule, unless specifically indicated otherwise on a Transition Service Schedule. However, if the term of this Agreement is extended beyond the Expiration Date as provided in Article 4, Axcelis will reimburse Eaton such costs plus any mark-up specified in such Transitional Service Schedule for the Services unless the Transition Service Schedule for such Service indicates it is to extend beyond the Expiration Date. The parties shall use good faith efforts to discuss any situation in which the actual charge for a Service is reasonably expected to exceed the estimated charge, if any, set forth on a Transition Service Schedule for a particular Service; provided that the incurring of charges in excess of any such estimate on such Transition Service Schedule shall not justify stopping the provision of, or payment for, Services under this Agreement.

5.2 PAYMENT TERMS. The party providing services shall bill the party receiving the services monthly for all charges pursuant to this Agreement. Such bills shall be accompanied by reasonable documentation or other reasonable explanation supporting such charges. Payment for all services provided hereunder shall be made within thirty (30) days after receipt of an invoice therefor. Late payments shall bear interest at the lesser of 12% per annum or the maximum rate allowed by law.

5.3 PERFORMANCE UNDER ANCILLARY AGREEMENTS. Notwithstanding anything to the contrary contained herein, neither party shall be charged under this Agreement for any obligations that are specifically required to be performed under the Separation Agreement or any Ancillary Agreement, and any such other obligations shall be performed and charged for (if applicable) in accordance with the terms of the Separation Agreement or such Ancillary Agreements.

5.4 ERROR CORRECTION; TRUE-UPS; ACCOUNTING. The parties shall reasonably agree on a process and procedure for conducting internal audits of variable payments that are not "fixed" and making adjustments to charges as a result of the movement of employees and functions between parties, the discovery of errors or omissions in charges, and a true-up of amounts owed. Any such internal audits must be completed within one (1) year after completion of a Service.

5.5 PRICING ADJUSTMENTS. In the event of a tax audit adjustment relating to the pricing of any or all Services provided pursuant to this Agreement in which it is determined by a taxing authority that any of the charges, individually or in combination, did not result in an arm's-length payment, then the parties, including any Eaton subcontractor providing Services hereunder, shall agree to make corresponding adjustments to the charges in question for such period to the extent necessary to achieve arm's-length pricing. Any adjustment made pursuant to this Section 5.5 at any time during the term of this Agreement or after termination of this Agreement shall be reflected in the parties' legal books and records, and the resulting underpayment or overpayment shall create, respectively, an obligation to be paid in the manner specified in Section 5.2, or a credit against amounts owed under this Agreement.

## ARTICLE 6

### GENERAL OBLIGATIONS; STANDARD OF CARE

6.1 PERFORMANCE BY EATON. Subject to Section 3.3 and any other terms and conditions of this Agreement, Eaton shall maintain sufficient resources to perform its obligations hereunder. Specific performance metrics for Eaton for a specific Service may be set forth in the corresponding Transition Service Schedule. Where none is set forth, Eaton shall use reasonable efforts to provide Services in accordance with its policies, procedures and practices in effect immediately before the Separation Date and shall exercise the same care and skill as it exercises in performing similar services for itself.

6.2 DISCLAIMER OF WARRANTIES. EATON MAKES NO WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO THE SERVICES, SOFTWARE OR OTHER DELIVERABLES PROVIDED BY IT HEREUNDER.

6.3 PERFORMANCE BY AXCELIS. Specific performance requirements for Axcelis for a specific Service may be set forth in the corresponding Transition Service Schedule. Where none is set forth, Axcelis shall use reasonable efforts, in connection with receiving services, to follow the policies, procedures and practices in effect immediately before the Separation Date, including without limitation providing information and documentation sufficient for Eaton to perform the Services as they were performed immediately before the Separation Date and making available, as reasonably requested by Eaton, sufficient resources and timely decisions, approvals and acceptances in order that Eaton may accomplish its obligations hereunder in a timely manner.

6.4 TRANSITIONAL NATURE OF SERVICES; CHANGES. The parties acknowledge the transitional nature of the Services and that Eaton may make changes from time to time in the manner of performing the Services if Eaton is making similar changes in performing similar services for itself and if Eaton furnishes to Axcelis thirty (30) days' advance written notice regarding such changes.

6.5 RESPONSIBILITY FOR ERRORS; DELAYS. Eaton's sole responsibility and liability to Axcelis:

(a) for errors or omissions in Services, shall be to correct the services, to the extent reasonably possible or to return to Axcelis the amount charged for the Services; provided that Axcelis must promptly advise Eaton of any such error or omission of which Axcelis becomes aware after having used reasonable efforts to detect any such errors or omissions; and

(b) for failure to deliver any Service on time because of Impracticability, shall be to use reasonable commercial efforts, subject to Section 3.2, to make the Services available and/or to resume performing the Services as promptly as reasonably practicable.

6.6 GOOD FAITH COOPERATION; CONSENTS. The parties will use good faith efforts to cooperate with each other in all matters relating to the provision and receipt of Services. Such cooperation shall include exchanging information, performing true-ups and adjustments, and obtaining (through reasonable commercial efforts) all third party consents, licenses, sublicenses or approvals necessary to permit each party to perform its obligations hereunder (including, by way of example and not by way of limitation, rights to use third party software needed for the performance of Services). The reasonable out-of-pocket costs incurred by either party in obtaining such third party consents, licenses, sublicenses or approvals shall be borne by Axcelis. Each of the parties will maintain, in accordance with its standard document retention procedures, documentation supporting the information relevant to cost calculations contained in the Transition Service Schedules and will cooperate with each other in making such information available as needed in the event of a tax audit, whether in the United States or any other country.

6.7 ALTERNATIVES. If Eaton reasonably believes it is unable to provide any Service because of the inability to obtain necessary consents, licenses, sublicenses or approvals pursuant to Section 6.6 or because of Impracticability, the parties shall cooperate to determine the best alternative approach. Until such alternative approach is found or the problem is otherwise resolved to the satisfaction of the parties, Eaton shall use reasonable commercial efforts, subject to Section 3.2 and Section 3.3, to continue providing the Service. To the extent an agreed-upon alternative approach requires payment above and beyond that which is included in Eaton's charge for the Service in question, the parties shall share equally in making any such payment unless they otherwise agree in writing.

## ARTICLE 7

## TERMINATION

7.1 TERMINATION. Subject to any specific notice provision or termination provision contained in the applicable Transition Service Schedule, Axcelis may terminate this Agreement, either with respect to all or with respect to any one or more of the Services provided to Axcelis hereunder, for any reason or for no reason, at any time upon sixty (60) days' prior written notice to Eaton, subject to the requirement that Axcelis pay Eaton the costs, if any, associated with such termination. In addition, subject to the provisions of Article 15, either party may terminate this Agreement with respect to a specific Service if the other party materially breaches a material provision with regard to that particular Service and does not cure such breach (or does not take reasonable steps required under the circumstances to cure such breach going forward) within sixty (60) days after being given notice of the breach; provided that the non-terminating party may request that the parties engage in a dispute resolution negotiation as specified in Article 15 prior to termination for breach.

7.2 SURVIVAL. Those Sections of this Agreement that, by their nature, are intended to survive termination will survive in accordance with their terms. Notwithstanding the foregoing, in the event of any termination with respect to one or more, but less than all Services, this Agreement shall continue in full force and effect with respect to any Services not terminated.

7.3 USER IDS AND PASSWORDS. The parties shall use good faith efforts at the termination or expiration of this Agreement or any specific Service to ensure that all applicable user IDs and passwords are canceled.

## ARTICLE 8

## RELATIONSHIP BETWEEN THE PARTIES

The relationship between the parties established under this Agreement is that of independent contractors, and neither party is an employee, agent, partner, or joint venturer of or with the other. As between Eaton and Axcelis, Eaton will be solely responsible for any employment-related taxes, insurance premiums or other employment benefits respecting its personnel's performance of Services under this Agreement, subject to any payment or reimbursement obligation of Axcelis hereunder. Axcelis will grant Eaton personnel access to sites, systems and information (subject to the provisions of confidentiality in Article 13) as necessary for Eaton to perform its obligations hereunder. Eaton will instruct its personnel to obey any and all security regulations and other published policies of Axcelis regarding access to Axcelis' facilities.

## ARTICLE 9

## SUBCONTRACTORS

Eaton may engage a subcontractor to perform all or any portion of Eaton's duties under this Agreement; provided that any such subcontractor agrees in writing to be bound by confidentiality obligations at least as protective as the terms of Article 13 regarding confidentiality; and, provided, further, that Eaton remain responsible for the performance of such subcontractor. As used in this Agreement, subcontractor will mean any individual, partnership, corporation, firm, association, unincorporated organization, joint venture, trust or other entity engaged to perform a service hereunder.

## ARTICLE 10

## INTELLECTUAL PROPERTY

10.1 ALLOCATION OF RIGHTS BY ANCILLARY AGREEMENTS. This Agreement and the performance of this Agreement will not affect the ownership of any patents, trademarks, patent applications, trademark applications, trade secrets, servicemarks, domain names, copyrights or other intellectual property rights to the extent that they are the subject of any provision in any other of the Ancillary Agreements.

10.2 EXISTING OWNERSHIP RIGHTS UNAFFECTED. Neither party will gain, by virtue of this Agreement, any rights of ownership of copyrights, patents and applications, trade secrets, trademarks and applications, domain names or any other intellectual property rights owned by the other.

10.3 OWNERSHIP OF DEVELOPED WORKS. Subject to Section 10.2, Eaton will continue to own, to the same extent as exists immediately after the Separation Date, all copyrights, patents and patent applications, trade secrets, trademarks and trademark applications, domain names and other intellectual property rights subsisting in or arising from the Software Deliverables (as defined in Section 11.1) and other preexisting works developed by or for Eaton.

10.4 LICENSE TO PREEXISTING WORKS. Axcelis grants Eaton a non-exclusive, worldwide, royalty-free license to use, copy, make derivative works of, distribute, display, perform and transmit Axcelis' preexisting copyrighted works or other intellectual property rights solely to the extent necessary to perform its obligations under this Agreement.

## ARTICLE 11

## SOFTWARE LICENSE

11.1 SOFTWARE DELIVERABLE/LICENSE. Unless otherwise agreed by the parties under the Ancillary Agreements or any separate license or technology agreement, if Eaton supplies Axcelis with a deliverable that in whole or in part consists of software, firmware, or

other computer code (referred to as a "Software Deliverable") as indicated in a Transition Service Schedule, such Software Deliverable will be supplied in any form in which it exists and will be subject to the terms of this Article 11. In the event that any such Software Deliverable is licensed to Eaton by third parties, Axcelis shall be bound by any conditions that are required by such third parties.

#### 11.2 DELIVERY AND ACCEPTANCE.

(a) DELIVERY. To the extent permitted under any agreement with a third party owner or licensor of the Software, Eaton will deliver to Axcelis one (1): (i) master copy of the Software in any form in which it exists (as specified on the relevant Transition Service Schedule of the Agreement) on the media described on the relevant Transition Service Schedule and (ii) Documentation for the Software on the media described in the relevant Transition Service Schedule ((i) and (ii) collectively a "Complete Copy") as listed in the relevant Transition Service Schedule no later than ten (10) days after the Separation Date (or any other start date as specifically indicated in the relevant Transition Service Schedule). If Source Code is licensed under this Agreement, Eaton will deliver one (1) copy of such Source Code no later than ten (10) days after the Separation Date (or any other start date as specifically indicated in the relevant Transition Service Schedule). Additional Software or Source Code may be added to this Agreement from time to time by execution by the parties of a Transition Service Schedule.

(b) ACCEPTANCE OF SOFTWARE (NON-SOURCE CODE). Axcelis will have thirty (30) days from the date of receipt of a Complete Copy of the Software to evaluate the Software for conformity with the manuals and other documentation that Eaton and/or the Software owner or licensor makes available with the Software to end users, including those items listed and described in the relevant Transition Service Schedule (the "Documentation") and specifications, and either to accept the Software, to return the Software for rework to Eaton, if Eaton owns the Software, or to the licensor, if licensed to Eaton (provided that the Software has not previously been reworked), or to reject the Software. Axcelis shall accept the Software if it substantially conforms with Documentation and specifications. Axcelis will be entitled to test and evaluate the Software, and Eaton hereby grants to Axcelis the right to use and reproduce the Software only to the extent necessary for Axcelis to perform its evaluation and only to the extent permitted under the applicable Software license agreement. Such license will include the right of Axcelis to use third party subcontractors bound by the relevant restrictions herein solely as necessary to achieve the foregoing. If Axcelis returns the Software for rework, Eaton will use reasonable commercial efforts to correct or have the licensor thereof correct the identified defects and resubmit the Software for reevaluation under the same acceptance procedure. In the event Axcelis rejects the Software a second time, this Agreement will terminate with respect to that Software. Payment due from Axcelis to Eaton under a Transition Service Schedule that includes Software to be licensed shall be reduced by the pro rata portion of compensation attributable to the rejected Software, unless the Software has been accepted by Axcelis in writing or Axcelis fails to reject the Software within such thirty (30) day period.

(c) ACCEPTANCE OF SOURCE CODE. The Source code is provided "as is" and for Axcelis' reference only and is subject to the limitations in Section 11.3. The Source Code

may not be accepted or rejected according to the provisions in Section 11.2(b). If Axcelis rejects the Source Code, Axcelis must destroy all copies of such rejected Source Code and promptly furnish evidence of such rejection and destruction to Eaton.

### 11.3 RIGHTS GRANTED AND RESTRICTIONS.

(a) LICENSE TO SOFTWARE. Subject to the terms and conditions of this Agreement and the terms and conditions of any applicable software license agreements with third parties, Eaton hereby grants to Axcelis, under Eaton's intellectual property rights in and to the Software, a royalty-free, nonexclusive, nontransferable worldwide license (i) to use and display the Software for its own internal information processing services and computing needs and to make sufficient copies as necessary for such use, and (ii) to use the Documentation in connection with the permitted use of the Software and to make sufficient copies as permitted and as necessary for such use.

(b) LICENSE TO SOURCE CODE. Subject to the terms and conditions of this Agreement, Eaton hereby grants to Axcelis, under Eaton's intellectual property rights in and to the Software, a nonexclusive, nontransferable worldwide license (i) to use and reproduce (for archival and back-up purposes only), for the sole purpose of supporting the object code version of the Software (if such object code exists), or, if no object code exists, for the sole purpose of its own internal information processing services and computing needs and (ii) to use Source Code Documentation in connection with the permitted use of the Source Code and to make copies for archival and back-up purposes only.

(c) RESTRICTIONS. Axcelis shall not itself, nor through any Subsidiary, affiliate, agent or third party: (i) sell, lease, license or sublicense the Software, the Source Code, the Documentation or the Source Code Documentation; (ii) decompile, disassemble, or reverse engineer the Software or Source Code, in whole or in part, except to the extent such restriction is prohibited by applicable law; (iii) allow access to the Software or Source Code by any user or third party other than Axcelis; (iv) write or develop any derivative software or any other software program based upon the Software or Source Code; (v) use the Software or Source Code to provide processing services to third parties; (vi) otherwise use the Software or Source Code on a "service bureau" basis; or (vii) provide, disclose, divulge or make available to, or permit use of the Software or Source Code by, any third party without Eaton's prior written consent.

(d) CONFIDENTIALITY. The Source Code and Source Code Documentation are hereby deemed "Confidential Information" and subject to the terms of Article 13.

(e) TRADEMARKS. Neither party is granted any ownership in or license to the trademarks, service or certification marks or trade names (collectively, "Marks") of the other party with respect to the Software.

(f) OWNERSHIP. Eaton hereby reserves all of its rights to the Software, Source Code and Documentation, and any copyrights, patents or trademarks, embodied therein or used in connection therewith, except for the rights expressly granted herein.

(g) COPYRIGHT NOTICES. Axcelis will not remove any copyright notices, proprietary markings, trademarks or trade names from the Software, Source Code, Documentation or Source Code Documentation.

(h) TECHNICAL ASSISTANCE AND TRAINING. Eaton will provide technical assistance and training to Axcelis personnel only if such assistance is set forth in the relevant Transition Service Schedule.

#### 11.4 AS-IS WARRANTY.

(a) AS-IS WARRANTY. The Software and Source Code provided hereunder is licensed on an "as-is" basis only, without any express warranties of any kind.

(b) IMPLIED WARRANTY DISCLAIMER. Eaton makes no warranties whatsoever, either express or implied, regarding the Software or Source Code (including Documentation), its merchantability or its fitness for any particular purpose.

#### 11.5 MISCELLANEOUS.

(a) NO OBLIGATIONS. Neither party assumes any responsibility or obligations whatever, other than the responsibilities and obligations expressly set forth in this Agreement or a separate written agreement between the parties.

(b) NON-RESTRICTIVE RELATIONSHIP. This Agreement shall not be construed to preclude Axcelis from independently developing, acquiring or marketing computer software packages which may perform the same or similar functions as the Software provided by Eaton.

## ARTICLE 12

## INDEMNIFICATION

To the extent Eaton delivers or licenses any of its intellectual property or that of a third party to Axcelis after the Separation Date in performance of this Agreement, such delivery or license is on an "AS IS" basis, and Eaton shall not be responsible for any claims, actions or suits (any of the foregoing, a "Claim") incurred by or asserted against Axcelis based upon infringement of a third party patent or other intellectual property right. Axcelis will notify Eaton promptly of any Claim and permit Eaton at Axcelis' expense to defend such Claim and will cooperate in the defense thereof. Axcelis will not enter into or permit any settlement of any such Claim without the express written consent of Eaton. Axcelis may, at its option and expense, have its own counsel participate in any proceeding that is under the direction of Eaton and will cooperate with Eaton and its insurer (if any) in the disposition of any such matter. To the extent that any action or failure to act by Axcelis with respect to any software results in any claims, actions, suits, liabilities, damages, costs or penalties or the like, notwithstanding the provisions of Section 16.1, Axcelis shall defend, indemnify and hold harmless Eaton and its directors, officers, employees and agents with respect thereto.

## ARTICLE 13

## CONFIDENTIALITY

13.1 DEFINITION. The term "Confidential Information," as used in this Agreement, shall mean any information, whether in oral or written form, which has been, or will hereafter be, furnished or disclosed by a party hereto ("Disclosing Party") to the other party hereto ("Recipient Party") or to the Recipient Party's directors, officers, employees, agents, lenders and other representatives, including without limitation independent attorneys, financial advisers, independent accountants and actuaries (such directors, officers, employees, agents, lenders and other representatives collectively are hereinafter referred to as "Authorized Representatives"), including without limitation information pertaining to the business, financial condition, operations, properties, technical information and prospects of the Disclosing Party. However, the term "Confidential Information" excludes information which: (a) was generally available to the public at the time of receipt by the Recipient Party or its Authorized Representatives or subsequently became generally available to the public other than by disclosure by the Recipient Party or its Authorized Representatives; (b) was in the possession of the Recipient Party on a nonconfidential basis from any third party prior to the time of receipt from the Disclosing Party; (c) becomes available to the Recipient Party on a nonconfidential basis from a non-affiliated third party who does not thereby breach a contractual, fiduciary or other legal obligation to the Disclosing Party; or (d) was developed independently by the Recipient Party without reference to Confidential Information or other information disclosed to it by the Disclosing Party.

13.2 OBLIGATIONS. For a period of five (5) years from the date of disclosure of Confidential Information:

- A. The Recipient Party shall not disclose, reveal or permit others to have access to any Confidential Information, except for a limited group of the Recipient Party's Authorized Representatives who reasonably need to know the Confidential Information in connection with this Agreement;
- B. The Recipient Party and the Recipient Party's Authorized Representatives shall use the Confidential Information only for the purpose of this Agreement and in no event shall use any Confidential Information for any other purpose whatsoever. The Recipient Party will (i) inform each of the Recipient Party's Authorized Representatives receiving Confidential Information of the confidential nature of such Information and of this Agreement, (ii) direct the Recipient Party's Authorized Representatives to treat the information confidentially and not use it other than as permitted in accordance with this Agreement, and (iii) be responsible for any improper use of the Confidential Information by the Recipient Party or the Recipient Party's Authorized Representatives (including without limitation the Recipient Party's Authorized Representatives who, subsequent to the first date of disclosure of Confidential Information hereunder, become the Recipient Party's former Authorized Representatives). The Recipient Party shall, at the Recipient Party's sole expense, take all reasonable measures, including without limitation court proceedings, to restrain the Recipient Party's Authorized Representatives and former Authorized Representatives from unauthorized disclosure or use of the Confidential Information;
- C. If the Recipient Party or any of the Recipient Party's Authorized Representatives are requested or required (by interrogatories, subpoena or other judicial process) to disclose any of the Confidential Information to a court, government agency or others, the Recipient Party will promptly notify the Disclosing Party of such request or requirement so that the Disclosing Party may seek an appropriate protective order or similar court order or waive compliance with the provisions of this Agreement. In this connection, it is agreed that if, in the absence of a protective order or similar court order or receipt of a waiver hereunder, the Recipient Party is nonetheless, in the written opinion of the Recipient Party's attorneys addressed to the Disclosing Party, compelled at that time to disclose Confidential Information to the court, government agency or others or else stand liable for contempt or suffer other censure or penalty, the Recipient Party may disclose to such court, government agency or others, only that part of such Confidential Information as is required by law to be disclosed, and the Recipient Party shall use its best efforts at the Disclosing Party's expense to obtain a protective order or other reliable assurance of confidential treatment therefor.

## ARTICLE 14

## FORCE MAJEURE

Each party will be excused for any failure or delay in performing any of its obligations under this Agreement, other than the obligations of Axcelis to make certain payments to Eaton pursuant to Article 5 for services rendered, if such failure or delay is caused by Force Majeure. "Force Majeure" means any act of God or the public enemy, any accident, explosion, fire, storm, earthquake, flood or any other circumstance or event beyond the reasonable control of the party relying upon such circumstance or event.

## ARTICLE 15

## DISPUTE RESOLUTION

15.1 MEDIATION. If a dispute, controversy or claim ("Dispute") arises between the parties relating to the interpretation or performance of this Agreement, or the grounds for the termination hereof, appropriate senior executives of each party who shall have the authority to resolve the matter shall meet to attempt in good faith to negotiate a resolution of the Dispute prior to pursuing other available remedies. The initial meeting between the appropriate senior executives shall be referred to herein as the "Dispute Resolution Commencement Date." Discussions and correspondence relating to trying to resolve such Dispute shall be treated as confidential information developed for the purpose of settlement and shall be exempt from discovery or production and shall not be admissible in arbitration or litigation. If the senior executives are unable to resolve the Dispute within thirty (30) days from the Dispute Resolution Commencement Date, and either party wishes to pursue its rights relating to such Dispute, then the Dispute will be mediated by a mutually acceptable mediator selected by the parties within forty-five (45) days after written notice by one party to the other demanding nonbinding mediation. Neither party may unreasonably withhold consent to the selection of a mediator or the location of the mediation. Both parties will share the costs of the mediation equally, except that each party shall bear its own costs and expenses, including attorneys' fees, witness fees, travel expenses and preparation costs. The parties may also agree to replace mediation with some other form of nonbinding or binding ADR.

15.2 ARBITRATION. Any Dispute which the parties cannot resolve through mediation within ninety (90) days of the Dispute Resolution Commencement Date, unless otherwise mutually agreed, shall be submitted to final and binding arbitration under the then current Commercial Arbitration Rules of the American Arbitration Association ("AAA"), by three (3) arbitrators in Cleveland, Ohio. Such arbitrators shall be selected by the mutual agreement of the parties or, failing such agreement, shall be selected according to the aforesaid AAA rules. The arbitrators will be instructed to prepare and deliver a written, reasoned opinion stating their decision within thirty (30) days of the completion of the arbitration. The prevailing party in such arbitration shall be entitled to expenses, including costs and reasonable attorneys' and other professional fees, incurred in connection with the arbitration (but excluding any costs and fees associated with prior negotiation or mediation). The decision of the arbitrator shall be

final and nonappealable and may be enforced in any court of competent jurisdiction. The use of any ADR procedures will not be construed under the doctrine of laches, waiver or estoppel to adversely affect the rights of either party.

15.3 COURT ACTION. Any Dispute regarding the following is not required to be negotiated, mediated or arbitrated prior to seeking relief from a court of competent jurisdiction: breach of any obligation of confidentiality; infringement, misappropriation, or misuse of any intellectual property right; or any other claim where interim relief from the court is sought to prevent serious and irreparable injury to one of the parties or to others. However, the parties to the Dispute shall make a good faith effort to negotiate and mediate such Dispute, according to the above procedures, while such court action is pending.

15.4 CONTINUITY OF SERVICE AND PERFORMANCE. Unless otherwise agreed in writing, the parties will continue to provide service and to honor all other commitments under the Separation Agreement, this Agreement and the other Ancillary Agreements during the course of dispute resolution pursuant to the provisions of this Article 15 with respect to all matters not subject to such dispute, controversy or claim.

## ARTICLE 16

### MISCELLANEOUS

16.1 LIMITATION OF LIABILITY. EXCEPT TO THE EXTENT, IF ANY, SPECIFICALLY PROVIDED TO THE CONTRARY HEREIN OR IN ANY ANCILLARY AGREEMENT, IN NO EVENT SHALL ANY MEMBER OF THE EATON GROUP OR THE AXCELIS GROUP (AS SUCH TERMS ARE DEFINED IN THE SEPARATION AGREEMENT) BE LIABLE TO ANY OTHER MEMBER OF THE EATON GROUP OR THE AXCELIS GROUP FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT, INCIDENTAL OR PUNITIVE DAMAGES OR LOST PROFITS, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY (INCLUDING NEGLIGENCE) ARISING IN ANY WAY OUT OF THIS AGREEMENT OR ANY ANCILLARY AGREEMENT, WHETHER OR NOT SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES; PROVIDED THAT THE FOREGOING LIMITATIONS SHALL NOT LIMIT EITHER PARTY'S INDEMNIFICATION OBLIGATIONS FOR LIABILITIES AS SET FORTH IN THE INDEMNIFICATION AND INSURANCE MATTERS AGREEMENT.

16.2 GOVERNING LAW. This Agreement and the Ancillary Agreements (except to the extent that a mandatory rule of law which governs any matter contemplated by the Non-US Plan (as such term is defined in the Separation Agreement) otherwise provides) shall be construed in accordance with, and all Disputes hereunder or thereunder shall be governed by, the laws of the State of Ohio, excluding its conflict of law rules. The United States District Court for the Northern District of Ohio shall have jurisdiction and venue over, and shall be the sole court used by the parties to initiate resolution of, all Disputes between the parties hereto and to the Ancillary Agreements.

16.3 TERMINATION. This Agreement and all Ancillary Agreements may be terminated and the IPO abandoned at any time prior to the IPO Closing (as the terms "IPO" and "IPO Closing" are defined in the Separation Agreement) by and in the sole discretion of Eaton without the consent of Axcelis. This Agreement or any of the Ancillary Agreements may be terminated at any time after the IPO Closing and before the Distribution Date by mutual consent of Eaton and Axcelis. In the event of termination pursuant to this Section 16.3, no party shall have any liability of any kind to the other party.

16.4 NOTICES. Notices, offers, instructions, consents, requests or other communications required or permitted to be given by either party pursuant to the terms of this Agreement or any Ancillary Agreement shall be given in writing to the respective parties to the following addresses:

if to Eaton:

Office of the Secretary  
Eaton Corporation

or to such other address as the party to whom notice is given may have previously furnished to the other in writing as provided herein. Any notice involving non-performance, termination, or renewal shall be sent by hand delivery, recognized overnight courier or, within the United States, may also be sent via certified mail, return receipt requested. All other notices may also be sent by fax, confirmed by first class mail. All notices shall be deemed to have been given and received on the earlier of actual delivery or three (3) days from the date of postmark.

16.5 COUNTERPARTS. This Agreement and the Ancillary Agreements will be executed in counterparts, each of which shall be deemed to be an original but all of which shall constitute one and the same agreement.

16.6 BINDING EFFECT; ASSIGNMENT. This Agreement and the Ancillary Agreements shall inure to the benefit of and be binding upon the parties hereto and their respective successors and assigns. This Agreement may be enforced separately by each member of the Eaton Group and each member of the Axcelis Group. Neither party may assign this Agreement or any Ancillary Agreement or any rights or obligations hereunder, or thereunder without the prior written consent of the other party, and any such assignment shall be void. No

permitted assignment of any rights or obligations hereunder or in any Ancillary Agreement, in whole or in part, by operation of law or otherwise, will release the assigning party as the obligor, jointly and severally with the assignee, from any of its obligations hereunder or in any Ancillary Agreement.

16.7 SEVERABILITY. If any term or other provision of this Agreement or any Ancillary Agreement is determined by a court, administrative agency or arbitrator to be invalid, illegal or incapable of being enforced by any rule of law or public policy, all other conditions and provisions of this Agreement or any Ancillary Agreement shall nevertheless remain in full force and effect. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement or such Ancillary Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner to the end that the transactions contemplated hereby or in such Ancillary Agreement are fulfilled to the fullest extent possible.

16.8 FAILURE OR INDULGENCE NOT WAIVER; REMEDIES CUMULATIVE. Any provision of this Agreement or any Ancillary Agreement or any breach thereof may only be waived if done specifically and in writing by the party which is entitled to the benefits thereof. No failure or delay on the part of either party hereto or thereto in the exercise of any right hereunder or thereunder shall impair such right or be construed to be a waiver of, or acquiescence in, any breach of any representation, warranty or agreement herein or therein, nor shall any single or partial exercise of any such right preclude other or further exercise thereof or of any other right. All rights and remedies existing under this Agreement or the Ancillary Agreement are cumulative to, and not exclusive of, any rights or remedies otherwise available.

16.9 ENTIRE AGREEMENT; AMENDMENT. This Agreement and the Ancillary Agreements constitute the sole and entire understanding of the parties with respect to the matters contemplated hereby and thereby and supersede and render null and void all prior negotiations, representations, agreements and understandings (oral and written) between the parties with respect to such matters. No change or amendment may be made to this Agreement or any Ancillary Agreement except by an instrument in writing signed on behalf of each of the parties thereto.

16.10 AUTHORITY. Each of the parties hereto represents to the other that (a) it has the corporate or other requisite power and authority to execute, deliver and perform this Agreement and the Ancillary Agreements, (b) the execution, delivery and performance of this Agreement and the Ancillary Agreements by it have been duly authorized by all necessary corporate or other actions, (c) it has duly and validly executed and delivered this Agreement and the Ancillary Agreements, and (d) this Agreement and each of the Ancillary Agreements constitutes a legal, valid and binding obligation, enforceable against it in accordance with its terms subject to applicable bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights generally and subject to general equity principles.

16.11 INTERPRETATION. The headings contained in this Agreement and the Ancillary Agreements and in the tables of contents to this Agreement and the Ancillary

Agreements are for reference purposes only and shall not affect in any way the meaning or interpretation hereof or thereof. Any capitalized term used in any Exhibit or Schedule to this Agreement or any Ancillary Agreement but not otherwise defined therein shall have the meaning assigned to such term in this Agreement. When a reference is made in this Agreement to an Article or a Section, Exhibit or Schedule, such reference shall be to an Article or Section of, or an Exhibit or Schedule to, this Agreement unless otherwise indicated. The language used in this Agreement and in any Ancillary Agreement will be deemed to be the language chosen by the parties hereto to express their mutual intent and agreement, and no rule of strict construction or canons or aids in interpretation will be applied against either party.

16.12 CONFLICTING AGREEMENTS. In the event of conflict between this Agreement and any Ancillary Agreement or other document executed in connection herewith, the provisions of such other agreement or document shall prevail.

16.13 PUBLIC ANNOUNCEMENTS. Through the Distribution Date, Eaton shall determine the contents of all press releases to be issued by either of the parties upon and after the execution of this Agreement, after consultation with Axcelis, including without limitation, any termination of this Agreement for any reason, and such press release shall be consistent with the respective disclosure obligations of the parties.

16.14 SUBSEQUENT LEGAL FEES. In the event that any arbitration or litigation is initiated to interpret or enforce the terms and provisions of this Agreement or any Ancillary Agreement, the party prevailing in said action shall be entitled to its reasonable attorneys' fees and costs and shall be paid same in full by the losing party promptly upon demand by the prevailing party. A party may also include its claim for such fees and costs in the arbitration or litigation thereof.

16.15 NO THIRD-PARTY BENEFICIARIES OR RIGHT TO RELY. Notwithstanding anything to the contrary in this Agreement or any Ancillary Agreement, (a) nothing in this Agreement or any Ancillary Agreement is intended to or shall create for or grant to any third Person any rights or remedies whatever, as a third party beneficiary or otherwise; (b) no third Person is entitled to rely on any of the representations, warranties, covenants or agreements contained herein or in any Ancillary Agreement; and (c) no party hereto or to any Ancillary Agreement shall incur any liability or obligation to any third Person because of any reliance by such third Person on any representation, warranty, covenant or agreement herein or in any Ancillary Agreement.

IN WITNESS WHEREOF, each of the parties hereto has caused this Agreement to be executed on its behalf by its duly authorized officers or representatives on the date first above written.

## FORM OF REAL ESTATE MATTERS AGREEMENT

This Real Estate Matters Agreement (this "AGREEMENT") is made and entered into on June \_\_, 2000 by and between Eaton Corporation, an Ohio corporation ("EATON"), and Axcelis Technologies, Inc., a Delaware corporation ("AXCELIS"), to be effective on the Separation Date as defined in the Separation Agreement (as defined below). Capitalized terms used herein and not otherwise defined in Article III or elsewhere herein shall have the meanings ascribed to such terms in the Separation Agreement.

## RECITALS

WHEREAS, Eaton has transferred or will transfer to Axcelis effective as of the Separation Date, substantially all of the business and assets of the Axcelis Business owned by Eaton in accordance with the Master Separation and Distribution Agreement dated as of June \_\_, 2000 between Eaton and Axcelis (the "SEPARATION AGREEMENT"), and

WHEREAS, the parties desire to set forth certain agreements regarding real estate matters.

NOW, THEREFORE, in consideration of the foregoing and the covenants and agreements set forth below, Eaton and Axcelis, intending to be legally bound, hereby agree as follows:

## ARTICLE I

## PROPERTY

## SECTION 1.1 LEASED PROPERTY

Eaton shall assign or cause its applicable Subsidiary to assign, and Axcelis shall accept and assume, or cause its applicable Subsidiary to accept and assume, Eaton's or its Subsidiary's interest in the Leased Properties (as hereinafter defined), subject to the other provisions of this Agreement and (to the extent not inconsistent with the provisions of this Agreement) the terms of the Separation Agreement and the other Ancillary Agreements. Such assignment shall be completed on the Separation Date, except as provided otherwise in this Agreement.

## SECTION 1.2 SHARED PROPERTY

Eaton shall grant or cause its applicable Subsidiary to grant to Axcelis or its applicable Subsidiary a license to occupy those parts of the facility located in 3 Tai Seng Drive, #03-00 Marconi Building, Singapore 535216 (the "SHARED PROPERTY") and Axcelis shall accept or cause its applicable Subsidiary to accept the same, as provided in a license agreement to be entered into by the relevant parties prior to or on the Separation Date and subject to the other provisions of this Agreement and (to the extent not inconsistent with the provisions of this Agreement) the terms of the Separation Agreement and the other Ancillary Agreements. Such license shall be effective on the Separation Date.

## SECTION 1.3 OBTAINING THE CONSENTS TO ASSIGNMENT

(a) Eaton confirms that, with respect to each Leased Property, an application has been made or will be made by the Separation Date to the Landlord for a Consent to Assignment, if required, and a Release.

(b) Eaton will use its reasonable commercial efforts to obtain the Consent to Assignment as to each Relevant Leased Property, but Eaton shall not be required to commence judicial proceedings for a declaration that a Consent to Assignment has been unreasonably withheld or delayed, nor shall Eaton be required to pay any consideration in excess of that required by the Relevant Lease. Axcelis shall cooperate as reasonably requested by Eaton to obtain the Consents to Assignment and the Releases. Axcelis and Eaton will promptly satisfy or cause their applicable Subsidiaries to satisfy the lawful requirements of the Landlord.

(c) Axcelis will take or cause its applicable Subsidiary to take all steps to assist Eaton in obtaining the Consent to Assignment, if required, and the Release as to each Leased Property, including, without limitation:

(i) if properly required by the Landlord, entering into an agreement with the relevant Landlord to observe and perform the tenant's obligations contained in the Relevant Lease throughout the remainder of the term of the Relevant Lease, subject to any statutory limitations of such liability;

(ii) if properly required by the Landlord, providing a guarantee, surety or other security (including, without limitation, a security deposit) for the obligations of Axcelis or its applicable Subsidiary as tenant under the Relevant Lease, and otherwise taking all steps which are reasonably necessary and which Axcelis or its applicable Subsidiary is reasonably capable of doing to meet the lawful requirements of the Landlord so as to ensure that the Lease Consents to Assignment are obtained; and

(iii) using all reasonable commercial efforts to assist Eaton in obtaining the Release from the Landlord, and, if required, offering the same or equivalent security (including, without limitation, a security deposit) to the Landlord as that formerly provided by Eaton in order to obtain the Release.

Notwithstanding the foregoing, (1) except with respect to guarantees, sureties or other security referenced in Section 1.3(c)(iii) above, Axcelis shall not be required to obtain a release of any obligation entered into by Eaton or its Subsidiary with any Landlord or other third party with respect to any Property and (2) Axcelis shall not communicate directly or permit its applicable Subsidiary to communicate directly with any of the Landlords unless so requested by Eaton or unless Axcelis can show Eaton reasonable grounds for doing so.

(d) If, with respect to any Leased Properties, Eaton and Axcelis are unable to obtain a Release from the Landlord, Axcelis shall indemnify, defend, protect and hold harmless Eaton and its Subsidiary from and after the Separation Date against any and all losses, costs, claims, damages, or liabilities incurred by Eaton or its Subsidiary in regard to the Leased Property.

## SECTION 1.4 OCCUPATION BY AXCELIS

(a) Subject to compliance with Section 1.4(b) below, in the event that the Actual Completion Date for any Leased Property does not occur prior to or on the Separation Date, Axcelis or its applicable Subsidiary shall, commencing on the Separation Date, be entitled to occupy the relevant Property as a licensee upon the terms and conditions contained in Eaton's Lease. Such license shall not be revocable prior to the Actual Completion Date unless an enforcement action or forfeiture by the relevant Landlord due to Axcelis' or its applicable Subsidiary's occupation of the Property constituting a breach of Eaton's Lease (a "LANDLORD ACTION") cannot, in the reasonable opinion of Eaton, be avoided other than by requiring Axcelis or its applicable Subsidiary to immediately vacate the relevant Property, in which case Eaton may by notice to Axcelis immediately require Axcelis or its applicable Subsidiary to vacate the relevant Property. Axcelis will be responsible for all costs, expenses and liabilities incurred by Eaton or its applicable Subsidiary as a consequence of such occupation; provided that Eaton may consent to Axcelis' continuing occupancy of the relevant Property notwithstanding a threatened or pending Landlord Action, in which event Axcelis shall be obligated as provided in Section 1.4(b) hereof and shall indemnify, defend, protect and hold harmless Eaton and its applicable Subsidiary from and against any and all losses, costs, claims, damages and liabilities arising in connection with any Landlord Action. Neither Axcelis nor its applicable Subsidiary shall be entitled to make any claim or demand against, or obtain reimbursement from, Eaton or its applicable Subsidiary with respect to any costs, losses, claims, liabilities or damages incurred by Axcelis or its applicable Subsidiary as a consequence of being obliged to vacate the Property or in obtaining alternative premises, including, without limitation, any enforcement action which a Landlord may take against Axcelis or its applicable Subsidiary.

(b) In the event that the Actual Completion Date for any Leased Property does not occur by the Separation Date, whether or not Axcelis or its applicable Subsidiary occupies a Property as licensee as provided in Section 1.4(a) above, Axcelis shall, effective as of the Separation Date, (i) pay or cause its applicable Subsidiary to pay Eaton all rents, service charges, insurance premiums and other sums payable by Eaton or its applicable Subsidiary under any Relevant Lease, (ii) observe or cause its applicable Subsidiary to observe the tenant's covenants, obligations and conditions contained in Eaton's Lease and (iii) indemnify, defend, protect and hold harmless Eaton and its applicable Subsidiary from and against all losses, costs, claims, damages and liabilities arising on account of any breach thereof by Axcelis or its applicable Subsidiary.

(c) Eaton shall supply promptly to Axcelis copies of all invoices, demands, notices and other communications received by Eaton or its applicable Subsidiaries or agents in connection with any of the matters for which Axcelis or its applicable Subsidiaries may be liable to make any payment or perform any obligation pursuant to Section 1.4 (a) or (b), and shall, at Axcelis' cost, take any steps and pass on any objections which Axcelis or its applicable Subsidiaries may have in connection with any such matters. Axcelis shall promptly supply to Eaton any notices, demands, invoices and other communications received by Axcelis or its applicable Subsidiaries or agents from any Landlord while Axcelis or any of its applicable Subsidiaries occupies any Property without the relevant Consent to Assignment.

## SECTION 1.5 OBLIGATION TO COMPLETE

(a) If, with respect to any Relevant Leased Property, at any time the relevant Consent to Assignment is formally and unconditionally refused in writing, Eaton shall use its reasonable commercial efforts to obtain the relevant Landlord's Consent to Sublease all of the Relevant Leased Property to Axcelis or its applicable Subsidiary for the remainder of Eaton's Lease term less three (3) days at a rent equal to the rent from time to time under Eaton's Lease, but otherwise on substantially the same terms and conditions as Eaton's Lease. Until such time as the relevant Consent to Sublease is obtained and a sublease is completed, the provisions of Section 1.4 will apply. On the grant of the Consent to Sublease required to sublease the Relevant Leased Property, Eaton shall sublease or cause its applicable Subsidiary to sublease to Axcelis or its applicable Subsidiary the Relevant Leased Property which sublease shall be for the remainder of Eaton's lease term less three (3) days at the rent set forth in Eaton's Lease and otherwise on the terms of Eaton's Lease, and Axcelis or its applicable Subsidiary will indemnify, defend, protect and hold harmless Eaton or its applicable Subsidiary from any and all losses, costs, claims, damages and liabilities arising under the Relevant Lease, including without limitation, relating to the condition of the relevant Property at the termination of the Relevant Lease term.

(b) If the Consent to Sublease is formally and unconditionally refused in writing, Eaton may elect by written notice to Axcelis to require Axcelis or its applicable Subsidiary to vacate the Relevant Leased Property immediately or by such other date as may be specified in the notice served by Eaton (the "NOTICE DATE"), in which case Axcelis shall vacate or cause its applicable Subsidiary to vacate the Relevant Leased Property on the Notice Date but shall indemnify Eaton and its applicable Subsidiary from and against any and all costs, claims, losses, liabilities and damages arising from the Relevant Leased Property. Neither Axcelis nor its applicable Subsidiary shall be entitled to make any claim or demand against or obtain reimbursement from Eaton or its applicable Subsidiary with respect to any costs, losses, claims, liabilities or damages incurred by Axcelis or its applicable Subsidiary as a consequence of being obliged to vacate the Relevant Leased Property or obtaining alternative premises, including, without limitation, any enforcement action which a Landlord may take against Axcelis or its applicable Subsidiary. Alternatively, Eaton may consent to the continued occupancy of the Relevant Leased Property without the Landlord's consent, in which event Axcelis shall be obligated as provided in Section 1.4(b) hereof and shall indemnify, defend, protect and hold harmless Eaton and its applicable Subsidiary from and against any and all losses, costs, claims, damages and liabilities arising in connection with any Landlord Action.

(b) by any Employee because of termination of his employment by ESEI, or because of any change of his compensation or fringe benefits or employment position by ESEI, on or after the Closing Date; or

(c) by any Eaton Employee because his employment with Eaton ceases as a result of ESEI's acquisition of the Business. ESEI agrees to, and shall, indemnify and hold harmless Eaton against and from any and all such claims and any and all expenses, liabilities, obligations, and costs of any sort associated therewith.

#### 10.3 WELFARE BENEFIT RESPONSIBILITIES.

(a) As of and after the Closing Date, Eaton hereby assigns to ESEI, and ESEI hereby assumes from Eaton, all liabilities, responsibilities, and obligations for providing to all Eligible Individuals (as hereinafter defined) life insurance, accidental death and dismemberment insurance, business travel accident insurance, disability salary continuation, short term disability, long-term disability, comprehensive health, dental, mail order drug, and patient services benefits which are at least equal to such benefits as provided for such Eligible Individuals by Eaton immediately prior to the Closing Date pursuant to the applicable Eaton Welfare Plans. Such assignment of liabilities,

responsibilities, and obligations to, and assumption by, ESEI shall be applicable to any and all claims for any such benefits which are or have been filed on, prior or subsequent to the Closing Date by or on behalf of any Eligible Individual with either Eaton or ESEI, or with any authorized representative of either, and which claims have not been paid or otherwise fully settled under the applicable Eaton Welfare Plan prior to the Closing Date, notwithstanding (1) the date on which any such Eligible Individual's disability or medical need commenced, or (2) the date on which any covered health, dental, drug, and/or other services and/or materials and/or supplies were provided, or (3) the date on which any covered expenses were incurred, or (4) the period during which such Eligible Individual is eligible for benefit payments of any kind, except as otherwise provided in Section 10.3(b). Welfare benefit coverage hereby assumed by ESEI for the Eligible Individuals nevertheless shall be provided under Eaton's applicable welfare benefit plans, programs, practices, and/or arrangements until such time as ESEI establishes its own welfare benefit plan, programs or arrangements (the "ESEI Welfare Plans"). Any Eligible Individual's periods of employment with Eaton and/or any predecessor employer thereof, and any and all periods of an Eligible Individual's coverage and/or participation in any Eaton

Welfare Plan, shall be deemed to be employment with ESEI and coverage and/or participation in the ESEI Welfare Plans respectively for all purposes of establishing such Eligible Individual's eligibility for participation and benefit entitlement under the ESEI Welfare Plans. The extent to which any Eligible Individual (either as an individual or a family member) has satisfied in whole or in part any Eaton Welfare Plan annual deductible, or has paid any out-of-pocket expense pursuant to any Eaton Welfare Plan co-insurance provision, shall be counted toward the satisfaction of any similar applicable deductible or out-of-pocket expense maximum respectively under any applicable ESEI Welfare Plan. For the purposes of this Article 10, "Eligible Individuals" shall mean

(i) the Employees; and

(ii) the eligible dependents and/or other eligible beneficiaries of the Employees;

who were eligible, or who would have become eligible, for any such welfare benefits under any applicable Eaton Welfare Plan as of or after the Closing Date.

(b) Notwithstanding any other provisions of this Agreement to the contrary, Eaton shall retain all liabilities, responsibilities, and obligations under the applicable Eaton Welfare Plans with respect to any Eligible Individual for the

provision of any life, accidental death and dismemberment, and/or business travel accident insurance benefits payable with respect to any qualified death or accident which occurs prior to the Closing Date.

(c) In conjunction with the assignment to, and assumption by, ESEI of liabilities, responsibilities, and obligations for the provision of welfare benefits pursuant to Section 10.3(a), Eaton and ESEI agree that Eaton shall arrange for the provision of life insurance, accidental death and dismemberment insurance, business travel accident insurance, long term disability, comprehensive health, dental, mail order drug, and patient services benefit coverage on ESEI's behalf through the administrative services of the Eaton Welfare Plans commencing on the Closing Date and continuing until such time as Eaton and ESEI shall agree otherwise. ESEI agrees to pay to Eaton or, if so determined by Eaton, to any administrative representative of Eaton, the premium rates and/or direct costs of such benefits as provided through the Eaton Welfare Plan administration, plus any third party administrative service fees related to the provision of such benefits and any other reasonable related expenses incurred by Eaton, or by any administrative representative of Eaton, for any such continuing coverage or the financing thereof through Eaton Welfare Plan

administration. ESEI acknowledges that Eaton has agreed to the provisions of this Section 10.3(c) as an accommodation to ESEI for the purposes of facilitating the sale of the Business as contemplated by this Agreement, and that this Section 10.3(c) shall in no way be construed to impose upon Eaton any liability, responsibility, or obligation whatever for the provision of any benefits for or on behalf of any Eligible Individual except as expressly set forth in this Section 10.3.

10.4 INVESTMENT PLAN RESPONSIBILITIES. As of the Closing Date and thereafter until such time as Eaton may determine otherwise, Eaton shall extend coverage under the Eaton Corporation Share Purchase And Investment Plan (the "Eaton Investment Plan") to ESEI as the "Company" pursuant to the definition thereof as set forth in Section 2.1(viii) of such Plan, and eligibility for membership in the Eaton Investment Plan shall be extended to all Employees, and to all new employees of ESEI hired on or after the Closing Date, pursuant to the definition of "Employee" as set forth in Section 2.1(xix) of the Eaton Investment Plan. Each Employee's employment with ESEI from and after the Closing Date shall continue to be considered as employment with the "Company" for all purposes under the Eaton Investment Plan so long as ESEI continues to be so designated as the "Company", and the transfer of an

Employee's employment as of the Closing Date from Eaton to ESEI shall not be deemed to be a break in his employment with the "Company" for purposes of his membership, and eligibility for membership, in the Eaton Investment Plan. ESEI shall have all liability, responsibility, and obligation for any and all expenses relating to the operation of the Eaton Investment Plan with respect to membership therein by Employees and new Employees of ESEI and shall reimburse Eaton promptly for such expenses upon Eaton's presentation of an invoice therefor to ESEI. Eaton shall amend the Eaton Investment Plan, if and to the extent that it is considered necessary by Eaton, and shall take whatever other actions that Eaton may deem necessary, to implement the provisions of this Section 10.4.

10.5 VACATION RESPONSIBILITIES. ESEI shall be liable, responsible, and obligated for the payment of all vacation benefits on behalf of any and all Employees, and which have not been paid by Eaton prior to the Closing Date.

10.6 WORKERS' COMPENSATION RESPONSIBILITIES. As of the Closing Date, ESEI shall assume, and shall pay or discharge as they come due, all liabilities, responsibilities, and obligations for any loss, claim, or damage, including without limitation any interest charges, and/or retroactive premiums for workers' compensation insurance and/or penalties and/or

attorney's fees or disbursements, which is or has been incurred or suffered by any Employee and which loss, claim, or damage is based upon any claim or demand made by or on behalf of such Employee pursuant to any governmental workers' compensation, occupational disease or injury, or substantially similar law, regardless of whether such claim or demand is or was first presented, filed, or actually made prior to, or on or after, the Closing Date and regardless of the date of occurrence of any bodily injury, disease, or other physical or mental condition upon which such claim or demand is or was based.

10.7 REIMBURSEMENT FOR ESEI LIABILITIES. Notwithstanding any other provisions of this Agreement to the contrary, in the event that Eaton shall be required, by operation of law or regulation or by judicial or quasi-judicial determination or by operation of any contract or other agreement of any kind with any insurance company or other entity, to pay or discharge directly, or indirectly through any representative or any benefit trust or other fund or otherwise, any liability, responsibility, or obligation for the provision of any benefit or other payment which is the liability, responsibility, and/or obligation of ESEI either directly or indirectly pursuant to this Article 10, ESEI shall promptly reimburse Eaton, or any appropriate representative or benefit trust or other fund of

Eaton as may be determined by Eaton, in full for any and all such payments and/or discharges upon the presentation of written evidence thereof by Eaton to ESEI. ESEI also shall promptly reimburse Eaton for the full amount of any benefit premium payment or other direct cost of benefit coverage which is incurred by Eaton on ESEI's behalf with respect to any period of benefit coverage occurring on or after the Closing Date.

10.8 PROFIT SHARING PLAN. After the Closing, the Employees shall continue to participate under the Semiconductor Equipment Operations Profit Sharing Plan (the "SEO Plan") on the same terms and conditions as existed immediately prior to the Closing, subject to any discontinuance, termination or amendment of the SEO Plan adopted after the Closing.

ARTICLE 11. INDEMNIFICATION

-----

11.1 INDEMNIFICATION BY ESEI. ESEI shall defend, indemnify and hold harmless Eaton, its employees, officers, directors and agents from and against any and all claims, damages, demands, causes of action, suits, judgments, debts, losses, liabilities, costs and expenses including but not limited to court costs and attorneys' fees (collectively, "Claims") resulting from (a) any failure of ESEI promptly to carry out, perform, satisfy and discharge any of its covenants, agreements, undertakings, obligations or liabilities under this Agreement, including without

limitation the Assumed Liabilities under Section 3.1, and under any Related Agreements, Schedules or any other documents delivered to Eaton pursuant hereto or (b) any breach of a warranty or representation made by ESEI to Eaton hereunder or under any Related Agreement or in the Schedules or other documents delivered to Eaton pursuant hereto.

11.2 INDEMNIFICATION BY EATON. Eaton shall defend, indemnify and hold harmless ESEI, its employees, officers, directors and agents from and against any and all Claims resulting from (a) any failure of Eaton promptly to carry out, perform, satisfy and discharge any of its covenants, agreements, undertakings, obligations or liabilities under this Agreement, (b) any breach of an agreement made by Eaton to ESEI hereunder or in the Schedules or other documents delivered to ESEI pursuant hereto or (c) non-compliance with any applicable bulk transfer law, bulk transfer tax law or similar statute.

11.3 CONDITIONS OF INDEMNIFICATION. The indemnifications contained herein are conditional upon the following: (i) if any Claim shall be commenced or asserted against or suffered by either party in respect to which such party (the "Indemnatee") proposes to demand indemnification hereunder, the party from whom indemnification is sought (the "Indemnitor") shall be notified promptly of the demand and informed in detail of the grounds for

such demand; (ii) Indemnitee shall permit Indemnitor to participate in (but not control) any future decision-making which may have the effect of materially increasing or diminishing the amount of such indemnification; PROVIDED, HOWEVER, that if Indemnitor accepts in writing its full responsibility (as between the parties hereto) under this Agreement for any such Claim, Indemnitor may assume the entire control of the defense, compliance or settlement of any such Claim through its own attorneys and Indemnitee shall, at Indemnitor's expense, afford Indemnitor such other reasonable assistance as may be requested; and (iii) in the event that Indemnitor fails to assume the entire control of the defense, compliance or settlement of, or to pay, as applicable, any Claim within thirty (30) days of the receipt of a demand made under this Section 11.3, Indemnitor shall pay Indemnitee interest (from the expiration of such 30-day period following receipt of a demand) on the amount of such Claim for which Indemnitor is responsible pursuant to this Article 11, at the Interest Rate plus three percentage points (3%) (or such lower rate as is required by law).

11.4 INDEMNITY RIGHTS EXCLUSIVE OF OTHER RIGHTS. The rights of indemnity provided by this Agreement shall be exclusive of all other bases of entitlement to money damages for the matters

covered by this Agreement, the Related Agreements, the Schedules or any other document delivered to Eaton pursuant hereto.

ARTICLE 12. MISCELLANEOUS  
-----

12.1 EXPENSES. Except as otherwise expressly provided in this Agreement, each of ESEI and Eaton shall pay its own expenses incidental to the negotiation, preparation and performance of this Agreement and the transactions contemplated hereby, whether or not the Closing occurs, as long as failure to close is not a breach of this Agreement.

12.2 NOTICES. Any notices or other communications required or permitted hereunder shall be given in writing and shall be sufficiently given if delivered personally or sent by registered mail or certified mail, return receipt requested, postage prepaid, addressed as follows:

12.4 SUCCESSORS AND ASSIGNS; OTHER PARTIES. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. This Agreement may not be assigned by ESEI without the prior written consent of Eaton. No assignment under this Section 12.4 shall relieve a party of any of its obligations hereunder without the prior written consent of the other party. Nothing herein expressed or implied is intended or shall be construed to confer upon or give to any person or entity, other than the parties hereto and their respective permitted successors and assigns, any rights or remedies under or by reason of this Agreement.

12.5 GENDER; NUMBER. All pronouns shall be deemed to refer to the masculine, feminine, neuter, singular or plural as the identity of the person or persons referred to may require. All defined terms that are defined in the singular shall be deemed

12.6 TIME OF ESSENCE. Time shall be of the essence with respect to each party's performance of its obligations pursuant to this Agreement.

12.7 WAIVER. Except as otherwise expressly provided in this Agreement, neither the failure nor any delay on the part of Eaton or ESEI to exercise any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise or waiver of any such right, power or privilege preclude any other or further exercise thereof, or the exercise of any other right, power or privilege available to Eaton or ESEI at law or in equity. Unless otherwise expressly provided in this Agreement, either party may at any time waive compliance by the other with any covenants or conditions contained in this Agreement, but only by written instrument executed by the party expressly waiving such compliance.

12.8 COUNTERPARTS. This Agreement will be executed in two or more counterparts, any or all of which shall constitute one and the same instrument.

12.11 ENTIRE AGREEMENT AND AMENDMENT. This Agreement (together with the Schedules hereto and Related Agreement) constitutes the entire agreement by and among the parties hereto with respect to the subject matter hereof, and there are no agreements, commitments, arrangements or understandings except as expressly set forth herein. This Agreement may not be amended orally, but only by written instrument executed by all parties hereto expressly setting forth such amendment.

IN WITNESS WHEREOF, each of the parties hereto has caused this Agreement to be executed as of the date first above written.

RESTATED CERTIFICATE OF INCORPORATION  
OF  
AXCELIS TECHNOLOGIES, INC.

FIRST. The name of the corporation is Axcelis Technologies, Inc. The name under which the corporation was originally incorporated is Eaton Semiconductor Equipment Inc. The Corporation's original Certificate of Incorporation was filed with the Secretary of State of the State of Delaware on December 21, 1995.

SECOND. This Restated Certificate of Incorporation was duly adopted in accordance with the applicable provisions of Sections 242 and 245 of the General Corporation Law of the State of Delaware.

THIRD. The original Certificate of Incorporation of the Corporation is amended and restated to read in full as follows:

1. Name. The name of the Corporation is Axcelis Technologies, Inc.

2. Registered Office and Agent. The address of its registered office in the State of Delaware is 1209 Orange Street, Wilmington, New Castle County, Delaware 19801. The name of its registered agent at such address is The Corporation Trust Company.

3. Purpose. The nature of the business or purposes to be conducted or promoted is to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of the State of Delaware (the "DGCL").

4. a. Authorized Capitalization. The total number of all shares of capital stock which the Corporation shall have the authority to issue is 330,000,000 shares consisting of: (i) 300,000,000 shares of Common Stock, par value of \$0.001 per share; and (ii) 30,000,000 shares of Preferred Stock, par value of \$0.001 per share.

b. Preferred Stock. The Corporation's Board of Directors is hereby expressly authorized to provide by resolution or resolutions from time to time for the issue of the Preferred Stock in one or more series, the shares of each of which series may have such voting powers, full or limited, or no voting powers, and such designations, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions thereon, as shall be permitted under the DGCL and as shall be stated in the resolution or resolutions providing for the issue of such stock adopted by the Board of Directors pursuant to the authority expressly vested in the Board of Directors hereby.

c. Reclassification. Upon the effective date of this Restated Certificate of Incorporation (the "Effective Time"), each issued share of the capital stock of the Corporation theretofore designated as "Common Stock," par value \$1.00 per share ("Old Common Stock"),

shall, without any action on the part of the holder thereof, be reclassified so that each existing share of Old Common Stock shall become one share of Common Stock, par value \$0.001 per share. Each holder of a certificate or certificates which immediately prior to the Effective Time represented outstanding shares of Old Common Stock ("Old Certificates"), shall be entitled to receive upon surrender of such Old Certificates to the Corporation or its stock transfer agent for cancellation, a certificate or certificates ("New Certificates") representing the number of shares of Common Stock, par value \$0.001 per share, into which and for which shares of Old Common Stock formerly represented by such Old Certificates so surrendered are reclassified. From and after the Effective Time, Old Certificates shall represent only the right to receive New Certificates pursuant to the provisions hereof.

5. Period of Existence. The period of existence of the Corporation shall be perpetual.

6. Number of Directors.

a. The number of members of the Board of Directors will be fixed from time to time by resolution adopted by the affirmative vote of a majority of the entire Board of Directors but (subject to vacancies) in no event may there be less than three directors nor more than 15 directors.

b. The Directors shall be divided into three classes, each consisting of one-third of such directors, as nearly as possible. Promptly following the Effective Time, in 2000, the sole stockholder shall designate that one class of directors shall be elected for a one-year term, one class for a two-year term and one class for a three-year term. Commencing with the stockholders meeting in 2001, and at each succeeding annual stockholders meeting, successors to the class of directors whose term expires at such annual stockholders meeting shall be elected for a three-year term. If the number of such directors is changed, an increase or decrease in such directors shall be apportioned among the classes so as to maintain the number of directors comprising each class as nearly equal as possible, and any additional directors of any class shall hold office for a term which shall coincide with the remaining term of such class. A director shall hold office until the annual stockholders meeting for the year in which such director's term expires and until a successor shall be elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification, or removal from office.

c. Except as otherwise required by law, any vacancy on the board of directors that results from an increase in the number of directors shall be filled only by a majority of the board of directors then in office, provided that a quorum is present, and any other vacancy occurring in the board of directors shall be filled by a majority of the directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy not resulting from an increase in the number of directors shall have the same remaining term as that of his or her predecessor. A director may be removed only for cause by the stockholders.

d. Notwithstanding the foregoing, whenever the holders of any one or more classes or series of stock issued by the Corporation shall have the right, voting separately by class or series, to elect directors at an annual or special meeting of stockholders, the election, term of office,

filling of vacancies and other features of such directorships shall be governed by the terms of this Restated Certificate of Incorporation applicable thereto and such directors so elected shall not be divided into classes pursuant to this Article 6, in each case unless expressly provided by such terms.

7. Amendments to Certificate of Incorporation. The Corporation reserves the right to amend, alter, change or repeal any provision contained in this Restated Certificate of Incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred upon stockholders herein are granted subject to this reservation.

8. Amendments to By-laws. In furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to adopt, amend or repeal the By-laws of the Corporation.

9. Meetings of Stockholders. Meetings of stockholders may be held within or without the State of Delaware as the By-laws may provide. The books of the Corporation may be kept (subject to any provision contained in the statutes) outside the State of Delaware at such place or places as may be designated from time to time by the Board of Directors or in the By-laws of the Corporation. Elections of directors need not be by written ballot unless the By-laws of the Corporation shall so provide.

10. Liability of Directors; Indemnification.

a. The personal liability of the directors of the Corporation is hereby eliminated to the fullest extent permitted by Section 102(b)(7) of the DGCL, as the same may be amended and supplemented. Without limiting the generality of the foregoing, no director shall be personally liable to the Corporation or any of its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit.

b. The Corporation shall indemnify and hold harmless, to the fullest extent permitted by applicable law as it presently exists or may hereafter be amended, any person who was or is made or is threatened to be made a party or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a "proceeding") by reason of the fact that such person, or a person for whom he or she is the legal representative, is or was a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust, enterprise or non-profit entity, including service with respect to employee benefit plans, against all liability and loss suffered and expenses reasonably incurred by such person. The Corporation shall be required to indemnify a person in connection with a proceeding initiated by such person only if the proceeding was authorized by the Board of Directors of the Corporation. The rights to indemnification and advancement of expenses conferred by this Article shall be presumed to have been relied upon by directors and officers of the Corporation in serving or continuing to serve the Corporation and shall be enforceable as

contract rights. Said rights shall not be exclusive of any other rights to which those seeking indemnification may otherwise be entitled. The Corporation may enter into contracts to provide such persons with specific rights to indemnification, which contracts may confer rights and protections to the maximum extent permitted by the DGCL. The Corporation may create trust funds, grant security interests, obtain letters of credit, or use other means to ensure payment of such amounts as may be necessary to perform the obligations provided for in this Article or in any such contract.

c. Any repeal or modification of this Article 10 by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

11. Other Considerations. In addition to any other considerations which the Board of Directors, any committee thereof or any individual director lawfully may take into account in determining whether to take or refrain from taking corporate action on any matter, including making or declining to make any recommendations to the stockholders of the Corporation, the Board of Directors, any committee thereof or any individual director may in its, his or her discretion consider the long term as well as the short term best interests of the Corporation (including the possibility that these interests may best be served by the continued independence of the Corporation), taking into account and weighing as deemed appropriate the effects of such action on employees, suppliers, distributors and customers of the Corporation and its subsidiaries and the effect upon communities in which the offices or facilities of the Corporation and its subsidiaries are located and any other factors considered pertinent. This Article 11 shall be deemed to grant discretionary authority to the Board of Directors, any committee thereof and each individual director, and shall not be deemed to provide to any specific constituency any right to be considered.

12. Special Meetings of Stockholders. Effective as of the time at which Eaton Corporation, an Ohio corporation, and its affiliates shall cease to be the beneficial owners of an aggregate of at least a majority of the then outstanding shares of Common Stock of the Corporation (the "Change of Majority Ownership Date"), the stockholders of the Corporation shall have no authority to call a special meeting of the stockholders, subject to the rights of the holders of any class or series of capital stock having a preference over the Common Stock as to dividends or upon liquidation.

13. Action Without a Meeting. Effective as of the Change of Majority Ownership Date, no action required to be taken or which may be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting; and the power of the stockholders to consent in writing, without a meeting, to the taking of any action is specifically denied.

14. Additional Vote Required. Notwithstanding any other provisions of this Restated Certificate of Incorporation or any provision of law which might otherwise permit a lesser vote or no vote, but in addition to any affirmative vote of the holders of any particular class or series of stock required by law or this Restated Certificate of Incorporation, the affirmative vote of the

holders of at least 75% of the then outstanding shares of Common Stock shall be required to alter, amend, supplement or repeal, or to adopt any provision inconsistent with the purpose or intent of, Articles 4, 6, 12, 13 or 14 of this Restated Certificate of Incorporation.

FOURTH: The foregoing amendment and restatement of the Certificate of Incorporation has been approved by the Board of Directors of the Corporation.

IN WITNESS WHEREOF Axcelis Technologies, Inc. has caused this Restated Certificate of Incorporation to be signed and attested this 14th day of June, 2000.

## ARTICLE I

## STOCKHOLDERS

Section 1.01. Annual Meetings. The annual meeting of the stockholders of the Corporation for the election of directors and for the transaction of such other business as properly may come before such meeting shall be held at such place, either within or without the State of Delaware, as may be fixed from time to time by resolution of the Board of Directors and set forth in the notice or waiver of notice of the meeting.

Section 1.02. Special Meetings. Special meetings of the stockholders may be called at any time by the Chairman of the Board, the Vice Chairman, the Chief Executive Officer, or by the Board of Directors. Such special meetings of the stockholders shall be held at such places, within or without the State of Delaware, as shall be specified in the respective notices or waivers of notice thereof. Immediately following the time at which Eaton Corporation, an Ohio corporation, and its affiliates shall cease to be the beneficial owners of an aggregate of at least a majority of the then outstanding shares of Common Stock of the Corporation (the "Change of Majority Ownership Date"), the stockholders of the Corporation shall have no authority to call a special meeting of the stockholders, subject to the rights of the holders of any class or series of capital stock having a preference over the Common Stock as to dividends or upon liquidation.

Section 1.03. Notice of Meetings; Waiver.

a. The Secretary or any Assistant Secretary shall cause written notice of the place, date and hour of each meeting of the stockholders, and, in the case of a special meeting, the purpose or purposes for which such meeting is called, to be given personally or by mail, not less than 10 nor more than 60 days prior to the meeting, to each stockholder of record entitled to vote at such meeting. If such notice is mailed, it shall be deemed to have been given to a stockholder when deposited in the United States mail, postage prepaid, directed to the stockholder at the stockholder's address as it appears on the record of stockholders of the Corporation, or, if such stockholder shall have filed with the Secretary of the Corporation a written request that notices be mailed to some other address, then directed to such stockholder at such other address. Such further notice shall be given as may be required by law.

b. No notice of any meeting of stockholders need be given to any stockholder who submits a signed waiver of notice, whether before or after the meeting. Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the stockholders need be

specified in a written waiver of notice. The attendance of any stockholder at a meeting of stockholders shall constitute a waiver of notice of such meeting, except when the stockholder attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business on the ground that the meeting is not lawfully called or convened.

Section 1.04. Quorum. Except as otherwise required by law or by the Restated Certificate of Incorporation, the presence in person or by proxy of the holders of record of a majority of the shares entitled to vote at a meeting of stockholders shall constitute a quorum for the transaction of business at such meeting.

Section 1.05. Voting. If, pursuant to Section 5.05 of these By-Laws, a record date has been fixed, every holder of record of shares entitled to vote at a meeting of stockholders shall be entitled to one vote for each share outstanding in such stockholder's name on the books of the Corporation at the close of business on such record date. If no record date has been fixed, then every holder of record of shares entitled to vote at a meeting of stockholders shall be entitled to one vote for each share of stock standing in such stockholder's name on the books of the Corporation at the close of business on the day next preceding the day on which notice of the meeting is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held. Except as otherwise required by law or by the Restated Certificate of Incorporation, the vote of a majority of the shares represented in person or by proxy at any meeting at which a quorum is present shall be sufficient for the transaction of any business at such meeting.

Section 1.06. Voting by Ballot. No vote of the stockholders need be taken by written ballot or conducted by Inspectors of Elections unless otherwise required by law. Any vote which need not be taken by ballot may be conducted in any manner approved by the meeting.

Section 1.07. Adjournment. If a quorum is not present at any meeting of the stockholders, the stockholders present in person or by proxy shall have the power to adjourn any such meeting from time to time until a quorum is present. Notice of any adjourned meeting of the stockholders of the Corporation need not be given if the place, date and hour thereof are announced at the meeting at which the adjournment is taken, provided, however, that if the adjournment is for more than 30 days, or if after the adjournment a new record date for the adjourned meeting is fixed pursuant to Section 5.05 of these By-Laws, a notice of the adjourned meeting, conforming to the requirements of Section 1.03 hereof, shall be given to each stockholder of record entitled to vote at such meeting. At any adjourned meeting at which a quorum is present, any business may be transacted that might have been transacted on the original date of the meeting.

Section 1.08. Proxies. Any stockholder entitled to vote at any meeting of the stockholders or to express consent to or dissent from corporate action without a meeting may authorize another person or persons to vote at any such meeting and express such consent or dissent for him or her by proxy. A stockholder may authorize a valid proxy by executing a written instrument signed by such stockholder, or by causing his or her signature to be affixed to such writing by any reasonable means including, but not limited to, by facsimile signature, or by transmitting or authorizing an electronic transmission to the person designated as the holder of the proxy, a proxy solicitation firm or a like authorized agent. No such proxy shall be voted or acted upon after the expiration of three years from the date of such proxy, unless such proxy provides for a longer period. Every proxy shall be revocable at the pleasure of the stockholder executing it, except in those cases where applicable law provides that a proxy shall be irrevocable. A stockholder may revoke any proxy which is not irrevocable by attending the meeting and voting in person or by filing an instrument in writing revoking the proxy or by filing another duly executed proxy bearing a later date with the Secretary. Proxies by electronic transmission must either set forth or be submitted with information from which it can be determined that the electronic transmission was authorized by the stockholder. Any copy, facsimile telecommunication or other reliable reproduction of a writing or transmission created pursuant to this section may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original writing or transmission could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission.

Section 1.09. Organization; Procedure. At every meeting of stockholders, the presiding officer shall be the Chairman or, in the event of the Chairman's absence or disability, the Vice Chairman and Chief Executive Officer, or in the event of such person's absence or disability, a presiding officer chosen by a majority of the Board of Directors. The Secretary, or in the event of his or her absence or disability, the Assistant Secretary, if any, or if there be no Assistant Secretary, in the absence of the Secretary, an appointee of the presiding officer, shall act as Secretary of the meeting. The order of business and all other matters of procedure at every meeting of stockholders may be determined by such presiding officer.

Section 1.10. Consent of Stockholders in Lieu of Meeting. Effective as of the Change of Majority Ownership Date, no action required to be taken or which may be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting, and the power of stockholders to consent in writing, without a meeting, to the taking of any action is specifically denied.

## ARTICLE II

### BOARD OF DIRECTORS

Section 2.01. General Powers. Except as may otherwise be provided by law, by the Restated Certificate of Incorporation or by these By-Laws, the property, affairs and business

of the Corporation shall be managed by or under the direction of the Board of Directors and the Board of Directors may exercise all the powers of the Corporation.

Section 2.02. Number and Term of Office; Vacancies and Newly Created Directorships.

a. The number of members of the Board of Directors will be fixed from time to time by resolution adopted by the affirmative vote of a majority of the entire Board of Directors, but (subject to vacancies) in no event may there be less than three directors nor more than 15 directors.

b. The directors shall be divided into three classes, each consisting of one-third of such Directors, as nearly as possible. Immediately following the adoption of these By-Laws, in 2000, the stockholders shall designate that one class of such directors shall be elected for a one-year term, one class for a two-year term and one class for a three-year term. Commencing with the stockholders meeting in 2001, and at each succeeding annual stockholders meeting, successors to the class of directors whose term expires at such annual stockholders meeting shall be elected for a three-year term. If the number of such directors is changed, by a majority vote of the Board of Directors then in office, an increase or decrease in such directors shall be apportioned among the classes so as to maintain the number of directors comprising each class as nearly equal as possible, and any additional directors of any class shall hold office for a term which shall coincide with the remaining term of such class. A director shall hold office until the annual stockholders meeting for the year in which his or her term expires and until a successor shall be elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification, or removal from office.

c. Except as otherwise required by law, any vacancy on the Board of Directors that results from an increase in the number of directors shall be filled only by a majority vote of the Board of Directors then in office, provided that a quorum is present, and any other vacancy occurring in the Board of Directors shall be filled by a majority of the directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy not resulting from an increase in the number of directors shall have the same remaining term as that of his or her predecessor. A director may be removed only for cause by the stockholders.

d. Notwithstanding the foregoing, whenever the holders of any one or more classes or series of stock issued by the Corporation shall have the right, voting separately by class or series, to elect directors at an annual or special meeting of stockholders, the election, term of office, filling of vacancies and other features of such directorships shall be governed by the terms of the Restated Certificate of Incorporation applicable thereto and such directors so elected shall not be divided into classes pursuant to this Section 2.02, in each case unless expressly provided by such terms.

Section 2.03. Election of Directors. Except as otherwise provided in these By-Laws, the directors shall be elected at each annual meeting of the stockholders. If the annual meeting for the election of directors is not held on the date designated therefor, the directors shall cause the meeting to be held as soon thereafter as convenient. At each meeting of the

stockholders for the election of directors, provided a quorum is present, the directors shall be elected by a plurality of the votes validly cast in such election.

Section 2.04. Annual and Regular Meetings. The annual meeting of the Board of Directors for the purpose of electing officers and for the transactions of such other business as may come before the meeting shall be held as soon as possible following adjournment of the annual meeting of the stockholders at the place of such annual meeting of the stockholders. Notice of such annual meeting of the Board of Directors need not be given. The Board of Directors from time to time may by resolution provide for the holding of regular meetings and fix the place (which may be within or without the state of Delaware) and the date and hour of such meetings. Notice of regular meetings need not be given, provided, however, that if the Board of Directors shall fix or change the time or place of any regular meeting, notice of such action shall be sent by regular mail, electronic mail or facsimile, to each director who shall not have been present at the meeting at which such action was taken, addressed to the director at his or her usual place of business, or shall be delivered to each director personally. Notice of such action need not be given to any director who attends the first regular meeting after such action is taken without protesting the lack of notice to him or her, prior to or at the commencement of such meeting, or to any director who submits a signed waiver of notice, whether before or after such meeting.

Section 2.05. Special Meetings; Notice. Special meetings of the Board of Directors shall be held whenever called by the Chairman of the Board or, in the event of the Chairman's absence or disability, by the Vice Chairman and Chief Executive Officer, or in the event of such person's absence or disability, by a majority of the Board of Directors, at such place (within or without the State of Delaware), date and hour as may be specified in the respective notices or waivers of notice of such meetings. Special meetings of the Board of Directors may be called on two business days notice, if notice is given to each director personally or by telephone, overnight delivery, electronic mail or facsimile, or on five days' notice, if notice is by regular mail to each director, addressed to each director at his or her usual place of business. Notice of any special meeting need not be given to any director who attends such meeting without protesting the lack of notice to him or her, prior to or at the commencement of such meeting, or to any director who submits a signed waiver of notice, whether before or after such meeting, and any business may be transacted thereat.

Section 2.06. Quorum; Voting. Except as otherwise provided in these By-Laws, at all meetings of the Board of Directors, the presence of a majority of the total authorized number of directors shall constitute a quorum for the transaction of business. Except as otherwise required by law, the vote of a majority of the directors present at any meeting at which a quorum is present shall be the act of the Board of Directors.

Section 2.07. Adjournment. A majority of the directors present, whether or not a quorum is present, may adjourn any meeting of the Board of Directors to another time or place. No notice need be given of any adjourned meeting unless the time and place of the adjourned meeting are not announced at the time of adjournment, in which case notice conforming to the requirements of Section 2.05 shall be given to each director.

Section 2.08. Action Without a Meeting. Any action required or permitted to be taken at any meeting of the Board of Directors may be taken without a meeting if all members of the Board of Directors consent thereto in writing, and such writing or writings are filed with the minutes of proceedings of the Board of Directors.

Section 2.09. Regulations; Manner of Acting. To the extent consistent with applicable law, the Restated Certificate of Incorporation and these By-Laws, the Board of Directors may adopt such rules and regulations for the conduct of meetings of the Board of Directors and for the management of the property, affairs and business of the Corporation as the Board of Directors may deem appropriate. The directors shall act only as a Board, and the individual directors shall have no power as such.

Section 2.10. Action by Telephonic Communications. Members of the Board of Directors may participate in a meeting of the Board of Directors by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting pursuant to this provision shall constitute presence in person at such meeting.

Section 2.11. Resignations. Any director may resign at any time by delivering a written notice of resignation, signed by such director, to the Chairman, the Chief Executive Officer or the Secretary. Unless otherwise specified therein, such resignation shall take effect upon delivery.

Section 2.12. Removal of Directors. Any director may be removed at any time, either for or without cause, upon the affirmative vote of the holders of a majority of the outstanding shares of stock of the Corporation entitled to vote for the election of such director, cast at a special meeting of stockholders called for the purpose. Any vacancy in the Board of Directors caused by any such removal may be filled at such meeting by the stockholders entitled to vote for the election of the director so removed. If such stockholders do not fill such vacancy at such meeting, such vacancy may be filled in the manner provided in these By-Laws.

Section 2.13. Compensation. The amount, if any, which each director shall be entitled to receive as compensation for services as a director shall be determined from time to time by resolution of the Board of Directors.

Section 2.14. Reliance on Accounts and Reports, etc. A director, or a member of any Committee designated by the Board of Directors shall, in the performance of his or her duties, be fully protected in relying in good faith upon the records of the Corporation and upon information, opinions, reports or statements presented to the Corporation by any of the Corporation's officers or employees, or Committees designated by the Board of Directors, or by any other person as to the matters the member reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation.

Section 2.15. Nomination of Directors. In addition to the right of the Board of Directors of the Corporation to make nominations for the election of directors, nominations for

the election of directors may be made by any stockholder entitled to vote for the election of directors. Advance written notice of such proposed nomination shall be received by the Secretary of the Corporation by certified mail no later than (i) 90 days prior to the anniversary of the previous year's annual meeting of stockholders, or (ii) with respect to an election to be held at a special meeting of stockholders or at an annual meeting that is held more than 60 days prior to the anniversary of the previous year's annual meeting, the close of business on the tenth day following the date on which notice of such meeting is first given to the stockholders, but in no event later than the date of the meeting. Each such notice shall set forth (i) the name, age, business address and, if known, residence address of each nominee proposed in such notice, (ii) the principal occupation or employment of each such nominee, and (iii) the number of shares of stock of the Corporation which are beneficially owned by each such nominee. In addition, the stockholder making such nomination shall promptly provide any other information reasonably requested by the Corporation.

### ARTICLE III

#### EXECUTIVE COMMITTEE AND OTHER COMMITTEES

Section 3.01. How Constituted. The Board of Directors may, by resolution adopted by a majority of the whole Board, designate one or more Committees, including, among others, an Executive Committee and an Audit Committee, each such Committee to consist of such number of directors as from time to time may be fixed by the Board of Directors. The Board of Directors may designate one or more directors as alternate members of any such Committee, who may replace any absent or disqualified member or members at any meeting of such Committee. Thereafter, members (and alternate members, if any) of each such Committee may be designated at the annual meeting of the Board of Directors. Any such Committee may be abolished or re-designated from time to time by the Board of Directors. Each member (and each alternate member) of any such Committee (whether designated at an annual meeting of the Board of Directors or to fill a vacancy or otherwise) shall hold office until such director's successor shall have been designated or until such person shall cease to be a director, or until such director's earlier death, resignation or removal.

Section 3.02. Powers. During the intervals between the meetings of the Board of Directors, the Executive Committee, except as otherwise provided in this Article III, shall have and may exercise all the powers and authority of the Board of Directors in the management of the property, affairs and business of the Corporation. Each such other Committee, except as otherwise provided in this Section, shall have and may exercise such powers of the Board of Directors as may be provided by resolution or resolutions of the Board of Directors, subject to applicable provisions of the General Corporation Law of the State of Delaware. The Executive Committee shall have, and any such other Committee may be granted by the Board of Directors, power to authorize the seal of the Corporation to be affixed to any or all papers which may require it.

Section 3.03. Proceedings. Each such Committee may fix its own rules of procedure and may meet at such place (within or without the State of Delaware), at such time and upon such notice, if any, as it shall determine from time to time. Each such Committee shall keep minutes of its proceedings and shall report such proceedings to the Board of Directors at the meeting of the Board of Directors next following any such proceedings.

Section 3.04. Quorum and Manner of Acting. Except as may be otherwise provided in the resolution creating such Committee, at all meetings of any Committee the presence of members (or alternate members) constituting a majority of the total authorized membership of such Committee shall constitute a quorum for the transaction of business. The act of the majority of the members present at any meeting at which a quorum is present shall be the act of such Committee. Any action required or permitted to be taken at any meeting of any such Committee may be taken without a meeting, if all members of such Committee shall consent to such action in writing and such writing or writings are filed with the minutes of the proceedings of the Committee. The members of any such Committee shall act only as a Committee, and the individual members of such Committee shall have no power as such.

Section 3.05. Action by Telephonic Communications. Members of any Committee designated by the Board of Directors may participate in a meeting of such Committee by means of conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting pursuant to this provision shall constitute presence in person at such meeting.

Section 3.06. Absent or Disqualified Members. ## ARTICLE V

## CAPITAL STOCK

Section 5.01. Certificates of Stock. The shares of the Corporation shall be represented by certificates, provided that the Board of Directors may provide by resolution or resolutions that some or all of any or all classes or series of the stock of the Corporation shall be uncertificated shares. Any such resolution shall not apply to shares represented by a certificate until each certificate is surrendered to the Corporation. Notwithstanding the adoption of such a resolution by the Board of Directors, every holder of stock in the Corporation represented by certificates and upon request every holder of uncertificated shares shall be entitled to have a certificate signed by, or in the name of the Corporation, by the Chairman or the Vice Chairman of the Board of Directors, or the President or a Vice President, and by the Treasurer or an Assistant Treasurer, or the Secretary or an Assistant Secretary, representing the number of shares registered in certificate form. Such certificate shall be in such form as the Board of Directors may determine, to the extent consistent with applicable law, the Restated Certificate of Incorporation and these By-Laws.

Section 5.02. Signatures; Facsimile. All of such signatures on the certificate may be a facsimile, engraved or printed, to the extent permitted by law. In case any officer, transfer agent or registrar who has signed, or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if he or she were such officer, transfer agent or registrar at the date of issue.

Section 5.03. Lost, Stolen or Destroyed Certificates. The Corporation may direct that a new certificate be issued in place of any certificate issued by the Corporation alleged to have been lost, stolen or destroyed, upon delivery to the Corporation of an affidavit of the owner or owners of such certificate, setting forth such allegation. The Corporation may require the owner of such lost, stolen or destroyed certificate, or such owner's legal representative, to give the Corporation a bond sufficient to indemnify it against any claim that may be made against it on account of the alleged loss, theft or destruction of any such certificate or the issuance of any such new certificate.

Section 5.04. Transfer of Stock. Upon surrender to the Corporation or the transfer agent of the Corporation of a certificate for shares, duly endorsed or accompanied by appropriate evidence of succession, assignment or authority to transfer, the Corporation shall issue a new certificate to the person entitled thereto, cancel the old certificate and record the transaction upon its books. Within a reasonable time after the transfer of uncertificated stock, the Corporation shall send to the registered owner thereof a written notice containing the information required to be set forth or stated on certificates pursuant to Sections 151, 156, 202(a) or 218(a) of the General Corporation Law of the State of Delaware. Subject to the provisions of the Restated Certificate of Incorporation and these By-Laws, the Board of Directors may prescribe such additional rules and regulations as it may deem appropriate relating to the issue, transfer and registration of shares of the Corporation.

## Section 5.05. Record Date.

a. In order to determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, the Board of Directors may fix, in advance, a record date, which record date shall not precede the date on which the resolution fixing the record date is adopted by the Board of Directors, and which shall not be more than sixty nor less than ten days before the date of such meeting. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting, provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

b. In order that the Corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights of the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than sixty days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

Section 5.06. Registered Stockholders. Prior to due surrender of a certificate for registration of transfer, the Corporation may treat the registered owner as the person exclusively entitled to receive dividends and other distributions, to vote, to receive notice and otherwise to exercise all the rights and powers of the owner of the shares represented by such certificate, and the Corporation shall not be bound to recognize any equitable or legal claim to or interest in such shares on the part of any other person, whether or not the Corporation shall have notice of such claim or interests. Whenever any transfer of shares shall be made for collateral security, and not absolutely, it shall be so expressed in the entry of the transfer if, when the certificates are presented to the Corporation for transfer or uncertificated shares are requested to be transferred, both the transferor and transferee request the Corporation to do so.

Section 5.07. Transfer Agent and Registrar. The Board of Directors may appoint one or more transfer agents and one or more registrars, and may require all certificates representing shares to bear the signature of any such transfer agents or registrars.

## ARTICLE VI

## INDEMNIFICATION

## Section 6.01. Nature of Indemnity.

a. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such person is

or was or has agreed to become a director or officer of the Corporation, or is or was serving or has agreed to serve at the request of the Corporation as a director or officer, of another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity, and may indemnify any person who was or is a party or is threatened to be made a party to such an action, suit or proceeding by reason of the fact that he or she is or was or has agreed to become an employee or agent of the Corporation, or is or was serving or has agreed to serve at the request of the Corporation as an employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person or on such person's behalf in connection with such action, suit or proceeding and any appeal therefrom, if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding had no reasonable cause to believe his or her conduct was unlawful; except that in the case of an action or suit by or in the right of the Corporation to procure a judgment in its favor (1) such indemnification shall be limited to expenses (including attorneys' fees) actually and reasonably incurred by such person in the defense or settlement of such action or suit, and (2) no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the Corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper. The Corporation shall be required to indemnify a person in connection with a proceeding initiated by such person only if the proceeding was authorized by the Board of Directors of the Corporation.

b. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his or her conduct was unlawful.

Section 6.02. Successful Defense. To the extent that a director, officer, employee or agent of the Corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Section 6.01 hereof or in defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection therewith.

Section 6.03. Determination That Indemnification Is Proper. Any indemnification of a director or officer of the Corporation under Section 6.01 hereof (unless ordered by a court) shall be made by the Corporation unless a determination is made that indemnification of the director or officer is not proper in the circumstances because he or she has not met the applicable standard of conduct set forth in Section 6.01 hereof. Any indemnification of an employee or agent of the Corporation under Section 6.01 hereof (unless ordered by a court)

may be made by the Corporation upon a determination that indemnification of the employee or agent is proper in the circumstances because he or she has met the applicable standard of conduct set forth in Section 6.01 hereof. Any such determination shall be made (1) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit or proceeding, or (2) if such a quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (3) by the stockholders.

Section 6.04. Advance Payment of Expenses. Expenses (including attorneys' fees) incurred by a director or officer in defending any civil, criminal, administrative or investigative action, suit or proceeding shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of the director or officer to repay such amount if it shall ultimately be determined that he or she is not entitled to be indemnified by the Corporation as authorized in this Article. Such expenses (including attorneys' fees) incurred by other employees and agents may be so paid upon such terms and conditions, if any, as the Board of Directors deems appropriate. The Board of Directors may authorize the Corporation's counsel to represent such director, officer, employee or agent in any action, suit or proceeding, whether or not the Corporation is a party to such action, suit or proceeding.

Section 6.05. Procedure for Indemnification of Directors and Officers. Any indemnification of a director or officer of the Corporation under Sections 6.01 and 6.02, or advancement of costs, charges and expenses to a director or officer under Section 6.04 of this Article, shall be made promptly, and in any event within 30 days, upon the written request of the director or officer. If a determination by the Corporation that the director or officer is entitled to indemnification pursuant to this Article is required, and the Corporation fails to respond within sixty days to a written request for indemnity, the Corporation shall be deemed to have approved such request. If the Corporation denies a written request for indemnity or advancement of expenses, in whole or in part, or if payment in full pursuant to such request is not made within 30 days, the right to indemnification or advances as granted by this Article shall be enforceable by the director or officer in any court of competent jurisdiction. Such person's costs and expenses incurred in connection with successfully establishing his or her right to indemnification, in whole or in part, in any such action shall also be indemnified by the Corporation. It shall be a defense to any such action (other than an action brought to enforce a claim for the advance of costs, charges and expenses under Section 6.04 of this Article where the required undertaking, if any, has been received by the Corporation) that the claimant has not met the standard of conduct set forth in Section 6.01 of this Article, but the burden of proving such defense shall be on the Corporation. Neither the failure of the Corporation (including its Board of Directors, its independent legal counsel, and its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he or she has met the applicable standard of conduct set forth in Section 6.01 of this Article, nor the fact that there has been an actual determination by the Corporation (including its Board of Directors, its independent legal counsel, and its stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

## Section 6.06. Survival; Preservation of Other Rights.

a. The foregoing indemnification provisions shall be deemed to be a contract between the Corporation and each director, officer, employee and agent who serves in any such capacity at any time while these provisions as well as the relevant provisions of the General Corporation Law of the State of Delaware are in effect and any repeal or modification thereof shall not affect any right or obligation then existing with respect to any state of facts then or previously existing or any action, suit or proceeding previously or thereafter brought or threatened based in whole or in part upon any such state of facts. Such a "contract right" may not be modified retroactively without the consent of such director, officer, employee or agent.

b. The indemnification provided by this Article VI shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any by-law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his or her official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

Section 6.07. Insurance. The Corporation shall purchase and maintain insurance on behalf of any person who is or was or has agreed to become a director or officer of the Corporation, or is or was serving at the request of the Corporation as a director or officer of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person or on his or her behalf in any such capacity, or arising out of his or her status as such, whether or not the Corporation would have the power to indemnify such person against such liability under the provisions of this Article, provided that such insurance is available on acceptable terms, which determination shall be made by a vote of a majority of the entire Board of Directors.

Section 6.08. Severability. If this Article or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the Corporation shall nevertheless indemnify each director or officer and may indemnify each employee or agent of the Corporation as to costs, charges and expenses (including attorneys' fees), judgments, fines and amounts paid in settlement with respect to any action, suit or proceeding, whether civil, criminal, administrative or investigative, including an action by or in the right of the Corporation, to the fullest extent permitted by any applicable portion of this Article that shall not have been invalidated and to the fullest extent permitted by applicable law.

Agreement, dated as of \_\_\_\_\_, 2000 between Axcelis Technologies, Inc., a Delaware corporation (the "Company"), and Equiserve Trust Company N.A., a national banking association (the "Rights Agent").

The Board of Directors of the Company has authorized and declared a dividend of one preferred share purchase right (a "Right") for each Common Share (as hereinafter defined) of the Company outstanding on \_\_\_\_\_, 2000 (the "Record Date"), each Right representing the right to purchase one one-hundredth of a Preferred Share (as hereinafter defined), upon the terms and subject to the conditions herein set forth, and has further authorized and directed the issuance of one Right with respect to each Common Share that shall become outstanding between the Record Date and the earliest of the Distribution Date, the Redemption Date and the Final Expiration Date (as such terms are hereinafter defined).

Accordingly, in consideration of the premises and the mutual agreements herein set forth, the parties hereby agree as follows:

Section 1. CERTAIN DEFINITIONS. For purposes of this Agreement, the following terms have the meanings indicated:

(a) "Acquiring Person" shall mean any Person (as such term is hereinafter defined) who or which, together with all Affiliates and Associates (as such terms are hereinafter defined) of such Person, shall be the Beneficial Owner (as such term is hereinafter defined) of 20% or more of the Common Shares of the Company then outstanding, but shall not include (i) the Company, (ii) any Subsidiary (as such term is hereinafter defined) of the Company, (iii) only until such time as Eaton Corporation, an Ohio Corporation, and its affiliates (collectively, "Eaton

Corporation"), shall cease to be the beneficial owners of an aggregate of 20% or more of the Common Shares of the Company then outstanding (the "Eaton Separation Date"), Eaton Corporation, (iv) any employee benefit plan of the Company or any Subsidiary of the Company, or (v) any entity holding Common Shares for or pursuant to the terms of any such plan. Notwithstanding the foregoing, no Person shall become an "Acquiring Person" as the result of an acquisition of Common Shares by the Company which, by reducing the number of shares outstanding, increases the proportionate number of shares beneficially owned by such Person to 20% or more of the Common Shares of the Company then outstanding; PROVIDED, HOWEVER, that if a Person shall become the Beneficial owner of 20% or more of the Common Shares of the Company then outstanding by reason of share purchases by the Company and shall, after such share purchases by the Company, become the Beneficial Owner of any additional Common Shares of the Company, then such Person shall be deemed to be an "Acquiring Person." Notwithstanding the foregoing, if the Board of Directors of the Company determines in good faith that a Person who would otherwise be an "Acquiring Person," as defined pursuant to the foregoing provisions of this paragraph (a), has become such inadvertently, and such Person divests as promptly as practicable a sufficient number of Common Shares so that such Person would no longer be an "Acquiring Person," as defined pursuant to the foregoing provisions of this paragraph (a), then such Person shall not be deemed to be or have ever been an "Acquiring Person" for any purposes of this Agreement.

(b) "Affiliate" and "Associate" shall have the respective meanings ascribed to such terms in Rule 12b-2 of the General Rules and Regulations under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as in effect on the date of this Agreement.

(c) A Person shall be deemed the "Beneficial Owner" of and shall be deemed to "beneficially own" any securities:

(i) which such Person or any of such Person's Affiliates or Associates beneficially owns, directly or indirectly;

(ii) which such Person or any of such Person's Affiliates or Associates has (A) the right to acquire (whether such right is exercisable immediately or only after the passage of time) pursuant to any agreement, arrangement or understanding (other than customary agreements with and between underwriters and selling group members with respect to a bona fide public offering of securities), or upon the exercise of conversion rights, exchange rights, rights (other than these Rights), warrants or options, or otherwise; PROVIDED, HOWEVER, that a Person shall not be deemed the Beneficial Owner of, or to beneficially own, securities tendered pursuant to a tender or exchange offer made by or on behalf of such Person or any of such Person's Affiliates or Associates until such tendered securities are accepted for purchase or exchange; or (B) the right to vote pursuant to any agreement, arrangement or understanding; PROVIDED, HOWEVER, that a Person shall not be deemed the Beneficial Owner of, or to beneficially own, any security if the agreement, arrangement or understanding to vote such security (1) arises solely from a revocable proxy or consent given to such Person in response to a public proxy or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations promulgated under the Exchange Act and (2) is not also then reportable on Schedule 13D under the Exchange Act (or any comparable or successor report); or

(iii) which are beneficially owned, directly or indirectly, by any other Person with which such Person or any of such Person's Affiliates or Associates has any agreement, arrangement or understanding (other than customary agreements with and between underwriters and selling group members with respect to a bona fide public offering of securities) for the purpose of acquiring, holding, voting (except to the extent contemplated by the proviso to Section 1 (c) (ii) (B)) or disposing of any securities of the Company.

Notwithstanding anything in this definition of Beneficial Ownership to the contrary, the phrase "then outstanding," when used with reference to a Person's Beneficial Ownership of securities of the Company, shall mean the number of such securities then issued and outstanding together with the number of such securities not then actually issued and outstanding which such Person would be deemed to own beneficially hereunder.

(d) "Business Day" shall mean any day other than a Saturday, a Sunday, or a day on which banking institutions in Delaware are authorized or obligated by law or executive order to close.

(e) "Close of business" on any given date shall mean 5:00 P.M. Beverly, Massachusetts time, on such date; PROVIDED, HOWEVER, that if such date is not a Business Day it shall mean 5:00 P.M. Beverly, Massachusetts time, on the next succeeding Business Day.

(f) "Common Shares" when used with reference to the Company shall mean the shares of common stock, par value \$0.001 per share, of the Company. "Common Shares" when used with reference to any Person other than the Company shall mean the capital stock (or equity interest) with the greatest voting power of such other Person or, if such other Person is a

Subsidiary of another Person, the Person or Persons which ultimately control such first-mentioned Person.

(g) "Distribution Date" shall have the meaning set forth in Section 3 hereof.

(h) "Final Expiration Date" shall have the meaning set forth in Section 7 hereof.

(i) "Person" shall mean any individual, firm, corporation or other entity, and shall include any successor (by merger or otherwise) of such entity.

(j) "Preferred Shares" shall mean shares of Series A Participating Preferred Stock, par value \$0.001 per share, of the Company having the rights and preferences set forth in the Form of Certificate of Designations attached to this Agreement as Exhibit A.

(k) "Redemption Date" shall have the meaning set forth in Section 7 hereof.

(l) "Shares Acquisition Date" shall mean the first date of public announcement by the Company or an Acquiring Person that an Acquiring Person has become such.

(m) "Subsidiary" of any Person shall mean any corporation or other entity of which a majority of the voting power of the voting equity securities or equity interest is owned, directly or indirectly, by such Person.

Section 2. APPOINTMENT OF RIGHTS AGENT. The Company hereby appoints the Rights Agent to act as agent for the Company and the holders of the Rights (who, in accordance with Section 3 hereof, shall prior to the Distribution Date also be the holders of the Common

Shares) in accordance with the terms and conditions hereof, and the Rights Agent hereby accepts such appointment. The Company may from time to time appoint such co-Rights Agents as it may deem necessary or desirable.

Section 3. ISSUE OF RIGHT CERTIFICATES. (a) Until the earlier of (i) the tenth day after the Shares Acquisition Date or (ii) the tenth business day (or such later date as may be determined by action of the Board of Directors prior to such time as any Person becomes an Acquiring Person) after the date of the commencement by any Person (other than the Company, any Subsidiary of the Company, Eaton Corporation (only until the Eaton Separation Date), any employee benefit plan of the Company or of any Subsidiary of the Company or any entity holding Common Shares for or pursuant to the terms of any such plan) of, or of the first public announcement of the intention of any Person (other than the Company, any Subsidiary of the Company, Eaton Corporation (only until the Eaton Separation Date), any employee benefit plan of the Company or of any Subsidiary of the Company or any entity holding Common Shares for or pursuant to the terms of any such plan) to commence, a tender or exchange offer the consummation of which would result in any Person becoming the Beneficial Owner of Common Shares aggregating 20% or more of the then outstanding Common Shares (including any such date which is after the date of this Agreement and prior to the issuance of the Rights; the earlier of such dates being herein referred to as the "Distribution Date"), (x) the Rights will be evidenced (subject to the provisions of Section 3(b) hereof) by the certificates for Common Shares registered in the names of the holders thereof (which certificates shall also be deemed to be Right Certificates) and not by separate Right Certificates, and (y) the right to receive Right Certificates will be transferable only in connection with the transfer of Common Shares. As soon as practicable after the Distribution Date, the Company will prepare and execute, the Rights

Agent will countersign, and the Company will send or cause to be sent (and the Rights Agent will, if requested, send) by first-class, insured, postage-prepaid mail, to each record holder of Common Shares as of the close of business on the Distribution Date, at the address of such holder shown on the records of the Company, a Right Certificate, in substantially the form of Exhibit B hereto (a "Right Certificate"), evidencing one Right for each Common Share so held. As of the Distribution Date, the Rights will be evidenced solely by such Right Certificates.

The Company shall notify the Rights Agent in writing immediately upon the occurrence of the Distribution Date and, if such notification is given orally, the Company shall confirm same in writing on or prior to the Business Day next following. Until such notice is received by the Rights Agent, the Rights Agent may presume conclusively for all purposes that the Distribution Date has not occurred.

(b) On the Record Date, or as soon as practicable thereafter, the Company will send a copy of a Summary of Rights to Purchase Preferred Shares, in substantially the form of Exhibit C hereto (the "Summary of Rights"), by first-class, postage-prepaid mail, to each record holder of Common Shares as of the close of business on the Record Date, at the address of such holder shown on the records of the Company. With respect to certificates for Common Shares outstanding as of the Record Date, until the Distribution Date, the Rights will be evidenced by such certificates registered in the names of the holders thereof together with a copy of the Summary of Rights attached thereto. Until the Distribution Date (or the earlier of the Redemption Date or the Final Expiration Date), the surrender for transfer of any certificate for Common Shares outstanding on the Record Date, with or without a copy of the Summary of Rights attached thereto, shall also constitute the transfer of the Rights associated with the Common Shares represented thereby.

(c) Certificates for Common Shares which become outstanding (including, without limitation, reacquired Common Shares referred to in the last sentence of this paragraph (c)) after the Record Date but prior to the earliest of the Distribution Date, the Redemption Date or the Final Expiration Date shall have impressed on, printed on, written on or otherwise affixed to them the following legend:

This certificate also evidences and entitles the holder hereof to certain rights as set forth in a Rights Agreement between Axcelis Technologies, Inc. and Equiserve Trust Company N.A., dated as of \_\_\_\_\_, 2000 (the "Rights Agreement"), the terms of which are hereby incorporated herein by reference and a copy of which is on file at the principal executive offices of Axcelis Technologies, Inc. Under certain circumstances, as set forth in the Rights Agreement, such Rights will be evidenced by separate certificates and will no longer be evidenced by this certificate. Axcelis Technologies, Inc. will mail to the holder of this certificate a copy of the Rights Agreement without charge after receipt of a written request therefor. Under certain circumstances, as set forth in the Rights Agreement, Rights issued to any Person who becomes an Acquiring Person (as defined in the Rights Agreement) may become null and void.

With respect to such certificates containing the foregoing legend, until the Distribution Date, the Rights associated with the Common Shares represented by such certificates shall be evidenced by such certificates alone, and the surrender for transfer of any such certificate shall also constitute the transfer of the Rights associated with the Common Shares represented thereby. In the event that the Company purchases or acquires any Common Shares after the Record Date but prior to the Distribution Date, any Rights associated with such Common Shares shall be deemed cancelled and retired so that the Company shall not be entitled to exercise any Rights associated with the Common Shares which are no longer outstanding.

Section 4. FORM OF RIGHT CERTIFICATES. The Right Certificates (and the forms of election to purchase Preferred Shares and of assignment to be printed on the reverse thereof) shall be substantially the same as Exhibit B hereto and may have such marks of identification or

designation and such legends, summaries or endorsements printed thereon as the Company may deem appropriate and as are not inconsistent with the provisions of this Agreement, or as may be required to comply with any applicable law or with any rule or regulation made pursuant thereto or with any rule or regulation of any stock exchange on which the Rights may from time to time be listed, or to conform to usage. Subject to the provisions of Section 22 hereof, the Right Certificates shall entitle the holders thereof to purchase such number of one one-hundredths of a Preferred Share as shall be set forth therein at the price per one one-hundredth of a Preferred Share set forth therein (the "Purchase Price"), but the number of such one one-hundredths of a Preferred Share and the Purchase Price shall be subject to adjustment as provided herein.

Section 5. COUNTERSIGNATURE AND REGISTRATION. The Right Certificates shall be executed on behalf of the Company by its Chairman of the Board, its Chief Executive Officer, its President, any of its Vice Presidents, or its Treasurer, either manually or by facsimile signature, shall have affixed thereto the Company's seal or a facsimile thereof, and shall be attested by the Secretary or an Assistant Secretary of the Company, either manually or by facsimile signature. The Right Certificates shall be manually countersigned by the Rights Agent and shall not be valid for any purpose unless countersigned. In case any officer of the Company who shall have signed any of the Right Certificates shall cease to be such officer of the Company before countersignature by the Rights Agent and issuance and delivery by the Company, such Right Certificates, nevertheless, may be countersigned by the Rights Agent and issued and delivered by the Company with the same force and effect as though the person who signed such Right Certificates had not ceased to be such officer of the Company; and any Right Certificate may be signed on behalf of the Company by any person who, at the actual date of the execution of such Right Certificate, shall be a proper officer of the Company to sign such Right Certificate,

although at the date of the execution of this Rights Agreement any such person was not such an officer.

Following the Distribution Date, the Rights Agent will keep or cause to be kept, at its principal office, books for registration and transfer of the Right Certificates issued hereunder. Such books shall show the names and addresses of the respective holders of the Right Certificates, the number of Rights evidenced on its face by each of the Right Certificates and the date of each of the Right Certificates.

Section 6. TRANSFER, SPLIT UP, COMBINATION AND EXCHANGE OF RIGHT CERTIFICATES; MUTILATED, DESTROYED, LOST OR STOLEN RIGHT CERTIFICATES. Subject to the provisions of Section 14 hereof, at any time after the close of business on the Distribution Date, and at or prior to the close of business on the earlier of the Redemption Date or the Final Expiration Date, any Right Certificate or Right Certificates (other than Right Certificates representing Rights that have become void pursuant to Section 11(a)(ii) hereof or that have been exchanged pursuant to Section 24 hereof) may be transferred, split up, combined or exchanged for another Right Certificate or Right Certificates, entitling the registered holder to purchase a like number of one one-hundredths of a Preferred Share as the Right Certificate or Right Certificates surrendered then entitled such holder to purchase. Any registered holder desiring to transfer, split up, combine or exchange any Right Certificate or Right Certificates shall make such request in writing delivered to the Rights Agent, and shall surrender the Right Certificate or Right Certificates to be transferred, split up, combined or exchanged at the principal office of the Rights Agent. Thereupon the Rights Agent shall countersign and deliver to the person entitled thereto a Right Certificate or Right Certificates, as the case may be, as so requested. The Company may require payment of a sum sufficient to cover any tax or governmental charge that

may be imposed in connection with any transfer, split up, combination or exchange of Right Certificates.

Upon receipt by the Company and the Rights Agent of evidence reasonably satisfactory to them of the loss, theft, destruction or mutilation of a Right Certificate, and, in case of loss, theft or destruction, of indemnity or security reasonably satisfactory to them, and, at the Company's request, reimbursement to the Company and the Rights Agent of all reasonable expenses incidental thereto, and upon surrender to the Rights Agent and cancellation of the Right Certificate if mutilated, the Company will make and deliver a new Right Certificate of like tenor to the Rights Agent for delivery to the registered holder in lieu of the Right Certificate so lost, stolen, destroyed or mutilated.

Section 7. EXERCISE OF RIGHTS; PURCHASE PRICE; EXPIRATION DATE OF RIGHTS. (a) The registered holder of any Right Certificate may exercise the Rights evidenced thereby (except as otherwise provided herein) in whole or in part at any time after the Distribution Date upon surrender of the Right Certificate, with the form of election to purchase on the reverse side thereof duly executed, to the Rights Agent at the principal office of the Rights Agent, together with payment of the Purchase Price for each one one-hundredth of a Preferred Share as to which the Rights are exercised, at or prior to the earliest of (i) the close of business on June \_\_\_\_\_, 2010 (the "Final Expiration Date"), (ii) the time at which the Rights are redeemed as provided in Section 23 hereof (the "Redemption Date"), or (iii) the time at which such Rights are exchanged as provided in Section 24 hereof.

(b) The Purchase Price for each one one-hundredth of a Preferred Share purchasable pursuant to the exercise of a Right shall initially be \$\_\_\_\_, and shall be subject to

adjustment from time to time as provided in Section 11 or 13 hereof and shall be payable in lawful money of the United States of America in accordance with paragraph (c) below.

(c) Upon receipt of a Right Certificate representing exercisable Rights, with the form of election to purchase duly executed, accompanied by payment of the Purchase Price for the shares to be purchased and an amount equal to any applicable transfer tax required to be paid by the holder of such Right Certificate in accordance with Section 9 hereof by certified check, cashier's check, money order or wire transfer payable to the order of the Company, the Rights Agent shall thereupon promptly (i) (A) requisition from any transfer agent of the Preferred Shares certificates for the number of Preferred Shares to be purchased and the Company hereby irrevocably authorizes its transfer agent to comply with all such requests, or (B) requisition from the depositary agent depositary receipts representing such number of one one-hundredths of a Preferred Share as are to be purchased (in which case certificates for the Preferred Shares represented by such receipts shall be deposited by the transfer agent with the depositary agent) and the Company hereby directs the depositary agent to comply with such request, (ii) when appropriate, requisition from the Company the amount of cash to be paid in lieu of issuance of fractional shares in accordance with Section 14 hereof, (iii) after receipt of such certificates or depositary receipts, cause the same to be delivered to or upon the order of the registered holder of such Right Certificate, registered in such name or names as may be designated by such holder and (iv) when appropriate, after receipt, deliver such cash to or upon the order of the registered holder of such Right Certificate.

(d) In case the registered holder of any Right Certificate shall exercise less than all the Rights evidenced thereby, a new Right Certificate evidencing Rights equivalent to the Rights remaining unexercised shall be issued by the Rights Agent to the registered holder of

such Right Certificate or to his duly authorized assigns, subject to the provisions of Section 14 hereof.

Section 8. CANCELLATION AND DESTRUCTION OF RIGHT CERTIFICATES.

All Right Certificates surrendered for the purpose of exercise, transfer, split up, combination or exchange shall, if surrendered to the Company or to any of its agents, be delivered to the Rights Agent for cancellation or in cancelled form, or, if surrendered to the Rights Agent, shall be cancelled by it, and no Right Certificates shall be issued in lieu thereof except as expressly permitted by any of the provisions of this Rights Agreement. The Company shall deliver to the Rights Agent for cancellation and retirement, and the Rights Agent shall so cancel and retire, any other Right Certificate purchased or acquired by the Company otherwise than upon the exercise thereof. The Rights Agent shall deliver all cancelled Right Certificates to the Company, or shall, at the written request of the Company, destroy such cancelled Right Certificates, and in such case shall deliver a certificate of destruction thereof to the Company.

Section 9. AVAILABILITY OF PREFERRED SHARES. The Company covenants and agrees that it will cause to be reserved and kept available out of its authorized and unissued Preferred Shares or any Preferred Shares held in its treasury, the number of Preferred Shares that will be sufficient to permit the exercise in full of all outstanding Rights in accordance with Section 7. The Company covenants and agrees that it will take all such action as may be necessary to ensure that all Preferred Shares delivered upon exercise of Rights shall, at the time of delivery of the certificates for such Preferred Shares (subject to payment of the Purchase Price), be duly and validly authorized and issued and fully paid and nonassessable shares.

The Company further covenants and agrees that it will pay when due and payable any and all federal and state transfer taxes and charges which may be payable in respect of the issuance or delivery of the Right Certificates or of any Preferred Shares upon the exercise of Rights. The Company shall not, however, be required to pay any transfer tax which may be payable in respect of any transfer or delivery of Right Certificates to a person other than, or the issuance or delivery of certificates or depositary receipts for the Preferred Shares in a name other than that of, the registered holder of the Right Certificate evidencing Rights surrendered for exercise or to issue or to deliver any certificates or depositary receipts for Preferred Shares upon the exercise of any Rights until any such tax shall have been paid (any such tax being payable by the holder of such Right Certificate at the time of surrender) or until it has been established to the Company's reasonable satisfaction that no such tax is due.

Section 10. PREFERRED SHARES RECORD DATE. Each person in whose name any certificate for Preferred Shares is issued upon the exercise of Rights shall for all purposes be deemed to have become the holder of record of the Preferred Shares represented thereby on, and such certificate shall be dated, the date upon which the Right Certificate evidencing such Rights was duly surrendered and payment of the Purchase Price (and any applicable transfer taxes) was made; PROVIDED, HOWEVER, that if the date of such surrender and payment is a date upon which the Preferred Shares transfer books of the Company are closed, such person shall be deemed to have become the record holder of such shares on, and such certificate shall be dated, the next succeeding Business Day on which the Preferred Shares transfer books of the Company are open. Prior to the exercise of the Rights evidenced thereby, the holder of a Right Certificate shall not be entitled to any rights of a holder of Preferred Shares for which the Rights shall be exercisable, including, without limitation, the right to vote, to receive dividends or other

distributions or to exercise any preemptive rights, and shall not be entitled to receive any notice of any proceedings of the Company, except as provided herein.

Section 11. ADJUSTMENT OF PURCHASE PRICE, NUMBER OF SHARES OR NUMBER OF RIGHTS. The Purchase Price, the number of Preferred Shares covered by each Right and the number of Rights outstanding are subject to adjustment from time to time as provided in this Section 11.

(a)(i) In the event the Company shall at any time after the date of this Agreement (A) declare a dividend on the Preferred Shares payable in Preferred Shares, (B) subdivide the outstanding Preferred Shares, (C) combine the outstanding Preferred Shares into a smaller number of Preferred Shares or (D) issue any shares of its capital stock in a reclassification of the Preferred Shares (including any such reclassification in connection with a consolidation or merger in which the Company is the continuing or surviving corporation), except as otherwise provided in this Section 11(a), the Purchase Price in effect at the time of the record date for such dividend or of the effective date of such subdivision, combination or reclassification, and the number and kind of shares of capital stock issuable on such date, shall be proportionately adjusted so that the holder of any Right exercised after such time shall be entitled to receive the aggregate number and kind of shares of capital stock which, if such Right had been exercised immediately prior to such date and at a time when the Preferred Shares transfer books of the Company were open, he would have owned upon such exercise and been entitled to receive by virtue of such dividend, subdivision, combination or reclassification; PROVIDED, HOWEVER, that in no event shall the consideration to be paid upon the exercise of one Right be less than the aggregate par value of the shares of capital stock of the Company issuable upon exercise of one Right.

(ii) Subject to Section 24 of this Agreement, in the event any Person becomes an Acquiring Person, each holder of a Right shall thereafter have a right to receive, upon exercise thereof at a price equal to the then current Purchase Price multiplied by the number of one one-hundredths of a Preferred Share for which a Right is then exercisable, in accordance with the terms of this Agreement and in lieu of Preferred Shares, such number of Common Shares of the Company as shall equal the result obtained by (x) multiplying the then current Purchase Price by the number of one one-hundredths of a Preferred Share for which a Right is then exercisable and dividing that product by (y) 50% of the then current per share market price of the Company's Common Shares (determined pursuant to Section 11(d) hereof) on the date of the occurrence of such event. In the event that any Person shall become an Acquiring Person and the Rights shall then be outstanding, the Company shall not take any action which would eliminate or diminish the benefits intended to be afforded by the Rights.

From and after the occurrence of such event, any Rights that are or were acquired or beneficially owned by any Acquiring Person (or any Associate or Affiliate of such Acquiring Person) shall be void and any holder of such Rights shall thereafter have no right to exercise such Rights under any provision of this Agreement. No Right Certificate shall be issued pursuant to Section 3 that represents Rights beneficially owned by an Acquiring Person whose Rights would be void pursuant to the preceding sentence or any Associate or Affiliate thereof; no Right Certificate shall be issued at any time upon the transfer of any Rights to an Acquiring Person whose Rights would be void pursuant to the preceding sentence or any Associate or Affiliate thereof or to any nominee of such Acquiring Person, Associate or Affiliate; and any Right Certificate delivered to the Rights Agent for transfer to an Acquiring Person whose Rights would be void pursuant to the preceding sentence shall be cancelled.

(iii) In the event that there shall not be sufficient issued but not outstanding Common Shares, or in the event that there shall not sufficient authorized but unissued Common Shares, to permit the exercise in full of the Rights in accordance with the foregoing subparagraph (ii), the Company shall take all such action as may be necessary to authorize additional Common Shares for issuance upon exercise of the Rights. In the event the Company shall, after good faith effort, be unable to take all such action as may be necessary to authorize such additional Common Shares, the Company shall substitute, for each Common Share that would otherwise be issuable upon exercise of a Right, a number of Preferred Shares or fraction thereof such that the current per share market price of one Preferred Share multiplied by such number or fraction is equal to the current per share market price of one Common Share as of the date of issuance of such Preferred Shares or fraction thereof.

(b) In case the Company shall fix a record date for the issuance of rights, options or warrants to all holders of Preferred Shares entitling them (for a period expiring within 45 calendar days after such record date) to subscribe for or purchase Preferred Shares (or shares having the same rights, privileges and preferences as the Preferred Shares ("equivalent preferred shares")) or securities convertible into Preferred Shares or equivalent preferred shares at a price per Preferred Share or equivalent preferred share (or having a conversion price per share, if a security convertible into Preferred Shares or equivalent preferred shares) less than the then current per share market price of the Preferred Shares (as defined in Section 11(d)) on such record date, the Purchase Price to be in effect after such record date shall be determined by multiplying the Purchase Price in effect immediately prior to such record date by a fraction, the numerator of which shall be the number of Preferred Shares outstanding on such record date plus the number of Preferred Shares which the aggregate offering price of the total number of

Preferred Shares and/or equivalent preferred shares so to be offered (and/or the aggregate initial conversion price of the convertible securities so to be offered) would purchase at such current market price and the denominator of which shall be the number of Preferred Shares outstanding on such record date plus the number of additional Preferred Shares and/or equivalent preferred shares to be offered for subscription or purchase (or into which the convertible securities so to be offered are initially convertible); PROVIDED, HOWEVER, that in no event shall the consideration to be paid upon the exercise of one Right be less than the aggregate par value of the shares of capital stock of the Company issuable upon exercise of one Right. In case such subscription price may be paid in a consideration part or all of which shall be in a form other than cash, the value of such consideration shall be as determined in good faith by the Board of Directors of the Company, whose determination shall be described in a statement filed with the Rights Agent. Preferred Shares owned by or held for the account of the Company shall not be deemed outstanding for the purpose of any such computation. Such adjustment shall be made successively whenever such a record date is fixed; and in the event that such rights, options or warrants are not so issued, the Purchase Price shall be adjusted to be the Purchase Price which would then be in effect if such record date had not been fixed.

(c) In case the Company shall fix a record date for the making of a distribution to all holders of the Preferred Shares (including any such distribution made in connection with a consolidation or merger in which the Company is the continuing or surviving corporation) of evidences of indebtedness or assets (other than a regular quarterly cash dividend or a dividend payable in Preferred Shares) or subscription rights or warrants (excluding those referred to in Section 11(b) hereof), the Purchase Price to be in effect after such record date shall be determined by multiplying the Purchase Price in effect immediately prior to such record date

by a fraction, the numerator of which shall be the then current per share market price of the Preferred Shares on such record date, less the fair market value (as determined in good faith by the Board of Directors of the Company, whose determination shall be described in a statement filed with the Rights Agent) of the portion of the assets or evidences of indebtedness so to be distributed or of such subscription rights or warrants applicable to one Preferred Share and the denominator of which shall be such current per share market price of the Preferred Shares; PROVIDED, HOWEVER, that in no event shall the consideration to be paid upon the exercise of one Right be less than the aggregate par value of the shares of capital stock of the Company to be issued upon exercise of one Right. Such adjustments shall be made successively whenever such a record date is fixed; and in the event that such distribution is not so made, the Purchase Price shall again be adjusted to be the Purchase Price which would then be in effect if such record date had not been fixed.

(d) (i) For the purpose of any computation hereunder, the "current per share market price" of any security (a "Security" for the purpose of this Section 11(d)(i)) on any date shall be deemed to be the average of the daily closing prices per share of such Security for the 30 consecutive Trading Days (as such term is hereinafter defined) immediately prior to such date; PROVIDED, HOWEVER, that in the event that the current per share market price of the Security is determined during a period following the announcement by the issuer of such Security of (A) a dividend or distribution on such Security payable in shares of such Security or securities convertible into such shares, or (B) any subdivision, combination or reclassification of such Security and prior to the expiration of 30 Trading Days after the ex-dividend date for such dividend or distribution, or the record date for such subdivision, combination or reclassification, then, and in each such case, the current per share market price shall be appropriately adjusted to

reflect the current market price per share equivalent of such Security. The closing price for each day shall be the last quoted price or, if not so quoted, the average of the high bid and low asked prices in the over-the-counter market, as reported by the National Association of Securities Dealers, Inc. Automated Quotations System ("NASDAQ") or such other system then in use, or, the last sale price, regular way, or, in case no such sale takes place on such day, the average of the closing bid and asked prices, regular way, in either case as reported in the principal consolidated transaction reporting system with respect to securities listed or admitted to trading on the New York Stock Exchange or, if the Security is not listed or admitted to trading on the New York Stock Exchange, as reported in the principal consolidated transaction reporting system with respect to securities listed on the principal national securities exchange on which the Security is listed or admitted to trading or, if on any such date the Security is not listed or quoted by any such organization, the average of the closing bid and asked prices as furnished by a professional market maker making a market in the Security selected by the Board of Directors of the Company. The term "Trading Day" shall mean a day on which the principal national securities exchange on which the Security is listed or admitted to trading is open for the transaction of business or, if the Security is not listed or admitted to trading on any national securities exchange, a Business Day.

(ii) For the purpose of any computation hereunder, the "current per share market price" of the Preferred Shares shall be determined in accordance with the method set forth in Section 11(d)(i). If the Preferred Shares are not publicly traded, the "current per share market price" of the Preferred Shares shall be conclusively deemed to be the current per share market price of the Common Shares as determined pursuant to Section 11(d)(i) (appropriately adjusted to reflect any stock split, stock dividend or similar transaction occurring after the date

hereof), multiplied by one hundred. If neither the Common Shares nor the Preferred Shares are publicly held or so listed or traded, "current per share market price" shall mean the fair value per share as determined in good faith by the Board of Directors of the Company, whose determination shall be described in a statement filed with the Rights Agent.

(e) No adjustment in the Purchase Price shall be required unless such adjustment would require an increase or decrease of at least 1% in the Purchase Price; PROVIDED, HOWEVER, that any adjustments which by reason of this Section 11(e) are not required to be made shall be carried forward and taken into account in any subsequent adjustment. All calculations under this Section 11 shall be made to the nearest cent or to the nearest one one-millionth of a Preferred Share or one ten-thousandth of any other share or security as the case may be. Notwithstanding the first sentence of this Section 11(e), any adjustment required by this Section 11 shall be made no later than the earlier of (i) three years from the date of the transaction which requires such adjustment or (ii) the date of the expiration of the right to exercise any Rights.

(f) If as a result of an adjustment made pursuant to Section 11(a) hereof, the holder of any Right thereafter exercised shall become entitled to receive any shares of capital stock of the Company other than Preferred Shares, thereafter the number of such other shares so receivable upon exercise of any Right shall be subject to adjustment from time to time in a manner and on terms as nearly equivalent as practicable to the provisions with respect to the Preferred Shares contained in Section 11(a) through (c), inclusive, and the provisions of Sections 7, 9, 10 and 13 with respect to the Preferred Shares shall apply on like terms to any such other shares.

(g) All Rights originally issued by the Company subsequent to any adjustment made to the Purchase Price hereunder shall evidence the right to purchase, at the adjusted Purchase Price, the number of one one-hundredths of a Preferred Share purchasable from time to time hereunder upon exercise of the Rights, all subject to further adjustment as provided herein.

(h) Unless the Company shall have exercised its election as provided in Section 11(i), upon each adjustment of the Purchase Price as a result of the calculations made in Sections 11(b) and (c), each Right outstanding immediately prior to the making of such adjustment shall thereafter evidence the right to purchase, at the adjusted Purchase Price, that number of one one-hundredths of a Preferred Share (calculated to the nearest one one-millionth of a Preferred Share) obtained by (i) multiplying (x) the number of one one-hundredths of a share covered by a Right immediately prior to this adjustment by (y) the Purchase Price in effect immediately prior to such adjustment of the Purchase Price and (ii) dividing the product so obtained by the Purchase Price in effect immediately after such adjustment of the Purchase Price.

(i) The Company may elect on or after the date of any adjustment of the Purchase Price to adjust the number of Rights, in substitution for any adjustment in the number of one one-hundredths of a Preferred Share purchasable upon the exercise of a Right. Each of the Rights outstanding after such adjustment of the number of Rights shall be exercisable for the number of one one-hundredths of a Preferred Share for which a Right was exercisable immediately prior to such adjustment. Each Right held of record prior to such adjustment of the number of Rights shall become that number of Rights (calculated to the nearest one ten-thousandth) obtained by dividing the Purchase Price in effect immediately prior to adjustment of the Purchase Price by the Purchase Price in effect immediately after adjustment of the Purchase Price. The Company shall make a public announcement of its election to adjust the number of

Rights, indicating the record date for the adjustment, and, if known at the time, the amount of the adjustment to be made. This record date may be the date on which the Purchase Price is adjusted or any day thereafter, but, if the Right Certificates have been issued, shall be at least 10 days later than the date of the public announcement. If Right Certificates have been issued, upon each adjustment of the number of Rights pursuant to this Section 11(i), the Company shall, as promptly as practicable, cause to be distributed to holders of record of Right Certificates on such record date Right Certificates evidencing, subject to Section 14 hereof, the additional Rights to which such holders shall be entitled as a result of such adjustment, or, at the option of the Company, shall cause to be distributed to such holders of record in substitution and replacement for the Right Certificates held by such holders prior to the date of adjustment, and upon surrender thereof, if required by the Company, new Right Certificates evidencing all the Rights to which such holders shall be entitled after such adjustment. Right Certificates so to be distributed shall be issued, executed and countersigned in the manner provided for herein and shall be registered in the names of the holders of record of Right Certificates on the record date specified in the public announcement.

(j) Irrespective of any adjustment or change in the Purchase Price or the number of one one-hundredths of a Preferred Share issuable upon the exercise of the Rights, the Right Certificates theretofore and thereafter issued may continue to express the Purchase Price and the number of one one-hundredths of a Preferred Share which were expressed in the initial Right Certificates issued hereunder.

(k) Before taking any action that would cause an adjustment reducing the Purchase Price below one one-hundredth of the then par value, if any, of the Preferred Shares issuable upon exercise of the Rights, the Company shall take any corporate action which may, in

the opinion of its counsel, be necessary in order that the Company may validly and legally issue fully paid and nonassessable Preferred Shares at such adjusted Purchase Price.

(l) In any case in which this Section 11 shall require that an adjustment in the Purchase Price be made effective as of a record date for a specified event, the Company may elect to defer until the occurrence of such event the issuing to the holder of any Right exercised after such record date of the Preferred Shares and other capital stock or securities of the Company, if any, issuable upon such exercise over and above the Preferred Shares and other capital stock or securities of the Company, if any, issuable upon such exercise on the basis of the Purchase Price in effect prior to such adjustment; PROVIDED, HOWEVER, that the Company shall deliver to such holder a due bill or other appropriate instrument evidencing such holder's right to receive such additional shares upon the occurrence of the event requiring such adjustment.

(m) Anything in this Section 11 to the contrary notwithstanding, the Company shall be entitled to make such reductions in the Purchase Price, in addition to those adjustments expressly required by this Section 11, as and to the extent that it in its sole discretion shall determine to be advisable in order that any consolidation or subdivision of the Preferred Shares, issuance wholly for cash of any Preferred Shares at less than the current market price, issuance wholly for cash of Preferred Shares or securities which by their terms are convertible into or exchangeable for Preferred Shares, dividends on Preferred Shares payable in Preferred Shares or issuance of rights, options or warrants referred to hereinabove in Section 11(b), hereafter made by the Company to holders of its Preferred Shares shall not be taxable to such stockholders.

(n) In the event that at any time after the date of this Agreement and prior to the Distribution Date, the Company shall (i) declare or pay any dividend on the Common Shares

payable in Common Shares or (ii) effect a subdivision, combination or consolidation of the Common Shares (by reclassification or otherwise than by payment of dividends in Common Shares) into a greater or lesser number of Common Shares, then in any such case (A) the number of one one-hundredths of a Preferred Share purchasable after such event upon proper exercise of each Right shall be determined by multiplying the number of one one-hundredths of a Preferred Share so purchasable immediately prior to such event by a fraction, the numerator of which is the number of Common Shares outstanding immediately before such event and the denominator of which is the number of Common Shares outstanding immediately after such event, and (B) each Common Share outstanding immediately after such event shall have issued with respect to it that number of Rights which each Common Share outstanding immediately prior to such event had issued with respect to it. The adjustments provided for in this Section 11(n) shall be made successively whenever such a dividend is declared or paid or such a subdivision, combination or consolidation is effected.

Section 12. CERTIFICATE OF ADJUSTED PURCHASE PRICE OR NUMBER OF SHARES. Whenever an adjustment is made as provided in Section 11 or 13 hereof, the Company shall promptly (a) prepare a certificate setting forth such adjustment, and a brief statement of the facts accounting for such adjustment, (b) file with the Rights Agent and with each transfer agent for the Common Shares or the Preferred Shares a copy of such certificate and (c) mail a brief summary thereof to each holder of a Right Certificate in accordance with Section 25 hereof.

Section 13. CONSOLIDATION, MERGER OR SALE OR TRANSFER OF ASSETS OR EARNING POWER. In the event, directly or indirectly, at any time after a Person has become an Acquiring Person, (a) the Company shall consolidate with, or merge with and into, any other Person, (b) any Person shall consolidate with the Company, or merge with and into the Company and the

Company shall be the continuing or surviving corporation of such merger and, in connection with such merger, all or part of the Common Shares shall be changed into or exchanged for stock or other securities of any other Person (or the Company) or cash or any other property, or (c) the Company shall sell or otherwise transfer (or one or more of its Subsidiaries shall sell or otherwise transfer), in one or more transactions, assets or earning power aggregating 50% or more of the assets or earning power of the Company and its Subsidiaries (taken as a whole) to any other Person other than the Company or one or more of its wholly-owned Subsidiaries, then, and in each such case, proper provision shall be made so that (i) each holder of a Right (except as otherwise provided herein) shall thereafter have the right to receive, upon the exercise thereof at a price equal to the then current Purchase Price multiplied by the number of one one-hundredths of a Preferred Share for which a Right is then exercisable, in accordance with the terms of this Agreement and in lieu of Preferred Shares, such number of Common Shares of such other Person (including the Company as successor thereto or as the surviving corporation) as shall equal the result obtained by (A) multiplying the then current Purchase Price by the number of one one-hundredths of a Preferred Share for which a Right is then exercisable and dividing that product by (B) 50% of the then current per share market price of the Common Shares of such other Person (determined pursuant to Section 11(d) hereof) on the date of consummation of such consolidation, merger, sale or transfer; (ii) the issuer of such Common Shares shall thereafter be liable for, and shall assume, by virtue of such consolidation, merger, sale or transfer, all the obligations and duties of the Company pursuant to this Agreement; (iii) the term "Company" shall thereafter be deemed to refer to such issuer; and (iv) such issuer shall take such steps (including, but not limited to, the reservation of a sufficient number of its Common Shares in accordance with Section 9 hereof) in connection with such consummation as may be necessary to

assure that the provisions hereof shall thereafter be applicable, as nearly as reasonably may be, in relation to the Common Shares thereafter deliverable upon the exercise of the Rights. The Company shall not consummate any such consolidation, merger, sale or transfer unless prior thereto the Company and such issuer shall have executed and delivered to the Rights Agent a supplemental agreement so providing. The Company shall not enter into any transaction of the kind referred to in this Section 13 if at the time of such transaction there are any rights, warrants, instruments or securities outstanding or any agreements or arrangements which, as a result of the consummation of such transaction, would eliminate or substantially diminish the benefits intended to be afforded by the Rights. The provisions of this Section 13 shall similarly apply to successive mergers or consolidations or sales or other transfers.

Section 14. FRACTIONAL RIGHTS AND FRACTIONAL SHARES. (a) The Company shall not be required to issue fractions of Rights or to distribute Right Certificates which evidence fractional Rights. In lieu of such fractional Rights, there shall be paid to the registered holders of the Right Certificates with regard to which such fractional Rights would otherwise be issuable, an amount in cash equal to the same fraction of the current market value of a whole Right. For the purposes of this Section 14(a), the current market value of a whole Right shall be the closing price of the Rights for the Trading Day immediately prior to the date on which such fractional Rights would have been otherwise issuable. The closing price for any day shall be the last quoted price or, if not so quoted, the average of the high bid and low asked prices in the over-the-counter market, as reported by NASDAQ or such other system then in use or, the last sale price, regular way, or, in case no such sale takes place on such day, the average of the closing bid and asked prices, regular way, in either case as reported in the principal consolidated transaction reporting system with respect to securities listed or admitted to trading on the New York Stock

Exchange or, if the Rights are not listed or admitted to trading on the New York Stock Exchange, as reported in the principal consolidated transaction reporting system with respect to securities listed on the principal national securities exchange on which the Rights are listed or admitted to trading or, if on any such date the Rights are not listed or quoted by any such organization, the average of the closing bid and asked prices as furnished by a professional market maker making a market in the Rights selected by the Board of Directors of the Company. If on any such date no such market maker is making a market in the Rights, the fair value of the Rights on such date as determined in good faith by the Board of Directors of the Company shall be used.

(b) The Company shall not be required to issue fractions of Preferred Shares (other than fractions which are integral multiples of one one-hundredth of a Preferred Share) upon exercise of the Rights or to distribute certificates which evidence fractional Preferred Shares (other than fractions which are integral multiples of one one-hundredth of a Preferred Share). Fractions of Preferred Shares in integral multiples of one one-hundredth of a Preferred Share may, at the election of the Company, be evidenced by depositary receipts, pursuant to an appropriate agreement between the Company and a depositary selected by it; PROVIDED, that such agreement shall provide that the holders of such depositary receipts shall have all the rights, privileges and preferences to which they are entitled as beneficial owners of the Preferred Shares represented by such depositary receipts. In lieu of fractional Preferred Shares that are not integral multiples of one one-hundredth of a Preferred Share, the Company shall pay to the registered holders of Right Certificates at the time such Rights are exercised as herein provided an amount in cash equal to the same fraction of the current market value of one Preferred Share. For the purposes of this Section 14(b), the current market value of a Preferred Share shall be the

closing price of a Preferred Share (as determined pursuant to the second sentence of Section 11(d)(i) hereof) for the Trading Day immediately prior to the date of such exercise.

(c) The holder of a Right by the acceptance of the Right expressly waives his right to receive any fractional Rights or any fractional shares upon exercise of a Right (except as provided above).

Section 15. RIGHTS OF ACTION. All rights of action in respect of this Agreement, excepting the rights of action given to the Rights Agent under Section 18 hereof, are vested in the respective registered holders of the Right Certificates (and, prior to the Distribution Date, the registered holders of the Common Shares); and any registered holder of any Right Certificate (or, prior to the Distribution Date, of the Common Shares), without the consent of the Rights Agent or of the holder of any other Right Certificate (or, prior to the Distribution Date, of the Common Shares), may, in his own behalf and for his own benefit, enforce, and may institute and maintain any suit, action or proceeding against the Company to enforce, or otherwise act in respect of, his right to exercise the Rights evidenced by such Right Certificate in the manner provided in such Right Certificate and in this Agreement. Without limiting the foregoing or any remedies available to the holders of Rights, it is specifically acknowledged that the holders of Rights would not have an adequate remedy at law for any breach of this Agreement and will be entitled to specific performance of the obligations under, and injunctive relief against actual or threatened violations of the obligations of any Person subject to, this Agreement.

Section 16. AGREEMENT OF RIGHT HOLDERS. Every holder of a Right, by accepting the same, consents and agrees with the Company and the Rights Agent and with every other holder of a Right that:

(a) prior to the Distribution Date, the Rights will be transferable only in connection with the transfer of the Common Shares;

(b) after the Distribution Date, the Right Certificates are transferable only on the registry books of the Rights Agent if surrendered at the principal office of the Rights Agent, duly endorsed or accompanied by a proper instrument of transfer; and

(c) the Company and the Rights Agent may deem and treat the person in whose name the Right Certificate (or, prior to the Distribution Date, the associated Common Shares certificate) is registered as the absolute owner thereof and of the Rights evidenced thereby (notwithstanding any notations of ownership or writing on the Right Certificates or the associated Common Shares certificate made by anyone other than the Company or the Rights Agent) for all purposes whatsoever, and neither the Company nor the Rights Agent shall be affected by any notice to the contrary.

Section 17. RIGHT CERTIFICATE HOLDER NOT DEEMED A STOCKHOLDER. No holder, as such, of any Right Certificate shall be entitled to vote, receive dividends or be deemed for any purpose the holder of the Preferred Shares or any other securities of the Company which may at any time be issuable on the exercise of the Rights represented thereby, nor shall anything contained herein or in any Right Certificate be construed to confer upon the holder of any Right Certificate, as such, any of the rights of a stockholder of the Company or any right to vote for the election of directors or upon any matter submitted to stockholders at any meeting thereof, or to give or withhold consent to any corporate action, or to receive notice of meetings or other actions affecting stockholders (except as provided in Section 25 hereof), or to receive dividends or

subscription rights, or otherwise, until the Right or Rights evidenced by such Right Certificate shall have been exercised in accordance with the provisions hereof.

Section 18. CONCERNING THE RIGHTS AGENT. The Company agrees to pay to the Rights Agent reasonable compensation for all services rendered by it hereunder and, from time to time, on demand of the Rights Agent, its reasonable expenses and counsel fees and other disbursements incurred in the administration and execution of this Agreement and the exercise and performance of its duties hereunder. The Company also agrees to indemnify the Rights Agent for, and to hold it harmless against, any loss, liability, or expense (including, without limitation, the reasonable expenses of legal counsel), incurred without negligence, bad faith or willful misconduct on the part of the Rights Agent, for anything done or omitted by the Rights Agent in connection with the acceptance and administration of its duties under this Agreement.

The Rights Agent shall be protected and shall incur no liability for, or in respect of any action taken, suffered or omitted by it in connection with, its administration of this Agreement, in reliance upon any Right Certificate or certificate for the Preferred Shares or Common Shares or for other securities of the Company, instrument of assignment or transfer, power of attorney, endorsement, affidavit, letter, notice, direction, consent, certificate, statement, or other paper or document believed by it to be genuine and to be signed, executed and, where necessary, verified or acknowledged, by the proper person or persons, or otherwise upon the advice of counsel as set forth in Section 20 hereof.

Section 19. MERGER OR CONSOLIDATION OR CHANGE OF NAME OF RIGHTS AGENT. Any corporation into which the Rights Agent or any successor Rights Agent may be merged or with which it may be consolidated, or any corporation resulting from any merger or consolidation to

which the Rights Agent or any successor Rights Agent shall be a party, or any corporation succeeding to the stock transfer business of the Rights Agent or any successor Rights Agent, shall be the successor to the Rights Agent under this Agreement without the execution or filing of any paper or any further act on the part of any of the parties hereto; PROVIDED, that such corporation would be eligible for appointment as a successor Rights Agent under the provisions of Section 21 hereof. In case at the time such successor Rights Agent shall succeed to the agency created by this Agreement, any of the Right Certificates shall have been countersigned but not delivered, any such successor Rights Agent may adopt the countersignature of the predecessor Rights Agent and deliver such Right Certificates so countersigned; and in case at that time any of the Right Certificates shall not have been countersigned, any successor Rights Agent may countersign such Right Certificates either in the name of the predecessor Rights Agent or in the name of the successor Rights Agent; and in all such cases such Right Certificates shall have the full force provided in the Right Certificates and in this Agreement.

In case at any time the name of the Rights Agent shall be changed and at such time any of the Right Certificates shall have been countersigned but not delivered, the Rights Agent may adopt the countersignature under its prior name and deliver Right Certificates so countersigned; and in case at that time any of the Right Certificates shall not have been countersigned, the Rights Agent may countersign such Right Certificates either in its prior name or in its changed name; and in all such cases such Right Certificates shall have the full force provided in the Right Certificates and in this Agreement.

Section 20. RIGHTS AND DUTIES OF RIGHTS AGENT. The Rights Agent undertakes the duties and obligations imposed by this Agreement upon the following terms and conditions, by

all of which the Company and the holders of Right Certificates, by their acceptance thereof, shall be bound:

(a) The Rights Agent may consult with legal counsel (who may be legal counsel for the Company), and the opinion of such counsel shall be full and complete authorization and protection to the Rights Agent as to any action taken or omitted by it in good faith and in accordance with such opinion.

(b) Whenever in the performance of its duties under this Agreement the Rights Agent shall deem it necessary or desirable that any fact or matter be proved or established by the Company prior to taking or suffering any action hereunder, such fact or matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a certificate signed by any one of the Chairman of the Board, the Chief Executive Officer, the President, any Vice President, the Treasurer or the Secretary of the Company and delivered to the Rights Agent; and such certificate shall be full authorization to the Rights Agent for any action taken or suffered in good faith by it under the provisions of this Agreement in reliance upon such certificate.

(c) The Rights Agent shall be liable hereunder to the Company and any other Person only for its own negligence, bad faith or willful misconduct.

(d) The Rights Agent shall not be liable for or by reason of any of the statements of fact or recitals contained in this Agreement or in the Right Certificates (except its countersignature thereof) or be required to verify the same, but all such statements and recitals are and shall be deemed to have been made by the Company only.

(e) The Rights Agent shall not be under any responsibility in respect of the validity of this Agreement or the execution and delivery hereof (except the due execution hereof by the Rights Agent) or in respect of the validity or execution of any Right Certificate (except its countersignature thereof); nor shall it be responsible for any breach by the Company of any covenant or condition contained in this Agreement or in any Right Certificate; nor shall it be responsible for any change in the exercisability of the Rights (including the Rights becoming void pursuant to Section 11(a)(ii) hereof) or any adjustment in the terms of the Rights (including the manner, method or amount thereof) provided for in Section 3, 11, 13, 23 or 24, or the ascertaining of the existence of facts that would require any such change or adjustment (except with respect to the exercise of Rights evidenced by Right Certificates after actual notice that such change or adjustment is required); nor shall it by any act hereunder be deemed to make any representation or warranty as to the authorization or reservation of any Preferred Shares to be issued pursuant to this Agreement or any Right Certificate or as to whether any Preferred Shares will, when issued, be validly authorized and issued, fully paid and nonassessable.

(f) The Company agrees that it will perform, execute, acknowledge and deliver or cause to be performed, executed, acknowledged and delivered all such further and other acts, instruments and assurances as may reasonably be required by the Rights Agent for the carrying out or performing by the Rights Agent of the provisions of this Agreement.

(g) The Rights Agent is hereby authorized and directed to accept instructions with respect to the performance of its duties hereunder from any one of the Chairman of the Board, the Chief Executive Officer, the President, any Vice President, the Secretary or the Treasurer of the Company, and to apply to such officers for advice or instructions in connection with its duties, and it shall not be liable for any action taken or suffered by it in good faith in

accordance with instructions of any such officer or for any delay in acting while waiting for those instructions.

(h) The Rights Agent and any stockholder, director, officer or employee of the Rights Agent may buy, sell or deal in any of the Rights or other securities of the Company or become pecuniarily interested in any transaction in which the Company may be interested, or contract with or lend money to the Company or otherwise act as fully and freely as though it were not Rights Agent under this Agreement. Nothing herein shall preclude the Rights Agent from acting in any other capacity for the Company or for any other legal entity.

(i) The Rights Agent may execute and exercise any of the rights or powers hereby vested in it or perform any duty hereunder either itself or by or through its attorneys or agents, and the Rights Agent shall not be answerable or accountable for any act, default, neglect or misconduct of any such attorneys or agents or for any loss to the Company resulting from any such act, default, neglect or misconduct, provided reasonable care was exercised in the selection and continued employment thereof.

Section 21. CHANGE OF RIGHTS AGENT. The Rights Agent or any successor Rights Agent may resign and be discharged from its duties under this Agreement upon 30 days' notice in writing mailed to the Company and to each transfer agent of the Common Shares or Preferred Shares by registered or certified mail, and to the holders of the Right Certificates by first-class mail. The Company may remove the Rights Agent or any successor Rights Agent upon 30 days' notice in writing, mailed to the Rights Agent or successor Rights Agent, as the case may be, and to each transfer agent of the Common Shares or Preferred Shares by registered or certified mail, and to the holders of the Right Certificates by first-class mail. If the Rights Agent shall resign or

be removed or shall otherwise become incapable of acting, the Company shall appoint a successor to the Rights Agent. If the Company shall fail to make such appointment within a period of 30 days after giving notice of such removal or after it has been notified in writing of such resignation or incapacity by the resigning or incapacitated Rights Agent or by the holder of a Right Certificate (who shall, with such notice, submit his Right Certificate for inspection by the Company), then the registered holder of any Right Certificate may apply to any court of competent jurisdiction for the appointment of a new Rights Agent. Any successor Rights Agent, whether appointed by the Company or by such a court, shall be a corporation organized and doing business under the laws of the United States or of the States of Delaware or New York (or of any other state of the United States so long as such corporation is authorized to do business as a banking institution in the States of Delaware or New York), in good standing, having an office in the States of Delaware or New York, which is authorized under such laws to exercise corporate trust or stock transfer powers and is subject to supervision or examination by federal or state authority and which has at the time of its appointment as Rights Agent a combined capital and surplus of at least \$50 million. After appointment, the successor Rights Agent shall be vested with the same powers, rights, duties and responsibilities as if it had been originally named as Rights Agent without further act or deed; but the predecessor Rights Agent shall deliver and transfer to the successor Rights Agent any property at the time held by it hereunder, and execute and deliver any further assurance, conveyance, act or deed necessary for the purpose. Not later than the effective date of any such appointment the Company shall file notice thereof in writing with the predecessor Rights Agent and each transfer agent of the Common Shares or Preferred Shares, and mail a notice thereof in writing to the registered holders of the Right Certificates. Failure to give any notice provided for in this Section 21, however, or any defect therein, shall

not affect the legality or validity of the resignation or removal of the Rights Agent or the appointment of the successor Rights Agent, as the case may be.

Section 22. ISSUANCE OF NEW RIGHT CERTIFICATES.

Notwithstanding any of the provisions of this Agreement or of the Rights to the contrary, the Company may, at its option, issue new Right Certificates evidencing Rights in such form as may be approved by its Board of Directors to reflect any adjustment or change in the Purchase Price and the number or kind or class of shares or other securities or property purchasable under the Right Certificates made in accordance with the provisions of this Agreement.

Section 23. REDEMPTION. (a) The Board of Directors of the Company may, at its option, at any time prior to such time as any Person becomes an Acquiring Person, redeem all but not less than all the then outstanding Rights at a redemption price of \$0.001 per Right, appropriately adjusted to reflect any stock split, stock dividend or similar transaction occurring after the date hereof (such redemption price being hereinafter referred to as the "Redemption Price"). The redemption of the Rights by the Board of Directors may be made effective at such time, on such basis and with such conditions as the Board of Directors in its sole discretion may establish.

(b) Immediately upon the action of the Board of Directors of the Company ordering the redemption of the Rights pursuant to paragraph (a) of this Section 23, and without any further action and without any notice, the right to exercise the Rights will terminate and the only right thereafter of the holders of Rights shall be to receive the Redemption Price. The Company shall promptly give public notice of any such redemption; PROVIDED, HOWEVER, that the failure to give, or any defect in, any such notice shall not affect the validity of such redemption.

Within 10 days after such action of the Board of Directors ordering the redemption of the Rights, the Company shall mail a notice of redemption to all the holders of the then outstanding Rights at their last addresses as they appear upon the registry books of the Rights Agent or, prior to the Distribution Date, on the registry books of the transfer agent for the Common Shares. Any notice which is mailed in the manner herein provided shall be deemed given, whether or not the holder receives the notice. Each such notice of redemption will state the method by which the payment of the Redemption Price will be made. Neither the Company nor any of its Affiliates or Associates may redeem, acquire or purchase for value any Rights at any time in any manner other than that specifically set forth in this Section 23 or in Section 24 hereof, and other than in connection with the purchase of Common Shares prior to the Distribution Date.

Section 24. EXCHANGE. (a) The Board of Directors of the Company may, at its option, at any time after any Person becomes an Acquiring Person, exchange all or part of the then outstanding and exercisable Rights (which shall not include Rights that have become void pursuant to the provisions of Section 11(a)(ii) hereof) for Common Shares at an exchange ratio of one Common Share per Right, appropriately adjusted to reflect any stock split, stock dividend or similar transaction occurring after the date hereof (such exchange ratio being hereinafter referred to as the "Exchange Ratio"). Notwithstanding the foregoing, the Board of Directors shall not be empowered to effect such exchange at any time after any Person (other than the Company, any Subsidiary of the Company, Eaton Corporation (only until the Eaton Separation Date), any employee benefit plan of the Company or any such Subsidiary or any entity holding Common Shares for or pursuant to the terms of any such plan), together with all Affiliates and Associates of such Person, becomes the Beneficial Owner of 50% or more of the Common Shares then outstanding.

(b) Immediately upon the action of the Board of Directors of the Company ordering the exchange of any Rights pursuant to paragraph (a) of this Section 24 and without any further action and without any notice, the right to exercise such Rights shall terminate and the only right thereafter of a holder of such Rights shall be to receive that number of Common Shares equal to the number of such Rights held by such holder multiplied by the Exchange Ratio. The Company shall promptly give public notice of any such exchange; PROVIDED, HOWEVER, that the failure to give, or any defect in, such notice shall not affect the validity of such exchange. The Company promptly shall mail a notice of any such exchange to all of the holders of such Rights at their last addresses as they appear upon the registry books of the Rights Agent. Any notice which is mailed in the manner herein provided shall be deemed given, whether or not the holder receives the notice. Each such notice of exchange will state the method by which the exchange of the Common Shares for Rights will be effected and, in the event of any partial exchange, the number of Rights which will be exchanged. Any partial exchange shall be effected pro rata based on the number of Rights (other than Rights which have become void pursuant to the provisions of Section 11(a)(ii) hereof) held by each holder of Rights.

(c) In the event that there shall not be sufficient Common Shares issued but not outstanding or authorized but unissued to permit any exchange of Rights as contemplated in accordance with this Section 24, the Company shall take all such action as may be necessary to authorize additional Common Shares for issuance upon exchange of the Rights. In the event the Company shall, after good faith effort, be unable to take all such action as may be necessary to authorize such additional Common Shares, the Company shall substitute, for each Common Share that would otherwise be issuable upon exchange of a Right, a number of Preferred Shares or fraction thereof such that the current per share market price of one Preferred Share multiplied

by such number or fraction is equal to the current per share market price of one Common Share as of the date of issuance of such Preferred Shares or fraction thereof.

(d) The Company shall not be required to issue fractions of Common Shares or to distribute certificates which evidence fractional Common Shares. In lieu of such fractional Common Shares, the Company shall pay to the registered holders of the Right Certificates with regard to which such fractional Common Shares would otherwise be issuable an amount in cash equal to the same fraction of the current market value of a whole Common Share. For the purposes of this paragraph (d), the current market value of a whole Common Share shall be the closing price of a Common Share (as determined pursuant to the second sentence of Section 11(d)(i) hereof) for the Trading Day immediately prior to the date of exchange pursuant to this Section 24.

Section 25. NOTICE OF CERTAIN EVENTS. (a) In case the Company shall propose (i) to pay any dividend payable in stock of any class to the holders of its Preferred Shares or to make any other distribution to the holders of its Preferred Shares (other than a regular quarterly cash dividend), (ii) to offer to the holders of its Preferred Shares rights or warrants to subscribe for or to purchase any additional Preferred Shares or shares of stock of any class or any other securities, rights or options, (iii) to effect any reclassification of its Preferred Shares (other than a reclassification involving only the subdivision of outstanding Preferred Shares), (iv) to effect any consolidation or merger into or with, or to effect any sale or other transfer (or to permit one or more of its Subsidiaries to effect any sale or other transfer), in one or more transactions, of 50% or more of the assets or earning power of the Company and its Subsidiaries (taken as a whole) to, any other Person, (v) to effect the liquidation, dissolution or winding up of the Company, or (vi) to declare or pay any dividend on the Common Shares payable in Common Shares or to

effect a subdivision, combination or consolidation of the Common Shares (by reclassification or otherwise than by payment of dividends in Common Shares), then, in each such case, the Company shall give to each holder of a Right Certificate, in accordance with Section 26 hereof, a notice of such proposed action, which shall specify the record date for the purposes of such stock dividend, or distribution of rights or warrants, or the date on which such reclassification, consolidation, merger, sale, transfer, liquidation, dissolution, or winding up is to take place and the date of participation therein by the holders of the Common Shares and/or Preferred Shares, if any such date is to be fixed, and such notice shall be so given in the case of any action covered by clause (i) or (ii) above at least 10 days prior to the record date for determining holders of the Preferred Shares for purposes of such action, and in the case of any such other action, at least 10 days prior to the date of the taking of such proposed action or the date of participation therein by the holders of the Common Shares and/or Preferred Shares, whichever shall be the earlier.

(b) In case the event set forth in Section 11(a)(ii) hereof shall occur, then the Company shall as soon as practicable thereafter give to each holder of a Right Certificate, in accordance with Section 26 hereof, a notice of the occurrence of such event, which notice shall describe such event and the consequences of such event to holders of Rights under Section 11(a)(ii) hereof.

Section 26. NOTICES. Notices or demands authorized by this Agreement to be given or made by the Rights Agent or by the holder of any Right Certificate to or on the Company shall be sufficiently given or made if sent by first-class mail, postage prepaid, addressed (until another address is filed in writing with the Rights Agent) as follows:

Subject to the provisions of Section 21 hereof, any notice or demand authorized by this Agreement to be given or made by the Company or by the holder of any Right Certificate to or on the Rights Agent shall be sufficiently given or made if sent by first-class mail, postage prepaid, addressed (until another address is filed in writing with the Company) as follows:

Section 27. SUPPLEMENTS AND AMENDMENTS. The Company may from time to time supplement or amend this Agreement without the approval of any holders of Right Certificates in order to cure any ambiguity, to correct or supplement any provision contained herein which may be defective or inconsistent with any other provisions herein, or to make any other provisions with respect to the Rights which the Company may deem necessary or desirable, any such supplement or amendment to be evidenced by a writing signed by the Company and the Rights Agent; PROVIDED, HOWEVER, that from and after such time as any Person becomes an Acquiring Person, this Agreement shall not be amended in any manner which would adversely affect the interests of the holders of Rights. Without limiting the foregoing, the Board of Directors of the Company may at any time prior to such time as any Person becomes an

Acquiring Person amend this Agreement to lower the thresholds set forth in Sections 1(a) and 3(a) to not less than the greater of (i) the sum of .001% and the largest percentage of the outstanding Common Shares then known by the Company to be beneficially owned by any Person (other than the Company, any Subsidiary of the Company, Eaton Corporation (only until the Eaton Separation Date), any employee benefit plan of the Company or any Subsidiary of the Company or any entity holding Common Shares for or pursuant to the terms of any such plan) and (ii) 10%.

Section 28. SUCCESSORS. All the covenants and provisions of this Agreement by or for the benefit of the Company or the Rights Agent shall bind and inure to the benefit of their respective successors and assigns hereunder.

Section 29. BENEFITS OF THIS AGREEMENT. Nothing in this Agreement shall be construed to give to any person or corporation other than the Company, the Rights Agent and the registered holders of the Right Certificates (and, prior to the Distribution Date, the Common Shares) any legal or equitable right, remedy or claim under this Agreement; but this Agreement shall be for the sole and exclusive benefit of the Company, the Rights Agent and the registered holders of the Right Certificates (and, prior to the Distribution Date, the Common Shares).

Section 30. SEVERABILITY. If any term, provision, covenant or restriction of this Agreement is held by a court of competent jurisdiction or other authority to be invalid, void or unenforceable, the remainder of the terms, provisions, covenants and restrictions of this Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

Section 31. GOVERNING LAW. This Agreement and each Right Certificate issued hereunder shall be deemed to be a contract made under the laws of the State of Delaware, except that Sections 18-21 hereof shall be deemed to be a contract made in accordance with the laws of the State of New York. For all purposes this Agreement and those sections hereof shall be governed by and construed in accordance with the laws of such States applicable to contracts to be made and performed entirely within such States.

Section 32. COUNTERPARTS. This Agreement may be executed in any number of counterparts and each of such counterparts shall for all purposes be deemed to be an original, and all such counterparts shall together constitute but one and the same instrument.

Section 33. DESCRIPTIVE HEADINGS. Descriptive headings of the several Sections of this Agreement are inserted for convenience only and shall not control or affect the meaning or construction of any of the provisions hereof.

SERIES A PARTICIPATING PREFERRED STOCK

AXCELIS TECHNOLOGIES, INC.

(Pursuant to Section 151 of the  
Delaware General Corporation Law)

Axcelis Technologies, Inc., a corporation organized and existing under the General Corporation Law of the State of Delaware (hereinafter called the "Corporation"), hereby certifies that the following resolution was adopted by the Board of Directors of the Corporation as required by Section 151 of the General Corporation Law at a meeting duly called and held on \_\_\_\_\_, 2000.

RESOLVED, that, pursuant to the authority granted to and vested in the Board of Directors of this Corporation (hereinafter called the "Board of Directors" or the "Board") in accordance with the provisions of the Restated Certificate of Incorporation, the Board of Directors hereby creates a series of Preferred Stock, par value \$0.001 per share (the "Preferred Stock"), of the Corporation and hereby states the designation and number of shares and fixes the relative rights, preferences, and limitations thereof as follows:

Section 1. DESIGNATION AND AMOUNT. The shares of such series shall be designated as "Series A Participating Preferred Stock" (the "Series A Preferred Stock") and the number of shares constituting the Series A Preferred Stock shall be \_\_\_\_\_.

Section 2. DIVIDENDS AND DISTRIBUTIONS.

(A) Subject to the rights of the holders of any shares of any class of preferred stock ranking prior and superior to the Series A Preferred Stock with respect to dividends, the holders of shares of Series A Preferred Stock, in preference to the holders of Common Stock, par value \$0.001 per share (the "Common Stock"), of the Corporation, and of any other junior stock, shall be entitled to receive, when, as and if declared by the Board of Directors out of funds legally available for the purpose, quarterly dividends payable in cash on the first day of March, June, September and December in each year (each such date being referred to herein as a "Quarterly Dividend Payment Date"), commencing on the first Quarterly Dividend Payment Date after the first issuance of a share or fraction of a share of Series A Preferred Stock, in an amount per share (rounded to the nearest cent) equal to the greater of (a) \$1.00 or (b) subject to

the provision for adjustment hereinafter set forth, 100 times the aggregate per share amount of all cash dividends, and 100 times the aggregate per share amount (payable in kind) of all non-cash dividends or other distributions, other than a dividend payable in shares of Common Stock or a subdivision of the outstanding shares of Common Stock (by reclassification or otherwise), declared on the Common Stock since the immediately preceding Quarterly Dividend Payment Date or, with respect to the first Quarterly Dividend Payment Date, since the first issuance of any share or fraction of a share of Series A Preferred Stock. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event under clause (b) of the preceding sentence shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(B) The Corporation shall declare a dividend or distribution on the Series A Preferred Stock as provided in paragraph (A) of this Section immediately after it declares a dividend or distribution on the Common Stock (other than a dividend payable in shares of Common Stock); provided that, in the event no dividend or distribution shall have been declared on the Common Stock during the period between any Quarterly Dividend Payment Date and the next subsequent Quarterly Dividend Payment Date, a dividend of \$1.00 per share on the Series A Preferred Stock shall nevertheless be payable on such subsequent Quarterly Dividend Payment Date.

(C) Dividends shall begin to accrue and be cumulative on outstanding shares of Series A Preferred Stock from the Quarterly Dividend Payment Date next preceding the date of issue of such shares, unless the date of issue of such shares is prior to the record date for the first Quarterly Dividend Payment Date, in which case dividends on such shares shall begin to accrue from the date of issue of such shares, or unless the date of issue is a Quarterly Dividend Payment Date or is a date after the record date for the determination of holders of shares of Series A Preferred Stock entitled to receive a quarterly dividend and before such Quarterly Dividend Payment Date, in either of which events such dividends shall begin to accrue and be cumulative from such Quarterly Dividend Payment Date. Accrued but unpaid dividends shall not bear interest. Dividends paid on the shares of Series A Preferred Stock in an amount less than the total amount of such dividends at the time accrued and payable on such shares shall be allocated pro rata on a share-by-share basis among all such shares at the time outstanding. The Board of Directors may fix a record date for the determination of holders of shares of Series A Preferred Stock entitled to receive payment of a dividend or distribution declared thereon, which record date shall be not more than 60 days prior to the date fixed for the payment thereof.

Section 3. VOTING RIGHTS. The holders of shares of Series A Preferred Stock shall have the following voting rights:

(A) Each share of Series A Preferred Stock shall entitle the holder thereof to one vote on all matters submitted to a vote of the stockholders of the Corporation. The holders

of fractional Series A Preferred Stock shall not be entitled to any vote on any matter submitted to a vote of the shareholders of the Corporation.

(B) The holders of Series A Preferred Stock shall be entitled to elect two directors of the Corporation whenever dividends payable on any series of Series A Preferred Stock shall be in default as qualified therein. For purposes of the holders of Series A Preferred Stock exercising such right, the provisions of the Corporation's By-Laws and other provisions of law shall apply, as if the Series A Preferred Stock were the only class of shares of the Corporation outstanding.

(C) Except as otherwise provided herein, in the Restated Certificate of Incorporation, in any other Certificate of Amendment creating a series of Preferred Stock or any similar stock, or by law, the holders of shares of Series A Preferred Stock and the holders of shares of Common Stock and any other capital stock of the Corporation having general voting rights shall vote together as one class on all matters submitted to a vote of stockholders of the Corporation.

(D) Except as set forth herein, in the Restated Certificate of Incorporation of the Corporation, or as otherwise provided by law, holders of Series A Preferred Stock shall have no special voting rights and their consent shall not be required (except to the extent they are entitled to vote with holders of Common Stock as set forth herein) for taking any corporate action.

#### Section 4. CERTAIN RESTRICTIONS.

(A) Whenever quarterly dividends or other dividends or distributions payable on the Series A Preferred Stock as provided in Section 2 are in arrears, thereafter and until all accrued and unpaid dividends and distributions, whether or not declared, on shares of Series A Preferred Stock outstanding shall have been paid in full, the Corporation shall not:

(i) declare or pay dividends, or make any other distributions, on any shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock;

(ii) declare or pay dividends, or make any other distributions, on any shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except dividends paid ratably on the Series A Preferred Stock and all such parity stock on which dividends are payable or in arrears in proportion to the total amounts to which the holders of all such shares are then entitled;

(iii) redeem or purchase or otherwise acquire for consideration shares of any stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock, provided that the Corporation may at any time redeem, purchase or otherwise acquire shares of any such junior stock in exchange for shares of any stock of the Corporation ranking junior (either as to dividends or upon dissolution, liquidation or winding up) to the Series A Preferred Stock; or

(iv) redeem or purchase or otherwise acquire for consideration any shares of Series A Preferred Stock, or any shares of stock ranking on a parity with the Series A Preferred Stock, except in accordance with a purchase offer made in writing or by publication (as determined by the Board of Directors) to all holders of such shares upon such terms as the Board of Directors, after consideration of the respective annual dividend rates and other relative rights and preferences of the respective series and classes, shall determine in good faith will result in fair and equitable treatment among the respective series or classes.

(B) The Corporation shall not permit any subsidiary of the Corporation to purchase or otherwise acquire for consideration any shares of stock of the Corporation unless the Corporation could, under paragraph (A) of this Section 4, purchase or otherwise acquire such shares at such time and in such manner.

Section 5. REACQUIRED SHARES. Any shares of Series A Preferred Stock purchased or otherwise acquired by the Corporation in any manner whatsoever shall be retired and cancelled promptly after the acquisition thereof. All such shares shall upon their cancellation become authorized but unissued shares of Preferred Stock and may be reissued as part of a new series of Preferred Stock subject to the conditions and restrictions on issuance set forth herein, in the Restated Certificate of Incorporation, or in any other Certificate of Amendment creating a series of Preferred Stock or any similar stock or as otherwise required by law.

Section 6. LIQUIDATION DISSOLUTION OR WINDING UP. Upon any liquidation, dissolution or winding up of the Corporation, no distribution shall be made (1) to the holders of shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock unless, prior thereto, the holders of shares of Series A Preferred Stock shall have received \$100 per share, plus an amount equal to accrued and unpaid dividends and distributions thereon, whether or not declared, to the date of such payment, provided that the holders of shares of Series A Preferred Stock shall be entitled to receive an aggregate amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount to be distributed per share to holders of shares of Common Stock, or (2) to the holders of shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except distributions made ratably on the Series A Preferred Stock and all such parity stock in proportion to the total amounts to which the holders of all such shares are entitled upon such liquidation, dissolution or winding up. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the aggregate amount to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event under the proviso in clause (1) of the preceding sentence shall be adjusted by multiplying such amount by a fraction the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

Section 7. CONSOLIDATION, MERGER, ETC. In case the Corporation shall enter into any consolidation, merger, combination or other transaction in which the shares of Common

Stock are exchanged for or changed into other stock or securities, cash and/or any other property, then in any such case each share of Series A Preferred Stock shall at the same time be similarly exchanged or changed into an amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount of stock, securities, cash and/or any other property (payable in kind), as the case may be, into which or for which each share of Common Stock is changed or exchanged. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount set forth in the preceding sentence with respect to the exchange or change of shares of Series A Preferred Stock shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

Section 8. NO REDEMPTION. The shares of Series A Preferred Stock shall not be redeemable except as provided in that certain Rights Agreement dated as of June\_\_\_\_\_, 2000 between Axcelis Technologies, Inc. and Equiserve Trust Company N.A.

Section 10. AMENDMENT. Subject to the provisions of Article 4 of the Corporation's Restated Certificate of Incorporation, the Corporation's Restated Certificate of Incorporation shall not be amended, altered or repealed in any manner which would affect adversely the voting powers, rights or preferences of the holders of the Series A Preferred Stock so as to affect them adversely without the affirmative vote of the holders of at least two-thirds of the outstanding shares of Series A Preferred Stock, voting together as a single class.

IN WITNESS WHEREOF, this Certificate of Designation is executed on behalf of the Corporation by the undersigned duly authorized officer this \_\_\_\_\_ day of June\_\_\_\_\_, 2000.

## SUMMARY OF RIGHTS TO PURCHASE PREFERRED SHARES

## INTRODUCTION

On \_\_\_\_\_, 2000, the Board of Directors of Axcelis Technologies, Inc. (the "Company") declared a dividend of one preferred share purchase right (a "Right") for each outstanding common share, par value \$0.001 per share (the "Common Shares"), of the Company. The dividend is payable on \_\_\_\_\_, 2000 (the "Record Date") to the shareholders of record on that date. The description and terms of the Rights are set forth in a Rights Agreement (the "Rights Agreement") between the Company and Equiserve Trust Company N.A., as Rights Agent (the "Rights Agent"). The Rights contain important "flip-over" and "flip-in" features designed to protect the Company from unfair takeovers.

## PURCHASE PRICE

Each Right entitles the registered holder to purchase from the Company one one-hundredth of a share of Series A Participating Preferred Stock, par value \$0.001 per share (the "Preferred Shares"), of the Company at a price of \$\_\_\_\_\_ per one one-hundredth of a Preferred Share (the "Purchase Price"), subject to adjustment.

## FLIP-OVER

If the Company is acquired in a merger or other business combination or 50% or more of its consolidated assets or earning power are sold after a person or group has become an Acquiring Person (as defined below), each holder of a Right will thereafter have the right to receive, upon exercise, that number of shares of common stock of the acquiring company which then will have a market value of two times the exercise price of the Right.

## FLIP-IN

If any person or group of affiliated or associated persons becomes an Acquiring Person, each holder of a Right, other than Rights beneficially owned by the Acquiring Person (which will thereafter be void), will thereafter have the right to receive upon exercise that number of Common Shares having a market value of two times the exercise price of the Right.

## TRANSFER AND DETACHMENT

Until the Distribution Date, the Rights will be evidenced, with respect to any of the Common Share certificates outstanding as of the Record Date, by such Common Share certificate with a copy of this Summary of Rights attached thereto. Until the Distribution Date (or earlier redemption or expiration of the Rights), the Rights will be transferred with and only with the Common Shares, and transfer of those certificates will also constitute transfer of those Rights.

As soon as practicable following the Distribution Date, separate certificates evidencing the Rights ("Right Certificates") will be mailed to holders of record of the Common Shares as of the close of business on the Distribution Date and such separate Right Certificates alone will thereafter evidence the Rights.

#### DISTRIBUTION DATE

The "Distribution Date" is the earlier of:

- (i) 10 days following a public announcement that a person or group of affiliated or associated persons (an "Acquiring Person") have acquired beneficial ownership of 20% or more of the outstanding Common Shares; or
- (ii) 10 business days (or such later date as may be determined by action of the Board of Directors before any person or group becomes an Acquiring Person) following the commencement of, or announcement of an intention to make, a tender offer or exchange offer the consummation of which would result in the beneficial ownership by a person or group of 20% or more of the outstanding Common Shares.

#### EXERCISABILITY

The Rights are not exercisable until the Distribution Date. The Rights will expire on \_\_\_\_\_, 2010 (the "Final Expiration Date"), unless the Final Expiration Date is extended or unless the Rights are earlier redeemed or exchanged by the Company, as described below.

#### ADJUSTMENTS

The Purchase Price, and the number of Preferred Shares or other securities or property issuable, upon exercise of the Rights are subject to adjustment from time to time to prevent dilution, in the event of:

- (i) a stock dividend on, or a subdivision, combination or reclassification of, the Preferred Shares,
- (ii) the grant to holders of the Preferred Shares of certain rights to subscribe for or purchase Preferred Shares at a price, or securities convertible into Preferred Shares with a conversion price, less than the then-current market price of the Preferred Shares, or
- (iii) the distribution to holders of the Preferred Shares of evidences of indebtedness or assets (excluding regular periodic cash dividends paid out of earnings or retained earnings or dividends payable in Preferred Shares) or of subscription rights or warrants (other than those referred to above).

The number of outstanding Rights is also subject to adjustment upon certain occurrences prior to the Distribution Date.

With certain exceptions, no adjustment in the Purchase Price will be required until cumulative adjustments require an adjustment of at least 1% in such Purchase Price. No

fractional Preferred Shares will be issued (other than fractions which are integral multiples of one one-hundredth of a Preferred Share, which may, at the election of the Company, be evidenced by depositary receipts) and in lieu thereof, an adjustment in cash will be made based on the market price of the Preferred Shares on the last trading day prior to the date of exercise.

#### PREFERRED SHARES

Preferred Shares purchasable upon exercise of the Rights will not be redeemable. Each Preferred Share will be entitled to a minimum preferential quarterly dividend payment of \$1 per share but will be entitled to an aggregate dividend of 100 times the dividend declared per Common Share. In the event of liquidation, the holders of the Preferred Shares will be entitled to a minimum preferential liquidation payment of \$100 per share but will be entitled to an aggregate payment of 100 times the payment made per Common Share. Each Preferred Share will have one vote, voting together with the Common Shares. Finally, in the event of any merger, consolidation or other transaction in which Common Shares are exchanged, each Preferred Share will be entitled to receive 100 times the amount received per Common Share. The dividend and liquidation rights and rights upon a merger, consolidation or other transaction are protected by customary antidilution provisions.

The value of the one one-hundredth interest in a Preferred Share purchasable upon exercise of each Right should, because of the nature of the Preferred Shares' dividend and liquidation rights, approximate the value of one Common Share.

#### EXCHANGE

At any time after any person or group becomes an Acquiring Person, and prior to the acquisition by that person or group of 50% or more of the outstanding Common Shares, the Board of Directors of the Company may exchange the Rights (other than Rights owned by the Acquiring Person, which will have become void), in whole or in part, at an exchange ratio of one Common Share, or one one-hundredth of a Preferred Share (or of a share of a class or series of the Company's preferred stock having equivalent rights, preferences and privileges), per Right (subject to adjustment).

#### REDEMPTION

At any time prior to any person or group becoming an Acquiring Person, the Board of Directors of the Company may redeem all the Rights at a price of \$0.001 per Right (the "Redemption Price"). The redemption may be made effective at such time, on such basis and with such conditions as the Board of Directors in its sole discretion may establish. Immediately upon any redemption, the right to exercise the Rights will terminate and the only right of the holders of Rights will be to receive the Redemption Price.

#### AMENDMENTS

The terms of the Rights may be amended by the Board of Directors of the Company without the consent of the holders of the Rights, including an amendment to lower the 20% threshold described above to not less than the greater of (i) the sum of 0.001% and the largest percentage of the outstanding Common Shares then known to the Company to be

beneficially owned by any person or group of affiliated or associated persons and (ii) 10%, except that after any person or group becomes an Acquiring Person no such amendment may adversely affect the interests of the holders of the Rights.

#### RIGHTS AS HOLDERS

Until a Right is exercised, the holder thereof, as such, will have no rights as a shareholder of the Company, including, without limitation, the right to vote or to receive dividends.

#### FURTHER INFORMATION

A copy of the Rights Agreement has been filed with the Securities and Exchange Commission as an Exhibit to a Registration Statement on Form 8-A dated \_\_\_\_\_, 2000. A copy of the Rights Agreement is available free of charge from the Company's Shareholder Relations Department. This summary description of the Rights does not purport to be complete and is qualified in its entirety by reference to the Rights Agreement, which is hereby incorporated herein by reference.

### ARTICLE III

#### ADMINISTRATION

3.01 ADMINISTRATION. The Plan shall be administered by the Board, except (i) awards to Non-Employee Directors under Section 6.01(b) shall be automatic and granted under the terms set forth for Non-Employee Directors under the Plan without power or authority of the Board (or if applicable a committee) to alter or amend the number, terms or conditions of such awards and (ii) awards intended to qualify as exempt from the limitations on deductible compensation imposed by Section 162(m) of the Code shall be granted and administered by a committee appointed by the Board consisting of no fewer than two members of the Board who meet each and all requirements to serve as outside directors within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder (the "162(m) Committee"). Except to the extent of matters reserved for the 162(m) Committee, the Board (or its designee, as described below) shall have exclusive and final authority in each determination, interpretation or other action affecting the Plan and its Participants. The Board (or its designee, as described below) shall have the sole discretionary authority to interpret the Plan, to establish and modify administrative rules for the Plan, to impose such conditions and restrictions on Awards as it determines appropriate, and to take such steps in connection with the Plan and Awards granted hereunder as it may deem necessary or advisable. The Board may, subject to compliance with

applicable legal requirements, delegate to a person or a committee, none of whom need be members of the Board of the Company, such of its powers and authority under the Plan as it deems appropriate to designated officers or employees of the Company. The Board may appoint such person or committee to exercise any of the authority conferred upon the Board hereunder and, if a person or committee is designated to so serve, the term "Board" as used in this Plan shall include such committee. In the event of any such delegation of authority or exercise of authority by a person or committee so designated, references in the Plan to the Board shall be deemed to refer to the delegate of the Board or such committee, as the case may be.

#### ARTICLE IV

##### SHARES

4.01 NUMBER OF SHARES ISSUABLE. The total number of shares initially authorized to be issued under the Plan shall be 18,500,000 shares of Common Stock. The number of shares available for issuance under the Plan shall be subject to adjustment in accordance with Section 9.07 and, for the purposes of granting Awards other than Incentive Stock Options, shall be increased annually by the lesser of (i) five (5%) percent of the then number of outstanding shares of Common Stock of the Company, (ii) 5,000,000 shares or (iii) such lesser amount determined by the Board. The shares to be offered under the Plan shall be authorized and unissued shares of Common Stock, or issued shares of Common Stock which will have been reacquired by the Company.

4.02 SHARES SUBJECT TO TERMINATED AWARDS. Shares of Common Stock covered by any unexercised portions of terminated Options (including canceled Options) granted under Article VI, shares of Common Stock forfeited as provided in Section 7.02(a) and shares of Common Stock subject to any Award that are otherwise surrendered by a Participant may be subject to new Awards under the Plan. Shares of Common Stock subject to Options, or portions thereof, that have been surrendered in connection with the exercise of Stock Appreciation Rights shall not be available for subsequent Awards under the Plan, but shares of Common Stock issued in payment of such Stock Appreciation Rights shall not be charged against the number of shares of Common Stock available for the grant of Awards hereunder.

4.03 SPECIAL SECTION 368(c) LIMITATION. Notwithstanding any other provision of this Plan to the contrary, no award shall be converted into shares of Common Stock (including, but not limited to, upon exercise of an Option) if the effect of such conversion would cause Eaton Corporation to not be in control of the Company for purposes of Section 368(c) of the Code or prevent Eaton Corporation from filing a consolidated federal income tax return with the Company. Any purported conversion (including, but not limited to, an attempt to exercise an Option) shall be void and without force or effect. The Award purported to be converted into shares of Common Stock shall remain outstanding without any change in rights or obligations or the Participant or the Company. No cash or other form of consideration shall be paid or delivered in connection with any conversion prevented by this limitation. If Eaton disposes of all or substantially all of its interest in the Company, this Section 4.03 shall be without further force or effect.

## ARTICLE V

## PARTICIPATION

Participants in the Plan shall be such employees, directors and consultants of the Company and its Subsidiaries as the Board, in its sole discretion, may designate from time to time. The Board's designation of a Participant in any year shall not require the Board to designate such person to receive Awards in any other year. The designation of a Participant to receive an Award under one portion of the Plan does not require the Board to include such Participant under other portions of the Plan. The Board shall consider such factors as it deems pertinent in selecting Participants and in determining the types and amounts of their respective Awards.

## ARTICLE VI

## STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

## 6.01 OPTION AWARDS.

(a) GRANT OF OPTIONS. The Board may grant, to such Participants as the Board may select, Options entitling the Participants to purchase shares of Common Stock from the Company in such numbers, at such prices, and on such terms and subject to such conditions, not inconsistent with the terms of the Plan, as may be established by the Board. The terms of any Option granted under the Plan shall be set forth in an Award Agreement. No Participant may be granted an Option to purchase more than 1,250,000 shares of Common Stock in any fiscal year of the Company, except that in his or her initial year of service, a Participant may be granted an Option to purchase up to 1,250,000 shares of Common Stock.

(b) NON-EMPLOYEE DIRECTOR OPTIONS. As of the date of the initial public offering of the Common Stock of the Company, each person then serving as a Non-Employee Director shall be automatically granted a Non-Qualified Stock Option to purchase 24,000 shares of Common Stock. Each calendar year thereafter that a Non-Employee Director is then serving as a Non-Employee Director, he or she will be granted a Non-Qualified Stock Option to purchase 12,000 shares of Common Stock of the Company as of the day in such year that grants of options or other Awards are first considered. Each such option shall be evidenced by a written Award Agreement that shall set forth the following terms:

- (1) The per share Purchase Price shall be equal to the Fair Market Value of a share of Common Stock on the date of grant;
- (2) The Option shall expire on the 10th anniversary of the date of grant;
- (3) The Option shall be fully vested on the 181st day after the date of grant; and
- (4) The Option shall be exercisable in accordance with Section 6.04 of this Plan but subject to Section 4.03 of this Plan.

If a member of the Board of Directors becomes a Non-Employee Director (including as a result of the operation of the second or third sentences of Section 2.19 of this Plan) on a day other than the day of the initial public offering of the Common Stock of the Company, (i) he or she shall be granted a Non-Qualified Option to purchase up to 24,000 shares of Common Stock as of the date he or she first becomes a Non-Employee Director subject to the terms set forth in (1) through (4) above and (ii) he or she shall be eligible to receive a grant of a Non-Qualified Stock Option as provided above on the day in the subsequent calendar year and each calendar year thereafter on which grants of options or other Awards under this Plan are first considered as long as he or she serves as a Non-Employee Director. Nothing set forth in this section shall prevent the Board from considering Non-Employee Directors for other awards under this Plan and from making any Awards to Non-Employee Directors.

(c) PURCHASE PRICE OF OPTIONS. Subject to Section 6.01(e) with respect to certain Incentive Stock Options, the Purchase Price of each share of Common Stock which may be purchased upon exercise of any Option granted under the Plan shall be determined by the Board; provided, however, that the Purchase Price shall in all cases be equal to or greater than the Fair Market Value on the Date of Grant.

(d) DESIGNATION OF OPTIONS. Except as otherwise expressly provided in the Plan, the Board may designate, at the time of the grant of an Option, such Option as an Incentive Stock Option or a Non-Qualified Stock Option; provided, however, that an Option may be designated as an Incentive Stock Option only if the applicable Participant is an employee of the Company or a Subsidiary on the Date of Grant.

(e) SPECIAL INCENTIVE STOCK OPTION RULES. No Participant may be granted Incentive Stock Options under the Plan (or any other plans of the Company and its Subsidiaries) that would result in Incentive Stock Options to purchase shares of Common Stock with an aggregate Fair Market Value (measured on the Date of Grant) of more than \$100,000 first becoming exercisable by such Participant in any one calendar year. Notwithstanding any other provision of the Plan to the contrary, no Incentive Stock Option shall be granted to any person who, at the time the Option is granted, owns stock (including stock owned by application of the constructive ownership rules in Section 424(d) of the Code) possessing more than 10% of the total combined voting power of all classes of stock of the Company or any Subsidiary, unless at the time the Incentive Stock Option is granted the Option price is at least 110% of the Fair Market Value of the Common Stock subject to the Incentive Stock Option and the Incentive Stock Option by its terms is not exercisable for more than five (5) years from the Date of Grant.

(f) RIGHTS AS A SHAREHOLDER. A Participant or a transferee of an Option pursuant to Section 9.04 shall have no rights as a shareholder with respect to the shares of Common Stock covered by an Option until that Participant or transferee shall have become the holder of record of any such shares, and no adjustment shall be made with respect to any such shares of Common Stock for dividends in cash or other property or distributions of other rights on the Common Stock for which the record date is prior to the date on which that Participant or transferee shall have become the holder of record of any shares covered by such Option; provided, however, that Participants are entitled to share adjustments to reflect capital changes under Section 9.07.

## 6.02 STOCK APPRECIATION RIGHTS.

(a) STOCK APPRECIATION RIGHT AWARDS. The Board is authorized to grant to any Participant one or more Stock Appreciation Rights. Such Stock Appreciation Rights may be granted either independent of or in tandem with Options granted to the same Participant. Stock Appreciation Rights granted in tandem with Options may be granted simultaneously with, or, in the case of Non-Qualified Stock Options, subsequent to, the grant to such Participant of the related Options; provided, however, that: (i) any Option covering any share of Common Stock shall expire and not be exercisable upon the exercise of any Stock Appreciation Right with respect to the same share, (ii) any Stock Appreciation Right covering any share of Common Stock shall expire and not be exercisable upon the exercise of any Option with respect to the same share, and (iii) an Option and a Stock Appreciation Right covering the same share of Common Stock may not be exercised simultaneously. Upon exercise of a Stock Appreciation Right with respect to a share of Common Stock, the Participant shall be entitled to receive an amount equal to the excess, if any, of (A) the Fair Market Value of a share of Common Stock on the date of exercise over (B) the Exercise Price of such Stock Appreciation Right established in the Award Agreement, which amount shall be payable as provided in Section 6.02(c).

(b) EXERCISE PRICE. The Exercise Price established for any Stock Appreciation Right granted under this Plan shall be determined by the Board, but in the case of Stock Appreciation Rights granted in tandem with Options shall not be less than the Purchase Price of the related Options. Upon exercise of Stock Appreciation Rights, the number of shares issuable upon exercise under any related Options shall automatically be reduced by the number of shares of Common Stock represented by such Options which are surrendered as a result of the exercise of such Stock Appreciation Rights.

(c) PAYMENT OF INCREMENTAL VALUE. Any payment that may become due from the Company by reason of a Participant's exercise of a Stock Appreciation Right may be paid to the Participant as determined by the Board (i) all in cash, (ii) all in Common Stock, or (iii) in any combination of cash and Common Stock. In the event that all or a portion of the payment is to be made in Common Stock, the number of shares of Common Stock to be delivered in satisfaction of such payment shall be determined by dividing the amount of such payment or portion thereof by the Fair Market Value on the date of exercise. No fractional share of Common Stock shall be issued to make any payment in respect of Stock Appreciation Rights; if any fractional share would otherwise be issuable, the combination of cash and Common Stock payable to a Participant shall be adjusted as directed by the Board to avoid the issuance of any fractional share.

## 6.03 TERMS OF STOCK OPTIONS AND STOCK APPRECIATION RIGHTS.

(a) **CONDITIONS ON EXERCISE.** In addition to the conditions imposed under Section 4.03 of this Plan, an Award Agreement with respect to Options and/or Stock Appreciation Rights may contain such waiting periods, exercise dates and restrictions on exercise (including, but not limited to, periodic installments) as may be determined by the Board at the time of grant. Without limiting the applicability of Section 4.03, no Option shall be exercisable prior to the date of consummation of a disposition by Eaton Corporation of all or substantially all of its interest in the Company.

(b) **DURATION OF OPTIONS AND STOCK APPRECIATION RIGHTS.** Options and Stock Appreciation Rights shall terminate after the first to occur of the following events:

- (i) Expiration of the Option or Stock Appreciation Right as provided in the related Award Agreement; or
- (ii) Termination of the Award as provided in Section 6.03(e), following the applicable Participant's Termination of Employment; or
- (iii) In the case of an Incentive Stock Option, ten years from the Date of Grant (five years in certain cases, as described in Section 6.01(e)) Non-Qualified Stock Options may, if so approved by the Board, have a stated term in excess of ten years, but such Options shall in all events be subject to termination in accordance with clauses (i) and (ii) above); or
- (iv) Solely in the case of a Stock Appreciation Right granted in tandem with an Option, upon the expiration of the related Option.

(c) **ACCELERATION OF EXERCISE TIME.** The Board, in its sole discretion, shall have the right (but shall not in any case be obligated), exercisable at any time after the Date of Grant, to permit the exercise of any Option or Stock Appreciation Right prior to the time such Option or Stock Appreciation Right would otherwise become exercisable under the terms of the related Award Agreement.

(d) **EXTENSION OF EXERCISE TIME.** In addition to the extensions permitted under Section 6.03(e) in the event of Termination of Employment, the Board, in its sole discretion, shall have the right (but shall not in any case be obligated), exercisable on or at any time after the Date of Grant, to permit the exercise of any Option or Stock Appreciation Right after its expiration date described in Section 6.03(e), subject, however, to the limitations described in Sections 6.03(b)(i), (iii) and (iv).

(e) **EXERCISE OF OPTIONS OR STOCK APPRECIATION RIGHTS UPON TERMINATION OF EMPLOYMENT.** Unless an Optionee's Award Agreement provides otherwise, the following rules shall govern the treatment of Options and Stock Appreciation Rights upon Termination of Employment:

(i) TERMINATION OF VESTED OPTIONS AND STOCK APPRECIATION RIGHTS UPON TERMINATION OF EMPLOYMENT.

(a) REASONS OTHER THAN DEATH, DISABILITY OR RETIREMENT. In the event of a Participant's voluntary or involuntary Termination of Employment for any reason other than death, Disability or Retirement, the right of the Participant to exercise any Option or Stock Appreciation Right shall terminate on the date of such Termination of Employment, unless the exercise period is extended by the Board in accordance with Section 6.03(d).

(b) DEATH, DISABILITY OR RETIREMENT. In the event of a Participant's Termination of Employment by reason of death, Disability or Retirement, the right of the Participant to exercise any Option or Stock Appreciation Right which he or she was entitled to exercise upon Termination of Employment (or which became exercisable pursuant to Section 6.03(e)(ii)) shall, unless the exercise period is extended by the Board in accordance with Section 6.03(d), terminate upon the earlier of (i) the later to occur of (A) first anniversary of the date of such Termination of Employment and (B) the first anniversary of the date of consummation of a public offering of the Common Stock and (ii) the date of expiration of the Option determined pursuant to Section 6.03(b)(i), (iii) or (iv).

(ii) TERMINATION OF UNVESTED OPTIONS OR STOCK APPRECIATION RIGHTS UPON TERMINATION OF EMPLOYMENT. Subject to Section 6.03(c), to the extent the right to exercise an Option or a Stock Appreciation Right, or any portion thereof, has not accrued as of the date of Termination of Employment, such right shall expire at the date of such Termination of Employment regardless of the reason for such Termination of Employment. Notwithstanding the foregoing, the Board, in its sole discretion and under such terms as it deems appropriate, may permit, for a Participant who terminates employment by reason of Retirement and who will continue to render significant services to the Company or one of its Subsidiaries after his or her Termination of Employment, the continued vesting of his or her Options and Stock Appreciation Rights during the period in which that individual continues to render such services.

6.04 EXERCISE PROCEDURES. Each Option and Stock Appreciation Right granted under the Plan shall be exercised by written notice to the Company which must be received by the officer or employee of the Company designated in the Award Agreement at or before the close of business on the expiration date of the Award. The Purchase Price of shares purchased upon exercise of an Option granted under the Plan shall be paid in full in cash by the Participant pursuant to the Award Agreement; provided, however, that the Board may (but shall not be required to) permit payment to be made by delivery to the Company of either (a) shares of Common Stock held by the Participant for at least six months (which may include Restricted Shares, subject to such rules as the Board deems appropriate) or (b) any combination of cash and Common Stock or (c) such other consideration as the Board deems appropriate and in compliance with applicable law (including payment in accordance with a cashless exercise program under which, if so instructed by a Participant, shares of Common Stock may be issued directly to the Participant's broker or dealer upon receipt of an irrevocable written notice of

exercise from the Participant). In the event that any shares of Common Stock shall be transferred to the Company to satisfy all or any part of the Purchase Price, the part of the Purchase Price deemed to have been satisfied by such transfer of shares of Common Stock shall be equal to the product derived by multiplying the Fair Market Value as of the date of exercise times the number of shares of Common Stock transferred to the Company. The Participant may not transfer to the Company in satisfaction of the Purchase Price any fractional share of Common Stock. Any part of the Purchase Price paid in cash upon the exercise of any Option shall be added to the general funds of the Company and may be used for any proper corporate purpose. Unless the Board shall otherwise determine, any shares of Common Stock transferred to the Company as payment of all or part of the Purchase Price upon the exercise of any Option shall be held as treasury shares.

6.05 CHANGE IN CONTROL. Unless otherwise provided by the Board in the applicable Award Agreement, in the event of a Change in Control, all Options and Stock Appreciation Rights outstanding on the date of such Change in Control shall become immediately and fully exercisable. The provisions of this Section 6.05 shall not be applicable to any Options or Stock Appreciation Rights granted to a Participant if any Change in Control results from such Participant's beneficial ownership (within the meaning of Rule 13d-3 under the Exchange Act) of Company Voting Securities.

## ARTICLE VII

### RESTRICTED SHARES

7.01 RESTRICTED SHARE AWARDS. Subject to Section 4.03 of this Plan, the Board may grant to any Participant an Award of such number of shares of Common Stock on such terms, conditions and restrictions, whether based on performance standards, periods of service, retention by the Participant of ownership of purchased or designated shares of Common Stock or other criteria, as the Board shall establish. The terms of any Restricted Share Award granted under this Plan shall be set forth in an Award Agreement which shall contain provisions determined by the Board and not inconsistent with this Plan.

(a) ISSUANCE OF RESTRICTED SHARES. As soon as practicable after the Date of Grant of a Restricted Share Award by the Board, the Company shall cause to be transferred on the books of the Company or its agent, shares of Common Stock, registered on behalf of the Participant, evidencing the Restricted Shares covered by the Award, subject to forfeiture to the Company as of the Date of Grant if an Award Agreement with respect to the Restricted Shares covered by the Award is not duly executed by the Participant and timely returned to the Company. All shares of Common Stock covered by Awards under this Article VII shall be subject to the restrictions, terms and conditions contained in the Plan and the applicable Award Agreements entered into by the appropriate Participants. Until the lapse or release of all restrictions applicable to an Award of Restricted Shares the share certificates representing such Restricted Shares may be held in custody by the Company, its designee, or, if the certificates bear a restrictive legend, by the Participant. Upon the lapse or release of all restrictions with respect to an Award as described in

Section 7.01(d), one or more share certificates, registered in the name of the Participant, for an appropriate number of shares as provided in Section 7.01(d), free of any restrictions set forth in the Plan and the related Award Agreement shall be delivered to the Participant.

(b) SHAREHOLDER RIGHTS. Beginning on the Date of Grant of a Restricted Share Award and subject to execution of the related Award Agreement as provided in Section 7.01(a), and except as otherwise provided in such Award Agreement, the Participant shall become a shareholder of the Company with respect to all shares subject to the Award Agreement and shall have all of the rights of a shareholder, including, but not limited to, the right to vote such shares and the right to receive dividends; provided, however, that any shares of Common Stock distributed as a dividend or otherwise with respect to any Restricted Shares as to which the restrictions have not yet lapsed, shall be subject to the same restrictions as such Restricted Shares and held or restricted as provided in Section 7.01(a).

(c) RESTRICTION ON TRANSFERABILITY. None of the Restricted Shares may be assigned or transferred (other than by will or the laws of descent and distribution or to an inter vivos trust with respect to which the Participant is treated as the owner under Sections 671 through 677 of the Code), pledged or sold prior to the lapse of the restrictions applicable thereto.

(d) DELIVERY OF SHARES UPON VESTING. Upon expiration or earlier termination of the forfeiture period without a forfeiture and the satisfaction of or release from any other conditions prescribed by the Board, or at such earlier time as provided under the provisions of Section 7.03, the restrictions applicable to the Restricted Shares shall lapse. As promptly as administratively feasible thereafter, subject to the requirements of Section 9.05, the Company shall deliver to the Participant or, in case of the Participant's death, to the Participant's Beneficiary, one or more share certificates for the appropriate number of shares of Common Stock, free of all such restrictions, except for any restrictions that may be imposed by law.

#### 7.02 TERMS OF RESTRICTED SHARES.

(a) FORFEITURE OF RESTRICTED SHARES. Subject to Sections 7.02(b) and 7.03, Restricted Shares shall be forfeited and returned to the Company and all rights of the Participant with respect to such Restricted Shares shall terminate unless the Participant continues in the service of the Company or a Subsidiary as an employee until the expiration of the forfeiture period for such Restricted Shares and satisfies any and all other conditions set forth in the Award Agreement. The Board shall determine the forfeiture period (which may, but need not, lapse in installments) and any other terms and conditions applicable with respect to any Restricted Share Award.

(b) WAIVER OF FORFEITURE PERIOD. Notwithstanding anything contained in this Article VII to the contrary, the Board may, in its sole discretion, waive the forfeiture period and any other conditions set forth in any Award Agreement under appropriate

circumstances (including the death, Disability or Retirement of the Participant or a material change in circumstances arising after the date of an Award) and subject to such terms and conditions (including forfeiture of a proportionate number of the Restricted Shares) as the Board shall deem appropriate.

(c) REPURCHASE RIGHTS. The Board may, but shall not be required to, grant to Participants who promptly inform the Board of their intention to elect federal income taxation under Section 83(b) of the Code, the right to require the Company to repurchase upon their termination of employment for any reason other than cause the shares for which federal income tax treatment under Section 83(b) of the Code was elected. Such repurchase right, if granted, may be exercised by the Participant at any time after his or her termination of employment at a price to be determined by the Board at the date of grant but in no event greater than the fair market value of such shares at the time federal income tax treatment under Section 83(b) of the Code was elected.

7.03 CHANGE IN CONTROL. Unless otherwise provided by the Board in the applicable Award Agreement, in the event of a Change in Control, all restrictions applicable to the Restricted Share Award shall terminate fully and the Participant shall immediately have the right to the delivery of share certificates for such shares in accordance with Section 7.01(d).

## ARTICLE VIII

### PERFORMANCE AWARDS

#### 8.01 PERFORMANCE AWARDS.

(a) AWARD PERIODS AND CALCULATIONS OF POTENTIAL INCENTIVE AMOUNTS. Subject to Section 4.03 of this Plan, the Board may grant Performance Awards to Participants. A Performance Award shall consist of the right to receive a payment (measured by the Fair Market Value of a specified number of shares of Common Stock, increases in such Fair Market Value during the Award Period and/or a fixed cash amount) contingent upon the extent to which certain predetermined performance targets have been met during an Award Period. Performance Awards may be made in conjunction with, or in addition to, any other Awards made under this Plan. The Award Period shall be two or more fiscal or calendar years as determined by the Board. The Board, in its discretion and under such terms as it deems appropriate, may permit newly eligible employees, such as those who are promoted or newly hired, to receive Performance Awards after an Award Period has commenced.

(b) PERFORMANCE TARGETS. The performance targets may include such goals related to the performance of the Company and/or the performance of a Participant as may be established by the Board in its discretion. The performance targets established by the Board may vary for different Award Periods and need not be the same for each Participant receiving a Performance Award in an Award Period. The Board, in its discretion, but only under extraordinary circumstances as determined by the Board, may

change any prior determination of performance targets for any Award Period at any time prior to the final determination of the value of a related Performance Award when events or transactions occur to cause such performance targets to be an inappropriate measure of achievement.

(c) EARNING PERFORMANCE AWARDS. The Board, on or as soon as practicable after the Date of Grant, shall prescribe a formula to determine the percentage of the applicable Performance Award to be earned based upon the degree of attainment of performance targets.

(d) PAYMENT OF EARNED PERFORMANCE AWARDS. Payments of earned Performance Awards shall be made in cash or shares of Common Stock or a combination of cash and shares of Common Stock, in the discretion of the Board. The Board, in its sole discretion, may provide such terms and conditions with respect to the payment of earned Performance Awards as it may deem desirable.

#### 8.02 TERMS OF PERFORMANCE AWARDS.

(a) TERMINATION OF EMPLOYMENT. Unless otherwise provided below or in Section 8.03, in the case of a Participant's Termination of Employment prior to the end of an Award Period, the Participant will not have earned any Performance Awards for that Award Period.

(b) RETIREMENT. If a Participant's Termination of Employment is because of Retirement prior to the end of an Award Period, the Participant will not be paid any Performance Award, unless the Board, in its sole and exclusive discretion, determines that an Award should be paid. In such a case, the Participant shall be entitled to receive a pro-rata portion of his or her Award as determined under subsection (d).

(c) DEATH OR DISABILITY. If a Participant's Termination of Employment is due to death or to Disability (as determined in the sole and exclusive discretion of the Board) prior to the end of an Award Period, the Participant or the Participant's personal representative shall be entitled to receive a pro-rata share of his or her Award as determined under subsection (d).

(d) PRO-RATA PAYMENT. The amount of any payment to be made to a Participant whose employment is terminated by Retirement, death or Disability (under the circumstances described in subsections (b) and (c)) will be the amount determined by multiplying (i) the amount of the Performance Award that would have been earned through the end of the Award Period had such employment not been terminated by (ii) a fraction, the numerator of which is the number of whole months such Participant was employed during the Award Period, and the denominator of which is the total number of months of the Award Period. Any such payment made to a Participant whose employment is terminated prior to the end of an Award Period shall be made at the end of such Award Period, unless otherwise determined by the Board in its sole discretion. Any partial payment previously made or credited to a deferred account for the benefit of a

Participant in accordance with Section 8.01(d) of the Plan shall be subtracted from the amount otherwise determined as payable as provided in this Section 8.02(d).

(e) OTHER EVENTS. Notwithstanding anything to the contrary in this Article VIII, the Board may, in its sole and exclusive discretion, determine to pay all or any portion of a Performance Award to a Participant who has terminated employment prior to the end of an Award Period under certain circumstances (including the death, Disability or Retirement of the Participant or a material change in circumstances arising after the Date of Grant), subject to such terms and conditions as the Board shall deem appropriate.

8.03 CHANGE IN CONTROL. Unless otherwise provided by the Board in the applicable Award Agreement, in the event of a Change in Control, all Performance Awards for all Award Periods shall immediately become fully vested and payable to all Participants and shall be paid to Participants within 30 days after such Change in Control.

## ARTICLE IX

### TERMS APPLICABLE TO ALL AWARDS GRANTED UNDER THE PLAN

9.01 PLAN PROVISIONS CONTROL AWARD TERMS. The terms of the Plan shall govern all Awards granted under the Plan, and in no event shall the Board have the power to grant any Award under the Plan the terms of which are contrary to any of the provisions of the Plan. In the event any provision of any Award granted under the Plan shall conflict with any term in the Plan as constituted on the Date of Grant of such Award, the term in the Plan as constituted on the Date of Grant of such Award shall control. Except as provided in Section 9.03 and Section 9.07, the terms of any Award granted under the Plan may not be changed after the Date of Grant of such Award so as to materially decrease the value of the Award without the express written approval of the holder.

9.02 AWARD AGREEMENT. No person shall have any rights under any Award granted under the Plan unless and until the Company and the Participant to whom such Award shall have been granted shall have executed and delivered an Award Agreement or the Participant shall have received and acknowledged notice of the Award authorized by the Board expressly granting the Award to such person and containing provisions setting forth the terms of the Award.

9.03 MODIFICATION OF AWARD AFTER GRANT. No Award granted under the Plan to a Participant may be modified (unless such modification does not materially decrease the value of that Award) after its Date of Grant except by express written agreement between the Company and such Participant, provided that any such change (a) may not be inconsistent with the terms of the Plan, and (b) shall be approved by the Board.

9.04 LIMITATION ON TRANSFER. Except as provided in Section 7.01(c) in the case of Restricted Shares, a Participant's rights and interest under the Plan may not be assigned or transferred other than by will or the laws of descent and distribution and, during the lifetime of a Participant, only the Participant personally (or the Participant's personal representative) may

exercise rights under the Plan. The Participant's Beneficiary may exercise the Participant's rights to the extent they are exercisable under the Plan following the death of the Participant. Notwithstanding the foregoing, the Board may grant Non-Qualified Stock Options that are transferable, without payment of consideration, to such persons, including, but not limited to, immediate family members of the Participant or to trusts or partnerships for such family members, and the Board may also amend outstanding Non-Qualified Stock Options to provide for such transferability.

9.05 TAXES. The Company shall be entitled, if the Board deems it necessary or desirable, to withhold (or secure payment from the Participant in lieu of withholding) the amount of any withholding or other tax required by law to be withheld or paid by the Company with respect to any amount payable and/or shares issuable under such Participant's Award or with respect to any income recognized upon a disqualifying disposition (i.e. a disposition prior to the expiration of the requisite holding periods) of shares received pursuant to the exercise of an Incentive Stock Option, and the Company may defer payment of cash or issuance of shares upon exercise or vesting of an Award unless indemnified to its satisfaction against any liability for any such tax. The amount of such withholding or tax payment shall be determined by the Board and shall be payable by the Participant in cash at such time as the Board determines; provided, however, that with the approval of the Board, the Participant may elect to meet his or her withholding requirement, in whole or in part, by having withheld from such Award at the appropriate time that number of shares of Common Stock, rounded up to the next whole share, the Fair Market Value of which is equal to the amount of withholding taxes due.

9.06 REDEMPTION OF AWARDS. Upon ten (10) days' prior written notice to a Participant, the Company, by action of the Board, may redeem any Award granted under the Plan, whether or not vested, in the manner described below. In the case of an Option or Stock Appreciation Right, the redemption shall be for an amount in cash or other consideration determined by the Board equal to the excess of (i) the aggregate Fair Market Value of the shares of Common Stock subject to such Option or Stock Appreciation Right over (ii) the aggregate Purchase Price of such Option or Exercise Price of such Stock Appreciation Right. In the case of Restricted Shares and Performance Awards, the redemption shall be for an amount in cash or other consideration determined by the Board equal to the aggregate Fair Market Value of the shares of Common Stock subject to such Award.

9.07 ADJUSTMENTS TO REFLECT CAPITAL CHANGES.

(a) RECAPITALIZATION. The number and kind of shares subject to outstanding Awards, the Purchase Price or Exercise Price for such shares, the number and kind of shares available for Awards subsequently granted under the Plan and the maximum number of shares in respect of which Awards can be made to any Participant in any calendar year shall be appropriately adjusted to reflect any stock dividend, stock split, combination or exchange of shares, merger, consolidation or other change in capitalization with a similar substantive effect upon the Plan or the Awards granted under the Plan. The Board shall have the power and sole discretion to determine the amount of the adjustment to be made in each case.

(b) MERGER. After any Merger in which the Company is the surviving corporation, each Participant shall, at no additional cost, be entitled upon any exercise of an Option or receipt of any other Award to receive (subject to any required action by shareholders), in lieu of the number of shares of Common Stock receivable or exercisable pursuant to such Award prior to such Merger, the number and class of shares or other securities to which such Participant would have been entitled pursuant to the terms of the Merger if, at the time of the Merger, such Participant had been the holder of record of a number of shares of Common Stock equal to the number of shares of Common Stock receivable or exercisable pursuant to such Award. Comparable rights shall accrue to each Participant in the event of successive Mergers of the character described above. In the event of a Merger in which the Company is not the surviving corporation, the surviving, continuing, successor or purchasing corporation, as the case may be (the "Acquiring Corporation"), will either assume the Company's rights and obligations under outstanding Award Agreements or substitute awards in respect of the Acquiring Corporation's stock for outstanding Awards, provided, however, that if the Acquiring Corporation does not assume or substitute for such outstanding Awards, the Board shall provide prior to the Merger that any unexercisable and/or unvested portion of the outstanding Awards shall be immediately exercisable and vested as of a date prior to such Merger, as the Board so determines. The exercise and/or vesting of any Award that was permissible solely by reason of this Section 9.07(b) shall be conditioned upon the consummation of the Merger. Any Options which are neither assumed by the Acquiring Corporation not exercised as of the date of the Merger shall terminate effective as of the effective date of the Merger.

(c) OPTIONS TO PURCHASE SHARES OR STOCK OF ACQUIRED COMPANIES. After any merger in which the Company or a Subsidiary shall be a surviving corporation, the Board may grant substituted options under the provisions of the Plan, pursuant to Section 424 of the Code, replacing old options granted under a plan of another party to the merger whose shares of stock subject to the old options may no longer be issued following the merger. The manner of application of the foregoing provisions to such options and any appropriate adjustments shall be determined by the Board in its sole discretion. Any such adjustments may provide for the elimination of any fractional shares which might otherwise become subject to any Options.

9.08 CERTAIN CONDITIONS ON AWARDS. The Board may cancel any unexpired Awards at any time the Participant is not in compliance with any agreement between the Company and the Participant or any other legal obligation of the Participant relating to non-competition, confidentiality or proprietary interests and failure to comply with such agreements or obligations prior to, or during the twelve (12) months after, any exercise of an Option or Stock Appreciation Right shall result in the rescission of the exercise and the difference between the Fair Market Value on the date of exercise of the subject shares of Common Stock and the Purchase Price or Exercise Price, as the case may be, shall be returned to the Company by the Participant in cash within ten (10) days after notice of the rescission has been given to the Participant by the Company. Such notice may be given at any time within two years of the date of exercise.

9.09 INITIAL PUBLIC OFFERING. As a condition of participation under this Plan, each Participant shall be obligated to cooperate with the Company and the underwriters in connection

with any public offering of the Company's securities and any transactions relating thereto and shall execute and deliver such agreements and documents, including without limitation, a lock-up agreement, as may be requested by the Company or the underwriters. The Participants' obligations under this Section 9.09 shall apply to any shares of Common Stock issued under the Plan as well as to any and all other securities of the Company or its successor for which such Common Stock may be exchanged or into which such Common Stock may be converted.

9.10 NO RIGHT TO EMPLOYMENT. No employee or other person shall have any claim of right to be granted an Award under the Plan. Neither the Plan nor any action taken hereunder shall be construed as giving any employee any right to be retained in the employ of the Company or any of its Subsidiaries.

9.11 AWARDS NOT INCLUDABLE FOR BENEFIT PURPOSES. Payments received by a Participant pursuant to the provisions of the Plan shall not be included in the determination of benefits under any pension, group insurance or other benefit plan applicable to the Participant which is maintained by the Company or any of its Subsidiaries, except as may be provided under the terms of such plans or determined by the Board.

9.12 GOVERNING LAW. All determinations made and actions taken pursuant to the Plan shall be governed by the internal laws of the State of Delaware, except for its principles of conflict of laws, and construed in accordance therewith.

9.13 NO STRICT CONSTRUCTION. No rule of strict construction shall be implied against the Company, the Board or any other person in the interpretation of any of the terms of the Plan, any Award granted under the Plan or any rule or procedure established by the Board.

9.14 CAPTIONS. The captions (i.e., all Section headings) used in the Plan are for convenience only, do not constitute a part of the Plan, and shall not be deemed to limit, characterize or affect in any way any provisions of the Plan, and all provisions of the Plan shall be construed as if no captions had been used in the Plan.

9.15 SEVERABILITY. Whenever possible, each provision in the Plan and every Award at any time granted under the Plan shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of the Plan or any Award at any time granted under the Plan shall be held to be prohibited by or invalid under applicable law, then (a) such provision shall be deemed amended to accomplish the objectives of the provision as originally written to the fullest extent permitted by law and (b) all other provisions of the Plan, such Award and every other Award at any time granted under the Plan shall remain in full force and effect.

9.16 AMENDMENT AND TERMINATION.

(a) AMENDMENT. The Board shall have complete power and authority to amend the Plan at any time. No termination or amendment of the Plan may, without the consent of the Participant to whom any Award shall theretofore have been granted under the Plan, materially adversely affect the right of such individual under such Award.

(b) TERMINATION. The Board shall have the right and the power to terminate the Plan at any time. No Award shall be granted under the Plan after the termination of the Plan, but the termination of the Plan shall not have any other effect and any Award outstanding at the time of the termination of the Plan may be exercised after termination of the Plan at any time prior to the expiration date of such Award to the same extent such Award would have been exercisable had the Plan not been terminated.

## FORM OF INDEMNIFICATION AGREEMENT

This Agreement, made this \_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, by and between Axcelis Technologies, Inc., a Delaware corporation (the "Company"), and \_\_\_\_\_, \_\_\_\_\_ ("Indemnitee");

WHEREAS, the Company and Indemnitee are each aware of the exposure to litigation of officers, directors and representatives of the Company as such persons exercise their duties to the Company;

WHEREAS, the Company and Indemnitee are also aware of conditions in the insurance industry that have affected and may affect in the future the Company's ability to obtain appropriate directors' and officers' liability insurance on an economically acceptable basis;

WHEREAS, the Company desires to continue to benefit from the services of highly qualified, experienced and otherwise competent persons such as Indemnitee; and

WHEREAS, Indemnitee desires to serve or to continue to serve the Company as an officer and/or director of the Company, or, if requested to do so by the Company, as a director, officer, trustee, employee, representative or agent of another corporation, partnership, joint venture, trust or other enterprise, for so long as the Company continues to provide on an acceptable basis adequate and reliable indemnification against certain liabilities and expenses which may be incurred by Indemnitee;

NOW, THEREFORE, in consideration of the foregoing premises and the mutual covenants herein contained, the parties hereto agree as follows:

1. INDEMNIFICATION

(a) The Company shall indemnify Indemnitee to the fullest extent permitted by law with respect to Indemnitee's activities as an officer and/or director of the Company and/or as a person who is or was serving or has agreed to serve at the request of the Company as a director, officer, trustee, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, domestic or foreign, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person or on such person's behalf ("Expenses") in connection with any claim against Indemnitee, whether or not such claim is brought by any party who may be an "insured person" under the Company's directors' and officers' liability insurance, which is the subject of any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative,

investigative or otherwise and whether formal or informal (a "Proceeding"), to which Indemnitee was, is, or is threatened to be made a party by reason of anything done or not done by Indemnitee in any such capacity.

(b) The rights of Indemnitee hereunder shall be in addition to any rights Indemnitee may now or hereafter have to indemnification by the Company or otherwise. More specifically, the parties hereto intend that Indemnitee shall be entitled to receive, as determined by Indemnitee, payment to the maximum extent permitted by one or any combination of the following:

(i) the payments provided by the Company's By-laws, as amended and restated, and as in effect on the date hereof, a copy of the relevant portions of which are attached hereto as Exhibit I;

(ii) the payments provided by the Restated Certificate of Incorporation or By-laws or their equivalent of the Company in effect at the time Expenses are incurred by Indemnitee;

(iii) the payments allowable under Delaware law in effect at the date hereof;

(iv) the payments allowable under the law of the jurisdiction under which the Company is incorporated at the time Expenses are incurred by Indemnitee;

(v) the payments available under liability insurance obtained by the Company; and

(vi) such other payments as are or may be otherwise available to Indemnitee.

Combination of two or more of the payments provided by (i) through (vi) shall be available to the extent that the Applicable Document, as hereafter defined, does not require that the payments provided therein be exclusive of other payments. The document or law providing for any of the payments listed in items (i) through (vi) above is referred to in this Agreement as the "Applicable Document." The Company hereby undertakes to use its best efforts to assist Indemnitee, in all proper and legal ways, to obtain the payments selected by Indemnitee under items (i) through (vi) above.

(c) For purposes of this Agreement, references to "other enterprises" shall include employee benefit plans for employees of the Company or of any of its subsidiaries without regard to ownership of such plans; references to "fines" shall include any excise taxes assessed on Indemnitee with respect to any employee benefit plan; references to "serving at the request of the Company" shall include any service as a director, officer, trustee, employee, representative or agent of the Company

which imposes duties on, or involves services by, Indemnitee with respect to an employee benefit plan, its participants or beneficiaries; references to the masculine shall include the feminine; references to the singular shall include the plural and vice versa; and if Indemnitee acted in good faith and in a manner Indemnitee reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan, Indemnitee shall be deemed to have acted in a manner consistent with the standards required for indemnification by the Company under the Applicable Documents.

## 2. INSURANCE

The Company shall maintain directors' and officers' liability insurance which is at least as favorable to Indemnitee as the policy in effect on the date hereof and for so long as Indemnitee's services are covered hereunder, provided and to the extent that such insurance is available on a reasonable commercial basis. However, Indemnitee shall continue to be entitled to the indemnification rights provided hereunder regardless of whether liability or other insurance coverage is at any time obtained or retained by the Company. Any payments in fact made to Indemnitee under an insurance policy obtained or retained by the Company shall reduce the obligation of the Company to make payments hereunder by the amount of the payments made under any such insurance policy. In the event that insurance becomes unavailable in the amount or scope of coverage of the policy in effect on the date hereof on a reasonable commercial basis and the Company foregoes maintenance of all or a portion of such insurance coverage, the Company shall stand as a self-insurer with respect to the coverage, or portion thereof, not retained, and shall indemnify Indemnitee against any loss arising out of the reduction or cancellation of such insurance coverage.

## 3. PAYMENT OF EXPENSES

At Indemnitee's request, the Company shall pay the Expenses as and when incurred by Indemnitee, after receipt of written notice pursuant to Paragraph 6 hereof and an undertaking in the form of Exhibit II attached hereto by or on behalf of Indemnitee (i) to repay such amounts so paid on Indemnitee's behalf if it shall ultimately be determined under the Applicable Document that Indemnitee is required to repay such Expenses and (ii) to reasonably cooperate with the Company concerning the Proceeding. That portion of Expenses which represents attorneys' fees and other costs incurred in defending any Proceeding shall be paid by the Company within 30 days of its receipt of such notice, together with reasonable documentation evidencing the amount and nature of such Expenses.

## 4. ESCROW RESERVE

The Company shall dedicate up to an aggregate of \$10,000,000 as collateral security for the initial funding of its obligations hereunder and under similar agreements with other directors, officers and representatives by depositing assets or bank letters of credit in escrow or reserving lines of credit that may be drawn down by an escrow agent in the dedicated amount (the "Escrow Reserve"); provided, however,

that the terms of any such Escrow Reserve may provide that the cash, securities or letters or lines of credit available therefor shall only be utilized for the indemnification or advancement of expenses provided for herein in the event that there shall have occurred within the preceding five years a Change in Control of the Company, as defined below. The Company shall promptly provide Indemnitee with a true and complete copy of the agreement relating to the establishment and operation of the Escrow Reserve, together with such additional documentation or information with respect to the escrow as Indemnitee may from time to time reasonably request. The Company shall promptly deliver an executed copy of this Agreement to the Escrow Reserve agent to evidence to the agent that Indemnitee is a beneficiary of the Escrow Reserve and shall deliver to Indemnitee the escrow agent's signed receipt evidencing that delivery. For purposes of this Agreement, a "Change in Control" of the Company shall have occurred if at any time any of the following events shall occur: (i) a tender offer shall be made and consummated for the ownership of securities of the Company representing 25% or more of the combined voting power of Company's then outstanding voting securities; (ii) the Company shall be merged or consolidated with another corporation and as a result of such merger or consolidation less than 75% of the outstanding voting securities of the surviving or resulting corporation shall be owned in the aggregate by the former shareholders of the Company, other than affiliates (within the meaning of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) of any party to such merger or consolidation, as the same shall have existed immediately prior to such merger or consolidation; (iii) the Company shall sell substantially all of its assets to another corporation which is not a wholly-owned subsidiary of the Company; (iv) any person (as such term is used in Sections 3(a)(9) and 13(d)(3) of the Exchange Act) is or becomes the beneficial owner, directly or indirectly, of securities of the Company representing 25% or more of the combined voting power of the Company's then outstanding securities; or (v) during any period of two consecutive years, individuals who at the beginning of such period constitute the Board of Directors of the Company cease for any reason to constitute at least a majority thereof unless the election, or the nomination for election by the Company's shareholders, of each new director was approved by a vote of at least two-thirds of the directors then still in office who were directors at the beginning of the period. For purposes of this Agreement, ownership of voting securities shall take into account and include ownership as determined by applying the provisions of Rule 13d-3(d)(1)(i) of the Exchange Act (as then in effect).

#### 5. ADDITIONAL RIGHTS

The indemnification provided in this Agreement shall not be exclusive of any other indemnification or right to which Indemnitee may be entitled and shall continue after Indemnitee has ceased to occupy a position as an officer, director or representative as described in Paragraph 1 above with respect to Proceedings relating to or arising out of Indemnitee's acts or omissions during Indemnitee's service in such position.

## 6. NOTICE TO COMPANY

Indemnitee shall provide to the Company prompt written notice of any Proceeding brought, threatened, asserted or commenced against Indemnitee with respect to which Indemnitee may assert a right to indemnification hereunder; provided that failure to provide such notice shall not in any way limit Indemnitee's rights under this Agreement.

## 7. COOPERATION IN DEFENSE AND SETTLEMENT

Indemnitee shall not make any admission or effect any settlement with respect to a Proceeding without the Company's written consent unless Indemnitee shall have determined to undertake Indemnitee's own defense in such matter and has waived the benefits of this Agreement in writing delivered to the Company. The Company shall not settle any proceeding to which Indemnitee is a party in any manner which would impose an Expense on Indemnitee without Indemnitee's written consent. Neither Indemnitee nor the Company will unreasonably withhold consent to any proposed settlement. Indemnitee and the Company shall cooperate to the extent reasonably possible with each other and with the Company's insurers, in attempts to defend or settle such Proceeding.

## 8. ASSUMPTION OF DEFENSE

Except as otherwise provided below, to the extent that it may wish, the Company jointly with any other indemnifying party similarly notified will be entitled to assume Indemnitee's defense in any Proceeding, with counsel mutually satisfactory to Indemnitee and the Company. After notice from the Company to Indemnitee of the Company's election so to assume such defense, the Company will not be liable to Indemnitee under this Agreement for Expenses subsequently incurred by Indemnitee in connection with the defense thereof other than reasonable costs of investigation or as otherwise provided below. Indemnitee shall have the right to employ counsel in such Proceeding, but the fees and expenses of such counsel incurred after notice from the Company of its assumption of the defense thereof shall be at Indemnitee's expense unless:

(a) the employment of counsel by Indemnitee has been authorized by the Company;

(b) counsel employed by the Company initially is unacceptable or later becomes unacceptable to Indemnitee and such unacceptability is reasonable under then existing circumstances;

(c) Indemnitee shall have reasonably concluded that there may be a conflict of interest between Indemnitee and the Company in the conduct of the defense of such Proceeding; or

(d) the Company shall not have employed counsel promptly to assume the defense of such Proceeding.

In each of the cases set forth in items (a) through (d) above, the fees and expenses of counsel shall be at the expense of the Company and subject to payment pursuant to this Agreement. The Company shall not be entitled to assume the defense of Indemnitee in any Proceeding brought by or on behalf of the Company or as to which Indemnitee shall have reached either of the conclusions provided for in clauses (b) or (c) above.

#### 9. ENFORCEMENT

In the event that any dispute or controversy shall arise under this Agreement between Indemnitee and the Company with respect to whether Indemnitee is entitled to indemnification in connection with any Proceeding or with respect to the amount of Expenses incurred, then with respect to each such dispute or controversy Indemnitee may seek to enforce this Agreement through legal action or, at Indemnitee's sole option and request, through arbitration. If arbitration is requested, such dispute or controversy shall be submitted by the parties to binding arbitration in the City of Boston, Commonwealth of Massachusetts, before a single arbitrator agreeable to both parties. If the parties cannot agree on a designated arbitrator within 15 days after arbitration is requested in writing by either of them, the arbitration shall proceed in the City of Boston, Commonwealth of Massachusetts, before an arbitrator appointed by the American Arbitration Association. In either case, the arbitration proceeding shall commence promptly under the rules then in effect of that Association and the arbitrator agreed to by the parties or appointed by that Association shall be an attorney other than an attorney who has, or is associated with a firm having associated with it an attorney which has, been retained by or performed services for the Company or Indemnitee at any time during the five years preceding the commencement of arbitration. The award shall be rendered in such form that judgment may be entered thereon in any court having jurisdiction thereof. The prevailing party shall be entitled to prompt reimbursement of any costs and expenses (including, without limitation, reasonable attorney's fees) incurred in connection with such legal action or arbitration provided that Indemnitee shall not be obligated to reimburse the Company unless the arbitrator or court which resolves the dispute determines that Indemnitee acted in bad faith in bringing such action or arbitration.

#### 10. EXCLUSIONS

Notwithstanding the scope of indemnification which may be available to Indemnitees from time to time under an Applicable Document, no indemnification, reimbursement or payment shall be required of the Company hereunder with respect to:

(a) any claim or any part thereof as to which Indemnitee shall have been adjudged by a court of competent jurisdiction from which no appeal is or can be taken, by clear and convincing evidence, to have acted or failed to act with deliberate

intent to cause injury to the Company or with reckless disregard for the best interests of the Company;

(b) any claim or any part thereof arising under Section 16(b) of the Exchange Act pursuant to which Indemnitee shall be obligated to pay any penalty, fine, settlement or judgment;

(c) any obligation of Indemnitee based upon or attributable to Indemnitee gaining in fact any personal gain, profit or advantage to which Indemnitee was not entitled; or

(d) any Proceeding initiated by Indemnitee without the consent or authorization of the Board of Directors of the Company, provided that this exclusion shall not apply with respect to any claims brought by Indemnitee (i) to enforce Indemnitee's rights under this Agreement or (ii) in any Proceeding initiated by another person or entity whether or not such claims were brought by Indemnitee against a person or entity who was otherwise a party to such Proceeding.

Nothing in this Paragraph 10 shall eliminate or diminish the Company's obligations to advance that portion of Indemnitee's Expenses which represent attorneys' fees and other costs incurred in defending any proceeding pursuant to Paragraph 3 of this Agreement.

#### 11. EXTRAORDINARY TRANSACTIONS

The Company covenants and agrees that, in the event of any merger, consolidation or reorganization in which the Company is not the surviving entity, any sale of all or substantially all of the assets of the Company or any liquidation of the Company (each such event is hereinafter referred to as an "extraordinary transaction"), the Company shall:

(a) have the obligations of the Company under this Agreement expressly assumed by the survivor, purchaser or successor, as the case may be, in such extraordinary transaction; or

(b) otherwise adequately provide for the satisfaction of the Company's obligations under this Agreement, in a manner acceptable to Indemnitee.

#### 12. NO PERSONAL LIABILITY

Indemnitee agrees that neither the directors nor any officer, employee, representative or agent of the Company shall be personally liable for the satisfaction of the Company's obligations under this Agreement, and Indemnitee shall look solely to the assets of the Company and the Escrow Reserve referred to in Paragraph 4 hereof for satisfaction of any claims hereunder.

## 13. PERIOD OF LIMITATIONS

No legal action shall be brought and no cause of action shall be asserted by or on behalf of the Company or any affiliate of the Company against Indemnitee, Indemnitee's spouse, heirs, executors or personal or legal representatives after the expiration of two years from the date of accrual of such cause of action, and any claim or cause of action of the Company or its affiliate shall be extinguished and deemed released unless asserted by the timely filing of legal action within such two-year period; provided, however, that if any shorter period of limitations is otherwise applicable to any such cause of action such shorter period shall govern.

## 14. SEVERABILITY

If any provision, phrase, or other portion of this Agreement should be determined by any court of competent jurisdiction to be invalid, illegal or unenforceable, in whole or in part, and such determination should become final, such provision, phrase or other portion shall be deemed to be severed or limited, but only to the extent required to render the remaining provisions and portions of this Agreement enforceable, and this Agreement as thus amended shall be enforced to give effect to the intention of the parties insofar as that is possible.

## 15. SUBROGATION

In the event of any payment under this Agreement, the Company shall be subrogated to the extent thereof to all rights to indemnification or reimbursement against any insurer or other entity or person vested in Indemnitee, who shall execute all instruments and take all other action as shall be reasonably necessary for the Company to enforce such rights.

## 16. GOVERNING LAW

The parties hereto agree that this Agreement shall be construed and enforced in accordance with and governed by the laws of the State of Delaware.

## 17. NOTICES

All notices, requests, demands and other communications hereunder shall be in writing and shall be considered to have been duly given if delivered by hand and receipted for by the party to whom the notice, request, demand or other communication shall have been directed, or mailed by certified mail, return receipt requested, with postage prepaid:

- (a) If to the Company, to:

Axcelis Technologies, Inc.  
55 Cherry Hill Drive  
Beverly, Massachusetts 01915

Or to such other or further address as shall be designated from time to time by Indemnitee or the Company to the other.

18. TERMINATION

This Agreement may be terminated by either party upon not less than 60 days' prior written notice delivered to the other party, but such termination shall not in any way diminish the obligations of the Company hereunder (including the obligation to maintain the Escrow Reserve referred to in Paragraph 4 hereof) with respect to Indemnitee's activities prior to the effective date of the termination.

19. AMENDMENTS

This Agreement and the rights and duties of Indemnitee and the Company hereunder may not be amended, modified or terminated except by written instrument signed and delivered by the parties hereto.

20. BINDING EFFECT

FORM OF CHANGE OF CONTROL  
AGREEMENT

AGREEMENT by and between AXCELIS TECHNOLOGIES, INC., a Delaware corporation (the "Company") and \_\_\_\_\_ (the "Executive"), dated as of the 30th day of June, 2000.

The Board of Directors of the Company (the "Board") has determined that it is in the best interests of the Company and its shareholders to assure that the Company will have the continued dedication of the Executive, notwithstanding the possibility, threat or occurrence of a Change of Control (as defined below) of the Company. The Board believes it is imperative to diminish the inevitable distraction of the Executive by virtue of the personal uncertainties and risks created by a pending or threatened Change of Control and to encourage the Executive's full attention and dedication to the Company currently and in the event of any threatened or pending Change of Control, and to provide the Executive with compensation and benefits arrangements upon a Change of Control which ensure that the compensation and benefits expectations of the Executive will be satisfied and which are competitive with those of other corporations. Therefore, in order to accomplish these objectives, the Board has caused the Company to enter into this Agreement.

NOW, THEREFORE, IT IS HEREBY AGREED AS FOLLOWS:

1. Certain Definitions.

(a) The "Effective Date" shall mean the first date during the Change of Control Period (as defined in Section 1(b)) on which a Change of Control (as defined in Section 2) occurs. Anything in this Agreement to the contrary notwithstanding, if a Change of Control occurs and if the Executive's employment with the Company is terminated prior to the date on which the Change of Control occurs, and if it is reasonably demonstrated by the Executive that such termination of employment (i) was at the request of a third party who has taken steps reasonably calculated to effect a Change of Control or (ii) otherwise arose in connection with or anticipation

of a Change of Control, then for all purposes of this Agreement the "Effective Date" shall mean the date immediately prior to the date of such termination of employment.

(b) The "Change of Control Period" shall mean the period commencing on the date hereof and ending on the third anniversary of the date hereof; provided, however, that commencing on the date one year after the date hereof, and on each annual anniversary of such date (such date and each annual anniversary thereof shall be hereinafter referred to as the "Renewal Date"), unless previously terminated, the Change of Control Period shall be automatically extended so as to terminate three years from such Renewal Date, unless at least 60 days prior to the Renewal Date the Company shall give notice to the Executive that the Change of Control Period shall not be so extended.

2. Change of Control. For the purpose of this Agreement, a "Change of Control" shall mean:

(a) The acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) (a "Person") of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of 25% or more of either (i) the then outstanding shares of common stock of the Company (the "Outstanding Company Common Stock") or (ii) the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors (the "Outstanding Company Voting Securities"); provided, however, that for purposes of this subsection (a), the following acquisitions shall not constitute a Change of Control: (i) any acquisition directly from the Company, (ii) any acquisition by the Company, or (iii) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any corporation controlled by the Company; or

(b) Individuals who, as of the date hereof, constitute the Board (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board; provided, however, that any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the Company's shareholders, was approved by a vote of at least two-thirds of the directors then comprising the Incumbent Board shall be considered as though such

individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board; or

(c) Consummation by the Company of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company or the acquisition of assets of another corporation (a "Business Combination"), in each case, unless, following such Business Combination, (i) all or substantially all of the individuals and entities who were the beneficial owners, respectively, of the Outstanding Company Common Stock and Outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than 75% of, respectively, the then outstanding shares of common stock and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the corporation resulting from such Business Combination (including, without limitation, a corporation which as a result of such transaction owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries) in substantially the same proportions as their ownership, immediately prior to such Business Combination of the Outstanding Company Common Stock and Outstanding Company Voting Securities, as the case may be, (ii) no Person (excluding any employee benefit plan (or related trust) of the Company or such corporation resulting from such Business Combination) beneficially owns, directly or indirectly, 25% or more of, respectively, the then outstanding shares of common stock of the corporation resulting from such Business Combination or the combined voting power of the then outstanding voting securities of such corporation except to the extent that such ownership existed prior to the Business Combination and (iii) at least a majority of the members of the board of directors of the corporation resulting from such Business Combination were members of the Incumbent Board at the time of the execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or

(d) Approval by the shareholders of the Company of a complete liquidation or dissolution of the Company.

Notwithstanding the foregoing, a "Change of Control" shall not be deemed to have occurred as a result of any transaction or series of transactions (i) which the Executive, or any entity in which the Executive is a partner, officer or more than 50% owner initiates, if immediately following the transaction or series of transactions that would otherwise constitute a Change in Control, the Executive, either alone or together with other individuals who are executive officers of the Company immediately prior thereto, beneficially owns, directly or indirectly, more than 10% of the then outstanding shares of common stock of the Company or the corporation resulting from the transaction or series of transactions, as applicable, or of the combined voting power of the then outstanding Voting Securities of the Company or such resulting corporation; or (ii) by which Eaton Corporation disposes of some or all of its interest in the Company, including, but not limited to, Eaton Corporation's sale or other disposition of some or all of its Company Voting Securities; or (iii) an offering of Company Voting Securities to the public directly by the Company or by Eaton Corporation, or any subsidiary or affiliate.

3. Employment Period. The Company hereby agrees to continue the Executive in its employ, and the Executive hereby agrees to remain in the employ of the Company subject to the terms and conditions of this Agreement, as such may be supplemented or modified by an employment agreement, if any, between the Company and the Executive, for the period commencing on the Effective Date and ending on the third anniversary of such date (the "Employment Period").

#### 4. Terms of Employment.

(a) Position and Duties. (i) During the Employment Period, (A) the Executive's position (including status, offices, titles and reporting requirements), authority, duties and responsibilities shall be at least commensurate in all material respects with the most significant of those held, exercised and assigned to the Executive at any time during the 120-day period immediately preceding the Effective Date and (B) the Executive's services shall be performed at the location where the Executive was employed immediately preceding the Effective Date or any office or location less than 35 miles from such location.

(ii) During the Employment Period, and excluding any periods of vacation and sick leave to which the Executive is entitled, the Executive agrees to devote reasonable attention and time during normal business hours to the business and affairs of the Company and, to the extent necessary to discharge the responsibilities assigned to the Executive hereunder, to use the Executive's reasonable best efforts to perform faithfully and efficiently such responsibilities. During the Employment Period it shall not be a violation of this Agreement for the Executive to (A) serve on corporate, civic or charitable boards or committees, (B) fulfill speaking engagements and (C) manage personal investments, so long as such activities do not significantly interfere with the performance of the Executive's responsibilities as an employee of the Company in accordance with this Agreement. It is expressly understood and agreed that to the extent that any such activities have been conducted by the Executive prior to the Effective Date, the continued conduct of such activities (or the conduct of activities similar in nature and scope thereto) subsequent to the Effective Date shall not thereafter be deemed to interfere with the performance of the Executive's responsibilities to the Company.

(b) Compensation.

(i) Base Salary. During the Employment Period, the Executive shall receive an annual base salary ("Annual Base Salary"), which shall be paid at a monthly rate, at least equal to twelve times the highest monthly base salary paid or payable, including any base salary which has been earned but deferred, to the Executive by the Company and its affiliated companies in respect of the twelve-month period immediately preceding the month in which the Effective Date occurs. During the Employment Period, the Annual Base Salary shall be increased no more than 12 months after the last salary increase awarded to the Executive prior to the Effective Date, and thereafter at least annually, in each case by a percentage not less than the average annual percentage merit increase in the Executive's base salary during the five (5) full calendar years immediately preceding the Effective Date. Any increase in Annual Base Salary shall not serve to limit or reduce any other obligation to the Executive under this Agreement. Annual Base Salary shall not be reduced after any such increase and the term Annual Base Salary as utilized in this Agreement shall refer to Annual Base Salary as so increased. As used in this

Agreement, the term "affiliated companies" shall include any company controlled by, controlling or under common control with the Company.

(ii) Annual Bonus. In addition to Annual Base Salary, the Executive shall be awarded, for each fiscal year ending during the Employment Period, an annual bonus (the "Annual Bonus") in cash in an amount (the "Annual Bonus Amount") at least equal to the Executive's Annual Bonus opportunity for the most recent year for which an annual Bonus opportunity was established before the Effective Date under the Company's then annual incentive plan or program, adjusted by the average of the Executive's individual performance rating for each of the three most recent years ended before the Effective Date, but eliminating any corporate performance measure. Each such Annual Bonus shall be paid no later than the end of the third month of the fiscal year next following the fiscal year for which the Annual Bonus is awarded, unless the Executive shall elect to defer the receipt of such Annual Bonus.

(iii) Incentive, Savings and Retirement Plans. During the Employment Period, the Executive shall be entitled to participate in all incentive, employee stock purchase, savings and retirement plans, practices, policies and programs applicable generally to other peer executives of the Company and its affiliated companies, but in no event shall such plans, practices, policies and programs provide the Executive with incentive opportunities (measured with respect to both regular and special incentive opportunities, to the extent, if any, that such distinction is applicable), savings opportunities and retirement benefit opportunities, in each case, less favorable, in the aggregate, than the most favorable of those provided by the Company and its affiliated companies for the Executive under such plans, practices, policies and programs as in effect at any time during the 120-day period immediately preceding the Effective Date or if more favorable to the Executive, those provided generally at any time after the Effective Date to other peer executives of the Company and its affiliated companies.

(iv) Welfare Benefit Plans. During the Employment Period, the Executive and/or the Executive's family, as the case may be, shall be eligible for participation in and shall receive all benefits under welfare benefit plans, practices, policies and programs provided by the Company and its affiliated companies (including, without limitation, medical, prescription, dental, disability, salary continuance, employee life, group life, accidental death and travel accident

insurance plans and programs) to the extent applicable generally to other peer executives of the Company and its affiliated companies, but in no event shall such plans, practices, policies and programs provide the Executive with benefits which are less favorable, in the aggregate, than the most favorable of such plans, practices, policies and programs in effect for the Executive at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Executive, those provided generally at any time after the Effective Date to other peer executives of the Company and its affiliated companies.

(v) Expenses. During the Employment Period, the Executive shall be entitled to receive prompt reimbursement for all reasonable expenses incurred by the Executive in accordance with the most favorable policies, practices and procedures of the Company and its affiliated companies in effect for the Executive at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Executive, as in effect generally at any time thereafter with respect to other peer executives of the Company and its affiliated companies.

(vi) Fringe Benefits. During the Employment Period, the Executive shall be entitled to fringe benefits in accordance with the most favorable plans, practices, programs and policies of the Company and its affiliated companies in effect for the Executive at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Executive, as in effect generally at any time thereafter with respect to other peer executives of the Company and its affiliated companies.

(vii) Office and Support Staff. During the Employment Period, the Executive shall be entitled to an office or offices of a size and with furnishings and other appointments, and to exclusive personal secretarial and other assistance, at least equal to the most favorable of the foregoing provided to the Executive by the Company and its affiliated companies at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Executive, as provided generally at any time thereafter with respect to other peer executives of the Company and its affiliated companies.

(viii) Vacation. During the Employment Period, the Executive shall be entitled to paid vacation in accordance with the most favorable plans, policies, programs and practices of the Company and its affiliated companies as in effect for the Executive at any time during the

120-day period immediately preceding the Effective Date or, if more favorable to the Executive, as in effect generally at any time thereafter with respect to other peer executives of the Company and its affiliated companies.

5. Termination of Employment.

(a) Death or Disability. The Executive's employment shall terminate automatically upon the Executive's death during the Employment Period. If the Company determines in good faith that the Disability of the Executive has occurred during the Employment Period (pursuant to the definition of Disability set forth below), it may give to the Executive written notice in accordance with Section 12(b) of this Agreement of its intention to terminate the Executive's employment. In such event, the Executive's employment with the Company shall terminate effective on the 30th day after receipt of such notice by the Executive (the "Disability Effective Date"), provided that, within the 30 days after such receipt, the Executive shall not have returned to full-time performance of the Executive's duties. For purposes of this Agreement, "Disability" shall mean the absence of the Executive from the Executive's duties with the Company on a full-time basis for 180 consecutive business days as a result of incapacity due to mental or physical illness or injury which is determined to be total and permanent by a physician selected by the Company or its insurers and acceptable to the Executive or the Executive's legal representative.

(b) Cause. The Company may terminate the Executive's employment during the Employment Period for Cause. For purposes of this Agreement, "Cause" shall mean:

(i) the willful and continued failure of the Executive to perform substantially the Executive's duties with the Company or one of its affiliates (other than any such failure resulting from incapacity due to physical or mental illness), after a written demand for substantial performance is delivered to the Executive by the Board or the Chief Executive Officer of the Company which specifically identifies the manner in which the Board or Chief Executive Officer believes that the Executive has not substantially performed the Executive's duties, or

(ii) the willful engaging by the Executive in illegal conduct or gross misconduct which is materially and demonstrably injurious to the Company.

For purposes of this provision, no act or failure to act, on the part of the Executive, shall be considered "willful" unless it is done, or omitted to be done, by the Executive in bad faith or without

reasonable belief that the Executive's action or omission was in the best interests of the Company. Any act, or failure to act, based upon authority given pursuant to a resolution duly adopted by the Board or upon the instructions of the Chief Executive Officer or a senior officer of the Company or based upon the advice of counsel for the Company shall be conclusively presumed to be done, or omitted to be done, by the Executive in good faith and in the best interests of the Company. The cessation of employment of the Executive shall not be deemed to be for Cause unless and until there shall have been delivered to the Executive a copy of a resolution duly adopted by the affirmative vote of not less than three-quarters of the entire membership of the Board at a meeting of the Board called and held for such purpose (after reasonable notice is provided to the Executive and the Executive is given an opportunity, together with counsel, to be heard before the Board), finding that, in the good faith opinion of the Board, the Executive is guilty of the conduct described in subparagraph (i) or (ii) above, and specifying the particulars thereof in detail.

(c) Good Reason. The Executive's employment may be terminated by the Executive for Good Reason. For purposes of this Agreement, "Good Reason" shall mean:

(i) the assignment to the Executive of any duties inconsistent in any respect with the Executive's position (including status, offices, titles and reporting requirements), authority, duties or responsibilities as contemplated by Section 4(a) of this Agreement, or any other action by the Company which results in a diminution in such position, authority, duties or responsibilities, excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and which is remedied by the Company promptly after receipt of notice thereof given by the Executive;

(ii) any failure by the Company to comply with any of the provisions of Section 4(b) of this Agreement, other than an isolated, insubstantial and inadvertent failure not occurring in bad faith and which is remedied by the Company promptly after receipt of notice thereof given by the Executive;

(iii) the Company's requiring the Executive to be based at any office or location other than as provided in Section 4(a)(i)(B) hereof or the Company's requiring

the Executive to travel on Company business to a substantially greater extent than required immediately prior to the Effective Date;

(iv) any purported termination by the Company of the Executive's employment otherwise than as expressly permitted by this Agreement; or

(v) any failure by the Company to comply with and satisfy Section 11(c) of this Agreement.

For purposes of this Section 5(c), any good faith determination of "Good Reason" made by the Executive shall be conclusive.

(d) Notice of Termination. Any termination by the Company for Cause, or by the Executive for Good Reason, shall be communicated by Notice of Termination to the other party hereto given in accordance with Section 13(b) of this Agreement. For purposes of this Agreement, a "Notice of Termination" means a written notice which (i) indicates the specific termination provision in this Agreement relied upon, (ii) to the extent applicable, sets forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of the Executive's employment under the provision so indicated and (iii) if the Date of Termination (as defined below) is other than the date of receipt of such notice, specifies the termination date (which date shall be not more than thirty days after the giving of such notice). The failure by the Executive or the Company to set forth in the Notice of Termination any fact or circumstance which contributes to a showing of Good Reason or Cause shall not waive any right of the Executive or the Company, respectively, hereunder or preclude the Executive or the Company, respectively, from asserting such fact or circumstance in enforcing the Executive's or the Company's rights hereunder.

(e) Date of Termination. "Date of Termination" means (i) if the Executive's employment is terminated by the Company for Cause, or by the Executive for Good Reason, the date of receipt of the Notice of Termination or any later date specified therein, as the case may be, (ii) if the Executive's employment is terminated by the Company other than for Cause or Disability, the date on which the Company notifies the Executive of such termination and (iii) if the

Executive's employment is terminated by reason of death or Disability, the date of death of the Executive or the Disability Effective Date, as the case may be.

6. Obligations of the Company upon Termination.

(a) Good Reason; Other Than for Cause, Death or Disability. If, during the Employment Period, the Company shall terminate the Executive's employment other than for Cause or Disability or the Executive shall terminate employment for Good Reason:

(i) the Company shall pay to the Executive in a lump sum in cash within 30 days after the Date of Termination the aggregate of the following amounts:

A. the sum of (1) the Executive's Annual Base Salary through the Date of Termination, to the extent not theretofore paid to the Executive, (2) the amount, if any, which has been earned by the Executive with respect to any completed Incentive Year under the Company's Incentive Compensation Plan or any successor thereto, and any completed Award Period under the Company's Executive Strategic Incentive Plan or any successor thereto, in each case to the extent not theretofore paid to the Executive, and (3) with respect to each Award Period under the Company's Executive Strategic Incentive Plan or any successor thereto which begins before and ends after the Date of Termination, an amount equal to (x) 100% of the Executive's Individual Incentive Target (as defined in such plan) for such Award Period times (y) a fraction, the numerator of which is the number of days in such Award Period before the Date of Termination, and the denominator of which is the total number of days in such Award Period (the sum of the amounts described in clauses (1), (2) and (3) shall be hereinafter referred to as the "Accrued Obligations"); and

B. the product of (1) the Multiple (as defined below) and (2) the sum of (x) the Executive's Annual Base Salary and (y) the Annual Bonus Amount;

(ii) for a number of years after the Executive's Date of Termination equal to the lesser of two and the Multiple, or such longer period as may be provided by the terms of the appropriate plan, program, practice or policy, the Company shall continue benefits to the Executive

and/or the Executive's family at least equal to those which would have been provided to them in accordance with the plans, programs, practices and policies described in Section 4(b)(iv) of this Agreement if the Executive's employment had not been terminated or, if more favorable to the Executive, as in effect generally at any time thereafter with respect to other peer executives of the Company and its affiliated companies and their families, provided, however, that if the Executive becomes re-employed with another employer and is eligible to receive medical or other welfare benefits under another employer-provided plan, the medical and other welfare benefits described herein shall be secondary to those provided under such other plan during such applicable period of eligibility, and for purposes of determining eligibility (but not the time of commencement of benefits) of the Executive for retiree benefits pursuant to such plans, practices, programs and policies, the Executive shall be considered to have remained employed for a number of years after the Date of Termination equal to the lesser of two and the Multiple and to have retired on the last day of such period;

(iii) to the extent not theretofore paid or provided, the Company shall timely pay or provide to the Executive any other amounts or benefits required to be paid or provided or which the Executive is eligible to receive under any plan, program, policy or practice or contract or agreement of the Company and its affiliated companies (such other amounts and benefits shall be hereinafter referred to as the "Other Benefits").

The "Multiple" means the lesser of (i) three and (ii) the number of years and portions thereof (expressed as a decimal fraction) from the Date of Termination until the Executive's 65th birthday.

(b) Death. If the Executive's employment is terminated by reason of the Executive's death during the Employment Period, this Agreement shall terminate without further obligations to the Executive's legal representatives under this Agreement, other than for payment of Accrued Obligations and the timely payment or provision of Other Benefits. Accrued Obligations shall be paid to the Executive's estate or beneficiary, as applicable, in a lump sum in cash within 30 days of the Date of Termination. With respect to the provision of Other Benefits, the term Other Benefits as utilized in this Section 6(b) shall include, without limitation, and the Executive's

estate and/or beneficiaries shall be entitled to receive, benefits at least equal to the most favorable benefits provided by the Company and affiliated companies to the estates and beneficiaries of peer executives of the Company and such affiliated companies under such plans, programs, practices and policies relating to death benefits, if any, as in effect with respect to other peer executives and their beneficiaries at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Executive's estate and/or the Executive's beneficiaries, as in effect on the date of the Executive's death with respect to other peer executives of the Company and its affiliated companies and their beneficiaries.

(c) Disability. If the Executive's employment is terminated by reason of the Executive's Disability during the Employment Period, this Agreement shall terminate without further obligations to the Executive, other than for payment of Accrued Obligations and the timely payment or provision of Other Benefits. Accrued Obligations shall be paid to the Executive in a lump sum in cash within 30 days of the Date of Termination. With respect to the provision of Other Benefits, the term Other Benefits as utilized in this Section 6(c) shall include, and the Executive shall be entitled after the Disability Effective Date to receive, disability and other benefits at least equal to the most favorable of those generally provided by the Company and its affiliated companies to disabled executives and/or their families in accordance with such plans, programs, practices and policies relating to disability, if any, as in effect generally with respect to other peer executives and their families at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Executive and/or the Executive's family, as in effect at any time thereafter generally with respect to other peer executives of the Company and its affiliated companies and their families.

(d) Cause; Other than for Good Reason. If the Executive's employment shall be terminated for Cause during the Employment Period, this Agreement shall terminate without further obligations to the Executive other than the obligation to pay to the Executive (x) the Annual Base Salary through the Date of Termination and (y) Other Benefits, in each case to the extent theretofore unpaid. If the Executive voluntarily terminates employment during the Employment Period, excluding a termination for Good Reason, this Agreement shall terminate without further obligations to the Executive, other than for Accrued Obligations and the timely

payment or provision of Other Benefits. In such case, all Accrued Obligations shall be paid to the Executive in a lump sum in cash within 30 days of the Date of Termination.

7. Non-exclusivity of Rights. Nothing in this Agreement shall prevent or limit the Executive's continuing or future participation in any plan, program, policy or practice provided by the Company or any of its affiliated companies and for which the Executive may qualify, nor, subject to the last sentence of this Section 7 and to Section 13(f), shall anything herein limit or otherwise affect such rights as the Executive may have under any contract or agreement with the Company or any of its affiliated companies. Without limiting the generality of the foregoing, the Company and the Executive may, but shall not be required to, enter into an employment agreement setting forth certain terms and conditions of the Executive's employment and, if an employment agreement is in effect, the terms and conditions of this Agreement shall be and remain in full force and effect and the terms and conditions of that employment agreement shall be deemed to supplement but not supercede the terms and conditions of this Agreement; provided, however, the Executive shall be entitled to receive the greater of the amounts and benefits due under this Agreement and such employment agreement but not the aggregate of the amounts and benefits under both such agreements. If amounts and benefits are due under this Agreement and under an employment agreement, the amounts due under this Agreement shall be paid and the Company will be obligated under the employment agreement only to the extent the amounts and benefits under the employment agreement exceed the amounts actually paid under this Agreement. Amounts which are vested benefits or which the Executive is otherwise entitled to receive under any plan, policy, practice or program of or any contract or agreement with the Company or any of its affiliated companies at or subsequent to the Date of Termination shall be payable in accordance with such plan, policy, practice or program or contract or agreement except as explicitly modified by this Agreement. Notwithstanding the foregoing, if the Executive becomes entitled to receive severance benefits under Section 6(a) hereof, such severance benefits shall be in lieu of any benefits under any severance or separation plan, program or policy of the Company or any of its affiliated companies to which the Executive would otherwise have been entitled.

8. Full Settlement; Legal Fees. The Company's obligation to make the payments provided for in this Agreement and otherwise to perform its obligations hereunder shall not be affected by any set-off, counterclaim, recoupment, defense or other claim, right or action which the Company may have against the Executive or others. In no event shall the Executive be obligated to seek other employment or take any other action by way of mitigation of the amounts payable to the Executive under any of the provisions of this Agreement and except as specifically provided in Section 6(a)(ii), such amounts shall not be reduced whether or not the Executive obtains other employment. The Company agrees to pay as incurred, to the full extent permitted by law, all legal fees and expenses which the Executive may reasonably incur as a result of any contest (regardless of the outcome thereof) by the Company, the Executive or others of the validity or enforceability of, or liability under, any provision of this Agreement or any guarantee of performance thereof (whether such contest is between the Company and the Executive or between either of them and any third party, and including as a result of any contest by the Executive about the amount of any payment pursuant to this Agreement), plus in each case interest on any delayed payment at the applicable Federal rate provided for in Section 7872(f)(2)(A) of the Internal Revenue Code of 1986, as amended (the "Code").

9. Certain Additional Payments by the Company.

(a) Anything in this Agreement to the contrary notwithstanding, in the event it shall be determined that any payment or distribution by the Company to or for the benefit of the Executive (whether paid or payable or distributed or distributable pursuant to the terms of this Agreement or otherwise, but determined without regard to any additional payments required under this Section 9) (a "Payment") would be subject to the excise tax imposed by Section 4999 of the Code or any interest or penalties are incurred by the Executive with respect to such excise tax (such excise tax, together with any such interest and penalties, are hereinafter collectively referred to as the "Excise Tax"), then the Executive shall be entitled to receive an additional payment (a "Gross-Up Payment") in an amount such that after payment by the Executive of all taxes (including any interest or penalties imposed with respect to such taxes), including, without limitation, any income taxes (and any interest and penalties imposed with respect thereto) and Excise

Tax imposed upon the Gross-Up Payment, the Executive retains an amount of the Gross-Up Payment equal to the Excise Tax imposed upon the Payments.

(b) Subject to the provisions of Section 9(c), all determinations required to be made under this Section 9, including whether and when a Gross-Up Payment is required and the amount of such Gross-Up Payment and the assumptions to be utilized in arriving at such determination, shall be made by Ernst & Young LLP or such other certified public accounting firm as may be designated by the Executive (the "Accounting Firm"), which shall provide detailed supporting calculations both to the Company and the Executive within 15 business days of the receipt of notice from the Executive that there has been a Payment, or such earlier time as is requested by the Company. In the event that the Accounting Firm is serving as accountant or auditor for the individual, entity or group effecting the Change of Control, the Executive shall appoint another nationally recognized accounting firm to make the determinations required hereunder (which accounting firm shall then be referred to as the Accounting Firm hereunder). All fees and expenses of the Accounting Firm shall be borne solely by the Company. Any Gross-Up Payment, as determined pursuant to this Section 9, shall be paid by the Company to the Executive within five days of the receipt of the Accounting Firm's determination. Any determination by the Accounting Firm shall be binding upon the Company and the Executive. As a result of the uncertainty in the application of Section 4999 of the Code at the time of the initial determination by the Accounting Firm hereunder, it is possible that Gross-Up Payments which will not have been made by the Company should have been made ("Underpayment"), consistent with the calculations required to be made hereunder. In the event that the Company exhausts its remedies pursuant to Section 9(c) and the Executive thereafter is required to make a payment of any Excise Tax, the Accounting Firm shall determine the amount of the Underpayment that has occurred and any such Underpayment shall be promptly paid by the Company to or for the benefit of the Executive.

(c) The Executive shall notify the Company in writing of any claim by the Internal Revenue Service that, if successful, would require the payment by the Company of the Gross-Up Payment. Such notification shall be given as soon as practicable but no later than ten business days after the Executive is informed in writing of such claim and shall apprise the Company of the nature

of such claim and the date on which such claim is requested to be paid. The Executive shall not pay such claim prior to the expiration of the 30-day period following the date on which he gives such notice to the Company (or such shorter period ending on the date that any payment of taxes with respect to such claim is due). If the Company notifies the Executive in writing prior to the expiration of such period that it desires to contest such claim, the Executive shall:

(i) give the Company any information reasonably requested by the Company relating to such claim,

(ii) take such action in connection with contesting such claim as the Company shall reasonably request in writing from time to time, including, without limitation, accepting legal representation with respect to such claim by an attorney reasonably selected by the Company,

(iii) cooperate with the Company in good faith in order effectively to contest such claim, and

(iv) permit the Company to participate in any proceedings relating to such claim;

provided, however, that the Company shall bear and pay directly all costs and expenses (including additional interest and penalties) incurred in connection with such contest and shall indemnify and hold the Executive harmless, on an after-tax basis, for any Excise Tax or income tax (including interest and penalties with respect thereto) imposed as a result of such representation and payment of costs and expenses. Without limitation on the foregoing provisions of this Section 9(c), the Company shall control all proceedings taken in connection with such contest and, at its sole option, may pursue or forgo any and all administrative appeals, proceedings, hearings and conferences with the taxing authority in respect of such claim and may, at its sole option, either direct the Executive to pay the tax claimed and sue for a refund or contest the claim in any permissible manner, and the Executive agrees to prosecute such contest to a determination before any administrative tribunal, in a court of initial jurisdiction and in one or more appellate courts, as the Company shall determine; provided, however, that if the Company directs the Executive to

pay such claim and sue for a refund, the Company shall advance the amount of such payment to the Executive, on an interest-free basis and shall indemnify and hold the Executive harmless, on an after-tax basis, from any Excise Tax or income tax (including interest or penalties with respect thereto) imposed with respect to such advance or with respect to any imputed income with respect to such advance; and further provided that any extension of the statute of limitations relating to payment of taxes for the taxable year of the Executive with respect to which such contested amount is claimed to be due is limited solely to such contested amount. Furthermore, the Company's control of the contest shall be limited to issues with respect to which a Gross-Up Payment would be payable hereunder and the Executive shall be entitled to settle or contest, as the case may be, any other issue raised by the Internal Revenue Service or any other taxing authority.

(d) If, after the receipt by the Executive of an amount advanced by the Company pursuant to Section 9(c), the Executive becomes entitled to receive any refund with respect to such claim, the Executive shall (subject to the Company's complying with the requirements of Section 9(c)) promptly pay to the Company the amount of such refund (together with any interest paid or credited thereon after taxes applicable thereto). If, after the receipt by the Executive of an amount advanced by the Company pursuant to Section 9(c), a determination is made that the Executive shall not be entitled to any refund with respect to such claim and the Company does not notify the Executive in writing of its intent to contest such denial of refund prior to the expiration of 30 days after such determination, then such advance shall be forgiven and shall not be required to be repaid and the amount of such advance shall offset, to the extent thereof, the amount of Gross-Up Payment required to be paid.

10. Confidential Information. The Executive shall hold in a fiduciary capacity for the benefit of the Company all secret or confidential information, knowledge or data relating to the Company or any of its affiliated companies, and their respective businesses, which shall have been obtained by the Executive during the Executive's employment by the Company or any of its affiliated companies and which shall not be or become public knowledge (other than by acts by the Executive or representatives of the Executive in violation of this Agreement). After termination of the Executive's employment with the Company, the Executive shall not, without

the prior written consent of the Company or as may otherwise be required by law or legal process, communicate or divulge any such information, knowledge or data to anyone other than the Company and those designated by it. In no event shall an asserted violation of the provisions of this Section 10 constitute a basis for deferring or withholding any amounts otherwise payable to the Executive under this Agreement.

11. Successors. (a) This Agreement is personal to the Executive and without the prior written consent of the Company shall not be assignable by the Executive otherwise than by will or the laws of descent and distribution. This Agreement shall inure to the benefit of and be enforceable by the Executive's legal representatives.

(b) This Agreement shall inure to the benefit of and be binding upon the Company and its successors and assigns.

(c) The Company will require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business and/or assets of the Company to assume expressly and agree to perform this Agreement in the same manner and to the same extent that the Company would be required to perform it if no such succession had taken place. As used in this Agreement, "Company" shall mean the Company as hereinbefore defined and any successor to its business and/or assets as aforesaid which assumes and agrees to perform this Agreement by operation of law, or otherwise.

## 12. Trust Deposit.

(a) Upon the occurrence of a Proposed Change of Control (as defined below) during the Change of Control Period, the Company shall deposit in trust or escrow with a third party cash in an amount sufficient to provide all of the benefits and other payments to which the Executive would be entitled hereunder if a Change of Control occurred on the date of the Proposed Change of Control and the Executive's employment were terminated by the Executive for Good Reason immediately thereafter. Upon such deposit, references hereunder to any payment by the Company shall be deemed to refer to a payment from such trust or escrow; provided, however, that nothing contained herein shall relieve the Company of its obligation to make the payments required of it hereunder in the event any such payment is not made from the trust or escrow.

(b) "Proposed Change of Control" means:

(i) the commencement of a tender or exchange offer by any third person (other than a tender or exchange offer which, if consummated, would not result in a Change of Control) for 25% or more of the Outstanding Company Common Stock or combined voting power of the Outstanding Company Voting Securities;

(ii) the execution of an agreement by the Company, the consummation of which would result in the occurrence of a Change of Control;

(iii) the public announcement by any person (including the Company) of an intention to take or to consider taking actions which if consummated would constitute a Change of Control other than through a contested election for directors of the Company; or

(iv) the adoption by the Board, as a result of other circumstances, including circumstances similar or related to the foregoing, of a resolution to the effect that, for purposes of this Agreement, a Proposed Change of Control has occurred.

13. Miscellaneous.

(a) This Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Massachusetts, without reference to principles of conflict of laws. The captions of this Agreement are not part of the provisions hereof and shall have no force or effect. This Agreement may not be amended or modified otherwise than by a written agreement executed by the parties hereto or their respective successors and legal representatives.

(b) All notices and other communications hereunder shall be in writing and shall be given by hand delivery to the other party or by registered or certified mail, return receipt requested, postage prepaid, addressed as follows:

(c) The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement.

(d) The Company may withhold from any amounts payable under this Agreement such Federal, state, local or foreign taxes as shall be required to be withheld pursuant to any applicable law or regulation.

(e) The Executive's or the Company's failure to insist upon strict compliance with any provision hereof or any other provision of this Agreement or the failure to assert any right the Executive or the Company may have hereunder, including, without limitation, the right of the Executive to terminate employment for Good Reason pursuant to Section 5(c)(i)-(v) of this Agreement, shall not be deemed to be a waiver of such provision or right or any other provision or right of this Agreement.

(f) The Executive and the Company acknowledge that, except as may otherwise be provided under any other written agreement between the Executive and the Company, the employment of the Executive by the Company is "at will" and, prior to the Effective Date, the Executive's employment may be terminated by either the Executive or the Company at any time prior to the Effective Date, in which case the Executive shall have no further rights under this Agreement. From and after the Effective Date this Agreement shall supersede any other agreement between the parties with respect to the subject matter hereof.

V. RECORD KEEPING AND REPORTS:

5.01 SEN shall keep complete and accurate records and books relating to the manufacture, use and sale of the Products. EATON, through its representatives and employees, shall have the right to inspect and audit such records and books for the purpose of determining the sufficiency and accuracy thereof and the correctness of any payments made hereunder.

5.02 Each sale of Products shall be deemed made when invoiced to the customer. Accompanying each semi-annual royalty payment due under Section III hereof, SEN shall furnish to EATON a statement in writing showing in reasonable detail the following information:

(a) Net Sales, including quantity, description and price of all Products invoiced to customers during the preceding semi-annual period;

(b) A computation of the gross amount of the semi-annual royalty payment due EATON;

(c) Taxes levied in the Territory with respect to each such payment;

(d) A computation of the net amount to be paid to EATON; and

(e) Every schedule of any prices established by SEN for the sale of the Products, including any and all amendments, changes or supplements to such schedules.

VI. TAXES:

SEN shall be entitled to withhold any taxes required by Japanese law to be withheld from payments made to EATON hereunder and shall promptly remit such taxes to the Japanese Government on behalf of EATON. SEN shall promptly furnish to EATON a tax withholding

receipt acknowledging the payment of any such withholding tax when such receipt is received by SEN from the Japanese Government.

VII. DISCLOSURE OF EXISTING TECHNICAL INFORMATION:

7.01 Within thirty (30) days after the signing of this Agreement, EATON shall begin to disclose and supply to SEN all Existing Technical Information which is not already in SEN's possession. However, notwithstanding anything in the preceding sentence to the contrary, in no event shall EATON furnish any Existing Technical Information to SEN on or after the date of any notice of termination of this Agreement. All Existing Technical Information to be supplied under the terms of this Agreement shall be in the language and the system of measures commonly used by EATON or its Affiliated or Related Company supplying the Existing Technical Information.

7.02 The Existing and Future Technical Information to be furnished by EATON hereunder is confidential and secret, and title to all such Technical Information shall remain vested in EATON. SEN shall preserve and protect the confidential nature of the Technical Information and shall not disclose the Technical Information to any parties outside SEN's organization without the written consent of EATON except suppliers, subcontractors and customers to the extent necessary to enable SEN to manufacture, use and sell the Products in accordance with the licenses granted to SEN hereunder. Any and all drawings, blueprints, specifications and other written materials produced by or at the request or direction of SEN disclosing Technical Information to any such party shall be marked with the following language in the English and/or Japanese languages:

Notice to persons receiving this information:

The technical information disclosed herein is the confidential property of Eaton Corporation, Cleveland, Ohio, U.S.A., and is issued in confidence for engineering information only. It may not be reproduced or used in any way without an express written license from Eaton Corporation.

7.03 The disclosures permitted under Paragraph 7.02 above shall not relieve SEN of its obligation to maintain the confidentiality of the Technical Information, and SEN shall be liable for any unauthorized disclosure by it or by those to whom SEN has made any disclosure.

7.04 During the term of this Agreement, EATON shall not convey any of the Technical Information to any party in the Territory other than SEN and shall not use the Technical Information in the manufacture of the Products in the Territory.

## VIII. TECHNICAL ASSISTANCE:

8.01 During an initial period after the Effective Date of this Agreement and from time to time thereafter, EATON shall furnish, upon the written request of SEN, the services of qualified engineers or technicians of EATON, its Affiliated or Related Companies to assist SEN for reasonable periods of time in acquiring knowledge and training relating to the Technical Information and the design, manufacture, assembly and marketing of the Products. The final decision as to the availability of such EATON personnel shall be made exclusively by EATON, and EATON shall exercise every reasonable effort to furnish such personnel for the period requested by SEN insofar as such request does not interfere with the activities of EATON, its Affiliated or Related Companies.

8.02 EATON shall permit SEN's employees to make a reasonable number of routine visits to certain facilities of EATON, its Affiliated or Related Companies that manufacture the Products to enable SEN to gain knowledge with respect to the manufacture of the Products. EATON and SEN shall agree upon the number of SEN's employees to make such visits prior to any such visit. Any and all expenses, including salaries, of SEN's personnel making such visits shall be paid solely by SEN.

## IX. PARTS AND COMPONENTS:

It is the intention of the parties that the Products, parts and components to be sold by SEN under the licenses granted herein will be manufactured and/or purchased by SEN using the most economical sources available to SEN, and the parties understand that due to economies of scale and/or currency relationships EATON may be such most economical source at any given time during the term of this Agreement. Accordingly, Eaton shall, to the best of its ability and capacity, sell and supply to SEN Products, parts and components when requested by SEN. The price to SEN for such Products, parts and components shall be mutually agreed upon by the parties.

## X. PURCHASE OF PRODUCTS BY EATON FROM SEN:

SEN shall, to the best of its ability and capacity, sell and supply Products, parts and components to EATON and its Affiliated or Related Company when requested by Eaton. The price to Eaton or any such Affiliated or Related Company for such Products, parts and components shall be mutually agreed upon by the parties. Purchases from SEN under this section shall be paid for in the currency specified by SEN.

## XI. MODIFICATIONS OF PRODUCTS:

11.01 It is the intention of the parties that the Products to be manufactured by SEN under this Agreement shall meet the needs of the worldwide markets addressed by EATON and SEN, thus such products shall conform to EATON's basic designs and specifications for the Products and shall be of substantially the same quality and serviceability as the Products manufactured by EATON.

11.02 Any modifications to the Products which SEN deems to be required to further conform them to the Japanese market and/or to satisfy special customer needs may be made by SEN without prior approval by EATON, provided however, that such modifications are consistent with and conform to Eaton's specifications. SEN shall within two (2) weeks after releasing such modifications to production provide EATON with details of such modifications in the English language sufficient for EATON to verify their consistency with and conformity to Eaton's specifications.

11.03 Any modifications to the Products which SEN deems to be required and which are not consistent with and in conformity with the specifications shall be reviewed by appropriate representatives of EATON and SEN to determine if they are to be made. If the parties agree that such modifications are to be made, EATON shall at its sole discretion either carry out such modifications itself, or shall subcontract such modifications to SEN under terms and conditions to be agreed upon by the parties.

XII. DISCLOSURE OF FUTURE TECHNICAL INFORMATION:

12.01 During the term of this Agreement, EATON shall, at its sole expense, fully disclose to SEN any Future Technical Information and Patents in the Territory resulting from such Future Technical Information which are developed by EATON or any of its Affiliated and Related Companies if EATON then owns and has the right to furnish SEN such Future Technical Information. Effective as of a date twelve (12) months after EATON's acquisition of such Future Technical Information, the exclusive license granted under Section II hereof shall be deemed to apply to such Future Technical Information.

12.02 During the term of this Agreement, SEN shall, at its sole expense, fully disclose in the English language to EATON all Technical Information improvements and modifications, and patents in the Territory resulting from such improvements and modifications, which are developed by SEN relating to the Products, SEN hereby grants to EATON and its Affiliated and Related Companies during the term of this Agreement, a non-exclusive, royalty-free license to manufacture, have manufactured, use and sell the Products in any country of the world outside the Territory utilizing such Technical Information improvements and modifications developed by SEN, subject to SEN's exclusive right to use such improvements and modifications in the Territory. If any such Technical Information improvements and modifications developed by SEN during the term of this Agreement constitute patentable subject matter, SEN shall have the right, at its sole expense, to file patent applications and obtain patents therefor in its own name in any country of its choice; provided, however, that SEN, at its sole expense, shall furnish to EATON a copy of each such patent application immediately after filing such application. All such applications and patents resulting therefrom on Technical Information modifications and improvements of SEN shall be the property of SEN. SEN hereby grants to EATON, during the term of this Agreement, a non-exclusive, royalty-free license with the right to grant sublicenses to manufacture, have manufactured, use

and sell the Products under such applications and patents resulting therefrom in all countries of the world outside the Territory.

12.03 During the term of this Agreement, EATON shall have the right at its sole expense, to file patent applications in its own name in any country of the world in which SEN does not file such applications with respect to any and all Technical Information improvements and modifications developed by SEN relating to the Products. SEN shall, upon the request of EATON, and without any cost to EATON, promptly execute and procure the execution of any and all documents necessary or desirable to enable EATON to file such applications in countries in which SEN does not file such applications. EATON hereby grants to SEN (a) an exclusive, royalty-free license in the Territory during the effective period of said patents and (b) a non-exclusive, royalty-free license in any other country of the world during the effective period of said patents to manufacture, use and sell the Products under such applications and patents resulting therefrom with respect to Technical Information improvements and modifications developed by SEN.

XIII. RIGHT TO SUBLICENSE AND SUBCONTRACT:

Notwithstanding anything to the contrary contained in this Agreement, SEN shall not have the right to sublicense the rights granted or to be granted under this Agreement without the prior written consent of EATON. SEN shall have the right to subcontract the manufacture of parts and components for the Products from time to time.

XIV. SIMILAR TRADEMARKS:

The parties have entered into a separate Trademark Agreement governing the use of EATON trademarks on the Products. If such Trademark Agreement is terminated for any reason, the following provisions of this Section XIV shall apply: SEN shall not use any of the Trademarks (as defined in the Trademark Agreement) or any trademark which is confusingly similar to any of the Trademarks. If SEN during the term of this Agreement asserts ownership in any trademark which, in the opinion of EATON, is the same as or confusingly similar to any of the Trademarks, SEN will, upon the written request of EATON, immediately (1) transfer and assign all right, title and interest which it asserts in such trademark to EATON or EATON's designee, and (2) discontinue the use of such trademark. SEN shall not file or cause to be filed any trademark application in any country of the world covering any trademark which, in the opinion of EATON, is confusingly similar to any of the Trademarks.

XV. QUALITY CONTROL:

All rights and privileges granted or to be granted under this Agreement to SEN are expressly conditioned upon the maintenance by SEN of the standards of quality and reliability for the Products established worldwide by EATON and its Affiliated and Related Companies. SEN shall manufacture the Products in accordance with the Technical Information supplied or to be supplied hereafter by EATON. SEN shall permit EATON, through its representatives, at all

reasonable times to inspect the plant, equipment, manufacturing and assembly techniques of SEN which relate to the Products, and EATON shall have the right to test, at its sole expense, regular production specimens of the Products on the premises of SEN at any time so as to determine whether SEN is manufacturing the Products in conformity with the established quality standards and specifications of EATON and its Affiliated and Related Companies. EATON shall promptly advise SEN of any features of the quality standards and specifications of the Products manufactured by SEN which are not substantially the same as EATON's quality standards and specifications for the Products, and SEN, upon receipt of such advice, shall correct any such sub-quality features to the satisfaction of EATON within a reasonable period of time, not to exceed one hundred twenty (120) days after the receipt of such advice.

XVI. PRODUCT IDENTIFICATION:

Unless otherwise directed by EATON, SEN shall see that the following statement, in the English and/or Japanese language, is contained in all of SEN's advertising and promotional materials and on a name plate prominently displayed on each of the Products manufactured hereunder:

Manufactured under license from Eaton Corporation, U.S.A.

SEN's use of the foregoing statement or any subsequently authorized statement shall apply only to the Products manufactured by SEN which are under complete quality control and which meet the standards of quality specified by EATON, its Affiliated and Related Companies, as provided for in Section XV hereof.

XVII. RECORDING OF DOCUMENTS:

The parties shall execute or have executed all papers and documents which may be necessary or desirable to record SEN as a licensee or sub-licensee user of said Patents, Technical Information, improvements and modifications of Technical Information and related patents in the different jurisdictions of the world where such recording is necessary in order to protect the rights of either party in and to said Patents, Technical Information, improvements and modifications and related patents.

XVIII. INFRINGEMENT OF THIRD PARTY RIGHTS:

18.01 If SEN is charged with infringement of third parties' patents in the Territory or any other jurisdiction of the world and/or is made a defendant in a lawsuit as a result of the manufacture, use or sale of the Products under the provisions of this Agreement, SEN shall (a) assume all cost, expenses, damages and other obligations for payments incurred as a consequence of such charge of infringement and/or lawsuit and (b) indemnify and hold EATON harmless from any and all liability resulting from such charge of infringement and/or lawsuit or any such charge and/or lawsuit against SEN's customers.

18.02 At the request of SEN, EATON shall lend SEN the assistance of EATON, its Affiliated and Related Companies in the defense of any such infringement charge and/or lawsuit, but any expense incurred by such parties in such undertaking shall be borne solely by SEN and shall be paid by SEN to EATON within thirty (30) days after receipt of an itemization of such expenses from EATON.

XIX. INFRINGEMENT OF PATENTS BY THIRD PARTIES:

19.01 If SEN becomes aware of any infringement or alleged infringement in the Territory of any of the Patents, it shall immediately notify EATON in writing of the name and address of each infringer or alleged infringer and the acts or alleged acts of infringement of the Patents. EATON shall have the first right, consistent with the law of the place of infringement, to bring an infringement action against any or all such infringers or alleged infringers of the Patents. In the event that EATON elects to bring any such infringement action in its own name, EATON shall bear any and all expenses incurred in maintaining such infringement action and shall retain for itself any and all moneys or other benefits derived from such infringement action. If EATON shall deem it necessary or desirable to join SEN as a party plaintiff in any infringement action against an infringer or alleged infringer of the Patents, EATON shall consult with and obtain the approval of SEN prior to institution of such infringement action. In the event that EATON and SEN so agree jointly to bring such an infringement action, the parties shall (a) bear equally any and all expenses incurred in maintaining such infringement action, and (b) share equally any and all moneys or other benefits derived from such infringement action.

19.02 If EATON does not bring an infringement action within six (6) months after notification from SEN of infringement or alleged infringement of the Patents, SEN shall have the first right, consistent with the law of the place of infringement, to bring an infringement action in its own name after the expiration of said six (6) month period. The total cost of any such infringement action brought by SEN shall be borne solely by SEN, and SEN shall retain for itself any and all moneys or other benefits derived from such infringement action. Each party shall indemnify and hold the other harmless from any and all damages, costs or expenditures arising directly or indirectly as a result of any infringement action undertaken solely in the name of such party hereunder.

19.03 If at any time during the term of this Agreement EATON or SEN shall be unable to enforce the Patents against any alleged infringer, EATON shall not be responsible for the validity or for the enforceability of the Patents.

19.04 The parties shall keep each other fully informed as to the progress of any infringement action under this Section brought in the names of either or both parties. The parties shall cooperate with each other in the prosecution of any infringement action undertaken under this Section, and each shall provide the other with all data in its possession which may be helpful in the prosecution of such action.

19.05 Any party bringing any infringement action under this Section in its own name and without joining the other party shall have the right to dispose of such action in whatever reasonable manner it determines to be in the best interest of the parties. In any infringement action brought under this Section by either party without the other, the party not bringing such action shall have the right to be represented at its own expense by its own counsel in such action.

19.06 The parties shall cooperate and confer from time to time as may be necessary and shall agree upon a method or procedure for defending any proceedings for the revocation of any of the Patents.

XX. EFFECTIVE DATE:

The effective date of this Agreement shall be 1 October 1995.

XXI. TERM:

21.01 The term of this Agreement, unless sooner terminated as provided for in Section XXII, shall commence upon the Effective Date of this Agreement and shall continue for an initial term extending to December 31, 2004, and shall be automatically renewed thereafter for additional five (5) year periods unless either of the parties provides written notice to the other of its intention to terminate the Agreement at least one (1) year prior to the end of the then current term.

21.02 Both parties shall have the additional right, which must be exercised at least one (1) year prior to the end of the then current term, to provide a written notification to the other of an intention to renew with modifications. In the event a written notification of an intention to renew with modifications is properly provided, both parties will undertake to renegotiate, in good faith, the terms and conditions of this Agreement.

21.03 In the event a written notification of an intention to renew with modifications pursuant to Section 21.02 above is properly provided and no agreement has been reached at the end of the then current term, the Agreement will be continuously extended until agreement as to modifications is reached or either of the parties provides written notice to the other of its intention to terminate. Such termination shall take effect at the end of one (1) year following the written notice. In the event agreement as to modifications is reached, then the appropriately modified Agreement will continue to the end of a five (5) year period as if renewed pursuant to 21.01.

XXII. TERMINATION:

22.01 Either party may have the right to terminate this Agreement by sending written notice of termination to the other if the other shall fail to observe the terms, covenants

and conditions hereof and shall fail to cure or substantially cure such default within ninety (90) days after written notice thereof, such termination will take effect immediately upon written notice to the defaulting party after the expiration of said ninety (90) day period.

22.02 In the event of bankruptcy, insolvency, or dissolution of either party, the other may terminate this Agreement in its entirety, effective immediately, by sending written notice to the bankrupt, insolvent or dissolved party.

22.03 EATON shall be entitled to terminate this Agreement, upon ninety (90) days' written notice to SEN, in the event of either of the following events:

- (a) Exercise of authority by a supervening power resulting in the appropriation or confiscation of SEN's plants, facilities, other assets, Technical Information or Patents; or
- (b) Denial at any time by any governmental authority of the right of SEN to make the remittances provided for in this Agreement.

XXIII. RIGHTS AFTER TERMINATION:

23.01 Within thirty (30) days after the termination of this Agreement for any reason whatsoever, SEN shall furnish EATON the following information and shall permit EATON access to the records and facilities of SEN during regular working hours to verify such information:

- (a) Full details of all orders for the Products in the Territory, accepted by SEN and not yet completed, including a description of work to be done regarding such orders; and
- (b) A statement showing the amounts due EATON from SEN up to the date of termination. SEN shall have the right, after termination of this Agreement, to complete sales of all orders for Products in the Territory, accepted but not completed prior to the date of termination; provided, however, that royalty payments shall be due and payable on such uncompleted sales of Products when completed in accordance with the terms and conditions hereof.

23.02 Any and all proprietary rights in the Patents shall remain exclusively with EATON, its Affiliated or Related Companies, and nothing in this Agreement shall be construed to confer any proprietary interest other than the license rights granted hereunder in the Patents to SEN or to any other party. All rights granted hereunder in the Patents shall revert immediately and automatically to EATON upon termination of this Agreement. If EATON shall terminate this Agreement as a result of a default of any provision hereof by SEN or the other contingencies set forth in Section XXII, (a) SEN shall not after such termination, either directly or indirectly, make use of any Technical Information furnished or disclosed to it by EATON hereunder, excluding the Technical Information already generally known to the public through no fault of SEN or its Affiliated or Related Companies during the term of this Agreement provided, however,

that SEN shall be obliged to establish in reasonable detail to EATON's satisfaction that such Technical Information is in fact generally known to the public, (b) SEN's rights in the Technical Information shall automatically terminate and (c) SEN shall immediately return any and all Technical Information to EATON. If SEN shall terminate this Agreement as a result of a default of any provision hereof by EATON or the other contingencies set forth in Section XXII, SEN shall be entitled to continue to utilize the Technical Information in the manufacture of the Products; provided, however, that if a dispute arises as to said default of EATON and arbitration pursuant to Section XXXII hereof results from such dispute, EATON shall have ninety (90) days from the date of the arbitration decision, if against EATON, to rectify said default consistent with the arbitration decision and remove the grounds for termination. Likewise, if a dispute arises as to default of SEN and arbitration pursuant to Section XXXII hereof results from such dispute, SEN shall also have ninety (90) days from the date of the arbitration decision, if against SEN, to rectify said default consistent with the arbitration decision and remove the grounds for termination.

XXIV. GOVERNMENT APPROVAL:

SEN shall, at its sole expense, apply for and obtain any approvals, authorizations or validations relative to this Agreement that shall be required by law, either under the Foreign Exchange and Foreign Trade Control Law of Japan or otherwise, including authorization of all payments to be made hereunder. SEN shall, at its sole expense, obtain translations of this Agreement and prepare any documents necessary for such approvals and authorizations of the Japanese Government.

XXV. DISCLAIMER OF WARRANTY AND PRODUCT LIABILITY:

25.01 SEN shall assume all warranty obligations for the Products manufactured, used or sold by it hereunder.

25.02 SEN shall indemnify and save EATON harmless from and against any and all loss, cost, claim, liability, obligation and damage arising from (a) any negligence, representation, promise, agreement or warranty by SEN or its agents, employees, distributors, dealers, representatives, subcontractors, or suppliers relating to the Products or (b) any Product defect or deficiency in production, manufacture, use, design, operation or otherwise of the Products.

XXVI. ASSIGNMENT:

Neither of the parties shall be entitled to assign its rights or delegate its obligations under this Agreement without the prior written approval of the other party hereto, except that either party hereto may, without the written consent of the other party, assign its interest in this Agreement or any portion thereof to a Related Company or a successor of the whole of the

business relating to the Products which is capable of performing and assuming the obligations hereunder.

XXVII. TRANSLATION OF AGREEMENT:

This Agreement has been written in the English language, but in the event it is also written in the Japanese or another language and there are differences from the English text, the English text will govern.

XXVIII. ENTIRE AGREEMENT:

The terms and provisions of this Agreement constitute the entire agreement between the parties as to the granting of license rights by EATON to SEN under the Patents and Technical Information. This Agreement shall supersede all previous communications, either oral or written, between the parties with respect to the subject matter hereof, and no agreement or understanding varying or extending them shall be binding upon either party unless in writing signed by a duly authorized officer or representative thereof.

XXIX. NON-WAIVER OF RIGHTS AND DISCLAIMER OF LIABILITY:

Failure of either party to enforce any of the provisions of this Agreement or any rights with respect thereto or failure to exercise any election provided for herein (except as expressly otherwise provided herein) shall in no way be considered a waiver of such provisions, rights or elections or in any way to affect the validity of this Agreement. The failure of either party to enforce any of said provisions, rights or elections shall not preclude or prejudice such party from later enforcing or exercising the same or any other provisions, rights, or elections which it may have under this Agreement.

XXX. COUNTERPARTS:

This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, all of which shall constitute one and the same agreement.

XXXI. DISCLAIMER OF AGENCY:

This Agreement shall not constitute SEN the legal agent of EATON, nor shall SEN have the right or authority to assume, create, or incur any liability or any obligation of any kind, express or implied, against or on behalf of EATON.

XXXII. ARBITRATION:

Any and all disputes or differences between the parties pertaining to or arising out of this Agreement, or the breach thereof, shall be settled by arbitration to be held in Tokyo, Japan, if EATON shall demand the arbitration, or in Cleveland, Ohio, United States of America, if SEN shall demand the arbitration, in accordance with the provisions of the Japan-America Trade

Arbitration Agreement of 1952 under the rules specified in said agreement in effect upon the date that either party serves notice upon the other party of a demand for arbitration. The dispute shall be arbitrated by one arbitrator (who shall not be a national of Japan or the United States of America) selected by agreement of both parties; provided, however, in the event the parties cannot agree upon an arbitrator, the arbitrator shall be appointed by the chairman of the Japan Commercial Arbitration Association, if arbitration is to be in Japan, or of the American Arbitration Association, if arbitration is to be in the United States of America. The award rendered by the arbitrator shall be final, binding upon the parties, and enforceable by any court of competent jurisdiction.

XXXIII. LIABILITIES TO SURVIVE TERMINATION:

Termination of this Agreement or any rights conveyed hereunder for any cause shall not relieve either party from its obligation to pay to the other all compensation which shall have accrued prior to such termination pursuant to the provisions of this Agreement or release either party from any obligations which may have been incurred prior to such termination as a result of operations conducted under this Agreement. This clause shall not be construed to prevent or limit any award for damages consequent upon a breach of this Agreement.

XXXIV. NOTICES:

All notices for all purposes under this Agreement shall be deemed to have been sufficiently addressed when, if given to EATON, addressed to:
